Santa Barbara City College is accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) of the Western Association of Schools and Colleges, located at 10 Commercial Blvd., Suite 204, Novato, CA 94949, (415) 506-0234. The ACCJC is authorized to operate by the U.S. Department of Education through the *Higher Education Opportunity Act of 2008*.

The Santa Barbara Community College District hereby certifies that this Catalog is true and correct in content, as required by DVB Circular 20-76-84, Appendix P, Paragraph 6 (a), Department of Education, State of California.

WELCOME

Welcome to Santa Barbara City College! Nationally Recognized!

You have made the outstanding choice to attend the top community college in the nation! In 2013, Santa Barbara City College received the prestigious Aspen Award and was recognized as the number one community college in the country of over 1,000 colleges! Since then, we have continued to receive top recognitions for the college and our many programs.

Transfer to a Four-Year College or University!

Our support programs for transfer provide a variety of services, resources, and programs designed to assist you every step of the way in your transfer process. Whatever your transfer destination; University of California (UC) campuses, California State Universities (CSU), California Private/Independent Colleges, or out-of-state universities, we are committed to helping make your transfer goal a reality!

Career and Education!

The Career and Technical Education (CTE) Programs are career driven approaches that help prepare students for employment directly after they leave SBCC. The instructors have often worked, or are currently working, in the respective field and they tend to make use of hands-on learning and focus on the programs of study. SBCC has over 50 programs ranging from Automotive to Nursing, with many of the programs offering certificates and degree options.

Looking forward to seeing you around campus!

Utpal K. Goswami, PhD
Superintendent/President

GENERAL INFORMATION

The College

Santa Barbara City College is a comprehensive community college serving the south coast of Santa Barbara County. The college is one of 114 California community colleges organized under the *California Education Code*. As such, it is subject to the decisions of the California Legislature and, as defined by law, the California Community Colleges Board of Governors. It is also responsible to its local constituency through an elected Board of Trustees, which is the principal policy-making body for the college.

Santa Barbara City College offers an extensive program of postsecondary education that is especially responsive to the needs of adults in the local community. A wide range of associate degree and certificate programs are available, as are transfer programs that provide the first two years of study toward the baccalaureate degree. A variety of general educational opportunities, both credit and noncredit, is also available for persons wishing to develop new or expanded occupational skills, or to broaden their cultural perspectives or artistic talents.

Responding to community needs, the college's programs address economic development, on-site workforce training, skills enhancement, job training and lifelong learning opportunities. To serve the diverse needs of students, a broad variety of student services is provided, including academic and personal counseling, financial aid, career guidance and maintenance of academic progress records. Special programs are also available for re-entry students, the physically disabled and the economically disadvantaged.

Students of the college are, for the most part, from the local community. However, the college also attracts many students from throughout the state, as well as national and international locations. Students range in age from under 18 to over 80 years and represent a wide range of ethnic groups.

Santa Barbara City College is especially committed to making its educational programs accessible to cultural, ethnic and age groups who have traditionally been underserved by postsecondary education. Means for achieving this goal include outreach, testing and diagnosis, counseling and placement, developmental education and special retention programs, such as peer counseling, tutoring and financial aid.

The college recognizes that the goals of today's students are as diverse as the students themselves. Hence, SBCC attempts to provide programs compatible with a wide range of goals and to assist in goals clarification when appropriate. Among principal commitments of the college are the broadening of the individual's view of educational possibilities that are available, and assisting students in formulating and carrying out a plan to achieve selected goals.

Our Vision

Santa Barbara City College strives to build a socially conscious community where knowledge and respect empower individuals to transform our world.

Our Mission

As a public community college dedicated to the success of each student.

Santa Barbara City College welcomes all students. The College provides a diverse learning environment and opportunities for students to enrich

their lives, advance their careers, complete certificates, earn associate degrees, and transfer to four-year institutions.

The College is committed to fostering an equitable, inclusive, respectful, participatory, and supportive community dedicated to the success of every student.

Our Core Principles

Santa Barbara City College's core principles guide all aspects of instruction, organization and innovation:

- Student-centered policies, practices and programs
- Participatory governance
- A psychologically and physically supportive environment
- Free exchange of ideas across a diversity of learners
- The pursuit of excellence in all college endeavors

Our Charter

Santa Barbara City College's mission and core principles honor our commitment to the spirit and intent of the foundational framework of the California Community Colleges, as described in California Education Code §66010.4:

- **Primary Mission:** *Academic and vocational instruction at the lower division level; advancement of California's economic growth and global competitiveness through education, training and services.*
- **Essential and Important Functions:** *Remedial instruction, ESL, adult noncredit instruction (in areas defined as being in the state's interest), and student support services.*
- **Authorized Function:** *Community services courses.*

Institutional Learning Outcomes

Santa Barbara City College is committed to ensuring that all students who complete its programs acquire the core skills and competencies needed to be successful in their academic, career and personal pursuits. The Institutional Student Learning Outcomes state the competencies in General Education and personal and career development that students acquire by completing a program of study at SBCC.

As students follow a program of study at SBCC, they participate in performance assessments through examinations, portfolios and other activities that provide information about their proficiency in each of these outcomes. The data collected are used to document and improve student learning and the attainment of the Institutional Student Learning Outcomes.

Critical Thinking, Problem-Solving and Creative Thinking

Students will be able to define issues, problems, assumptions, or questions; collect relevant information in response to a question or issue; analyze and draw valid conclusions from statements, images, data and other forms of evidence; and assess the consequences of their conclusions.

1. Define the issues, problems, assumptions, or questions being addressed.
2. Collect and analyze data and relevant information including that derived from different sources and alternative research.
3. Distinguish facts from opinions and biases.

4. Draw insights from multiple reliable sources of information to create solutions to problems and identify possible consequences of those solutions.
5. Use valid evidence and sound reasoning to support conclusions drawn about issues, problems, assumptions, or questions.

Communication

Students will demonstrate communication skills in reading, writing, listening, and speaking in order to exchange information, ideas, findings, or opinions effectively across disciplines and for varied audiences, with or without assistive devices or persons.

1. Read texts (visual, auditory, or tactile) critically in order to participate in academic discourse.
2. Employ the conventions of standard English to create original texts that clearly communicate ideas and information.
3. Orally communicate clear, well-founded and developed ideas in an organized manner.
4. Attend to, interpret, and respond to verbal and nonverbal communication.
5. Recognize and interpret forms of visual or observable communication such as images, diagrams, film and video.

Quantitative Analysis and Scientific Reasoning

Students will be able to analyze, estimate, use and evaluate quantitative information using words, graphs and symbols, as well as apply scientific methods to questions regarding observable natural, physical and social phenomena.

1. Apply quantitative and qualitative skills to the interpretation of data.
2. Use graphs and symbols to describe mathematical relationships and to establish sound arguments supported by accurate quantitative evidence.
3. Apply mathematical concepts to solve problems.
4. Employ scientific methods to form and test hypotheses.
5. Distinguish empirical evidence from speculation.

Social, Cultural, Environmental and Aesthetic Perspectives

Students will be able to demonstrate knowledge of significant social, cultural, environmental and aesthetic perspectives.

1. Describe how the interaction among social, economic, political, cultural, environmental, and historic factors affects the individual, society and the environment.
2. Explain how culture influences different beliefs, practices and peoples.
3. Recognize the contributions of fine arts, visual arts, literature and performing arts in influencing the human experience.
4. Recognize the social and ethical responsibilities of the individual in society, explaining the value of choosing to interact with respect in differing cultural contexts.

Information, Technology and Media Literacy

Students will be able to locate, evaluate, synthesize and use multiple forms of information employing a range of technologies.

1. Strategically search for, select, and evaluate multiple formats and sources of information for their authority, accuracy, credibility and relevance.

2. Effectively use technology to find, analyze, integrate, create and communicate information and ideas.
3. Critically evaluate how information is created, communicated and valued in textual, visual, aural and tactile formats in different disciplines.
4. Identify the legal, ethical, social and economic rights and responsibilities associated with the creation and use of information in various media and formats.

Personal, Academic and Career Development

Students will be able to assess their own knowledge, skills, and abilities; set personal, educational and career goals; work independently and in group settings; and identify lifestyle choices that promote self-reliance and physical, mental and social health.

1. Develop, implement and evaluate progress toward achieving personal, academic, career and lifelong learning goals.
2. Demonstrate personal responsibility for choices, actions and consequences, including but not limited to attending classes, being punctual, and meeting deadlines.
3. Work effectively and civilly with others, respecting cultural, gender, and other group and individual differences.
4. Identify and use appropriate resources to find answers, make choices, or solve problems.

Accreditation

Santa Barbara City College is accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) of the Western Association of Schools and Colleges, located at 10 Commercial Blvd., Suite 204, Novato, CA 94949, (415) 506-0234. The ACCJC is authorized to operate by the U.S. Department of Education through The Higher Education Opportunity Act of 2008. Accreditation materials (<http://www.sbccc.edu/accreditation/>) are available for review online.

History

Santa Barbara City College was established by the Santa Barbara High School District in 1909, making it one of the oldest community colleges in California. The college was discontinued shortly after World War I, and its work largely taken over by the Santa Barbara State Normal School, which became the Santa Barbara State College and, later, the University of California, Santa Barbara.

SBCC was reorganized by the high school district in the fall of 1946. Called Santa Barbara Junior College from its inception, the Santa Barbara Board of Education formally changed the name to Santa Barbara City College in July 1959.

Also in the summer of 1959, the institution moved to its present and permanent location on the Santa Barbara Mesa, former site of the University of California, Santa Barbara. Situated on a 74-acre bluff, the campus overlooks the harbor and Pacific Ocean. Passage of a 1969 construction bond issue and a 1973 land acquisition bond issue ensured that the college would have a single, consolidated Mesa campus.

In 1965, the Carpinteria Unified School District was annexed to the Santa Barbara Junior College District. That same year, the Santa Barbara Junior College District became a separate governing authority under the control of its own popularly elected Board of Trustees. On July 1, 1971, the name of the district was changed to Santa Barbara Community College District.

Since its reorganization following World War II, college growth has been rapid—both in enrollment and course offerings. Santa Barbara City College currently serves approximately 20,000 students each semester who enroll in credit and noncredit courses for transfer preparation, career education and foundational skills, and an additional 3,800 enroll in fee-based lifelong learning classes each semester.

Location

Students at Santa Barbara City College are privileged to study in one of the most beautiful locations in the world. Santa Barbara is a city of 90,000 people, located on California's picturesque south-central coast—"where the mountains meet the sea." Devoid of heavy industry, it is renowned as a cultural and educational center.

Santa Barbara is far enough away from California's big cities to avoid the characteristic hectic pace and congestion—yet close enough to partake of its many cultural advantages.

Nearly half of Santa Barbara's streets terminate along one of the nation's loveliest white sand beaches. Many other roads lead to the gently sloping foothills of the Santa Ynez mountain range, where travelers are treated to superb views of the city and the offshore Channel Islands. Santa Barbara's early California architecture, abundant flora and mild year-round climate in addition to mountains, sea and sand—make for a unique atmosphere in which to live and study.

In addition to the main campus on the Mesa, Santa Barbara City College has two additional campuses: the Alice F. Schott campus located at 310 W. Padre St., Santa Barbara, CA 93105, (805) 687-0812; and the Selmer O. Wake campus located at 300 N. Turnpike Rd., Santa Barbara, CA 93111, (805) 964-6853.

National Co-winner for Community College Excellence

Santa Barbara City College was the 2013-2015 national co-winner of the prestigious Aspen Institute Prize for Community College Excellence. The college was recognized by The Aspen Institute for its quality and focus in four areas: facilitating underrepresented and minority student success, student learning outcomes, degree completion and transfer rates, and labor market success in securing good jobs after college.

Completion and Transfer Rates

Federal Student Right-to-Know regulations require publication of college completion and transfer rate data. The statewide percentages for all California community colleges, based on the most recent cohort of Fall 2011 students, are:

Completion Rate	29.45%
Transfer Rate ¹	10.90%

Santa Barbara City College's rates, based on the most recent cohort of Fall 2011 students, are:

Completion Rate	31.63%
Transfer Rate ¹	15.04%

¹ Transfer rates are incomplete since transfer students who also complete degree and certificate degrees are not included in the transfer numbers. See the Student Right-To-Know Rate Disclosure Website (<http://srk.cccco.edu/>) for additional information on how these rates are calculated, and the merits and limitations of the measurements.

Student Retention Rate

In compliance with Chapter I of Title 45 of the *Code of Federal Regulations*, Part 178.4(f), data regarding student retention and enrollment patterns may be obtained by contacting Melanie Rogers, Analyst, Institutional Assessment, Research and Planning, at rogers@sbcc.edu.

Santa Barbara City College Foundation

The SBCC Foundation was established in 1976 to provide Santa Barbara City College with private philanthropic support. The foundation acts in partnership with the college and bridges the gap between available public funding and institutional need, as determined by the college leadership. Serving as the vehicle through which individuals and organizations may invest in the college, the foundation fuels the educational excellence that has long been the hallmark of SBCC. The SBCC Foundation provides more than \$4 million annually for student success programs, scholarships, book grants, and other critical needs of the college in order to support SBCC students as they prepare for careers, transfer to four-year universities, and pursue lifelong learning goals.

School of Extended Learning

School of Extended Learning (<http://www.sbcc.edu/extendedlearning/>) programs are designed for adult learners seeking to advance their career or life skills. Most Extended Learning programs are tuition-free and include Adult High School/GED, English as a Second Language, Career and Vocational Skills, Courses for Older Adults, Home Economics, Parenting, and Health & Safety. These programs can provide pathways for students to advance to the credit division of SBCC and/or obtain employment. In addition to tuition-free programs, Extended Learning offers fee-based programs in life enhancement subjects such as Cooking, Culture, Travel, Fitness, Recreation, Do-It-Yourself, Languages, and Spirituality. Courses at the School of Extended Learning are largely offered at our Wake and Schott campuses.

Catalog Updates

Board policies, administrative procedures and regulations, courses and schedules described in this publication are subject to change at any time without prior notice. The college reserves the right to alter fees, statements and procedures contained herein. Further fees and regulations are subject to change at any time by the State Legislature. In addition, administrative procedures may be updated/revised and approved by the Superintendent/President. See the college's website on Board Policies and Administrative Procedures (<http://www.sbcc.edu/policies/>), for the most current Board Policies and Administrative Procedures for the college.

It is the student's responsibility to meet and remain informed of college requirements. When changes occur, they will be printed in the next regular publication of the Catalog or Class Schedule, as well as updated on the college website.

Public Information

Requests for documents under the *Public Records Act* should be directed to the Office of Communications.

ADMISSIONS

College Admission

Admission to Santa Barbara City College is governed by the laws of the State of California and such supplementary regulations as have been prescribed by the Santa Barbara Community College District Board of Trustees. Citizens of other countries and out-of-state residents are required to pay tuition as well as enrollment fees.

Open Enrollment

It is the policy of the Board of Trustees of the Santa Barbara Community College District that, unless specifically exempted by statute or regulation, every course, course section, or class, reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to Santa Barbara City College and who meets such prerequisites as may be established, pursuant to section 55003 of Division 6 of Title 5 of the *California Code of Regulations*.

Graduates of High Schools

Graduates of high schools, or equivalent, are eligible for admission and may undertake any program of study for which they are prepared.

Persons 18 years of Age or Older

Persons 18 years of age or older who have not received a high school diploma, or equivalent, may be admitted to the college if they can reasonably profit from instruction.

High School Students (9th Grade or Higher): Dual Enrollment Program

Students enrolled in a public or private school who are eligible for ninth (9th) grade or higher may apply and concurrently register in up to 11.9 units of college-level courses at Santa Barbara City College through the Dual Enrollment Program.

Course prerequisites apply. Some courses are not available to concurrently enrolled high school students. The student must have a recommendation from his/her principal or high school counselor and a Parent Consent Form (<https://sbcc-transform.perceptivecloud.com/iFiller/iFiller.jsp?fref=0a8463ac-59bf-43da-8c7e-db542e0531b1>) on file.

In accordance with Education Code Section 76001, special part-time K–12 students enrolled in the secondary schools and attending SBCC (enrolled up to and including 11.9 units) are exempt from paying the enrollment fee. Special full-time K–12 students (12 units and above per semester) may not be exempt from the enrollment fee and are subject to paying the enrollment fee for all the units; they may, however, be individually considered for the California College Promise Grant fee waivers, part A, B or C. Those students who do not qualify for a California College Promise Grant fee waiver will be required to pay the enrollment fee for all units. Nonresident Dual Enrollment students are exempt from paying nonresident tuition for credit courses during any semester or term in which he/she is enrolled in 11.9 or fewer units while attending a California high school. This exemption does not apply to special full-time students. This exemption does not apply to categories of students who would be precluded from qualifying for the AB 540 nonresident tuition exemption. High school students who are concurrently registered

in courses given on the SBCC campus must pay the transportation and health fees.

Dual Enrollment students must complete an online admissions application (<http://www.sbcc.edu/apply/>). Dual Enrollment Approval Forms are available through students' school counselors, Admissions & Records and on the Steps to Enrollment website (<http://www.sbcc.edu/apply/>). Students attending a 9–12 grade home school must attach a copy of the Home School Affidavit to the Dual Enrollment Approval Form. Contact Dual Enrollment at (805) 898-8174 or for more information visit the Dual Enrollment website (<http://www.sbcc.edu/dualenrollment/>).

Middle College

Through Alta Vista Alternative High School's Middle College at SBCC, a limited number of local high school students who want to earn a high school diploma in the SBCC environment may complete their high school graduation requirements through an Independent Study program while also taking classes at SBCC. The curriculum is rigorous and relevant and complemented by individualized support. Middle College is designed to equip students for a smooth transition to college by helping students develop critical thinking, time-management and self-advocacy skills. Acceptance into the program is determined by the on-campus instructors through an application process. Contact Regina Freking at freking@sbcc.edu, or (805) 897-3561.

Special Students

Persons less than 18 years of age who do not plan to be enrolled in a secondary school program, and who are eligible to enter ninth (9th) grade or higher, may petition the Director, Admissions & Records (SS-110), to register as a Special Student. Special application procedures and documentation requirements apply. Petitions must be filed at least fourteen (14) days prior to the start of the semester. Interested persons should contact Director, Admissions & Records, for petition information at (805) 730-4001.

Persons not eligible to enter ninth (9th) grade or higher may petition Director, Admissions & Records (SS-110), to register as a Special Dual Enrollment Student. Special application procedures and documentation requirements apply. Petitions must be filed at least fourteen (14) days prior to the start of the semester. Interested persons should contact the Director, Admissions & Records (SS-110), for petition information.

Out-of-State Students

Out-of-state students may be admitted to the college on the same basis as California residents except that they will be required to pay nonresident tuition, as well as enrollment fees, prescribed by the Board of Trustees to cover the costs of instruction. After a student has been physically present in California for one year and has manifested clear intent to become a California resident, the student may apply for reclassification as a California resident. State law requires consideration of financial independence for students seeking reclassification. It is the student's responsibility to substantiate his or her claim for residency. Visit the Steps to Enrollment website (<http://www.sbcc.edu/residency/>) for more information.

International Students: Other than F-1 or M-1 Visa

Students on visas other than F-1 or M-1 will be evaluated for eligibility and for residency status based on the type of visa, visa issuance and

expiration date, length of stay in California, and intent to maintain California as their permanent home.

International Students: F-1 or M-1 Visa Admission Requirements

1. Application deadlines:
 - a. *Fall Semester*: June 15 (New) July 1 (Transfer)
 - b. *Spring Semester*: November 1 (New) November 15 (Transfer)
 - c. *Summer Session*: May 1
2. Age Requirement
 - a. *Students must be 18 years or older by the start of the semester without restrictions.*
 - b. *Students 17 years old with H.S. Diploma, Parental Agreement (minors must live with a local host family)*
3. *Confidential Financial Statement*: Verification of funds sufficient to cover expenses while in this country, \$12,987 (1 semester) \$25,974 (2 semesters), or \$30,238 (2 semesters plus summer session). An official bank certification letter issued within the past 6 months verifying the funds must accompany the Confidential Financial Statement Form.
4. *Transcript of School Records*: A complete transcript of all previous high school, English language programs, secondary school and collegiate or university work. Eligibility for admission requires the equivalent of a GPA of 2.0 or better. Transcripts written in a language other than English must be accompanied by an official English translation.
5. Students wishing to enroll in the International Student Academic Program must demonstrate English proficiency. Students wishing to enroll in the English as a Second Language Program (ESL) must take the SBCC English assessment test for placement into the appropriate level.
6. All international students are required to purchase the insurance plan approved by the college. *No other insurance will be accepted.* Students must purchase student insurance at the time of registration. The policy is approximately \$1,550 per academic year (subject to change).
7. Submit a Verification of Status Form only if you are transferring from a school within the United States where you attended as an F-1 student. See www.sbccc.edu/international (<http://www.sbccc.edu/international/>). Students who attend a language school prior to transferring to SBCC must maintain an attendance record of at least 80%.
8. A non-refundable \$75.00 application fee, which is payable online, is required for processing the application.

