

COMMUNICATION STUDIES 2.0, ASSOCIATE IN ARTS FOR TRANSFER (AA-T)

Overview

Whatever their age, social position, or occupation, people communicate. Humans spend more time engaged in speaking and listening than virtually any other activity. Communication is as important as it is pervasive—success or failure often depends on how well we express ourselves and understand others. Recognizing this fact, the Communication Department offers a wide range of courses to help students become more skillful, aware communicators. The department's curriculum focuses on communication in a variety of settings—interpersonal, small group, organizational, presentational, via mass media and between cultures and nations. Courses are also available in argumentation and debate, communication theory and research methods. Communication students will have the opportunity to gain practical and theoretical knowledge about human communication, develop their communication skills, and showcase their proficiency by participating in various projects through their classes. The Communication Department strives to foster an inclusive and welcoming learning experience for all, and develop in our students a deep value of diversity, equity, and inclusion which they will take into their lives and careers outside of our college.

The AA-T in Communication Studies 2.0 provides students with the foundational knowledge in communication to make a successful transition into a Baccalaureate Degree in Communication at any of the CSU campuses. The Associate Degree for Transfer (AA-T or AS-T) is a special degree offered at California Community Colleges. Students who earn an AA-T or AS-T degree are guaranteed admission to a campus within the California State University (CSU) system in a similar major, although not necessarily to a specific campus. Students who complete an AA-T or AS-T are given priority consideration when applying to a particular program that is similar to the student's community college major and will be given a special GPA advantage when applying to CSU impacted campuses or majors. Students who are planning to pursue an AA-T or AS-T are strongly advised to meet with a counselor for additional information about this transfer program. Visit the I Can Go to College (<https://icangotocollege.com/>) site for more information about these degrees.

Students are also advised to consult ASSIST (www.assist.org) (<https://assist.org/>) and to meet with an academic counselor to discuss the best combination of courses to take for their AA-T to ensure they receive the admission benefits associated with it, and to meet the requirements of the transfer institution to which they are intending to transfer.
