BUSINESS ADMINISTRATION, ASSOCIATE IN SCIENCE FOR TRANSFER (AS-T)

The Business Administration program gives students general business knowledge in managerial controls, economics of business, human resources (personnel), labor relations, business risks, interaction of government and business law, production and distribution. They provide the foundations for areas of specialization, such as accounting, finance, or marketing management.

The Associate in Science Degree in Business for Transfer provides students with the foundational knowledge in business to make a successful transition to a Baccalaureate Degree in Business program at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit www.sb1440.org and https://adegreewithaguarantee.com/ for the latest information about these degrees.