Rules and Regulations Governing Enrollment of F-1 or M-1 Students

1. All F-1 and M-1 visa students are required to enroll in and maintain 12 or more units per semester (4.0 units for Summer, if initial session) unless they have prior written authorization from the International Student Support Program. Regular attendance in all classes is required for the duration of the semester. Failure to adhere to the requirements will constitute a violation of students' visa status. Authorization for reduced course load will be given only in limited circumstances, as specified by federal regulations. When a student has violated the visa status, the student must apply to the Department of Homeland Security for reinstatement. Until the student is reinstated, the student's ability to travel, work, or transfer is impeded.

2. International students cannot depend on employment for financial support while in the United States. Employment in the U.S. is unlawful unless it is authorized by the Department of Homeland Security. Students are permitted to work on campus up to 19.5 hours per week; however, job opportunities on campus are limited.
3. International students are required to adhere to the same academic standards as other students and are subject to the same rules of probation and disqualification. Failure to make normal progress may result in a violation of visa status.
4. International students are required to pay a \$290 tuition fee per unit in addition to an international tuition capital outlay fee of \$16 per unit and an enrollment fee of \$46 per unit (subject to change).

Program Admission—Supplemental Applications

The following instructional programs require supplemental applications, in addition to the general college application.

Cosmetology/Esthetician

Acceptance to the Cosmetology Academy is based on the number of spaces available, the postmark date of the completed application and attendance at an SBCC Cosmetology Academy Orientation meeting. Applications are available from the Cosmetology Academy, 525 Anacapa Street, Santa Barbara, CA 93110. For more information, contact Ms. Awanda Johnson at (805) 683-4191, ext. 2, or refer to the Cosmetology Academy (p. 213) in the Department and Course Descriptions section of this *Catalog*.

Honors Program

To be eligible for the honors program students must have a minimum 3.0 cumulative GPA from high school with no grade lower than a "C" in any academic subject. Continuing, returning and transfer students who have completed 12 units or more must also have a 3.0 cumulative GPA, with no grade below a "C" in an academic subject. Students must be eligible for or have completed English 110 and at least Math 107. English and Mathematics placement examinations are part of the SBCC enrollment procedure. Mathematics eligibility for the program may also be met with three years of high school math, including two years of algebra, with grades of "C" or better. It is expected that some potential Honors students will have tested into or satisfied the English 110, Math 117 or 150 by earning a qualifying score on the English AP or IB test or completing English 110, Math 117 or Psychology 150 at SBCC while in high school. These students should contact the Assessment Office for placement.

The honors program application (<http://www.sbccc.edu/%20honors/website/honorsapp.pdf>) and a list of courses offered may be found online or from Dr. Melanie Eckford-Prosser, the Honors Program Director (IDC-311).

Official high school or college transcripts must be submitted with the applications. (Continuing students do **not** need to provide an SBCC transcript.) Applications will not be accepted unless they are complete: application, transcripts, AP/IB scores if necessary, and writing sample must be submitted to the Director. Once admitted, students must maintain a minimum 3.0 cumulative GPA and complete Honors 100—Colloquium to continue in the program.

For more information, refer to the Honors Program (p. 265) in the Department and Course Description sections of this *Catalog*.

Marine Diving Technologies

Applicants must submit the *Application for Diving/Hyperbaric Exposure* along with a \$50 application fee and Scuba certification card to:

SBCC Marine Technologies Department
721 Cliff Drive, Santa Barbara, CA 93109-2394

Applications are available upon request from the Academic Counseling Center (SS-120). For additional information, contact the Marine Diving Technologies Department (p. 284), (805) 730-4226.

Radiographic and Imaging Sciences/Diagnostic Medical Sonography

Special supplemental application procedures and admission criteria apply to this program. Refer to the Radiographic and Imaging Sciences (p. 289) section of this *Catalog* for additional information, or contact the Health Technologies Office, (805) 730-4166.

School of Culinary Arts and Hotel Management

Special supplemental application procedures and admission criteria apply to this program. Refer to the Culinary Arts and Hotel Management (p. 215) section of this *Catalog* for additional information or contact the School of Culinary Arts and Hotel Management Office, (805) 730-4258.

School of Nursing: Associate Degree Nursing, Vocational Nursing, Certified Nursing Assistant, Home Health Aide

Special supplemental application procedures and admission criteria apply to these programs. Refer to the School of Nursing (p. 338) in the *Catalog* Index for additional information, or contact the Health Technologies Office, (805) 730-4166.

RESIDENCE REQUIREMENTS

Each person applying for admission to, or enrolled in, a California Community College is classified for tuition purposes as either a “resident” or “non-resident” of the State of California. The right of a student to attend any public community college in California as a resident requires that he/she:

1. Be a citizen of the United States, or possess or be an applicant for a permanent-resident, amnesty or other visa status, for a minimum of one year and one day, that does not preclude establishing domicile in the United States and meeting certain requirements.
2. Be at least 19 years of age, and have lived in California one year and one day prior to the residency determination date: Fall 2020—August 23, 2020; and Spring 2021—January 10, 2021. (*Note:* A student, who has not been a resident of California for more than one year and who is the dependent child for income tax purposes of a California resident who has been a resident since the above-noted residence determination date, is entitled to resident classification. Contact Admissions & Records to submit documentation.
3. Have parents or a guardian who have resided in California for one year and one day, if he/she is younger than 18 years of age.
4. Present evidence showing the student’s or the student’s parents’ (if under 19) intent to make California their permanent home.
5. Manifest residency intent if the student is 19 years of age or over by maintaining a home in California continuously for the last two years, unless there is contrary evidence of intent.
6. Manifest residency intent, if the student is under 19 years of age, by both the student and his/her parents maintaining a home in California continuously for the last two years, unless there is contrary evidence of intent.

If manifest intent cannot be shown within #5 and #6 above, then the student is required to provide evidence of intent to make California his or her permanent home. Objective manifestations of this intent include, but are not limited to:

1. Payment of California state income tax as a resident.
2. Registering to vote and voting in California.
3. Licensing from California for professional practice.
4. Showing California as the home address on a federal income tax form.
5. Ownership of residential property or continuous occupancy of rented or leased property in California.
6. Possessing California motor vehicle license plates.
7. Possessing a California driver’s license or ID.
8. Maintaining a permanent military address or home of record in California while in the armed services.
9. Establishing and maintaining active California bank accounts.
10. Being the petitioner for a divorce in California.

Military personnel on active duty in California, their spouses and dependent children qualify as immediate residents. (Required documentation must be submitted to Admissions & Records) Other exemptions to tuition for military personnel may be available pursuant to Veterans Access Choice and Accountability (VACA). Contact Admissions & Records for information.

Students on visas will be evaluated for residency based on the type of visa, visa issue date and expiration date, length of stay in California and intent to maintain California as their permanent home.

A student who cannot qualify as a resident of California must pay non-resident tuition, as stipulated by the Board of Trustees of the Santa Barbara Community College District.

Exemption from non-resident tuition is available to certain non-resident students who attended a combination of California high school, adult school and California Community College for the equivalent of three years or more and graduated from a California high school or attained the equivalent prior to the start of term (per AB 540 statute). Contact Admissions & Records for information and an exemption request form or visit the Forms website (<http://www.sbccc.edu/forms/>).

Education Code section 68075.6 grants an immediate nonresident tuition fee exemption to eligible Special Immigrant Visa (SIV) holders and refugee students who settled in California upon entering the United States. This exemption is granted for one year from the date the student settled in California upon entering the United States.

This exemption applies to the following:

- Iraqi citizens or nationals (and their spouses and children) who were employed by or on behalf of the United States Government in Iraq (Pub.L. No. 110-181, § 1244)
- Afghan and Iraqi translators (and their spouses and children) who worked directly with the United States Armed Forces (Pub.L. No. 109-163, § 1059)
- Afghanistan nationals who were employed by or on behalf of the U.S. government or in the International Security Assistance Force (ISAF) in Afghanistan (Pub.L. No. 111-8, § 602)
- Refugee students admitted to the United States under Section 1157 of Title 8 of the United States Code

Further exemptions may be found here (http://www.sbccc.edu/boardoftrustees/files/policies/chapter_5_ap/AP%205020%20Nonresident%20Tuition.pdf).

Non-resident students do not automatically become residents by being in California for one year. A student seeking reclassification from non-resident to resident status must complete and file a residency reclassification packet that includes a statement of financial independence. Student must provide evidence of intent to establish permanent California residency prior to the start of the semester in which the student is seeking reclassification. *Deadline enforced.*

The burden of proof is on the student to clearly demonstrate physical presence in California, intent to establish California residency and, in the case of students changing from non-resident to resident, financial independence from non-resident parents. The Admissions & Records Office shall determine residency of all applicants. Appeals of residency decisions shall be determined by the Chief Student Services Officer or designee.

ENROLLMENT

Registration Procedures

Registration is the process of becoming officially enrolled in college. At Santa Barbara City College, registration for new, transfer and returning students consists of the following steps:

1. Submit an Application for Admission

Applications may be submitted online months (Summer/Fall – January; Spring – early October) before you intend to register. All new, transfer and returning students must submit an application for admission and be admitted to the college before they may register in classes. High school students participating in dual enrollment must complete an Admissions Application and Dual Enrollment Approval Form. Refer to the Steps to Enrollment website (<http://www.sbccc.edu/apply/>) for more information.

Official transcripts of all high school and college work are important documents to have on file for proper counseling/advisement, prerequisite and corequisite review and are required for awarding of degrees. International transcripts must be submitted with an official translation in English.

The following programs ALSO require separate applications or have special admission procedures and/or enrollment deadlines:

- *Cosmetology/Esthetician*
- *Honors Program*
- *Marine Diving Technologies*
- *Nursing: Associate Degree Nursing, Vocational Nursing, Certified Nursing Assistant, Home Health Aide*
- *Radiographic and Imaging Sciences/Diagnostic Medical Sonography*
- *Dual Enrollment and Middle College*
- *School of Culinary Arts and Hotel Management*
- *Special Students*

For information on:

- *Cosmetology, Esthetician Programs, (805) 683-4191*
- *School of Culinary Arts and Hotel Management, (805) 730-4258*
- *Marine Diving Technologies Program, (805) 730-4226*
- *Radiographic and Imaging Sciences/Diagnostic Medical Sonography and Nursing Programs, (805) 730-4166*
- *Dual Enrollment Program, (805) 730-3020*
- *Middle College, (805) 897-3561*
- *Special Student Status, (805) 730-4001*

Refer to the Admissions and Records website (<http://www.sbccc.edu/admissions/application.php#Supplemental>) for more information.

When students file their applications with Admissions & Records, they will be given information about the Assessment, Orientation and Advising programs. These programs are provided to help students succeed in reaching their educational goals.

2. Log on to Student Portal–Pipeline

Log on to the student portal–Pipeline (<http://pipeline.sbccc.edu>). The student portal allows students to manage various college transactions, including but not limited to: checking your pre-registration requirements, viewing your registration appointment day/time, registering, finding

your SBCC I.D., adding and dropping classes, paying fees, seeing grades, activating campus card, and checking your financial aid status and your SBCC e-mail account. All official college correspondence will be sent to your SBCC e-mail account.

3. Apply for Financial Aid

All students are encouraged to apply for financial aid. Santa Barbara City College offers several types of financial aid, which are funded through federal, state and local agencies and the college itself. Refer to the Financial Aid website (<http://www.sbccc.edu/financialaid/>), as well as the Financial Aid section of this Catalog.

4. Orientation

Orientation is required for all new and new transfer students who have a goal of earning an Associate Degree, Certificate of Achievement, developing basic English/reading or math skills, or transferring to a four-year college or university. All other students are strongly urged to participate in Orientation. By participating in Orientation, students will learn about college services, programs and enrollment procedures. Options for completing Orientation may be found by visiting the Orientation website (<http://www.sbccc.edu/orientation/>).

5. Assessment and Prerequisites

When students file an application for admission to the college, they receive information regarding assessment and prerequisite requirements.

Math & English assessment tests are no longer required.

SBCC uses multiple measures, including high school grade point average, coursework, and specific grades for placement into Math & English courses that are not English as a Second Language courses.

This data was collected when you applied to the college. If we do not have your high school information, you will need to submit a supplemental form.

To look up your Math & English placements: (<http://www.sbccc.edu/assessmentcenter/files/HS%20Data%20form%20instructions.pdf>)

1. Log onto your Pipeline (https://auth.sbccc.edu/_layouts/PG/login.aspx?ReturnUrl=%2fcas%2flogin%3fservice%3dhttps%253A%252F%252Fpipeline.sbccc.edu%252F%252Fportal%252Flogin&service=https%3A%2F%2Fpipeline.sbccc.edu%2Fportal%2Flogin) account
2. Under the STUDENT tab, click on STUDENT RECORDS
3. Click on VIEW COURSE PLACEMENT AND ELIGIBILITY
4. If your placements are listed as pending or no data exists for you, please click on the HIGH SCHOOL DATA FORM (link in Pipeline) to submit the information required for placement

Continuing Students: Before registering for courses, double check your placements in Pipeline (<http://www.sbccc.edu/assessmentcenter/files/HS%20Data%20form%20instructions.pdf>) - they may have changed.

Prerequisites, Prerequisites Verification and Corequisites

Many courses at Santa Barbara City College have enforced prerequisites or corequisites, which are noted in the *Schedule of Classes*. All students are required to meet prerequisite and corequisite standards prior to registering in such courses. Prerequisites and corequisites satisfied by SBCC coursework or SBCC assessment will be checked automatically

at point of registration. Satisfaction of prerequisites through external course work and/or other means requires submission of official transcripts and a Prerequisite Verification Form. Satisfactory completion of prerequisites and corequisites by internal and external coursework requires a “satisfactory grade”. Satisfactory grades are defined as A+, A, A-, B+, B, B-, C+, C or P (*California Code of Regulations*, Title 5, Chapter 6, 55000(l)).

Verification forms and instructions may be accessed by visiting the Transcript Evaluation Office website (<http://sbcc.edu/teo/>).

Skills Advisory Recommendations

In addition to prerequisites, many Santa Barbara City College courses have recommended minimum math and/or English advisories, which are noted in the *Schedule of Classes*. Advisories have been established as a means of alerting students to the minimum standards necessary for class success. Enrollment in such courses is recommended for students who have met the eligibility level prescribed.

Test Availability

Assessment tests are offered prior to registration each semester. Testing is available by appointment only, please visit the Assessment website (<http://www.sbcc.edu/assessment/>). Students who require accommodation for testing should contact SBCC’s Disabled Student Programs and Services (DSPS) to make advance arrangements.

Assessment Alternatives (Testing not required)

Alternatives to Assessment testing are listed below. Students may bring or mail verification to the Assessment Center (Rm. SS-251). Visit the Assessment website (<http://www.sbcc.edu/assessment/>) and click on “Alternatives to Testing” to begin the evaluation and review process prior to enrollment. *Note:* Test scores marked with an asterisk below must include submission of an official high school transcript.

English

- Advanced Placement scores of 3, 4, 5 on the English Literature or Language exams;
- *A score of 5 or higher on the International Baccalaureate English Exam;
- *Score of 550 or higher on the Evidence Based Reading & Writing (EBRW) section of the SAT exam taken after Spring 2016 OR score of 500 or higher on the Critical Reading section of the SAT exam taken before Spring 2016;
- ACT English test score of 22, or higher;
- *Proof of AWPE exam passage at UC, or score of 147 or higher on the EPT exam at CSU;
- EAP English status of “Standard Exceeded.” *Note:* ‘conditional’ status is not accepted.
- An equivalent English 110 course (Freshman Composition), with a grade of “C” or higher; or
- BA or BS degree from a regionally accredited college or university in the United States.

Mathematics

- Score of 3 or higher on the Calculus AB or BC Advanced Placement Exam;
- Score of 3 or higher on the Advanced Placement Statistics Exam;
- Transcript or grade report which shows an equivalent prerequisite math course from another college, with a grade of “C” or higher;
- Qualifying raw score report from an MDTP math test taken at another college;

- EAP math status of “Standard Exceeded.” *Note:* ‘conditional’ status is not accepted;
- Begin at the Math 1, Basic Math level (students must notify a counselor, or Assessment staff if this option is elected).

6. Class Planning

Class Planning is required of all students who have never attended college or attended while in high school, and who plan to earn an Associate Degree, a certificate or transfer to a four-year college. Class Planning is also strongly recommended for returning students and students transferring to SBCC from another college. Class Planning will assist you in:

- *Learning about SBCC degree requirements*
- *Learning about transfer requirements*
- *Choosing appropriate courses to meet your educational goals*
- *Interpreting English and math assessment test results*
- *Understanding prerequisites and skills advisories*
- *Understanding registration procedures*
- *Developing a Student Education Plan based on your educational goals, study skills, work and personal responsibilities*

If you are transferring from other colleges or universities you should confirm that your official college transcripts are on file with Admissions & Records, by reviewing your Pipeline account prior to meeting with a counselor. Alternatively, you may bring unofficial copies to the advising session.

7. Register in Classes

Following Assessment, Orientation and Advising, students will have sufficient information to register in classes. Registration is available online and in person in Admissions & Records (SS-110). Priority registration requires an assigned appointment, which is visible in the student portal—Pipeline. No appointment is required during open registration.

During the first two weeks of the semester (first week in Summer) (see each course reference number on the Classes website (<http://www.sbcc.edu/classes/>) for deadlines), students may make changes and/or add courses to their schedule with permission from the instructor.

Late Registration

Once a class closes or the course start date begins, classes may only be added by obtaining an add authorization code from the instructor through the last day to add deadline.

1. Full semester-length Fall/Spring classes must be added with instructor permission and add authorization code by the end of the second week of the semester.
2. Fall/Spring courses less than full semester in length and all Summer courses must be added prior to the 20% length of the class. Find the last day to add by clicking on the CRN from the semester web schedule of classes

An instructor may refuse to admit a late registrant when the total number of class hours missed by the student exceeds the number of hours the class meets in one week; when the work missed cannot be made up; when the class is full; or when normal progress in the course would be impossible or unsafe. Special instructions for late registration are available from Admissions & Records.

Students who miss the last day to add deadline for a course due to extenuating circumstances may submit a Petition for Late Add to Admissions & Records. In order to be eligible for consideration of a late add, a student must have begun attending the course prior to the last day to add deadline. Instructor approval and signature is required for consideration. The final deadline to submit a Petition for Late Add is the end of the 4th week of the semester for full semester-length classes (25% length of the class for classes less than full semester in length).

Throughout the enrollment process (including class adds, drops and withdrawals), certain deadlines are established. These deadlines are necessary in order to comply with State of California attendance regulations and must be complied with by all students. Failure to comply with these deadlines may mean that the student will not be registered and will not receive credit for, or be allowed to attend, classes.

8. Final Steps

Paying Fees

Students are encouraged to pay fees at time of registration. Payment must be received within seven (7) days of registration or students may be dropped for non-payment. Students will not be dropped for non-payment after instruction has begun. As the student, you are responsible for dropping classes by the stated deadlines. If you register in a class and later change your mind, it is your responsibility to drop the class. Students finding it difficult to pay enrollment fees should visit the Financial Aid Office at (SS-210) or visit the Financial Aid website (<http://www.sbccc.edu/financialaid/>) before registering for classes. All fees are subject to change without notice. Refer to the Fees and Refunds section of this *Catalog*.

Secure Student Identification Card and Arrange Transportation, Parking and Housing

The SBCC photo I.D. card provides access to college services, including computer labs, library and learning resources center, and serves as a student MTD bus pass for those taking credit classes on the SBCC campus. Additionally, you may select to use your SBCC photo I.D. as a Campus Card, which may be used as a cash card for select campus services. Obtain your SBCC photo I.D. card in Office of Student Life (Campus Center, Room 217). Photo I.D. is required prior to issuance of the SBCC photo I.D. card.

The Office of Student Life (Campus Center, Room 217) maintains listings of available rooms, apartments, and room and board situations in the community. For housing information, visit the Housing website (<http://www.sbccc.edu/housing/>).

Parking permits are required in order to park vehicles on campus, with the exception of Pershing Park. Parking fines will be issued for parking violations. For parking and transportation information, visit the Business Services website (<http://www.sbccc.edu/businessservices/sbccccommute.php>).

Purchase Books

Students are expected to purchase all textbooks, supplies and uniforms, as needed for instruction. Most materials may be purchased through the Campus Store. Textbooks may be purchased or reserved for pickup by visiting the Campus Store website (<https://www.sbcccbooks.com/>).

Class Attendance

The last step of enrollment will be completed upon attendance at the first class meeting. Students who are not in attendance at the first class meeting are considered “no-shows” and the instructor may drop such persons in order to give their seats to non-registered students seeking

to enroll. Also, an instructor may withdraw a student from semester-length courses at any time for excessive absence through the 9th week of the Fall/Spring Semesters, and 60% point of the class for Summer and courses less than a semester in length. As a guideline, absence is considered excessive if a student misses three (3) class meetings or the equivalent of one week of class attendance, or according to absence guidelines as published in the course syllabus.

