

MARINE DIVING TECHNICIAN, CERTIFICATE OF ACHIEVEMENT (C)

Overview

A certificate of achievement as a Marine Diving Technician certifies professional commercial divers for employment under ANSI/ACDE-01-1998 industry standards. The training curriculum includes instruction in all phases of commercial diving, hyperbaric medicine, bell/saturation diving emergency medicine, and remote operated vehicles (ROV's) to name but a few. Teamwork and Safety are the prime emphases of marine technician training. Students completing the certificate program receive industry certifications which are required for employment. Students completing the full certificate program have the option to seek employment in the marine industry or combine their completed coursework toward an Associate in Science degree in Marine Technology at SBCC.

Admission Requirements: The program is open to all interested students to both diving and non-diving classes.

1. Non-diving students submit an SBCC Application to Admissions Office.
2. Students enrolling in diving classes, provide proof of diving certification and submit the Department Application for Diving
