COMMUNICATION

Whatever their age, social position, or occupation, people communicate. Humans spend more time engaged in speaking and listening than virtually any other activity. Communication is as important as it is pervasive—success or failure often depends on how well we express ourselves and understand others. Recognizing this fact, the Communication Department offers a wide range of courses to help students become more skillful, aware communicators.

The department’s curriculum focuses on communication in a variety of settings—interpersonal, small group, organizational, presentational, via mass media and between cultures and nations. Courses are also available in argumentation and debate, communication theory and research methods.

Communication students will have the opportunity to gain practical and theoretical knowledge about human communication, develop their communication skills, and showcase their proficiency by participating in various projects through their classes. The Communication Department strives to foster an inclusive and welcoming learning experience for all, and develop in our students a deep value of diversity, equity, and inclusion which they will take into their lives and careers outside of our college.

The Communication Department at Santa Barbara City College offers two areas of emphasis within the AA Degree in Communication—a Communication Science Emphasis and an Applied Communication Emphasis. The Communication Science Emphasis provides students with the foundational knowledge in communication theory and research methods. The Applied Communication Emphasis provides students with foundational knowledge in Communication Studies and its application. Additionally, the Communication Department offers an AA-T Degree in Communication Studies for Transfer.

Planning a Program of Study

The field of communication covers a wide range of topics. The major is designed to give students exposure to basic information in the discipline and provide the opportunity to focus on the areas that best suit their individual needs.

Students should consult with a departmental adviser and/or counselor when choosing both controlled and general electives in order to develop a program of study that is best suited to their specific needs. For example, requirements for the baccalaureate degree in Communication or Speech Communication vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

Not all Communication courses are offered every semester. Students should plan carefully so that all required courses are included in their program of study.

Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Transfer Center.