Absence due to a verified illness may be accepted as an excused absence for a limited period of time. Students are expected to notify their instructor by e-mail and/or phone message if they are absent for a medical reason. Students are expected to make appointments for medical and dental treatments at times other than when classes are scheduled. Students anticipating or encountering extended absences due to medical, personal or family emergencies should contact the Dean, Student Affairs, Room SS-260, (805) 730-4078.

It is the student's responsibility to officially withdraw by stated deadlines either online or in person in Admissions & Records. Students failing to officially withdraw by the deadline may receive an “F”, “FW” or “NP” grade.

For detailed information regarding the steps to enrollment for SBCC Noncredit Educational Programs, visit the Steps to Enrollment website (<http://www.sbccc.edu/apply/>). These processes were still under development at the time of Catalog publication.

Noncredit Course Registration

Online registration for Noncredit Educational Programs is available approximately two weeks to one month before classes start. Class registration is on a first-come, first-served basis, and no visitors or auditors are allowed. If a class is full, students are encouraged to show up to the first class meeting in case of no-shows. A student who does not attend the first meeting of a class may be dropped. If any seats are unclaimed on the first day of a class, walk-in students may then register.

Late Adds

A student may enroll in a class after it has begun if:

1. space is available,
2. the instructor permits the late enrollment and
3. the student completes the online application for admission and full registration procedure.

See your instructor.

Dropping a Class

Students who decide not to attend class must drop themselves from the class. To drop, log on to Pipeline (<http://pipeline.sbccc.edu>), select “Registration” and then select “Register, Add or Drop Classes.” Follow the instructions on the Add/Drop Classes page for dropping a class.

FEES AND REFUNDS

Students are encouraged to pay fees at time of registration. Payment must be received within seven (7) calendar days of registration or you may be dropped for non-payment. Students will not be dropped for non-payment after instruction has begun. As the student, you are responsible for dropping classes by the stated deadlines. If you register in a class and later change your mind, it is your responsibility to drop the class. Students finding it difficult to pay enrollment fees should visit the Financial Aid Office (SS-210) or visit the Financial Aid website (<http://www.sbccc.edu/financialaid/>) before registering for classes. All fees are subject to change at any time by action of the State Legislature, Board of Governors of the California Community Colleges or District Board of Trustees.

Student Enrollment Fee

Santa Barbara City College charges a State-mandated enrollment fee of \$46 per unit to all enrolled students. The State of California, through its Board of Financial Assistance Program, provides fee credits, fee waivers, or special California College Promise Grant to help defray the cost of the Student Enrollment Fee. Information on eligibility requirements and application deadlines, as well as application forms, are available in the Financial Aid office (SS-210).

Non-Resident Tuition

No tuition is charged to legal residents of California. In 2020-2021, students who have not been residents of California for one year or longer prior to the beginning of a term are required to pay a nonresident tuition fee of \$290 per unit, a nonresident capital outlay fee of \$16 per unit, in addition to the \$46 per unit Enrollment Fee. Per Ed Code §76141, the capital outlay fee is per semester unit for students, who are residents of other states, who are foreign nationals or who have taken legal residence in California for less than one year. Residency status is determined by the Office of Admissions and Records. The tuition for international students is the same as non-residents, however, International Students may be required to pay additional fees. Go to the International Students website (<http://www.sbccc.edu/international/>) for more information.

Tuition/Enrollment Fee Refund

Students who officially withdraw by the stated course deadlines for a full refund will receive a credit toward future fees for the full amount of enrollment fees paid for those classes. Check your Schedule/Bill for deadline dates. Refunds are not automatic; students who prefer to receive a refund of their credit may complete a Request for Refund Form (<http://www.sbccc.edu/fiscalservices/cashier/Refund.php>) and return it to the Cashier's Office for processing. A \$10 per semester processing charge will be deducted from enrollment fee refunds. (The charge does not apply to classes cancelled by the college.) If classes are dropped after the first two weeks of the Fall or Spring semester or after the Last Day to Drop Classes without 'W' for the Summer semesters, the following fees are not eligible for a refund: Health Services, Student Representation, Transportation and Student Activity. Parking Permits must be returned intact to the Cashier's Office (SS-150) prior to the first day of the semester for a refund.

Health Services Fee

All students are required to pay a health services fee of \$21 per Fall and Spring semester and \$18 per Summer session. Many health and wellness services are available free or at low cost through the Health & Wellness Office (SS-170) or online through *Ask A Nurse*. Students who depend exclusively upon prayer for healing in accordance with teachings of a bona fide religious sect, denomination, or organization, those students

in apprenticeship programs and dual enrollment students enrolled in off campus courses may be exempted from paying the health services fee. Refer to the Cashier's website (http://www.sbccc.edu/fiscalservices/cashier/current_fees.php) for further information or visit the Cashier's Office to complete a petition for health services fee exemption.

Parking Permits

Any student who intends to park a vehicle on campus must register his/her vehicle and purchase a parking permit. Parking permits are not required for mopeds and motorcycles. Prices include shipping, handling, postage and applicable credit card processing fees. All Day/Evening permits are \$34.00 and Evening-Only permits are \$19.00 per Fall and Spring semester. California College Promise Grant (CCPG) students are eligible for a reduced All Day/Evening permit of \$24.00 per semester. Permits for each Summer Session are \$19.00. Parking permits are non-transferable, and parking fees are only refundable to students who return permits prior to the first day of the semester. Lost/stolen permits will not be replaced. Purchasing a parking permit does not guarantee a parking space. Parking permits may be purchased online through Pipeline (<https://pipeline.sbccc.edu/cp/home/displaylogin/>).

Student Transportation Fee

During the Fall 2020 term, the Santa Barbara Metropolitan Transit District will be offering no cost ridership on all buses operating throughout the District. As a result, the Student Transportation Fee will not be charged to our students during this term. We expect this fee to resume in Spring 2021.

All students are required to pay a Student Transportation fee during registration. This fee is \$32.00 per Fall and Spring semester for students enrolled in 6 units or more; \$31.00 for students enrolled in fewer than 6 units per Fall and Spring; and \$14.00 per Summer session. The Student Transportation fee entitles a student to unlimited use of local community bus service by swiping your valid student identification card, CampusCard. If your transportation fee has not been paid, the card will not be valid for ridership, regardless of current enrollment. Fall Semester passes are valid seven days prior to the start date of fall classes until 7 days before the start of spring classes. Spring Semester passes are valid seven days prior to the start of Spring classes until the last day of final examinations for spring. Summer passes are valid seven days prior to the start of the Summer Session until the last day of final examinations for the session. Students enrolling only in distance learning or off-campus classes are exempt from paying the Transportation Fee. A refund is only issued if all courses have been dropped within the first two weeks of Fall and Spring semesters or the first week of Summer semester. No refunds are available after this date.

Student Activity Pass Fee

The Pass will not be sold during the Fall 2020 semester. We plan to resume sales of the pass and resume associated events in Spring 2021.

Students are expected to pay a Student Activity Pass fee at the time of registration. The fee is \$8 per Fall and Spring. Summer sessions are excluded. This pass entitles the student to free admission to numerous college events, in addition to discounts from the Bookstore (except on textbooks and electronics) and businesses in the community. Students may opt out of this fee at the time of registration within the first two weeks of classes on their Pipeline portal. No refunds are available after this date.

Student Representation Fee

A representation fee of \$2 per student per semester was established by election of the student body. The money collected through this fee

provides support for students and/or representatives who state positions and viewpoints before city, county and district governments and before offices and agencies of local, State and Federal government. It was made possible by Assembly Bill 1358. A student has the right to opt out of the fee within the first two weeks of classes for religious, political, moral or financial reasons, at the time of registration through the pipeline portal. No refunds are available after this date. This fee is not covered by most forms of financial aid.

Instructional Materials Fees

Students may be required to provide instructional materials for a credit or noncredit course. Such materials shall be of continuing value to a student outside of the classroom setting. Visit the Course Fees (p. 400) page in this catalog, or visit *Schedule of Classes* to see which courses require instructional materials fees and see Board Policy and Administrative Procedure 5031 Instructional Materials Fees (<http://www.sbccc.edu/policies/>). You may also visit this catalog's Course Fees page.

Textbook/Lab Supplies

Students are expected to purchase all textbooks, supplies and uniforms, as needed for instruction. Some materials may be purchased through the Campus Store.

CampusCard Replacement Fee

CampusCards are provided free of charge to all enrolled students at SBCC. Obtaining a CampusCard is optional but recommended. All students must have a valid CampusCard to access the following services: MTD Bus System, Library Check-outs, Open-access computer labs, Athletic events and college performances. The first replacement card issued is free. Every replacement card thereafter is a fee of \$3.00 and payable at the Cashiers Office. For more information, see the CampusCard website (http://www.sbccc.edu/student-services/campus_id.php).

FINANCIAL AID

Santa Barbara City College offers several types of financial aid to assist students with financing their education. Funded by the federal government, the State of California, local agencies and the college itself, they include:

- *Grants* are based on financial need and do not require repayment. Some grant programs have lifetime limits.
- *Loans* must be repaid after the student leaves school or drops below half-time enrollment. Borrowing money to pay for college is a serious financial decision. Be sure you know all the terms and conditions of borrowing before you assume student loan debt.
- *Employment.* Federal Work Study participation is need based and provides students with an opportunity to earn money to pay for educational expenses. Most positions are on campus and offer flexible hours to work around your class schedule.
- *Scholarships* are based on scholastic achievement, financial need and/or student activity involvement. Students must maintain the scholarship criteria, otherwise, it may have to be paid back.
- *Special Programs.* Some students qualify for benefits through the Veterans Administration, California State Department of Rehabilitation and Bureau of Indian Affairs, among others. Eligibility requirements vary.

For additional information and the most recent updates, refer to the Financial Aid website (<http://www.sbccc.edu/financialaid/>).

Where Do You Go to Apply?

Financial aid information and application forms are available on the Santa Barbara City College's Financial Aid website (<http://www.sbccc.edu/financialaid/>) or at the Office of Financial Aid, Room SS-210, in the Student Services Building. You may apply for federal financial aid online by visiting the FAFSA website (<https://fafsa.ed.gov/>). Students who qualify for AB-540 residency designation should complete the California Dream Act Application which can be found on the California Student Aid Commission website (<https://dream.csac.ca.gov>).

When Do You Apply?

Students begin applying for financial aid as early as October 2019 for the 2020-2021 academic year. The Office of Financial Aid will begin reviewing applications in spring of 2020. Look for notifications via your SBCC Pipeline Email. Once your financial aid application is complete, you will receive an aid offer based on your eligibility. All financial aid applications are treated on a "first-come, first-served" basis. So it is important that you apply early. The earlier you apply, the sooner you will know how much money you are eligible to receive. Your financial aid application must be complete and you must have received an aid offer to use any assistance to cover your tuition and fee charges.

There are various financial aid deadlines throughout the year that a student is expected to meet. Check the Financial Aid website (<http://www.sbccc.edu/financialaid/>) for a complete listing of these deadlines.

California College Promise Grant (CCPG)

The California College Promise Grant waives the enrollment fee for qualified California residents and AB540 classified students. Students may be eligible for the California College Promise Grant if:

1. You or your family are receiving Temporary Assistance for Needy Families (TANF), General Assistance, or Supplemental Security Income (SSI) or State Supplemental Program (SSP) aid;
2. You have been determined to have 'financial need' by the Office of Financial aid after completing a FAFSA or California Dream Act Application;
3. Your family's income meets the established guidelines; or
4. You qualify under Special Classifications Enrollment Fee Waivers

Applications and CCPG-related information are available in the Financial Aid Office, Room SS-210, or download the application from the Financial Aid website (<http://www.sbccc.edu/financialaid/>).

Federal Pell Grants

A Federal Pell Grant is money provided by U.S. Department of Education for needy students. Pell Grants are awarded to students with financial need who are working toward an associates degree (including transfer) or selected certificate programs, who have not yet earned their first bachelor's degree.

The actual amount of your grant is determined by your estimated family contribution (EFC), the total cost of attending (COA) college and the number of units you are taking. Pell Grants have a lifetime limit of six years of full-time attendance.

You must submit a FAFSA and meet other verification requirements to apply for a Federal Pell Grant.

Federal Supplemental Educational Opportunity Grants (SEOG)

The SEOG is a federal grant designed for students with exceptional financial need who receive Federal Pell Grants. Funded by the U. S. Department of Education, these funds are extremely limited.

Extended Opportunity Programs and Services (EOPS)

EOPS is intended to provide special support services to students with extreme financial need and a history of being economically and educationally disadvantaged. To be eligible for EOPS, a student must:

- Be a California resident or AB540 eligible;
- Be enrolled as a full-time student (*12 units or more per term*);
- Have fewer than 70 units of degree-applicable college credits;
- Qualify to receive a California College Promise Grant under either Method A or B; and
- Be educationally disadvantaged as determined by EOPS staff.

Federal Direct Student Loans

Loans are available to students who are enrolled in at least six units (half-time). The federal government may pay interest on subsidized loans during the in-school period and during the grace period following the student's termination or graduation. The grace period is for six months. The student is responsible for paying the interest on unsubsidized loans during the in-school and grace periods. Students are eligible if they meet the Department of Education's criteria, as listed with the Financial Aid Office. Some features of the loan program are limited based on how long a student is pursuing a particular program of study.

Federal Work Study (FWS)

FWS funds are provided by the federal government and are designed to provide part-time employment for students with financial need. Whenever possible, students are encouraged to a work environment which will further their educational growth. As with other financial aid, FWS eligibility is determined by the Office of Financial Aid. A specific amount is awarded and that amount cannot be exceeded (for example, you are awarded a \$3,000 FWS award, once you earn the \$3,000, you cannot continue to be employed under FWS. Funds are limited.

Cal Grants

Cal Grants are awarded based on demonstrated financial need and academic achievement to undergraduate students who haven't already earned a bachelor's or professional degree. Cal Grants don't need to be repaid. Contact the California Student Aid Commission (<https://www.csac.ca.gov/>) at 1-888-224-7268 or visit their website (<https://www.csac.ca.gov/>) for more information regarding deadlines and availability of funds.

If you receive a Cal Grant A but decide to attend a California Community College, your award will be held in reserve for up to three years until you transfer to a four-year college. Be sure to inform the California Student Aid Commission of any address changes (https://www.csac.ca.gov/sites/main/files/file-attachments/g-10_0.pdf) during this time. When you're ready to transfer, be sure to notify the Commission so that your Cal Grant eligibility can be re-evaluated. Also, let your new college know that you have a Cal Grant A Reserve Grant.

If you receive a Cal Grant B, you can use your \$1,672 living allowance to help pay for books and educational costs while attending a community college. (If you do, keep in mind that you'll be 'using up' Cal Grant eligibility that you may want to save if you're planning to transfer to a four-year college.)

If you're pursuing a career or technical education, you can use a Cal Grant C award to pay for books and supplies.

If you didn't receive a Cal Grant for study at a community college, you may qualify for a Cal Grant Transfer Entitlement (<https://www.csac.ca.gov/post/cal-grant-transfer-entitlement-award/>) award to attend a four-year college.

Student Success Completion Grant (SSCG) ([https://www.cccd.edu/students/financial-aid/Pages/Student%20Success%20Completion%20Grant%20\(SSCG\).aspx](https://www.cccd.edu/students/financial-aid/Pages/Student%20Success%20Completion%20Grant%20(SSCG).aspx))

The SSCG is a new financial aid program that helps you afford full-time enrollment so you can graduate, begin your career and start earning money sooner.

- 12-14 Units / semester = \$649 (\$1,298 per year)
- 15+ Units / semester = \$2,000 (\$4,000 per year)

You are eligible for the SSCG if you are a full time and a recipient of a Cal Grant B or C award.

Scholarships

Scholarships are funded by gifts and endowments from private individuals, corporations, community organizations, and foundations. Scholarships are awarded based upon academic achievement, financial need, as well as other scholarship specific requirements/qualifications. The scholarship application opens on January 1st and closes on March 2nd of each year. For more information, please visit the scholarship webpage (http://www.sbccc.edu/financialaid/scholarships_sbccc.php).

Packaging

The practice of offering two or more types of aid to a student is known as packaging. A typical package would include aid from at least two of the following sources: grants, employment or loans.

The package is designed to meet all or part of a student's established need for financial assistance. Packaging policies take into consideration not only the unique needs of each aid applicant, but also emphasize the order in which different funding sources are included in each financial aid package. The initial source of funding considered for all applicants is grant aid. If needed, the second source of funding considered is employment. The last source of funding considered is student loans.

Disbursement

In order to receive a disbursement, a student must have a completed application and be enrolled in the required number of units. Most aid is distributed on a *two-payment per semester basis*. Normally, the first payment may be expected immediately prior to the first week of each semester, and the second payment at the end of the fifth week.

Student loans are disbursed in accordance with procedures set forth by federal regulations (more information is available in the Office of Financial Aid).

Federal Work Study recipients will be paid once a month for the hours worked.

Student Consumer Information

Financial aid information included here is limited. Additional information is available at Santa Barbara City College's Financial Aid Office, Room SS-210. SBCC's Financial Aid Policies and Procedures are also available on the Financial Aid website (<http://www.sbccc.edu/financialaid/>).

Satisfactory Progress Standards

Federal regulations mandate that all institutions of higher education establish minimum standards of "satisfactory academic progress" for students receiving financial assistance. All students who apply for and receive financial assistance are expected to meet the academic standards described in Santa Barbara City College's *Financial Aid Satisfactory Academic Progress Policy*.

Copies of the *Financial Aid Satisfactory Academic Progress Policy* are available in the Financial Aid Office, Room SS-210 and of the Financial Aid website (<http://www.sbccc.edu/financialaid/Satisfactory%20Academic%20Progress.php>).

Cost of Attendance

When Santa Barbara City College uses the term "cost of attendance," it refers to the amount of money necessary to complete a 9 month academic year. This is considered to be a modest, but adequate, standard of living budget. It does not take into consideration individual student

situations and it presumes reasonable consumer choices on the student's part.

The cost of attendance at SBCC for the 2020-2021 college year is noted below. This information is available on the Financial Aid website (http://www.sbccc.edu/financialaid/cost_of_attendance.php). These guidelines will help prepare you to plan the financing of your education.

Examples of 2020-2021 Student Budgets

I. Dependent Living at Home with Parents: 9 Months

Registration Fees ¹	\$1,288
Books and Supplies	\$1,025
Room and Board	\$9,367
Personal Expenses	\$3,465
Transportation	\$898
Cost of Education	\$16,043

¹ Registration Fees are based on 14 units at \$46 per unit, plus the Health Fee and Transportation Fee. Out-of-state students may base their school expenses on Budget II, plus out-of-state tuition, which is currently \$285 per unit.

II. Independent and Dependent Living Away from Home: 9 Months

Registration Fees ¹	\$1,288
Books and Supplies	\$1,025
Room and Board	\$17,289
Personal Expenses	\$3,465
Transportation	\$898
Cost of Education	\$23,965

¹ Registration Fees are based on 14 units at \$46 per unit, plus the Health Fee and Transportation Fee. Out-of-state students may base their school expenses on Budget II, plus out-of-state tuition, which is currently \$285 per unit.

Important Note: The amount of funds allocated to Santa Barbara City College, compared to the large number of needy students who qualify for financial aid, rarely allows the College to meet the total needs of an aid recipient.

STUDENT SUPPORT SERVICES

Academic Counseling

Meeting with an academic counselor each semester is essential to student success. Academic counselors are available to new-to-college students who have completed all their steps to enrollment, new transfer students, continuing and returning students.

The Academic Counseling Center provides a variety of resources to help students achieve the greatest possible benefit from their college experience. Each academic counselor is a specialist in several academic areas, and students are assigned a counselor according to the major they declare or the special program that they are part of. The Academic Counseling Center is a valuable resource to explore the options and requirements in a particular field of study. Counselors assist with course selection, educational planning questions concerning requirements for majors, general education, graduation, or transfer to a four-year college or university. A counselor can answer questions about a course or academic requirements and serve as a valuable resource in helping students select appropriate, balanced course plans to meet degree and certificate requirements as well as lower division transfer requirements for specific transfer institutions. Students are encouraged to meet with a counselor each semester. Academic Counseling offices are located in the Student Services Building, (805) 730-4085.

The Student Success and Support Program (SSSP) sets the following goals for Academic Counseling services:

- Newly matriculated students will complete an Abbreviated Educational Plan prior to completing 15 credit units.
- Once students identify their program of study, they will meet with a counselor to create a Comprehensive Educational Plan that will detail the necessary courses to reach their academic goal.
- Students are strongly encouraged to follow up with a counselor to review and/or revise their Education Plan as needed to adapt to developing education and career goals.
- Comprehensive counseling services are available to assist students in exploring career, transfer and vocational goals specific to their development.

Degrees/Certificates

With the option of over 75 degrees and 50 certificates at SBCC, a student often remains undecided on a major. Academic counselors are available to discuss options and give general information on each major offered. They can also provide curriculum guides, and discuss prerequisites and general career information. Referrals may also be made to the Career Center, or appropriate college and/or community resources.

Probation/Dismissal

When a student is placed on Academic Probation/Dismissal and/or Progress Probation/Dismissal, academic counselors are available to counsel students on the most effective ways to achieve good academic

standing. It is strongly recommended that students seek academic counseling as soon as possible to preserve their academic record.

