**SOCIOLOGY**

**Program Description**

Sociology is the study of society and social life, and as such, looks at a diverse range of topics concerning the social causes and consequences of human behavior. Few disciplines are as broad in scope and relevance as sociology. Sociologists examine the structure of groups, organizations and societies as a whole, as well as how people act and interact within those social contexts. Sociology is a rapidly evolving and ever-expanding discipline that is particularly well suited to addressing issues and problems in a fast-paced and complex contemporary world.

Sociology provides many distinctive perspectives on the social world that can help students to gain a better understanding of themselves and the society of which they are a part. The field features a range of theoretical approaches that can generate new ideas, stimulate debate and challenge taken-for-granted notions about the nature of social reality and the status quo. The field also offers a range of research methodologies that allow for systematic and scientific investigation of social phenomena, rather than using common sense, propaganda, opinion or other such subjective explanations for human behavior.

Sociological theories and methods can be applied to studying virtually any aspect of social life: culture and technology; crime and deviance; politics and economics; the self and socialization; family and group dynamics; class, race and gender; social movements and social change.

The goal of the Sociology Program at Santa Barbara City College is to prepare students to deal with their own everyday life, as well as to meet the greater challenges of membership in the larger society. Sociology can contribute to the personal development of students, while also encouraging active and informed participation in the social and cultural life of their communities. Students can learn to transcend limited, culturally bound understandings to arrive at deeper insights into themselves and others, and to create positive change in the world in which they live. Sociology is oriented toward stimulating the curiosity and intellects of those interested in academic fields, as well as toward building the skills and understandings necessary for success in a wide range of professional fields. Students majoring in sociology have established careers in such areas as law and government, urban planning, business administration, social welfare, health and education, counseling and human resources, advertising and marketing, public relations and the media, and the nonprofit sector.

The Sociology Department at Santa Barbara City College currently offers an AA Degree in Sociology which provides students with the foundational knowledge in sociological theory, research and methods and prepares them to make a successful transition into a baccalaureate degree in sociology at any four-year institution. In addition, the Sociology Department offers an AA-T Degree in Sociology for Transfer. This degree will provide the foundational knowledge in sociology to students who want to earn a baccalaureate degree in sociology. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code Sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. For the latest information about transfer degrees, visit www.sb1440.org (http://www.sb1440.org).

**Planning a Program of Study**

As a general rule it is recommended that students begin their study of sociology by taking Introduction to Sociology (SOC 101 Introduction To Sociology or SOC 101H Introduction to Sociology, Honors), though the required courses for the major may be taken in any order. A student planning to major in Sociology should take the two core classes (SOC 101 Introduction To Sociology and SOC 104 Social Psychology) and at least three of the more specialized courses in the discipline (SOC 103 Marriage, Family and Intimacy, SOC 106 Sociology of Deviance, SOC 109 Social Problems, SOC 113 Sociology Of Sex and Gender, SOC 115 Introduction To Social Research, SOC 118 Media, Culture and Society), SOC 120 Introduction to Social Work, SOC 125 Introduction to Statistics in Sociology, or SOC 127 Introduction to Women’s Studies. In addition, they are required to take one course in Anthropology (ANTH 103 Introduction To Cultural Anthropology) and one in Philosophy (PHIL 100 Introduction To Philosophy). Students in the major are also encouraged to become familiar with other related behavioral and social science disciplines.

**Preparation for Transfer**

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with a counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling and Transfer Centers.

**Honors and Awards**

The Sociology Department selects one student majoring in the discipline as the Outstanding Student in Sociology for the year, to be honored at the annual Santa Barbara City College Award Banquet. Selection is made by the faculty, based on academic excellence in sociology and contribution to the department, college and/or community.