Student Education Plan (SEP)

A comprehensive SEP should be developed with an academic counselor during the student's first semester at SBCC. An SEP outlines a suggested course of study for the individual student based on major, transfer plans and sequence of courses. Students are encouraged to update their plan each semester or when a change is made to their major, transfer institution or other goals.

Transfer Counseling

Academic counselors provide transfer information, such as General Education requirements (IGETC and CSU Breadth), preparation for major courses, general admissions requirements, and information on the UC and CSU systems, as well as California independent and out-of-state colleges and universities.

Articulation Website (<http://articulation.sbccc.edu>)

To assist the student with transfer to four-year institutions, articulation agreements have been established with most California State Universities, University of California campuses and some independent California and out-of-state colleges. These agreements define the courses at Santa Barbara City College that satisfy many lower division major requirements and/or General Education requirements at four-year institutions.

ASSIST (<http://www.assist.org>) is a computerized student transfer articulation information system. It displays reports of how California community college courses can be applied when transferred to California State Universities and University of California campuses. ASSIST is the official repository of articulation for California's public colleges and universities, and therefore provides the most accurate and up-to-date information available about student transfer in California.

Assessment Center website (<http://www.sbccc.edu/assessment/>)

The Assessment Center is dedicated to ensuring student success by providing placement services for students seeking to enroll in English and Math courses. Placement results give students information necessary to

complete their educational objectives, satisfy some course prerequisites, and provide information relative to course skills advisories.

Assessment testing is no longer used for placement into English and Math courses. The college uses multiple measures, including high school coursework, high school grades, and high school grade point average to place students into English and Math courses.

Assessment testing is required for students seeking to enroll in Credit English as a Second Language (ESL) courses. Detailed information, including specific test dates, may be found by visiting the ESL Assessment website (http://sbcc.edu/assessmentcenter/esl_assessment.php).

The Assessment Office is located in the Student Services Building, Room SS-251.

The Campus Safety Office is located in ECC-41 (adjacent to the Sports Pavilion). The office is open Monday through Friday, 8:30 AM to 4:30 PM, phone (805) 730-4064. Campus Safety is on campus during school hours, and can be reached during non-office hours at ext. 2400. If there is an emergency, call ext. 2400 from a campus phone or (805) 730-4200 from a cell phone. The Campus Safety Office's main responsibilities are responding to incident calls, providing escorts, issuing citations for illegally parked vehicles, and securing buildings on campus. When school is in session, the campus is patrolled by officers in designated locations to observe and report any suspicious activity.

The department works closely with the Santa Barbara Police Department and each officer has the ability to contact the police directly over their

handheld radios in case of an emergency. The department has seven full-time employees and up to 25 part-time officers.

Santa Barbara City College is committed to the safety of all students, faculty and staff. In response to Assembly Bill 1088's concern that women on American college campuses, who are 18-24 years of age, are at greater risk for becoming victims of sexual assault than women in the general population. Information on sexual assault prevention and information on what to do if sexual assault occurs can be obtained from the college's Title IX Office as well as from the Student Health Services website (<http://www.sbcc.edu/healthservices/>), or the Santa Barbara Rape Crisis Center website (<http://www.sbrapecrisiscenter.org>).

Enrollment Services operates the Welcome Center that provides enrollment assistance via e-mail, phone and in-person contact. The Welcome Center is located on the first floor of the Student Services Building. The department provides access to learning opportunities that promote student enrollment and success through a variety of outreach and orientation services: pre-admissions advising to both local and out-of-

area prospective students and their families, campus tours, college fairs, application workshops, welcome tables and more. Enrollment Services also hosts a variety of events for prospective students and their families, such as Senior Friday's, Vaquero Days, Vaquero Welcome, and College Night.

Extended Opportunity Program and Services (EOPS/CARE)

Paloma Arnold

SS-240

(805) 730-4079

EOPS Website (<http://www.sbcc.edu/eopscare/>)

EOPS is a state-funded, educational support program for financially and academically disadvantaged students who are enrolled full-time (12 or more units). The goal of the EOPS program is to provide above and beyond support services in order help students meet their educational goals, whether they seek an occupational certificate, an Associate in Arts or Science degree or transfer to a four-year university.

EOPS Educational Support Services Include:

- EOPS Academic Counselors provide comprehensive academic counseling including academic goal setting, career counseling and certificate, degree and transfer counseling. EOPS students are also eligible for priority registration and are assisted through the registration process every semester.
- EOPS Student Program Advisors provide comprehensive and wrap-around support, case management and referrals throughout an EOPS student's educational career at SBCC.
- EOPS Peer Mentors provide a communication link between the EOPS program and the EOPS students.
- EOPS offers various academic, career and skills-based workshops every semester.
- EOPS offers its students a complete computer lab with access to computers and free printing.
- EOPS provides individual assistance in completing federal/state and local financial aid and scholarship applications.
- EOPS provides its students with book grants, meal vouchers, school supplies, pays course field trip and honor society membership fees and provides university application fee waivers.
- EOPS provides English and math tutoring through the EOPS Tutorial Lab. Tutoring in other subjects or on a one-on-one basis is also provided, as needed.
- EOPS hosts cultural events and activities for students such as the EOPS Orientation, EOPS Graduation Celebration, educational field trips and the EOPS Club.

Additional Programs within the EOPS Program Include:

CARE (Cooperative Agencies Resources for Education): Santa Barbara City College provides opportunities for low-income single parents to obtain the skills and education necessary to move from poverty to economic self-sufficiency. The goals of the CARE program are to provide incentives for individuals to minimize their welfare dependence and enhance their employability; to strengthen self-awareness and self-confidence and to provide career awareness and decision-making skills. CARE students are eligible for all EOPS support and services and in addition, may be eligible for transportation assistance, cultural events and activities geared for student parents, single parent workshops and child care assistance.

Guardian Scholars Program: A comprehensive support program for current and former foster youth and AB12 students. Guardian Scholar students are eligible for all EOPS support and services and additional grants, services and activities as appropriate.

Running Start (<http://www.sbccc.edu/eopscare/Running%20Start.php>): A six-week summer bridge program for eligible graduating high school seniors offers college orientation, educational field trips and a weekly stipend. Students also receive meal vouchers, priority registration, academic counseling, orientation, and other support services and complete a personal development course and one other academic course of their choosing.

SPARC (<http://www.sbccc.edu/eopscare/SPARC.php>): (Single Parents Arriving Ready for College): A six-week summer bridge program for eligible single-parent students offers college orientation, field trips, and a weekly stipend. Students also receive meal vouchers, priority registration, academic counseling, orientation, childcare and other support services. Additionally, students are enrolled in an academic planning class, a parenting course specific to single parent students and participate in a series of workshops aimed at building community and support.

Transitions (<http://www.sbccc.edu/eopscare/Transitions.php>): The SBCC EOPS Transitions Program is open to individuals who have been formerly incarcerated. The Transitions Program begins with a six-week summer bridge program that offers college orientation, a college success course and weekly events or excursions. Upon completion of the summer program, Transitions students are invited to participate in cohort general education classes throughout the regular academic year. The goal is to provide formerly incarcerated students a solid foundation to develop, organize, and begin their program of study and to acquire the skills necessary to succeed in other college courses while building connection and community. Eligible students receive student fee waivers, textbooks, supplies, tutoring, peer mentoring, and financial aid assistance.

The SBCC EOPS Transitions Program also includes several credit Personal Development courses taught inside Santa Barbara County Jail where students can begin earning college credit and preparing to enroll on campus at Santa Barbara City College upon release.

California Work Opportunity and Responsibility to Children (CalWORKs)

CalWORKs Website (<http://www.sbccc.edu/calworks/>)

CalWORKs is California's Welfare plan in response to the Federal TANF (Temporary Aid to Needy Families) Program. The CalWORKs program allows participants who are receiving cash assistance to attend Santa Barbara City College (main campus or non credit) for education and training with the goal of reaching self-sufficiency and increasing wage earning power.

In addition to the services listed above, CalWORKs participants may be eligible for childcare, work study, needs based workshops, education and employment plans, transportation assistance and a cooperative relationship with the Department of Social Services.

At Santa Barbara City College, the CalWORKs program is located in the EOPS Office (SS240).

Food Service

The health and well being of our staff members, community, faculty, and students is our top priority during this time of uncertainty considering the COVID-19 Pandemic.

Below you will find our normal operating house for our two food service venues as well as our Coffee Shops. The hours of operation may change depending on Santa Barbara County Health regulations.

For information on open venues as well as hours of operation, please visit <https://www.sbccc.edu/dining/>

The *College Cafeteria* is located to the right of the main entrance of the Campus Center. It is open Monday through Thursday, 7:30 a.m. to 8 p.m., and Friday, 7:30 a.m. to 1:15 p.m. Hot meals are served daily. Excellent food and service are available at reasonable prices.

The *JSB Café* is located in the School of Culinary Arts Building between the Campus Center and the Campus Store. Lunch is served Monday through Friday, 11:15 a.m. to 1:30 p.m.

The *West Campus Snack Shop* is located in the Business/Communication Building, open Monday through Thursday, 7:30 a.m. to 8:30 p.m. and Friday until 1:15 p.m. Additionally, students can get coffee and baked goods at the *Campus Center Buzz Shack*, open Monday through Thursday, 7:30 a.m. to 7 p.m., and Friday, 7 a.m. to 1:15 p.m., and the *Luria Library Café*, open Monday through Thursday, 7:30 a.m. to 7 p.m., and Friday, 7:30 a.m. to 2 p.m.

Gateway to Success Website (<http://www.sbccc.edu/gatewaytosuccess/>)

The Gateway Tutoring Program is part of the "Partnership for Student Success," an SBCC faculty-driven initiative developed to help students achieve success in their first year of college. The program was designed on the concept of triangulated instruction that builds a strong and complementary relationship between the instructor, tutor and each student participating in Gateway. All Gateway classes have a trained tutor in the classroom or the lab, working directly with the faculty member on threshold concepts in the course. The 300+ Gateway course sections offer student-centered learning techniques and strategies in the context of specific courses and disciplines. In addition, the Gateway to Student Success Center, located on the East Campus in ECC-4, provides a tutorial center. Regular semester hours are Monday through Thursday, 8:30 a.m. to 5 p.m., and Friday, 8:30 a.m. to noon. Call Director Dr. Vandana Gavaskar, (805) 730-4473 for additional information.

All class-related accidental injuries must be reported to the Student Health and Wellness Office, Room SS-170, within 72 hours of the incident to be eligible for college student accident insurance policy coverage. This coverage is limited to accidental injuries while participating in college classes or activities and is secondary to any other medical insurance the student may have. Coverage and limitations are outlined in a brochure available in the Student Health and Wellness Office.

Information on private medical insurance and on enrollment in Covered California and MediCal is available in the office.

Contracts with Santa Barbara Cottage Hospital and Goleta Valley Cottage Hospital emergency rooms have been established to provide medical care to students at a discounted rate. The emergency rooms are open 24 hours a day, seven days a week. Your student I.D. card must be presented at the time services are rendered.

International Student Support Program

International Students Website (<http://www.sbccc.edu/international/>)

International students have always played an important role in the life of the college. SBCC welcomes international students and encourages them to utilize all of the services provided by the International Student Support Program staff.

The International Student Support Program strives to provide international students with an opportunity to benefit from a high-quality academic curriculum, as well as from intellectually stimulating social and recreational activities. The International Student Program consists of two programs. The English Language Studies Program (ELSP) is an intensive language program for beginning to advanced level international students who wish to improve their English skills before taking other college-level classes. The International Student Academic Program (ISAP) is open to students who are academically prepared for advanced English and regular college courses.

ISAP students may earn a two-year Associate Degree or complete their lower-division transfer requirements for four-year colleges and universities.

Housing assistance is offered to all international students. Lists of Santa Barbara area hotels and motels, student apartments, student dormitories, as well as professional host family and apartment placement services are available. All international students who have a student visa (F-1) are

required to check in at the International Education Center upon arrival and to attend the mandatory arrival orientation. Student visa holders will be assisted with the processing of required documents and provided with information on upcoming international student activities and events.

Library Website (<http://library.sbcc.edu>)

The Eli Luria Library embraces its slogan (Explore, Learn, Grow), seeking to inspire discovery by offering dynamic, innovative, and welcoming physical and virtual environments for students and faculty, and providing the resources, services, and instruction they need to achieve educational, professional, and personal growth and success. The library plays a central role in the life of the campus and is visited by thousands of students a day.

Professional librarians are available at all open hours for reference and research support, and to provide instruction in information competency, whether one-on-one or in research workshops. Services are provided in-person, using chat online at the library website, or by telephone.

There is a collection of over 92,000 titles, selected with faculty and student recommendations, as well as 325 print periodical subscriptions.

This collection includes 123,500 electronic books and subscriptions to 58 electronic databases representing a wide range of disciplines, many of which provide access to more than full-text periodicals. Copies of most course textbooks are available for short-term use. Access to the library catalog and information about all services are available through the Library website. Checkout of library materials is accomplished with student ID. Access to databases and other online library resources is available through the library website, from on or off campus. Books and copies of articles from periodical titles not owned are available to the SBCC students, faculty, and staff via interlibrary loan.

The Luria Library provides seating for more than 600, in individual study carrels, as well as group study rooms and lounge areas. Group study rooms can be reserved online. In addition to 50 desktop computers, there are 50 laptop computers available for 4 hour checkout. Students, faculty, and staff can use scanners, photocopiers and black/white and color printers. Wi-Fi access using personal computers and other devices is provided throughout the library.

The library hosts student and faculty-led events and meetings, and welcomes collaborations with other departments, clubs and programs. The Buzz Shack is the library café, where students can purchase coffee drinks, juices and pastries during most open hours. Extended hours are available prior to finals week each semester.

Its staff assists individual students and student groups in coordinating activity projects, along with providing support to SBCC's clubs and Associated Student Government/Student Senate.

A variety of services and programs are provided by the department upon request. It is the place where students go if they need information on poster and sign-making, use of the Free Speech Area, display tables for literature, authorization to solicit funds on behalf of a campus club, weekly calendar of events, participation in student government, student activity information, senior discount cards, housing, MTD bus pass information, housing and participation on college committees.

Orientation Services

Orientation Website (<http://www.sbcc.edu/orientation/>)

Orientation provides new students with information about Santa Barbara City College in order to prepare them for a successful college experience. Topics include educational programs, support services, college facilities, student life, and students' rights and responsibilities.

All new students are strongly encouraged to participate in college orientation. However, college orientation is required of all students who have never attended college, or attended while in high school, or new transfer students, and indicated a goal of degree, certificate, transfer or basic English/math skills or an undecided educational goal on their SBCC application.

Separate from college orientation, several departments and support programs may require supplemental orientations to familiarize students with services, procedures and policies of the department or program.

Student Health and Wellness promotes wellness, disease prevention and healthy lifestyle choices.

Medical Services - Same day appointments during office hours are offered with a registered nurse or a clinician for the assessment of illness conditions, health counseling and community referrals. First aid is also available. Limited laboratory services and prepackaged pharmacy items as prescribed by the clinician are available at a reduced cost.

Personal Counseling - Student Health offers free and confidential individual and group counseling services. We offer an intake session devoted to defining personal concerns, short term counseling, and

referrals. Personal counselors also offer workshops, class presentations, and outreach with various campus programs.

The WELL - The WELL is a wellness center and health education program that promotes student health and wellness on campus and teaches people how to live life to the fullest! The WELL also has a student club that offers a place for friendship and community for all SBCC students. The program hosts educational and interactive campus events, workshops, presentations and events that educate students about mental and emotional wellness, sexual health and relationships, healthy eating and active living, substance awareness and bystander intervention. The WELL is located in ECC 21.

The SBCC Anchor Program - Anchor promotes alcohol and other drug related risk reduction through education and outreach on campus and within the community. It also offers confidential counseling, support, and referrals for students with substance related concerns. For students interested in smoking cessation, free nicotine replacement therapy is available.

For further information on The WELL and college health issues, to make an appointment for medical or counseling services or to access community resources please contact Student Health and Wellness.

The U.S. Department of Education's Office for Civil Rights (OCR) enforces, among other statutes, Title IX of the Education Amendments of 1972. Title IX protects people from discrimination based on sex in education programs or activities that receive Federal financial assistance. Title IX states that:

No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

Students, faculty and staff of the Santa Barbara City College (SBCC) community, guests and visitors have the right to be free from sexual misconduct and any other form of gender-based discrimination and violence. All members of the campus community are expected to conduct themselves in a manner that does not infringe upon the rights of others.

Santa Barbara City College does not tolerate sexual misconduct, which includes, but is not limited to, domestic violence, dating violence, sexual assault, and sexual stalking. When an allegation of misconduct is brought to an appropriate employee's attention and a respondent is found to have violated any sexual misconduct district policies, appropriate sanctions will be used to reasonably ensure that such actions are never repeated.

Transfer Scholars Website (<http://www.sbccc.edu/transferacademy/>)

The Transfer Scholars Program (TSP), formerly known as the Transfer Academy, is an award-winning support program located within the Transfer Center that guides you through the process and courses needed to qualify for guaranteed transfer (<https://mail.google.com/mail/u/0/sbccc.edu/tag/>) to one of the twenty-one universities by the most efficient and effective means possible.

Our Mission: The mission of the SBCC Transfer Scholars Program is to ensure a transfer culture by providing comprehensive support services to empower, inform, and educate students seeking to transfer to a four-year institution. The Transfer Scholars team is committed to providing quality, holistic professional services that are responsive to students' individual needs. Our goal is to increase visibility, awareness of services, access to transfer information, build partnerships, and, most importantly, prepare students to transfer to both public and private baccalaureate-granting educational institutions.

The Transfer Scholars Program: As one of the leading community colleges in California - and the nation - Santa Barbara City College is known for its excellent transfer rates to four-year colleges and universities. The cornerstone of this reputation is a college-wide commitment to ensuring that you are provided every opportunity to

succeed academically and personally by offering you excellent teaching and support services through partnerships with four-year institutions, a highly transferable curriculum, and a comprehensive Transfer Center.

The Transfer Scholars Program assures you of timely transfer to the prestigious University of California System (<http://universityofcalifornia.edu/>) ranked among the top teaching and research institutions in the United States. **UC Santa Barbara** leads all campuses with the most SBCC transfer students, who make up about 1/3 of their transfer pool. California State University **Channel Islands** is one of the **23 CSU's** that are served by the Transfer Scholars. The CSU is a leader in high-quality, accessible, student-focused higher education and is the largest, most diverse, and one of the most affordable university systems in the country. Lastly, **Antioch University**, a private institution in Santa Barbara, offers a unique education that integrates theory and practice.

To participate, students must apply (https://www.sbccc.edu/transferacademy/become_member.php) to the Transfer Scholars Program. The application will serve as a statement of intent to meet the requirements for one or more TAGs.

Of Note: Participation in the Transfer Scholars Program is voluntary and not required to obtain a TAG from the universities. Any SBCC student who meets TAG requirements and deadlines for the specific university can qualify for a TAG.

The Transfer Center, located in Room SS-140, is designed to offer assistance to students with the transfer process. The center provides a variety of services, resources and programs designed to help SBCC students achieve transfer to a four-year university. Services include hosting the annual Transfer Day each Fall, transfer-related workshops, and hosting admissions representatives from the California State University and University of California institutions, as well as many independent California colleges and universities.

Two transfer-related programs are also housed in the Transfer Center. The Transfer Academy works with students who want to participate in the Transfer Admission Guarantee (TAG) programs offered by most University of California campuses, and other private and out-of state universities. The Transfer Achievement Program (TAP) is designed to assist ethnically underrepresented, low-income, and/or first generation students who want to transfer. Students must join the programs in order to participate.

Students may also obtain additional information on Transfer Center services and programs by visiting the center in person, by calling (805) 730-4347.

Veterans Support Website (<http://www.sbccc.edu/veteranssupport/>)

Santa Barbara City College is fully prepared to assist veterans in securing their educational benefits. The Veterans Support and Resource Center is located in ECOC Building 1, Room 3. Our comprehensive website (<http://www.sbccc.edu/veteranssupport/>) and packet provides information on eligibility, application procedures and special assistance.

Any coursework or college credit undertaken by active duty personnel, veterans and qualified dependents at an accredited institution of higher education, and officially recorded on an educational transcript, shall be reviewed and evaluated by Santa Barbara City College, and appropriate credit value given toward an Associate Degree, Certificate of Achievement, or other applicable goal in higher education. Both the student and the Veterans Administration are notified of previous credit accepted toward the current goal.

Veterans and dependents of veterans may be eligible to receive a monthly check depending on the program that they qualify for: Veterans Educational Benefits, Post-9/11 G.I. Bill (Chapter 33), Montgomery G.I. Bill Chapter 30, 31 VA Vocational Rehabilitation, 1606, 1607 (REAP) and/or Dependent's Educational Assistance Program Chapter 35 of the U.S. Code. The Department of Veterans Affairs Regional Office can inform you of your eligibility at (888) 442-4551. For more information, visit the US Department of Veterans Affairs website (<http://www.gibill.va.gov>).

New students should contact the Veterans Support and Resource Center at least two months prior to the term they plan to attend to initiate required paperwork. Continuing students also should check in

at the VSPRC at least two months prior to the next term of attendance to complete any paperwork that might be required for continuous VA payment.

A maximum of twenty-four (24) credits may be granted to active duty service members and veterans for military service based on *A Guide to the Evaluation of Educational Experiences in the Armed Services*, published by the American Council on Education. After enrolling at Santa Barbara City College, an honorably discharged veteran or an active duty service member who has served on active duty a minimum of 180 days may apply for evaluation of military service experience for college credit. At a minimum, credit will be applied towards the PE requirement for the SBCC Associate Degree (Area E-3) based on official discharge documents (DD-214 or DD-295) or official military experience transcripts recognized by the American Council on Education (e.g., AARTS, SMART) and completion of fifteen (15) units at Santa Barbara City College. A copy of the veteran's DD-214 separation form and/or official military experience transcripts and an SBCC Alternate Credit Petition form must be submitted to the Transcript Evaluations Office. Credit granted for military service is based on *A Guide to the Evaluation of Educational Experiences in the Armed Services*, published by the American Council on Education. A maximum of 12 elective credits will be granted for selected DANTES (DSST) subject standardized tests. A minimum score of 50 is required.

Veterans' priority registration is available to veterans (any member or former member of the armed forces of the United States of America) within five years of leaving active duty, including, but not necessarily limited to, any student who is called to active military duty compelling the student to take an academic leave of absence. For additional information on veterans priority registration, contact SBCC Admissions & Records.

The spouse and children of U.S. veterans meeting the eligibility criteria may have their fees waived if they attend a California Community College, a California State University, or University of California campus. For eligibility requirements, contact the Santa Barbara Veterans County Service Office at (805) 681-4500 or the veterans county service officer in your county.

Veterans' Benefits

As part of the Veterans Benefits and Transitions Act of 2018, section 3679 of title 38, United States Code was amended to include the following provisions, effective August 1, 2019, which Santa Barbara City College fully complies with.

These provisions apply to covered individuals. A "covered individual" is any person who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill benefits.

Santa Barbara City College permits any covered individual to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33. A certificate of eligibility can also include a statement of benefits obtained from the Department of Veterans Affairs (VA) website—eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes and ending on the earlier of the following dates:

1. The date on which payment from the VA is made to the institution.
2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.

Santa Barbara City College does not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other

institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from the VA under chapter 31 or 33. Questions about these provisions can be directed to the Veterans Support and Resource Center at Santa Barbara City College.

Volunteer Opportunities website (<http://www.sbccc.edu/careercenter/>)

The Santa Barbara City College Career Center offers volunteer opportunities for students interested in community service, career exploration and personal growth. It provides an online job posting service listing volunteer opportunities and sponsors fairs every semester that invite local employers to campus allowing students to apply for openings. To receive college credit for volunteer experience, refer to the Work Experience (p. 355) section of this Catalog. Students may also participate in one-time events, such as yearly festivals, educational camps, or special cleanup projects.

The program is committed to helping students gain easy access to volunteer opportunities in the community. Additional information about volunteer opportunities is available at the Career Center.

STUDENT RIGHTS

Santa Barbara City College is committed to the success of each student, providing a variety of ways for students to access outstanding and affordable higher education programs that foster lifelong learning. SBCC works to ensure academic success for all students as they earn a degree or certificate, prepare for transfer, or gain the occupational competencies and academic skills needed to advance in their careers. To achieve the environment and conditions essential to the pursuit of this mission, SBCC has developed procedures regarding student rights and responsibilities. These procedures may be obtained from the Dean, Student Affairs, Room SS-260.

1. Students shall have the right of protection against prejudiced or capricious academic evaluation. Students have the right to impartial, objective evaluation of their academic performance and to receive in writing, at the beginning of each course, information outlining the method of evaluating student progress toward, and achievement of, course goals and objectives, including the method by which the final grade is determined.
2. Students shall be assured that all college programs and activities are available to all persons without regard to ethnic group identification, sexual orientation, religion, age, gender, color, or physical or mental disability. The Santa Barbara Community College District subscribes to the principles and implementation of Equal Opportunity and Affirmative Action and to the provisions of Assembly Bill 803. (Further information may be obtained from the District's EOAA Officer/Vice President of Human Resources.)
3. Students shall be free from acts or threats of intimidation, harassment, mockery, insult, or physical aggression. Santa Barbara City College expressly prohibits sexual harassment by all faculty, staff and students. The college is committed to creating and maintaining an educational environment which is free of objectionable and disrespectful conduct, and communication of a sexual nature that interferes with an individual's work or classroom performance or creates an intimidating, hostile or offensive working or learning environment.
4. Students shall have the right to free assembly and to exercise free expression. This includes the right to hear and to present speakers on any subject. The right to free assembly is subject only to regulations that ensure the regular functioning of the college; these regulations shall include reasonable provisions for the time, place and manner of conducting these activities. The exercise of free expression includes, but is not limited to, the use of bulletin boards and the distribution of buttons, badges and other insignia. The right of free expression does not include discriminatory harassment, speech, or other expressions, which insult or stigmatize individuals or groups on the basis of gender, race, color, disability, religion, sexual orientation, or national and ethnic origin.
5. Students shall have the right to form an organization around any particular interest and to join student organizations, subject to published district policy.
6. Students shall have the right to be informed on all campus matters that can be shown to be directly relevant to them and to have a voice in decision-making that affects their academic future. Students are to have an active role in campus governance by having student members on all faculty and administrative committees, as well as groups which deal with matters related to student concerns (with the exception of staff appointments, terminations and tenure or confidentiality where other students are concerned). In case of

conflict, the determination of what campus matters are relevant to students will be determined by a campus-designated student/faculty/administrative committee.

7. Students have the right to have student publications which are free from censorship and advance copy approval, except as provided by published district regulations which adhere to the guidelines for responsible journalism.

Academic Records

1. Students shall have the right to have their academic records treated in a confidential and responsible manner as required by the Family Educational Rights and Privacy Act of 1974 and outlined in SBCC district policy which stipulates that any release of student educational records be made with the student's written consent, except where specified. An authorized release of educational records to a third party does not obligate the college to discuss the student's academic record with a third party with or without the student's consent.
2. Students have a right to inspect and review the content of their educational records and to request copies of these records. Students wishing to gain access to their educational records will submit a written request to the Director of Admissions & Records, requesting the right to inspect and review their educational records.

Due Process

Procedures for due process are described in the District's Student Discipline Procedures (AP 5520) (http://www.sbccc.edu/boardoftrustees/files/policies/chapter_5_ap/AP%205520%20Student%20Discipline.pdf). Copies are distributed to all new students during advisement. For more information, contact the Dean, Student Affairs, Room SS-260.

Family Educational Rights and Privacy Act

All Santa Barbara City College student records are kept in accordance with the provisions of the Family Educational Rights and Privacy Act (FERPA) and California code of Regulations, Title 5. FERPA affords students certain rights with respect to their education records. These rights include:

- The right to inspect and review the student's education records within 15 days of the day Santa Barbara City College receives a written request for access. Contact the Dean, Student Affairs for more information.
- The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy under FERPA. Contact the Dean, Student Affairs for more information.
- The right to provide written consent before Santa Barbara City College discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent. Santa Barbara City College discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including security and health staff), a person or company with whom the College has contracted as its agent to provide a service instead of using College employees or officials; a person serving on an official committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to

review an education record in order to fulfill his or her professional responsibilities for the College.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Santa Barbara City College to comply with the requirements of FERPA.

Family Policy Compliance Office,
U.S. Department of Education,
400 Maryland Avenue SW,
Washington, DC 20202-5901

- Educational records are maintained in the college's Admissions & Records Office (SS-110), which is supervised by the Director, Admissions & Records. Students also have the right to review their personal information at Student Health Services (Nurse, SS-170); Financial Aid Office (Financial Aid Specialist, SS-210); Veterans Office (Clerk, ECOC-1, Rm. 7); SBCC Foundation (Executive Director, A-210); Extended Opportunity Program/Services (Director, SS-240); and Disabled Student Program/Services (Director, SS-160).
 - SBCC may provide directory information (http://www.sbccc.edu/boardoftrustees/files/policies/chapter_5_bp_final/BP%205040%20Student%20Records_Directory%20Info_Privacy%20Rev.%205-10-14%20Ready%20for%20Website.pdf) in accordance with the provisions of FERPA. Designated directory information at SBCC includes the following: confirmation of current enrollment at SBCC, dates of attendance, the degrees/awards received, students on the President's Honor Roll, names of student officers and those who participate in intercollegiate athletics including name, photograph, weight, height, and high school of attendance of athletic team members.
 - Student Records may be released to the SBCC Foundation (<http://www.sbcccfoundation.org>) in connection with a student's application for, or receipt of financial aid. Personal identification of students may be disclosed only as may be necessary for the purpose of determining eligibility for the SBCC College Promise.
 - A student may request a copy of a record which the student has requested or consented to be released. If a student desires a copy of file material subject to his/her review, it will be provided at a cost of \$1.00 for the first copy and 50 cents for each additional copy.

Particular questions with respect to a student's rights under the *Family Educational Rights and Privacy Act of 1974* should be directed to the Dean, Student Affairs, Room SS-260.

Financial Aid Rights

1. Students have the right as applicants for/or recipients of financial aid to information about procedures, deadlines, refund policies, eligibility requirements and the appeal process.
2. Students have the right to file a grievance, in the event of an alleged breach of their rights, as outlined in the student grievance policy which is available from the office of the Dean, Student Affairs, Room SS-260.

Grievance Rights

1. Students have a right to be informed in writing of the issues and charges, and be given the opportunity to refute the charges, in any conflict relating to student discipline.
2. Students have the right to be free from the imposition of disciplinary sanctions without proper regard for due process.

3. Students have a right to file a grievance, in the event of an alleged breach of their rights, as outlined in the student grievance policy.

For information on grievance procedures, refer to AP 5530, Student Rights and Grievances (http://www.sbccc.edu/boardoftrustees/files/policies/chapter_5_ap/AP%205530%20Student%20Rights_Grievances.pdf) or contact the Dean, Student Affairs, Room SS-260.

Student Success and Support Rights

1. Each student has the right to develop an individual written student education plan with a counselor within 90 days after a specific individual educational goal has been declared.
2. Students have the right to have their educational plan reviewed as needed by a counselor/academic adviser to ensure that it continues to accurately reflect the needs and goals of the student.
3. Students may challenge any prerequisite, using the Prerequisite Challenge procedures (<http://www.sbccc.edu/prerequisites/>) on one or more of the following grounds:
 - a. Student has the knowledge or ability to succeed in the course despite not meeting the prerequisite (e.g., student has prior coursework, assessment levels, certification, license or work experience that satisfies the prerequisite, or by other criteria presented by the student).
 - b. The prerequisite course has not been made reasonably available ("reasonably available" is defined by the college).
 - c. The prerequisite is discriminatory or applied in a discriminatory manner.
 - d. The prerequisite is not necessary for success in the course.
 - e. The prerequisite approval did not follow SBCC district policy.
4. Students may obtain a waiver of any prerequisite or corequisite course for a particular term because the course is not available to students during two consecutive terms.
5. Students may review the matriculation regulations of the California Community Colleges and file a complaint when they believe the college has engaged in any practice prohibited by these regulations. The regulations are available and complaints may be filed in the office of the Dean, Student Affairs, Room SS-260.
6. Students may challenge Student Success and Support regulations through the student grievance process available from the Dean, Student Affairs, Room SS-260.
7. A list of exemptions to Student Success and Support components is available in Admissions, Counseling, or from the Dean, Student Affairs, Room SS-260.
8. The college's policy on "registration priorities" is available from the Director, Admissions & Records, Room SS-110.

Non-Discrimination/Prohibition of Harassment

The policy of the Santa Barbara Community College District is to provide an educational and employment environment in which no person shall be denied full and equal access to, the benefits of, or be subjected to discrimination, in whole or in part, on the basis of national origin, religion, age, gender, gender identity, gender expression, race, ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, military and veteran status, or on the basis of these perceived characteristics or based on association with a person or group with one or more of these

actual or perceived characteristics, in any program or activity that is administered by, funded directly by, or that receives any financial assistance from the State Chancellor or Board of Governors of the California Community Colleges.

The policy of the Santa Barbara Community College District is to provide an educational and employment environment free from unlawful harassment, including unwelcome sexual advances, requests for sexual favors, sexual favoritism, or other verbal or physical conduct or communications constituting sexual harassment.

The following definition will aid in identifying the kinds of behavior which constitute sexual harassment:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

1. *Submission to or rejection of such conduct is made either explicitly or implicitly a term or condition of instruction, employment, or participation in other college activity;*
2. *Submission to or rejection of such conduct by an individual is used as a basis for evaluation in making academic or personnel decisions affecting an individual; or*
3. *Such conduct has the purpose or effect of unreasonably interfering with an individual's performance or creating an intimidating, hostile, or offensive college environment.*

The policy of the Santa Barbara Community College District is to comply with the accessibility requirements of Section 508 of the *Rehabilitation Act* of 1973 in the development, procurement, maintenance, or use of electronic or information technology and respond to and resolve discrimination complaints regarding accessibility. Such complaints will be treated as complaints of discrimination on the basis of disability.

This non-discrimination policy covers admission, access and treatment in college programs and activities—including, but not limited to, academic admissions, financial aid, educational services and athletics—and applications for, and treatment in, college employment.

In conformance with the requirements of *Title II of the Educational Amendments of 1976*, amending the *Vocational Education Act of 1963*, the college is committed to overcoming sex discrimination and sex stereotyping in vocational education programs.

Furthermore, in compliance with the *Vocational Education Guidelines for Eliminating Discrimination on the Basis of Race, Color, National Origin, Sex and Handicap*, lack of English language skills alone will not be a barrier to admission to and participation in vocational education programs. Any screening procedures for vocational programs will evaluate skill levels and proficiencies pertinent to the program as criteria for admission.

Employees, students, or other persons acting on behalf of the district who engage in discrimination as defined in this policy or by state or federal law may be subject to discipline, up to and including suspension, discharge, expulsion, or termination of employment.

“Política contra la discriminación/Política contra el acoso u hostigamiento sexual”

La política del Distrito de Santa Barbara Community College es la de ofrecer un ambiente educativo y de empleo, en el cual a ninguna persona se le niega el pleno y paritario acceso ni sus beneficios, o ser sujeto de discriminación, totalmente o en parte, en base a su identificación con un grupo étnico, nacionalidad, religión, edad, género, raza, color, ascendencia, orientación sexual, discapacidad física o mental, o en base a la percepción de estas características, o en base a la asociación con una persona o grupo con una o más de estas características, ya sea percibidas o reales, en cualquier programa o actividad administrada, patrocinada directamente, o para la que recibe cualquier asistencia financiera del Canciller del Estado o de la Junta de Gobernadores de las Instituciones Postsecundarias de dos años (California Community Colleges Board of Governors).

La política del Distrito de Santa Barbara Community College es proporcionar un ambiente educativo y de empleo libre de solicitudes sexuales forzadas, solicitudes de favores sexuales, favoritismos basados

en el sexo u otra conducta física o verbal o comunicación que constituye acoso u hostigamiento sexual.

La siguiente definición ayuda a identificar los tipos de comportamientos que constituyen el acoso u hostigamiento sexual:

Las solicitudes sexuales forzadas, solicitudes de favores sexuales y otra conducta verbal o física de naturaleza sexual constituyen acoso u hostigamiento sexual cuando:

1. La sumisión o el rechazo a tal conducta se expresa explícitamente como una condición para la instrucción, el empleo o la participación en una actividad de la universidad;
2. La sumisión o el rechazo a tal conducta por un individuo se usa como base para evaluar y tomar decisiones académicas o de personal que afectan al individuo; o
3. Tal conducta tiene el propósito o efecto de interferir desproporcionadamente con el rendimiento de una persona o de crear un ambiente universitario hostil, intimidador u ofensivo.

La política del Distrito de Santa Barbara Community College es la de cumplir con los requisitos de accesibilidad de la Sección 508 de la Ley de Rehabilitación de 1973 en el desarrollo, consecución, mantenimiento, o uso de información electrónica, o información tecnológica, y responder y resolver las

quejas de discriminación relacionadas con la accesibilidad. Tales quejas se tratarán como quejas de discriminación basada en la discapacidad en cuestión.

La política de no-discriminación cubre la admisión, el acceso y el tratamiento recibido en los programas y actividades universitarios—incluyendo, pero no limitados a, la admisión académica, ayuda financiera, servicios educativos y deportes—y la solicitud a y el trato en el empleo en la universidad.

En conformidad con los requisitos del Title II de las Enmiendas Educativas de 1976, enmendando el Vocational Education Act de 1963, la universidad se compromete a superar la discriminación sexual y los estereotipos en los programas de educación profesional.

Es más, en cumplimiento de las Guías para la eliminación de la discriminación en base a la raza, el color, la nacionalidad, el sexo y la discapacidad en programas de Educación Profesional, la falta de lengua inglesa en sí misma no será barrera para la admisión y participación en programas de educación profesional. Cualquier procedimiento de selección para programas profesionales evaluará los niveles de habilidad y destreza pertinentes al programa como criterio de admisión.

Los empleados, estudiantes, y otras personas que actúen en nombre del Distrito y que actúen discriminatoriamente tal y como se define en este reglamento o en las leyes del estado o federales, están sujetos a medidas disciplinarias que pueden incluir la suspensión, el despido, la expulsión o la rescisión de contrato.

STUDENT RESPONSIBILITIES

It is the responsibility of each student at Santa Barbara City College to be a responsible member of the college community by reading and complying with the published policies, procedures, rules and regulations of the college, as outlined in this *Catalog*, the *Schedule of Credit Classes* and other official materials, including online publications by visiting the SBCC website (<http://www.sbcc.edu>). The following are some of the most frequently referenced policies and administrative procedures.

Academic Integrity Policy (BP 5550; AP 5550)

These procedures expand, clarify and set forth clear levels of authority and disciplinary protocols in response to academic dishonesty, as referenced in Santa Barbara City College's *Standards of Student Conduct*.

Definitions

Academic dishonesty is defined as an act of obtaining or attempting to present academic work through fraudulent or deceptive means in order to obtain credit for this work. Academic dishonesty includes, but is not limited to:

Cheating

Failure to observe the expressed procedures of an academic exercise, including, but not limited to:

- Unauthorized use of commercial "research" services, such as term papers
- Providing information to others without instructor's permission or allowing the opportunity for others to obtain information that provides the recipient with an advantage on an exam or assignment
- Unauthorized communicating with fellow students during a quiz or exam
- Copying material from another student's quiz or exam
- Permitting another student to copy from a quiz or exam
- Permitting another person to take a quiz, exam, or similar evaluation in lieu of the enrolled student
- Using unauthorized materials, information, or study aids (e.g., textbook, notes, data, images, formula list, dictionary, calculator, etc.) in any academic exercise or exam
- Unauthorized collaboration in providing or requesting assistance, such as sharing information on an academic exercise or exam through cell phones and texting
- Unauthorized use of another person's data in completing a computer or lab exercise
- Using computer and word processing systems to gain access to, alter and/or use unauthorized information
- Altering a graded exam or assignment and requesting that it be re-graded; submission of altered work after grading shall be considered academically dishonest, including, but not limited to, changing answers after an exam or assignment has been returned or submitting another's exam as one's own to gain credit
- Attempting to hinder the academic work of another student

Fabrication

Falsification or invention of any information in an academic exercise, including, but not limited to:

- Fabricating or altering data to support research
- Presenting results from research that was not performed; submitting material for lab assignments, class projects or other assignments, which is wholly or partially falsified, invented or otherwise does not represent work accomplished or undertaken by the student
- Crediting source material that was not directly used for research
- Falsification, alteration or misrepresentation of official or unofficial records or documents, including, but not limited to, academic transcripts, academic documentation, letters of recommendation, and admissions applications or related documents

Fraud, Misrepresentation, Lying

Intentionally making an untrue statement or deceiving including, but not limited to:

- Providing an excuse for an absence, tardiness, or late assignment with the intent to defraud the instructor, staff or the college
- Checking into a District class, lab, center or other District resource with the intent to defraud instructors, staff or the college
- Checking in or checking out of a District class, lab, center or other District resource for another student
- Using another student's District identification card for use in a class, lab, center or other District resource

Plagiarism

The presentation of another's words, images or ideas as if they were the student's own, including, but not limited to:

- Stealing the written, oral, artistic, or original works or efforts of others and presenting them as one's own
- The submission of material, whether in part or whole, authored by another person or source (e.g., the internet, book, journal, etc.), whether that material is paraphrased, translated or copied in verbatim or near-verbatim form without properly acknowledging the source. (It is the student's responsibility to cite all sources.)
- The submission of material edited, in part or whole, by another person that results in the loss of the student's original voice or ideas (i.e. while an editor or tutor may advise a student, the final work submitted must be the work of the student, not that of the editor or tutor)
- Translating all or any part of material from another language and presenting it as if it were the student's own original work
- Unauthorized transfer and use of another person's computer file as the student's own
- Unauthorized use of another person's data in completing a computer exercise

Multiple Submissions

Resubmission of a work with identical or similar content that has already received credit in a high school or another college course, including but not limited to:

- Resubmission of work with identical or similar content from a past course in a current course without written consent of the present instructor
- Submission of work with identical or similar content in concurrent courses without written consent of all instructors involved
- When retaking a course, resubmission of work with identical or similar content from the past section of the same course without written consent of the present instructor

Facilitating Academic Dishonesty

Assisting another to commit an act of academic dishonesty, including, but not limited to:

- Taking a quiz, exam, or similar evaluation in place of another person
- Allowing one student to copy from another
- Attending a course posing as another student who is officially registered for that course
- Providing material or other information (e.g., a solution to homework, a project or other assignments, a copy of an exam, exam key or any test information) to another student with knowledge that such assistance could be used to violate any other sections of this procedure
- Distribution or use of notes or recordings based on college classes without the express written permission of the instructor for purposes other than individual or group study; this includes, but is not limited to, providing materials for distribution by services publishing class notes. (This restriction on unauthorized use applies to all information distributed or in any way displayed for use in relationship to the class, whether obtained in class, via e-mail, on the Internet or via any other media.)

Culpability is not diminished when academic dishonesty occurs in drafts which are not the final version or when the student claims not to know the policy or procedures.

First Offense in a Course or Non-Course Activity

In course-related activities, when a student commits a first offense, decisions regarding the severity of penalties imposed for academic dishonesty shall reside with the instructor. An instructor may give written or verbal notice to a student that continuation or repetition of specified conduct may be cause for further disciplinary action. To ensure students are held accountable for the same infraction in a different course or semester, an 'Academic Integrity Violation Form (https://cm.maxient.com/reportingform.php?SantaBarbaraCityCollege&layout_id=1)' will be submitted by the instructor. If the instructor chooses further disciplinary action, they will note this request on the, "Academic Integrity Violation Form (https://cm.maxient.com/reportingform.php?SantaBarbaraCityCollege&layout_id=1)." The Chief Student Services Officer or designee shall retain this documentation in his/her files.

In non-course activities, when a student commits a first offense, the appropriate District employee shall notify the appropriate Dean, Educational Programs, and the Chief Student Services Officer or designee of the incident using the "Report a Concern Form (https://cm.maxient.com/reportingform.php?SantaBarbaraCityCollege&layout_id=0)."

Penalties for the first offense may include the following:

- A failing grade on the assignment, paper or exam. Violations related to placement shall nullify course placement for the term
- Temporary Exclusion from an Activity or Class: An instructor may remove a student who is in violation of the guidelines for student conduct for the duration of the class meeting or activity during which the violation took place and, if necessary, for the following class meeting.

- An additional assignment: An instructor may require the student to perform additional academic work

The student may appeal the determination of academic dishonesty and/or penalty using the discipline appeal procedure as outlined in AP 5520 Student Discipline Procedures.

Multiple Offenses in a Course or Non-Course Activity

In course-related activities, when a student commits a second or multiple offense(s), decisions regarding the severity of penalties imposed for academic dishonesty shall reside with the instructor and the Chief Student Services Officer or designee. The instructor shall notify the student of the penalties imposed and record the incident using the "Academic Integrity Violation Form (https://cm.maxient.com/reportingform.php?SantaBarbaraCityCollege&layout_id=1)."

In non-course activities, when a student commits a second or multiple offenses, the appropriate District employee shall notify the Dean of Student Affairs and the Chief Student Services Officer of the incident using the "Student of Concern Report Form (https://cm.maxient.com/reportingform.php?SantaBarbaraCityCollege&layout_id=0)."

Penalties for the second or multiple offense(s) may include penalties listed for the first offense and penalties detailed below under the heading Multiple Offenses at the College.

The student may appeal the determination of academic dishonesty and/or penalty using the discipline appeal procedure outlined in AP 5520 Student Discipline Procedures.

Multiple Offenses at the College

When the Chief Student Services Officer or designee, has determined that an academic dishonesty infraction is a second such offense or multiple offenses, he/she shall initiate institutional action. Penalties may include, in addition to those listed above:

- **Censure:** a verbal reprimand or recorded written statement which details how a student's conduct violates District regulations. The student receiving such a verbal or a written statement shall be notified that such continued conduct or further violation of District regulations may result in further disciplinary action.
- **Disciplinary Probation:** may consist of removal from all college clubs and organizations and denial of privileges of participating in all District or student- sponsored activities including public performances. Disciplinary probation may be imposed for a period not to exceed one year and can be rendered by an administrator. Notification of disciplinary probation actions shall be immediately reported in writing to the Chief Student Services Officer. A student placed on disciplinary probation may appeal to the Chief Student Services Officer. Records of disciplinary probation actions shall be retained in the office of the Chief Student Services Officer or designee and in the student's file. A student has no right to appeal or to a due process hearing (Education Code Section 76031).
- **Summary Suspension:** A student may be suspended from one or more classes for a period of up to ten days of instruction; from one or more classes for the remainder of the term; or from all classes and activities of the District for one or more terms. A suspended student may also be prohibited from occupying any portion of the campus and be denied participation in any or all college activities. Disciplinary suspensions shall be initiated by the Chief Student Services Officer

and are subject to the Due Process Hearing and Appeal Procedures set forth in Section E of AP 5520 Discipline Procedures. Records of disciplinary suspensions shall be retained in the office of the Chief Student Services Office and in the student's file (Education Code Sections 66017, 76030, and 76031).

- **Expulsion:** the permanent and unconditional removal of a student from the District. A student may be expelled only by the Board of Trustees upon recommendation of the Superintendent/President. The expulsion of a student is initiated by Chief Student Services Officer and is determined according to the Due Process Hearing and Appeal Procedures set forth in Sections E and F of AP 5520 Student Discipline Procedures (Education Code Section 76030).

Alcohol and Drug Use Policy

The *Drug-Free Schools and Communities Act* Amendments of 1989 require institutions of higher education to implement a drug prevention program, which includes the annual dissemination of the following policy on alcohol and drug use:

Santa Barbara City College is committed to the success of each student and, as a college it realizes that the use of alcohol and drugs can be a major impediment to success.

There are physical and psychological health risks associated with drug and alcohol use, including decreased immunity, exhaustion, decreased muscle coordination, depression, confusion and paranoia, among other conditions. In most cases, anyone who uses drugs and abuses alcohol can expect a decline in the quality of his/her life and difficulty with academic success.

The Student Health Services Program offers educational programming, peer health education programs, resources and counseling, as well as referrals to community service agency counseling and rehabilitation programs.

According to the *Standards of Student Conduct*, possession, use or distribution of illicit drugs and alcohol on college property or during campus-related activities are subject to disciplinary action. This can be up to, and including, expulsion from SBCC, as well as punishment under California State law.

Animals on Campus

Members of the campus community and visitors to the campus may bring their dogs or other pet animals to the campus as long as the owners comply with state and local regulations and these animals do not become a threat, nuisance, or significant distraction. With the exception of service animals, as defined in AP 3440, pet animals are not allowed in any District building, La Playa Stadium, or any District vehicle. See AP 3445 *Animals on Campus* for more information. Questions on college and municipal regulations in this area should be directed to the Campus Security Office.

Attendance

All students enrolled at Santa Barbara City College are expected to be punctual and to attend class regularly. Students who are not in attendance at the first class meeting are considered "no-shows" and the instructor may drop such persons in order to give their seats to non-registered students seeking to enroll. Also, an instructor may withdraw a student from semester-length courses at any time for excessive absence through the 9th week of the Fall/Spring semesters, and the 60% point of the class for Summer and courses less than a semester in length. As a

guideline, absence is considered excessive if a student misses three (3) meetings, or the equivalent of one week of class attendance or according to absence guidelines as published in the course syllabus.

Absence due to a verified illness may be accepted as an excused absence for a limited period of time. Students are expected to notify their instructor by e-mail and/or phone message if they are absent for a medical reason. Students are expected to make appointments for medical and dental treatments at times other than when classes are scheduled. Students anticipating or encountering extended absences due to medical, personal or family emergencies should contact the Dean, Student Affairs, Room SS-260, (805) 730-4037.

It is the student's responsibility to officially withdraw online or in person in Admissions & Records prior to the published deadline. Students failing to officially withdraw may receive an "F", "FW" or "NP" grade.

College Records

It is the responsibility of each student to:

1. Update their personal data within the Pipeline Portal.
2. Withdraw officially from the college or drop classes when the student stops attending and to observe established deadlines.
3. Submit legal, not fraudulent, documents.
4. Repay any money received or owed as a result of the submission of fraudulent documentation or any other reason.

Conduct

Santa Barbara City College is firmly committed to principles of honor, integrity, mutual respect and responsible citizenship. These values are embodied within the college's Honor Code. The Honor Code is the keystone to the college's belief that its students should act honorably and responsibly in all aspects of life, both on- and off-campus. The Honor Code incorporates the fundamental principles of honor, respect, citizenship and integrity in both personal conduct and academic work.

An effective honor code depends upon each student adhering to the spirit and letter of its principles. It demands accountability on the part of each student for his or her actions. Its essence is that any violation of this Code is an offense against the college community as a whole. The Honor Code is binding on all students and applies to all phases of student life at Santa Barbara City College. Students are responsible for their conduct at all times and shall be subject to disciplinary action for behavior that discredits themselves or Santa Barbara City College.

Honor Code

As a citizen of an academic community built upon a framework of trust, respect, integrity and honor, I pledge to uphold the values of the Santa Barbara City College Honor Code.

Academic Promise

I pledge truthfulness and absolute honesty in my performance on all academic work and pledge that all such work is a product of my efforts unless specifically assigned to be undertaken in a collaborative manner.

Community Promise

- I pledge to be truthful at all times, to treat others with civility and respect, to respect the property of others and to adhere to Santa Barbara City College policies, administrative procedures and standards of student conduct.

- Accepting both the privileges and responsibilities of living by this code of honor, I resolve to uphold this code and not to tolerate any violations of its spirit or principles.
- As a commitment to these principles of honor and responsible citizenship, Santa Barbara City College students will be asked to read and sign the Honor Code as part of the application process.

Education Code Section 66300 states that the Board of Trustees shall adopt specific rules and regulations governing student behavior, along with applicable penalties, and that each student shall be provided with a copy of such policies. In compliance with this *Education Code* Section, the Board approved *Standards of Student Conduct* policies. A copy of these policies is available at Admissions & Records, SS-110 and are also available from the Dean, Educational Programs—Student Affairs, SS-260.

Financial Aid Satisfactory Progress Standards

- Federal regulations mandate that all institutions of higher education establish minimum standards of “satisfactory academic progress” for students receiving financial assistance.
- All students who apply for and receive financial assistance are expected to meet the academic standards described in Santa Barbara City College’s *Financial Aid Satisfactory Academic Progress Policy*.
- Copies of the Financial Aid Satisfactory Academic Progress Policy are available in the Financial Aid Office, Room SS-210, or read it online on the Financial Aid website (<http://www.sbccc.edu/financialaid/>) under Downloadable Forms.

Responsibilities

It is the responsibility of an applicant for, and recipient of, financial aid to:

1. Provide complete and accurate information regarding financial aid enrollment status, and any changes which may occur, knowing that he/she is responsible for any consequences which may result from misreporting information.
2. Understand the college’s refund policy.
3. Understand the college’s academic standards policy.
4. Repay all student loans and notify the lender of any changes in name, address, or enrollment status.
5. Perform the work that is agreed upon on acceptance of a Federal Work Study (FWS) award.
6. Submit verifiable legal documents.

Injury/Accident Reporting

All accidental student injuries must be reported to the Student Health Services Office Room SS-170 within 72 hours of the incident to be eligible for student accident policy insurance coverage. This coverage is limited to accidental injuries, as defined by the insurance policy, while participating in college classes or activities and is secondary to any other medical insurance the student may have. Coverage and limitations are outlined in a brochure available in the Student Health Services Office.

Smoke-Free Workplace Policy

It is the intent of the college’s governing Board of Trustees to maintain a workplace that is conducive to the health and safety of our students and employees. Realizing the health hazards posed by smoking and by second-hand smoke, it is the policy of the Santa Barbara Community

College District to maintain a smoke-free campus. In addition, the use of smokeless tobacco is prohibited in any campus facility.

- This policy pertains to students, faculty, staff, administrators, visitors and the general public attending campus events.
- This policy shall apply to all SBCC facilities, owned or leased, regardless of location, and all state and auxiliary vehicles.
- Tobacco products shall not be commercially sold or distributed in any manner on campus. This includes free samples distributed by vendors. Advertising and sponsorship of campus events by tobacco companies is also prohibited.
- The campus shall make available to students, faculty, staff and administrators information about smoking-cessation programs.
- Smokers are requested to refrain from smoking while on campus. In any dispute arising under this policy, the rights of the non-smoker shall have preference. The district’s Grievance Policy may be used in cases of unresolved disputes regarding this policy.

This policy is compliant with State law AB-846, Chapter 342, Sections 19994.30 and 19994.33, of the *Government Code Relating to Tobacco*.

Student Success and Support Responsibilities

It is the responsibility of the matriculated student to:

1. Identify an education and career goal.
2. Cooperate with the college in the development of an Individual Educational Plan within the prescribed time period and to abide by the terms of that plan.
3. Participate in counseling if the student is an undecided student, is on probation, and/or is enrolled in English, reading or math courses that do not count toward the Associate Degree.
4. Diligently engage in course activities and complete assigned coursework.
5. Complete courses and maintain progress toward an educational goal and completing a course of study.

It is the responsibility of the College to:

1. Take steps to ensure information regarding its matriculation policies and procedures are accessible and available to students.
2. Ensure that once a student has identified a course of study and completed 15 semester units of degree applicable course work the college shall provide the student with an opportunity to develop a comprehensive student education plan.

Parking and Traffic Regulations

Bikes, Skating and Skateboarding

Students are requested by the Campus Security Office to observe the following rules and advisories regarding bicycles, roller skating and skateboarding:

1. On campus, ride your bike on designated bike routes only;
2. have your bike registered with the City of Santa Barbara;
3. park and lock your bike in the bike racks provided;
4. bikes parked illegally will be impounded;
5. if you use your bike for transportation to and from campus, be sure to have sufficient lights and reflectors for night riding and good visibility; and

6. no roller devices (roller skates, roller blades, skateboards, coasters, scooters, toy vehicles, or any similar device) are permitted on campus at any time.

Disabled Student Parking

Certain areas on the Santa Barbara City College campus have been designated for parking by disabled/handicapped students. Those students with significant disabilities may obtain authorization to park in such areas. Disabled parking permits may be applied for through the DSPS Office, Room SS-160. All vehicles parked in "Handicapped" zones must display the fee parking permit and a handicapped symbol. "Handicapped" zone violators will receive a \$350 citation.

Mopeds and Motorcycles

Permits are not required for mopeds and motorcycles. However, they may be parked only in the designated areas for such vehicles on campus.

Parking and Traffic Enforcement

In accordance with the vehicle code, parking citations will be given for illegally parked vehicles in all campus parking lots. Payments should be submitted to the Cashier's Office, Room SS-150. Illegally parked vehicles may be towed away at the owner's expense. Vehicles with 5 or more outstanding citations may be subject to immobilization. The penalty fee schedule ranges from \$20 to \$350. If left unpaid for more than 21 days, a citation's cost doubles in price. Failure to pay for the citation or make appearance, as required, will result in further legal action.

Permit Parking

Any student who intends to park a vehicle on campus must purchase a parking permit or pay for metered parking. Student permits may be purchased on Pipeline (<http://pipeline.sbccc.edu>). Student parking areas are provided along Loma Alta Drive, Shoreline Drive (beach frontage) Pershing Park and in West Campus lots. Cars are to be parked in those places specifically designated for students.

ACADEMIC STANDARDS AND POLICIES

Policy

The Board of Governors of the California Community Colleges has adopted the following community college criteria and standards, as stated in the *California Code of Regulations*, Title 5, Chapter 6, Sub-chapter 1, Article 1:

Definitions

Corequisite—means a condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course. Where specified, some courses may be taken prior to or simultaneously in order to enroll in another course.

Course—means an organized pattern of instruction on a specified subject offered by a community college pursuant to subdivisions (a), (b) or (c), Section 55002.

Course advisory—means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

Degree-applicable credit courses—are those courses which have been designated as appropriate to the Associate Degree in accordance with the requirements of Section 55062, and which have been recommended by the college and/or district curriculum committee and approved by the district governing board as collegiate courses meeting the needs of students. Degree-applicable courses at SBCC are numbered 100 and above in this Catalog.

Educational program—is an organized sequence of courses leading to a defined objective, a degree, a certificate, a diploma, a license, or transfer to another institution of higher education.

Noncredit basic skills courses—are those courses in reading, writing, computation, and English as a Second Language which are designated by the community college district as noncredit courses pursuant to subdivision (c) of section 55002.

Non-degree applicable—are those courses which do not apply towards the unit requirement of the Associate Degree. Non-degree applicable courses at SBCC are numbered below 100 in this Catalog.

Non-degree applicable basic skills courses—are those in reading, writing, computation and English as a Second Language which are designated by the community college district as non-degree applicable credit courses pursuant to subdivision (c) of Section 55002.

Prerequisite—means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program.

Satisfactory grade—means that, for the course in question, the student's academic record has been annotated with the symbol A+, A, A-, B+, B, B-, C+, C or P as those symbols are defined in Section 55023.

Criteria and Standards

A credit course is one which, at minimum:

1. Is recommended by the responsible college officials and the Curriculum Committee as being of appropriate rigor and has been approved by the local district governing board and the Chancellor of the California Community Colleges as a collegiate course meeting the needs of students eligible for admission.
2. Is taught by a credentialed instructor.
3. Is offered as described in a course of study outline in official college files. That outline shall specify the unit value, number of contact hours for the course as a whole, the prerequisites, corequisites or advisories for the course, the catalog description, scope, objectives and content in terms of a specific body of knowledge, required reading and writing assignments, and other outside-of-class assignments, instructional methodology and methods of evaluation for determining whether the stated objectives have been met by students.
4. Is taught in accordance with a set of instructional objectives common to all students as outlined in the course of study outline.
5. Provides for measurement of student performance in terms of the stated objectives and culminates in a formal, permanently recorded grade, based upon uniform standards in accordance with Section 55023. The grade is based on demonstrated proficiency in subject matter and the ability to demonstrate that proficiency, at least in part, by means of essays, or, in courses where the curriculum committee deems them to be appropriate, by problem-solving exercises or skills demonstrations by students.
6. Grants units of credit based upon a relationship specified by the governing board between the number of units assigned to the course and the number of lecture and/or laboratory hours or performance criteria specified in the course outline. The course also requires a minimum of three hours of student work per week, including class time for each unit of credit, prorated for short-term, extended term, laboratory and/or activity courses.
7. Treats subject matter with a scope and intensity which requires students to study independently outside of class time.
8. Requires, when the college deems appropriate, entrance skills and consequent prerequisites for the course before the students are enrolled.
9. When the college and/or district curriculum committee determines, based on a review of the course outline of study, that a student would be highly unlikely to receive a satisfactory grade unless the student has knowledge or skills not taught in the course, then the course shall require prerequisites or corequisites that are established, reviewed and applied in accordance with Section 55003.
10. Requires, in order to participate in the course, the ability to think critically and apply concepts at levels determined by the curriculum committee to be college-level.
11. Requires learning skills and a vocabulary which the curriculum committee deems appropriate for a college course.
12. Requires that educational materials used be judged by the curriculum committee to be college-level.
13. Repeated enrollment is allowed only in accordance with the provisions of Section 51002, Article 4 (commencing with Section 55040) of sub-chapter 1 of Chapter 6, and Section 58161.

A noncredit course is one which, at minimum:

1. Is recommended by the responsible college officials and the Curriculum Committee if the course treats subject matter and uses resource materials, teaching methods, and standards of attendance and achievement that the committee deems appropriate for enrolled

students. The course has been approved by the local district governing board and the Chancellor of the California Community Colleges.

2. The course is described in a course outline of record which is maintained in official college files and made available to each instructor. The course outline of record shall specify the number of contact hours normally required for a student complete the course, the catalog description, the objectives, contents in terms of a specific body of knowledge, instructional methodology, examples of assignments and/or activities and methods of evaluation for determining whether the stated objectives have been met.
3. All sections of the course are to be taught by a qualified instructor.

Academic Dismissal

A student shall be placed on academic dismissal if the student has earned a cumulative grade point average of less than 2.0 in all units attempted at the college in each of the two (2) most recent regular Fall or Spring semesters of attendance through first census. (For purposes of this section, semesters shall be considered consecutive on the basis of the student's enrollment, i.e., a Fall Semester followed by a Fall Semester shall be consecutive if the student was not enrolled for the intervening Spring Semester.)

A student placed on academic dismissal will be dismissed from the college for the subsequent semester. The student may petition the Dean, Student Affairs, to be reinstated and if approved will be permitted to enroll in the following semester, or after one or more semester (s) not in attendance the student may reapply and will be readmitted.

Academic Dismissal Exception: When a student completes six (6) or more units and earns a GPA of 2.0 or higher for the current semester (for purposes of this exception, "Pass" is calculated as a "C" grade for the current semester only), the student will be automatically permitted to reenroll for each additional semester in which he/she satisfies the exception criteria or until the student returns to academic good standing. During the exception period, the student will retain academic dismissal exception status and may be subject to unit, course and/or other conditions deemed appropriate by the Office of the Dean, Student Affairs.

Academic Due Process

Procedures for due process are described in the District's Student Rights and Grievances (AP 5530) (http://sbcc.edu/boardoftrustees/files/policies/chapter_5_ap/AP%205530%20Student%20Rights_Grievances.pdf). Copies are available in the Office of the Dean, Student Affairs, Room SS-260.

Academic Freedom

Freedom of expression is a legal right protected by the Constitution of the United States. Members of the faculty of Santa Barbara City College are entitled to freedom of expression, provided such expression does not impede or prevent responsible performance of job requirements or interfere with the mission and goals of Santa Barbara City College (SBCC). SBCC faculty members are entitled to freedom in the classroom and/or other teaching environments in discussing their subject matter. Controversy is a normal aspect of free academic inquiry and teaching, and it is proper to incorporate both the knowledge and beliefs of the faculty member into that which is taught; however, the freedom to teach must be joined by a constant effort to distinguish between knowledge and belief. Faculty members should allow the expression of differing points of view, while being careful to avoid the repeated and excessive

intrusion of material that has no relation to their subject matter. See BP 4030 Academic Freedom (http://www.sbcc.edu/boardoftrustees/files/policies/chapter_4_bp_final/BP%204030%20Acad%20Freedom%20Rev.%209-15-14%20Ready%20for%20Website.pdf) for the complete policy.

Academic Good Standing

A student who earns and maintains a grade point average (GPA) of 2.0 or higher in all graded units for courses taken at Santa Barbara City College shall be considered to be in Academic Good Standing.

Academic Probation

A student who has attempted at least twelve (12) cumulative graded units at the college, as shown by the official college transcript, shall be placed on academic probation if the student has earned a cumulative grade point average (GPA) below 2.0 in all graded units at Santa Barbara City College. Academic Probation shall not be noted on the official transcript. Students placed on academic probation may be subject to unit and course limitations and/or other conditions of enrollment. A student on academic probation shall be removed from probation and returned to academic good standing when the student's cumulative grade point average is 2.0 or higher.

Academic Renewal

Courses in which students have previously received sub-standard grades and which are not reflective of a student's demonstrated ability, may be disregarded in the computation of the SBCC grade point average when a student-initiated petition has been approved by the Scholastic Standards Committee. A student may request academic renewal for not more than two semesters of sub-standard coursework completed at SBCC (substandard coursework is defined as D+, D, D-, F or FW grades). There shall be at least 12 months between the end of the semester or summer session during which the last courses to be alleviated are completed and the date of initiation of the petition. The student must provide evidence of recent academic success demonstrated by the following:

1. 12 semester units with a 3.0 GPA, or
2. 15 semester units with a 2.5 GPA, or
3. 20 semester units with a 2.0 GPA

Students using coursework from another regionally accredited college to meet the criteria must submit an official copy their transcript(s) with the Academic Renewal Petition.

Currently enrolled SBCC students must also attach a current Student Education Plan (SEP) completed with an Academic Counselor.

A student may request academic renewal only once. When a student's Academic Renewal Petition is approved by the Scholastic Standards Committee, the student's record will be annotated by Admissions & Records so that it is readily evident to all users of the record that no units alleviated by academic renewal will apply toward units for graduation or other unit commitment. All work, however, will remain legible on the permanent record to insure a true and complete academic history. This policy is adopted for use at SBCC. SBCC does not guarantee that other colleges will approve our Academic Renewal policy. This determination is made by the respective transfer institution.

Further information may be obtained from the Academic Counseling Center or Admissions & Records.

Academic Standing

Graduating With Honors

At graduation, AA/AA-T/AS/AS-T degree candidates, with a 3.5 cumulative GPA, will receive special recognition as graduating with honors.

President's Honor Roll

Each semester, Santa Barbara City College includes on the President's Honor Roll: Full-time students who have completed twelve (12) units of letter-graded courses with a grade point average of 3.5, or better. In addition, students who have accumulated eighteen (18) graded units or more at Santa Barbara City College, with a cumulative grade point average of 3.5 or higher, and have completed a minimum of six (6) graded units with a 3.5 GPA during the semester, are included on the President's Honor Roll: Part-time students. Pass/No Pass grades are not considered.

Advanced Placement

Students who have completed Advanced Placement (AP) Examinations of the College Entrance Examination Board with scores of 3, 4, or 5 may receive credit at Santa Barbara City College for each advanced placement course as listed in the chart to follow.

Credit awarded through advanced placement *may* be used to satisfy graduation requirements toward the Department Award, Skills Competency Award, Certificate of Achievement and Associate Degree. The units earned from AP credit will not apply toward financial aid nor can they be used to satisfy the 12-unit residency requirement for graduation.

A score of 3, 4, or 5 is required to grant credit for IGETC and CSU GE certification. Each AP exam may be applied to one IGETC/CSU GE area as satisfying one course requirement, with some exceptions. Students who have earned credit from an AP exam should not take a comparable college course because transfer credit will not be granted for both. Visit the CSU website to find the CSU policy for AP (<https://www2.calstate.edu/apply/transfer/Pages/advanced-placement-ap.aspx>). Note that each campus in the California State University system determines how it will apply external examinations toward credit in the major. For information about course credit awarded toward the major by each CSU campus, contact the individual campus. For information about the UC policy for AP and about course credit awarded toward the major by each UC campus, visit the University of California Admissions website (<https://admission.universityofcalifornia.edu/admission-requirements/ap-exam-credits/ap-credits/>).

Refer to the Advanced Placement Chart (p. 60) for complete exam and credit listings.

Progress Dismissal

Students who have enrolled in at least twelve (12) semester units since summer 1983 at Santa Barbara City College, as shown by the official academic record, shall be placed on progress dismissal when 50% or more of the cumulative units in which they have enrolled at the college are W, I and No Pass grades for each of the two (2) most recent regular Fall or Spring semesters of attendance through first census. (For purposes of this section, semesters shall be considered consecutive on the basis of the student's enrollment, i.e., a Fall semester followed by a Fall Semester shall be consecutive if the student was not enrolled for the intervening Spring Semester.) A student placed on progress dismissal will be dismissed from the college for the subsequent semester. The student may petition the Dean, Student Affairs, to be reinstated and if

approved will be permitted to enroll for the following semester, or after one or more semester(s) not in attendance the student may reapply and will be readmitted.

Progress Dismissal Exception: When a student completes more than 50% of the units taken during the current semester and has completed a minimum of six (6) units, the student will be automatically permitted to re-enroll for each additional semester in which he/she satisfies the exception criteria, or until the student returns to progress good standing. During the exception period, the student will retain progress disqualification exception status and may be subject to unit, course and/or other conditions deemed appropriate by the Office of the Dean, Student Affairs.

Progress Good Standing

A student who has completed more than 50% of all courses, with other than W, I and No Pass grades, as shown by the official academic record, shall be considered to be in progress good standing.

Progress Probation

A student who has enrolled in at least twelve (12) semester units since Summer 1983 at Santa Barbara City College, as shown by the official academic record, shall be placed on progress probation when the percentage of the cumulative units for which entries of W, I and No Pass are recorded reaches or exceeds fifty per cent (50%). The student shall be removed from progress probation when the cumulative percentage of all W, I or No Pass units drops below 50%. Progress probation shall not be noted on the official transcript. Students placed on progress probation may be subject to unit and course restrictions and/or other conditions of enrollment.

Readmission after Dismissal

A student placed on academic and/or progress disqualification who is dismissed may after one semester not in attendance reapply for admission and will be readmitted. A student may appeal the academic or progress dismissal by petitioning the Dean, Student Affairs (SS-260). Extenuating circumstances, such as, but not limited to, medical, psychological and legal reasons, and evidence of benefit, are considered. Dismissed students who are reinstated by petition or by administrative action or those re-enrolling after one or more semesters of absence may be subject to unit and course limitations and/or other conditions, such as required participation in support services designed to improve student success.

Students dismissed based on violations of the *Standards of Student Conduct* may be readmitted or reinstated subject to the terms of the suspension and/or dismissal.

Attendance

All students enrolled at Santa Barbara City College are expected to be punctual and to attend class regularly. Students who are not in attendance at the first class meeting are considered "no-shows" and the instructor may drop such persons in order to give their seats to non-registered students seeking to enroll. Also, an instructor may withdraw a student from semester-length courses at any time for excessive absence through the 9th week of the Fall/Spring semesters, and the 60% point of the class for Summer and courses less than a semester in length. As a guideline, absence is considered excessive if a student misses three (3) meetings, or the equivalent of one week of class attendance or according to absence guidelines as published in the course syllabus.

Absence due to a verified illness may be accepted as an excused absence for a limited period of time. Students are expected to notify their instructor by email and/or phone message if they are absent for a medical reason. Students are expected to make appointments for medical and dental treatments at times other than when classes are scheduled. Students anticipating or encountering extended absences due to medical, personal or family emergencies should contact the Dean, Student Affairs, Room SS-260, (805) 730-4078.

It is the *student's responsibility* to officially withdraw from classes. Students failing to drop officially may receive an "F", "FW" or "NP" grade.

Audits

Audit enrollment for a class is allowed upon the discretion of the instructor and adherence to Admissions & Records submission procedures and deadlines. Priority in class enrollment shall be given to students desiring to take the course for credit. Courses designated in the *Catalog* as repeatable may not be audited. No credit will be received for auditing, and the District does not maintain any attendance, transcript, or academic record for auditing.

Change of Program

Registered students may change their programs during a designated period at the beginning of each semester. Students may add semester-length courses during the first two weeks of the semester only (*instructor approval required*). Withdrawals may be made at any time up to, and including, the last day to drop semester-length classes (end of the 9th week). For information about adding, dropping and withdrawing from Summer and all other classes, consult the *Schedule of Classes*, or obtain information from Admissions & Records. All program changes must be completed online or in person in Admissions & Records prior to the published deadline.

Classification of Students

- **Full-time Student:** Carries 12 or more units (4 units in Summer)
- **Three Quarter-Time:** Carries 9 or less than 12 units (3 or less than 4 units in Summer)
- **Half-time Student:** Carries at least six units
- **Freshman Student:** Has earned fewer than 30 units of college credit
- **Sophomore Student:** Has earned 30 or more units of college credit, but does not hold a degree

Course Enrollment Limits

An enrollment in a course occurs when a student receives an evaluative (A+, A, A-, B+, B, B-, C+, C, D+, D, D-, F, FW, P, NP, CR, NC) or non-evaluative symbol (W, I).

In general, a student who receives a satisfactory grade (A+, A, A-, B+, B, B-, C+, C, P, CR) in a non-repeatable credit course is permitted to enroll in that course only one time.

If a student receives a substandard grade (D+, D, D-, F, FW, NP, NC) and/or withdraws (W) from the course, the student is allowed to enroll in the course two more times for a maximum of three enrollments. An Excused Withdrawal (EW) does not count as an enrollment attempt.

Course Load Limitations

A full-time course load for the community college student is a minimum of twelve (12) units per semester. The maximum is eighteen (18) units

per semester. With 12 units per semester, it will take a minimum of five (5) semesters to complete a typical Associate Degree program, plus additional time to complete basic skills courses. However, students with a cumulative 3.0 grade point average (GPA) with 12 or more units (excluding ESL) completed at SBCC may request to enroll in up to 20 (twenty) units with Admissions & Records approval. Permission to register in excess of twenty (20) units requires counselor authorization. Students who do not have a cumulative 3.0 grade point average (G.P.A) at SBCC and/or who have academic records from another college or high school may take an excess of eighteen (18) units with counselor authorization. A student who is working or who has a health problem should make a proportionate course load adjustment.

During Summer Session, a full-time load is four (4) units. Students may enroll in a maximum of eight (8) units for the six-week session. Students with a cumulative 3.0 grade point average (GPA) at SBCC may request to enroll in up to nine (9) units with Admissions & Records approval. Ability to enroll in excess of nine (9) units requires counselor authorization. Students who do not have a cumulative 3.0 grade point average (GPA) at SBCC and/or who have academic records from another college or high school may take an excess of eight (8) units with counselor authorization.

A major consideration for students, particularly first-time students and those returning to college after a lengthy absence is determination of an appropriate course load for their first semester. While the number of courses one can handle during a semester varies among individuals, experience indicates that, for most students, typical SBCC lecture courses require two hours of outside preparation for each hour in class. Thus, a 12-unit course load, for example, represents a commitment of 36 hours per week—comprised of 12 hours in class and 24 hours of outside preparation.

Students who plan to work while attending Santa Barbara City College need to establish a *realistic course load* that takes into account the demands of both work and school. If you work full-time, you are advised, during your first semester, to limit your enrollment to six or seven units—or two classes. If you work 20 hours per week, as most students do, you are advised to limit your course load to 12 to 14 units. Through careful planning of workload, you can maximize your potential for performing successfully in your classes.

Dual Enrollment student course load limitation information is available on the Dual Enrollment website (<http://www.sbccc.edu/dualenrollment/>).

Special Program Unit Limitations

A minimum number of units must be taken for the following programs:

Program	Units
Associated Student Government/ Student Senate	5
Clubs	1
Varsity Athletes (Repeats do not count)	12
Social Security Benefits	12
Federal Work-Study Program	5
Federal Student Loans	6
Veterans Benefits and Financial Aid:	
Full-Time	12 or more
Three-Fourths Time	9 to 11-1/2
Half-Time	6 to 8-1/2

EOPS	12 or more
Less than Half-Time	Less than 6

Course Enrollment, Repetition and Withdrawal Limits

The following are in accordance with *California Code of Regulations*, Title 5, 55024, 55040, 55042 and 58161.

Course Repetition to Alleviate a Substandard Grade

Students may not enroll in a course more than three times, except in limited circumstances. Enrollments include any combination of withdrawal(s) and grade(s). Course Repeat requests beyond three enrollments may be petitioned by the student if the below circumstances exist including, but not limited to:

- Significant lapse of time
- Active participatory courses
- Course repetition to alleviate substandard academic work
- Course repetition due to extenuating circumstances
- Disabled Student Programs and Services (DSPS) subject-coded courses
- Course repetition of cooperative work experience
- Course repetition due to employment, training, or other legal requirements

The student must submit a Petition for Course Repetition for review by the Scholastic Standards Committee. In order to be eligible for consideration of this exception, a student must clearly demonstrate the extenuating circumstances that prevented him/her from successfully completing the course in the three prior enrollments. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student. Official documentation of extenuating circumstances is required. The Petition for Course Repetition is available on the Forms website (<http://sbcc.edu/forms/>) as are semester deadlines for petition submission.

Course Repetition with a Prior Satisfactory Grade

Students may be permitted or required to repeat courses in which a satisfactory grade ("A+," "A," "A-," "B+," "B," "B-," "C+," "C," "P," or "CR") was earned where there was a significant lapse of time (defined as no less than 36 months) since the grade was obtained and;

- Has established a recency prerequisite for a course or program
- Another institution of higher education to which the student seeks to transfer has established a recency requirement that the student will not be able to satisfy without repeating the requested course (official supporting documentation from the other institution is required.)

The Petition for Course Repetition with a 'C' or Better is available on the Forms website (<http://sbcc.edu/forms/>) as are semester deadlines for petition submission.

Credit by Examination

Credit by examination may be granted to students who are registered and in good standing (2.0 GPA) at SBCC for proficiency in subject matter essentially equivalent to a course for which credit is being requested. Students may petition credit by examination, provided the course is listed in the catalog and the department designates the course as suitable for

credit by examination. Credit may not be granted for any course for which high school or college credit has been awarded. Credits acquired by examination are not applicable to meeting of such unit load requirements as Selective Service deferment, Veteran's or Social Security benefits, or financial aid.

The petition for credit by examination may be obtained in Admissions & Records and shall be submitted to the appropriate department chairperson. Although examinations may be written prior to the completion of 15 units, no credit shall be posted on the student's record until after 15 units have been earned at Santa Barbara City College. A maximum of 12 units may be obtained by examination.

Students must petition for credit by examination by the end of the third week of the semester. The examination must be taken at a time determined by the instructor but shall be reported to Admissions & Records by the department chairperson no later than the last day of instruction in which credit is granted.

The nature and content of the examination shall be determined solely by faculty in the discipline who normally teach the course for which credit is to be granted in accordance with policies and procedures approved by the Curriculum Advisory Committee.

The units and grade received are used in determining the total units attempted, units earned, and grade points for the student. Credits acquired by the examination shall not be counted in determining the 15 semester hours of credit in residence required for an Associate degree. Transfer students wishing credit by examination at four-year institutions may be required to petition such institutions in conformance to their policies. A grade received in a course taken credit by examination may not be used to remove a substandard grade received in the same course. Applicable credit by examination fees are non-refundable.

Field Trip and Excursion Policy

Throughout each semester and Summer Session, the Santa Barbara Community College District may sponsor voluntary off-campus, co-curricular field trips and excursions. If you choose to participate, you should be aware that, pursuant to the *California State Code of Regulations*, Sub-Chapter 5, Section 55450, you have agreed to hold the District, its officers, agents and employees harmless from any and all liability or claims which may arise out of, or be in connection with, your participation in the activity.

Final Examinations

Final examinations on the entire semester's work are given at the close of each semester. Students are required to take scheduled final examinations at the appointed times and places in order to secure credit. If students find that it is impossible to avoid three finals in one day, and students cannot obtain an accommodation from their instructor(s), students may submit a written request for an adjustment in their final exam schedule to the Executive Vice President, Educational Programs, Room A-112.

Absence from a final due to an illness may be accommodated at the discretion of the instructor. Student should attempt to contact their instructor(s) within 24 hours of the scheduled exam. Absence due to illness must be verified by a physician. Students anticipating or encountering absence from finals(s) due to medical, personal or family emergencies, and who are unable to secure an accommodation from

their instructor(s), should contact the Dean, Student Affairs, Room SS-260, (805) 730-4078, to discuss their options.

Requests for changes in the exam schedule due to travel or employment schedules are examples of non-emergency conditions that will not be accommodated.

Final Grades

Final grades will be available online in Pipeline (web transcript), as instructors submit them. Final grades, official transcripts, diplomas and certificates will not be released if there is a hold or outstanding financial obligation on file at the Cashier's Office.

Grades and Grade Points

The system of grades and grade points at Santa Barbara City College is as follows:

Symbol	Definition	Grade Point
A+	Excellent	4.0
A	Excellent	4.0
A-	Excellent	3.7
B+	Good	3.3
B	Good	3.0
B-	Good	2.7
C+	Satisfactory	2.3
C	Satisfactory	2.0
D+	Less than satisfactory	1.3
D	Less than satisfactory	1.0
D-	Less than satisfactory	0.7
F	Failing	0.0
FW	Failing (Unauthorized Withdrawal)	0.0
P ¹	Pass	
NP ²	No Pass	
SP	Satisfactory Progress (Effective Spring 2017)	
I ³	Incomplete	
IP ³	In Progress	
RD ³	Report Delayed	
W ³	Withdrawal	
MW ³	Military Withdrawal	
EW ³	Excused Withdrawal	

¹ At least satisfactory—units not counted in GPA; credit earned.

² Less than satisfactory—units not counted in GPA; units used in calculating units attempted for progress, probation and dismissal

³ Non-evaluative symbols—no units or credit earned

Instructor grades are final. Except in the case of an "I" or clerical error, instructors cannot change a grade once it has been accepted by Admissions & Records. Grades may not be revised by the instructor on the basis of a second trial, new examination, or additional work undertaken or completed after the date of the end-semester report.

High School Articulation

Santa Barbara City College has an extensive Dual Enrollment Program, which offers college classes at high school campuses. See the "Dual

Enrollment (p. 67)" section of this *Catalog* for more information. In addition, high school students may earn college credit for the following high school ROP course: Computer Accounting (Accounting 110). Contact the Dual Enrollment Director at (805) 898-8174.

Incompletes

An Incomplete (I) non-evaluative symbol may be issued at the end of the term by the instructor for unforeseeable, emergency, and justifiable reasons that preclude a student's final completion of course requirements. An "I" requires an Incomplete Contract signed by the instructor and student which shall contain the conditions for the removal of the "I" and the grade assigned if the Incomplete Contract conditions are not met within the stipulated timeframe. A copy of this contract must be given to the student and a copy submitted to Admissions & Records by the instructor and will be kept on file until the "I" is made up or the time limit has passed. A final grade will be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed.

The "I" shall be made up no later than the end of the following semester (i.e., Summer term—by the end of Fall semester; Fall semester—by the end of Spring semester, and Spring semester—by the end of Fall semester).

The "I" shall not be used in calculating units attempted or grade point. However, units attempted for which "I" is recorded shall be considered in Progress Probation and Disqualification procedures.

The student may petition the Scholastic Standards Committee for a time extension due to extenuating circumstances.

Independent Study

SBCC offers independent study courses (numbered 299) that provide opportunities for students to explore a subject in depth beyond what is possible in existing courses.

Independent study courses provide opportunities for students to explore a subject in depth beyond what is possible in existing courses. A student may enroll in a maximum of four (4) units per semester of independent study; however, the transfer student should check the policy of the four-year institution of choice regarding the number of units of independent study which may be earned each semester. University of California credit may be awarded only after transfer and at the discretion of the UC campus. Independent study units are *NOT* included in the 60 units required for transfer to the UC. Consult with an academic counselor.

To be eligible for independent study, a student must have completed a minimum of 12 units at Santa Barbara City College, with a 2.5 GPA, and a minimum of six (6) units, with a 3.0 GPA within the department.

Each student is responsible for acquainting him/herself with department requirements and prerequisites, and for presenting his/her plan for study or project to an appropriate instructor. Instructors need not accept students for independent study, as their assignments may preclude additional responsibility.

Students who wish to register in independent study coursework should contact Admissions & Records to obtain the required form. The form must be signed by the instructor of record, the department chairperson, and the academic dean, and assigned a section number by the Scheduling Office. It should be returned to Admissions & Records by

the end of the second week of the semester (first week for Summer) for official registration.

Military Experience

A maximum of 24 credits may be granted for military service based on A Guide to the Evaluation of Educational Experiences in the Armed Services, published by the American Council on Education. After enrolling at Santa Barbara City College, an honorably discharged veteran or an active duty service member who has served on active duty a minimum of 180 days may apply for evaluation of military service experience for college credit. At a minimum, credit will be applied towards the PE requirement for the SBCC Associate Degree (Area E-3) based on official discharge documents (DD-214 or DD-295) or official military experience transcripts recognized by the American Council on Education (e.g., AARTS, SMART) and completion of fifteen (15) units at Santa Barbara City College. A copy of the veteran's DD-214 separation form and/or official military experience transcripts and an SBCC Non-Traditional Credit Petition form must be submitted to the Transcript Evaluations Office. Credit granted for military service is based on A Guide to the Evaluation of Educational Experiences in the Armed Services, published by the American Council on Education.

Official Transcripts to Other Colleges

Upon request of a student, an official transcript of the student's record at Santa Barbara City College will be sent to any college, university or third party. Official transcripts cost \$3.00 each whether you are requesting standard postal mail (5-7 business days), or electronic PDF delivery (same day). Additional fees may apply for added delivery options. The first two official transcripts requested at SBCC are free (Credentials handling charge applies).

Open Enrollment Courses

It is the policy of the Board of Trustees of the Santa Barbara Community College District that, unless specifically exempted by statute or regulation, every course, course section, or class, reported for state aid, wherever offered and maintained by the District, shall be fully open to enrollment and participation by any person who has been admitted to Santa Barbara City College and who meets such prerequisites as may be established pursuant to Section 55003 of Division 6 of Title 5 of the California Code of Regulations.

Pass/No Pass Grading

Students may elect a Pass/No Pass grading option with a faculty signature (academic counselor, department chairperson, or instructor of record). A completed Pass / No Pass form (<https://sbcc-transform.perceptivecloud.com/iFiller/iFiller.jsp?fref=24e9c660-c9ba-4d43-af25-b4850f7af5f4>) must be submitted to Admissions & Records no later than Friday of the 5th week of the semester (Fall & Spring) and Friday of the 2nd week during summer session. (30% length of courses that are not full semester length) After that time, neither the student nor the instructor may change the decision. A pass grade is granted for performance that is equivalent to the letter grade of "C" or better, which equates to satisfactory completion. A student who fails to perform satisfactory will be assigned a "no pass" grade. Transfer institutions may not accept all course with Pass/No Pass grading. You are encouraged to consult with an academic counselor about your decision to take a course Pass/No Pass and the ramifications it may have towards meeting degree and/or transfer requirements.

Repeated Courses

Whenever an eligible course in which a sub-standard grade (D+, D, D-, F, FW, NC or NP) has been received is repeated at SBCC and completed with a grade other than "W," the original grade remains part of the transcript. The original grade and course units are noted with an "E" for exclude. Units and grade points for the original grade are excluded from the SBCC GPA calculation. Courses in which a student has received a grade of D+, D, D-, F, NC or NP may be repeated twice (not to exceed a maximum of 3 enrollments). Those courses, in which a student has received a "C" grade, or better, may not be repeated. Exceptions to this policy are listed under "Course Repetition Policy" in this Catalog.

Revisions of Catalog Regulations

Requirements for graduation, fees, course offerings and other regulations and policies are subject to change without notice and will be effective for all students as changed.

Transfer of Credits from Foreign Countries

Only credentials issued by recognized institutions may be used for admission or transfer credit in the United States. Transfer credits from foreign countries will be accepted with the recommendations of an approved foreign credential transcripts evaluation and translation service, in consultation and approval by appropriate department faculty and/or by the Transcript Evaluations Office under authority of appropriate department faculty. Specific credit of any subject with content that may vary according to regional influence will be evaluated by the Transcript Evaluation Office to determine content, relevance and SBCC course credit. Quarter system units earned will be converted to semester units (semester units = quarter units / 1.5). Refer to the Transcript Evaluation Policy (<http://www.sbccc.edu/transcriptevaluationpolicy/>) for additional information.

Transfer of Credits from Other American Colleges

Santa Barbara City College grants lower division credit for most degree-applicable coursework completed at regionally accredited (Associations of Colleges and Schools) institutions of higher learning. Credit earned at a time when an institution was a candidate for accreditation may be accepted for credit. To earn units and/or subject credit from previous coursework, students must submit an official transcript to the SBCC Admissions & Records Office. Official transcripts of all high school and college work are important documents to have on file for proper counseling/advisement and are required for degree certification. Upon request transfer course work will be evaluated by appropriate department faculty and/or by the Transcript Evaluation Office under authority of appropriate department faculty. Subject and unit credit will not be granted for post-baccalaureate level course work. Quarter system units earned will be converted to semester units (semester units = quarter units / 1.5). Refer to the Transcript Evaluation Policy (<http://www.sbccc.edu/transcriptevaluationpolicy/>) for additional information.

Transfer of Credits to Other Colleges and Universities

Santa Barbara City College is fully accredited by the Accrediting Commission for the Community and Junior Colleges, which is part of the Western Association of Schools and Colleges. All courses equivalent to university and college work are generally accepted by all WASC member colleges and most other colleges and universities in the United States.

Specific Information on course and/or program articulation agreements with the University of California and the California State University can be found by visiting the Assist website (<http://www.assist.org>) and the SBCC Articulation website (<http://articulation.sbcc.edu>). For Information on articulation agreements with California independent colleges, out of state colleges and international colleges, contact the Santa Barbara City College Transfer Center or the SBCC Articulation Officer.

The college is also approved by the California Department of Education for the training of veterans under the provisions of the *G.I. Bill of Rights*, and by the U.S. Immigration and Naturalization Service for non-quota immigration students in accordance with provisions of Section 101 (a) (15) of the *Immigration and Naturalization Act*, as amended. Accreditation materials are available for review in the Luria Library.

Unit of Credit

Credit Courses: One credit hour of community college work (one unit of credit) requires a minimum of 48 hours of lecture, study, or laboratory work per semester (*California Code of Regulations 55002.5*). For every unit of credit, it is expected that the student will spend at least two hours a week in outside preparation or three hours a week in supervised study or laboratory work.

Withdrawal from Classes

If students must withdraw from college/classes, they may do so online or in person in Admissions & Records by the end of the 9th week of the semester for semester-length classes. Withdrawal dates for Summer classes and courses less than semester-length vary. Information regarding a specific class is available on the student *Schedule/Bill* found on the Class Schedules website (<http://www.sbcc.edu/classes/>) or from Admissions & Records. Students failing to officially withdraw by the stated deadlines will receive an evaluative grade.

Excused Withdrawal from Classes

Students may petition the Admissions & Records Office to request an Excused Withdrawal (EW). The EW symbol reflects that a student's withdrawal from a course was compelled by circumstances beyond the student's control. The student shall complete and submit the Petition for Waiver of College Regulations to Admissions and Records. The petition shall be reviewed by the Scholastic Standards Committee and if granted an "EW" would be assigned by Admissions and Records. Excused withdrawals shall not be counted in progress probation or disqualification calculations and shall not be counted for the permitted number of withdrawals or counted as an enrollment attempt.

Withdrawal from Semester-Length Classes

1. A student may initiate a withdrawal from a full semester-length class after the second week but prior to the end of the 9th week. Students are encouraged to consult with the instructor concerning the withdrawal, but the instructor may not withhold the "W."
2. An instructor may drop/withdraw a student for excessive unexcused absences at any time prior to the end of the 9th week of the semester. Absence is considered excessive if a student misses more than the equivalent of one week of classes during the semester, or according to absence guidelines as published in a course syllabus. After the 9th week, the instructor must give an evaluative grade (A+-F), or Pass/No Pass, if appropriate forms are on file with Admissions & Records.

3. A student who remains in a class beyond the end of the 9th week must receive a grade other than a "W."
4. The "W" shall not be used in calculating grade point averages, but excessive "W"s shall be used as a factor in progress probation and dismissal procedures.
5. Students will be blocked from registering in courses in which they have three previously recorded "W" notations or have exceeded the maximum enrollment limit (see Course Enrollment, Repetition and Withdrawal Limits). Students may petition Admissions & Records for exceptions (<http://sbcc.edu/forms/>).
6. If a student officially drops prior to the course census date, no notation will be recorded on the transcript.
7. A student activated for military service may receive a military withdrawal (MW) at any time during the semester. Contact Admissions & Records. Military withdrawals will not factor into progress probation, dismissal and shall not be counted for the permitted number of withdrawals.

¹ **IMPORTANT NOTES ABOUT AP SCIENCES FROM IGETC STANDARDS:**
AP exams in Biology, Chemistry or Physics 1 and 2 (which replaced Physics B) allow CCC campuses to apply 4 semester or 5 quarter units to IGETC certification. For Environmental Science, Physics C: Mechanics and Physics C: Electricity/Magnetism, 3 semester or 4 quarter units are applied for IGETC certification; therefore, students who complete these exams will be required to complete at least 4 semester or 5 quarter units to satisfy the minimum required units for Area 5.

² Students who take the Calculus BC examination and earn a sub-score of 3 or higher on the Calculus AB portion will receive credit for the Calculus AB examination, even if they do not receive a score of 3 or higher on the BC examination.

³ **IMPORTANT NOTES ABOUT AP ENVIRONMENTAL SCIENCE FOR CSU GE BREADTH:** Students who pass AP Environmental Science earn 4 units of credit. Tests prior to Fall 2009 may apply to either B1+B3 or B2+B3 of GE Breadth. Fall of 2009 or later, those credits may only apply to B1+B3.

⁴ **IMPORTANT NOTES ABOUT AMERICAN IDEALS (AIR) GRADUATION REQUIREMENT:**

- At the discretion of the CSU Campus granting the degree, courses meeting this requirement may also be counted toward certification in General Education (GE Breadth or IGETC).
- CSU U.S. History, Constitution, and American Ideals Courses (AIR requirement) – Students satisfy this CSU graduation requirement through coursework in three areas:
 - US-1: Historical development of American institutions and ideals – may be completed with a score of 3 or higher on Advanced Placement U.S. History
 - US-2: U.S. Constitution and government - may be completed with a score of 3 or higher on Advanced Placement U.S. Government and Politics
 - US-3: California state and local government – cannot be satisfied with an Advanced Placement score. Students must complete an approved course at a California community college or complete this requirement at the CSU campus after transfer.

⁵ Students seeking certification for the Latin: Literature test must have passed the test before Fall 2009. Credit for the Latin: Literature test is awarded as follows: CSU GEB Area C2 (3 units) and 6 units of CSU elective credit or IGETC Areas 3B and 6A (3 units) and 2.7 units of UC elective credit. Students seeking certification for the Latin: Vergil test must have passed the test before Fall 2012. Credit for the Latin: Vergil test is awarded as follows: CSU GEB Area C2 (3 units) and 3 units of CSU elective credit or IGETC Areas 3B and 6A (3 units) and 2.7 units of UC elective credit;

⁶ For transfer students AP exams can be used to meet the minimum transfer admission subject requirements in English (UC-E), math (UC-M), and four other courses chosen from the humanities (UC-H), behavioral/social sciences (UC-B) and biological/physical sciences (UC-S).

Other Notes:

- Music Theory sub-score: The UC system grants credit for the full Music Theory exam. Students who earn only a sub-score will not receive exam credit.
- Duplication of AP and college courses taken before or after attending UC may duplicate IB or AP examinations. If the student does duplicate an exam with a college course or vice versa, UC will award credit for only one.
- Consult each individual UC and CSU campus website for more information on their campus-specific AP policy.

College-Level Examination Program (CLEP)

Santa Barbara City College

Santa Barbara City College may grant credit toward the Associate Degree by petition for some College-Level examinations, where a minimum score

of 50 has been earned. Students wishing to receive credit for CLEP should contact the college's Articulation Officer for petition procedures.

University of California

The University of California does not award credit for the College-Level Examination Program (CLEP).

California State University

The following CLEP examinations can be used for credit toward the 60 CSU-transferable units required for transfer admission and toward CSU GE Breadth certification as shown in the following chart:

¹ If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered "Level I" and earns six units of baccalaureate credit; the higher score listed for each test is considered "Level II" and earns additional units of credit and placement in Area C2 of GE Breadth, as noted.

system determines how it will apply external examinations toward credit in the major. Contact the individual CSU campus for more information.

International Baccalaureate Examination Program

Santa Barbara City College

Santa Barbara City College may grant credit toward the Associate Degree by petition for some high-level International Baccalaureate examinations, where a grade of a 5, 6, or 7 has been earned. Students wishing to receive credit for international baccalaureate examinations should contact the college's Articulation Officer for petition procedures.

University of California and California State University

A score of 5, 6 or 7 on Higher Level exams is required to grant credit for IGETC and CSU GE Breadth certification (exception: a score of 4 the following IB subjects is considered a passing score for CSU GE Breadth certification: Language A Literature HL, Language A Language and Literature HL, Language B HL, Mathematics HL and Theatre HL). An acceptable IB score for IGETC or CSU GE Breadth equates to either 3 semester or 4 quarter units for certification purposes. Students who have earned credit from an IB exam should not take a comparable college course because transfer credit will not be granted for both. Consult each individual UC and CSU campus website for more information on their campus specific IB policy.

¹ Visit the California State University website (<https://www2.calstate.edu/apply/transfer/Pages/international-baccalaureate-ib.aspx>) to find the CSU policy for IB. Each campus in the California State University system determines how it will apply external examinations toward credit in the major. Contact the individual CSU campus for more information.

² The International Baccalaureate Organization (IBO) awards either a diploma or a certificate for individual IB exams. UC awards students who complete the International Baccalaureate diploma with a score of 30 or above with 6 quarter (4 semester) units toward their UC degree, in addition to the units earned for individual Higher Level exams (usually 24 quarter/16 semester units). Students who receive IB certificates with scores of 5, 6 or 7 on Higher Level exams will receive 8 quarter (5.3 semester) units. For more information about course credit awarded by the University of California, visit the University of California's Admissions website (<https://admission.universityofcalifornia.edu/admission-requirements/ap-exam-credits/ib-credits.html>). Each campus in the University of California system determines how it will apply external examinations toward credit in the major. Contact the individual UC campus for more information.

SPECIAL INSTRUCTIONAL PROGRAMS

Career Skills Institute

The Career Skills Institute provides coordination and administration for tuition-free, short-term workplace training and contract education. Courses are housed at the School of Extended Learning (<http://www.sbccc.edu/extendedlearning/>) and are delivered in half-day and one-day training formats. Students can earn noncredit Certificates of Completion, and are issued “digital badges” to post on their social media outlets such as LinkedIn. Workshops focus on such topics as Customer Relations, Difficult Conversations, Management, Teamwork and Microsoft Computer Applications. The Career Skills Institute partners with LinkedIn, local industry and employers. For more information about the Institute, contact Jeanette Chian, Associate Director, School of Extended Learning, at (805) 683-8289 or jchianbrooks@sbccc.edu.

Honors Program

SBCC has established an Honors Program emphasizing a rigorous and interdisciplinary approach to general education. The courses developed meet the needs of students whose academic goals and interests are not satisfied by regular courses. Students who enroll in the Honors curriculum will gain the opportunity to become independent learners, participate actively in the shaping of their education, and exercise their talents at the highest level of excellence of which they are capable. For further information, see the Honors (p. 265) section of this *Catalog*.

Study Abroad Program

Santa Barbara City College is committed to promoting cross-cultural understanding and global responsibility. Part of that commitment is reflected through offering opportunities to study abroad in a variety of countries.

SBCC offers full semester-length programs in a number of countries. In the past, SBCC semester program participants have been able to study in France, Italy, England, Spain, Turkey, Greece, Costa Rica, China, Vietnam, Chile, Argentina, New Zealand and Bali, Indonesia. Courses typically include a broad range of disciplines, such as art, literature, political science, marketing, communication, film studies, STEM as well as language courses appropriate to the countries.

Summer and winter break programs have included language studies in Spain, Mexico, France, Italy, Bolivia, and Cuba as well as film studies and production in Italy, Thailand, Germany and Australia, photography and printmaking in Cuba, France and England, communication in Australia, Germany, India and Rwanda, art history in France, marketing in England, France and Austria, as well as many other disciplines and destinations. New programs are continuously being developed. Students usually study at private facilities in the host country and live with local families or in student apartments or hotels. Field trips and excursions to nearby points of interest are included in all Study Abroad programs.

The cost ranges between \$7,500 and \$9,000 for semester programs and is considerably less for the short-term programs (\$2,500 - \$4,500). Excursions, lodging, transportation and cultural activities are usually included in the program cost. Limited scholarships, grants, loans and other financial aid are available for those students who qualify.

Additional information about these programs is available from the Study Abroad (<http://www.sbccc.edu/studyabroad/>) Office, located in the International Education Center, Room 1, (805) 730-4294.

Dual Enrollment Programs—Classes on High School Campuses

The Dual Enrollment Program promotes high school access to SBCC courses. We offer over 100 college classes at Bishop Diego High School, Carpinteria High School, Dos Pueblos High School, San Marcos High School, and Santa Barbara High School. High school students can also take online courses and courses held at SBCC. Special approval is required. Please review the requirements to apply and register on the Dual Enrollment website (<http://www.sbccc.edu/dualenrollment/>).

DISTANCE EDUCATION

Online courses provide excellent opportunities for students to pursue their educational goals with time and place flexibility. These courses are offered over the Internet and should not require on-campus attendance. Online courses comprise equivalent content and satisfy the same academic requirements as their on-campus counterparts.

Online Student Success

Online courses are rigorous and require a clear commitment. You will need to be motivated, well-organized, and on-task to succeed in this mode of learning.

Check the online course descriptions on the Distance Education website (<http://www.sbccc.edu/distanceeducation/onlinecourses.php>) for information about making initial contact with the instructor. We strongly encourage you to take the Distance Education Orientation (<http://www.sbccc.edu/distanceeducation/distanceedorientation.php>) to determine whether you are ready to take an online course and to help you prepare for distance learning.

On-Campus Attendance

Although fully online courses do not require specific time-and-place commitments, some partially-online (hybrid) courses require varying levels of on-campus attendance, as determined by the instructor:

- Fully online courses require no on-campus meetings or exams but may require students to take proctored exams. These can be accomplished via online proctoring or approved in-person arrangements with the instructor.
- Partially online courses may require attendance at SBCC campus for orientations and exams, or have regular meeting times.

Check the online course descriptions (<http://www.sbccc.edu/distanceeducation/onlinecourses.php>) for information on each section's attendance requirements.

Fully Online Programs

The following programs have been approved to be taught fully online. Please check the Schedule of Classes to confirm course availability and contact the Department Chair for confirmation.

- Anthropology (AA)
- Administration of Justice for Transfer (AS-T)
- Administration of Justice: Legal Studies Emphasis (AS, C)
- Applied Photography (AA, C)

Technical Requirements

In order to log on to course websites, all students taking online courses must have access to a computer/mobile device with an Internet connection and a recommended Web browser. Information on specific requirements is located on the Distance Education website (<http://www.sbccc.edu/distanceeducation/onlinecourses.php>). *Note:* that Modern Languages courses may require that a student use a computer/mobile device with sound capabilities. We strongly encourage you to take the assessment (http://www.sbccc.edu/distanceeducation/orientation_distance_ed.php) to determine whether you are ready to take an online course.

Support for Classes

While taking online classes, students will be able to seek support from several sources. Technical assistance is available through Student Technical Support at (805) 897-3549 or itsupport@pipeline.sbccc.edu and by filling out the Tech Support Form (<http://www.sbccc.edu/support/contact/>). Accessibility assistance for disabled students is available through Disability Services and Programs for Students (<http://www.sbccc.edu/dsps/>) (DSPS). Find additional student services embedded in Canvas, the college's authorized learning management systems.

Additional Information

Visit the Distance Education website (<http://www.sbccc.edu/distanceeducation/>) for information on the advantages of distance learning, links to the locations of each semester's online courses, lists the fully online programs and degrees, links directly to student technical support, provides frequently asked questions (FAQ), links directly to the campus portal, details steps to enrollment, includes comprehensive information on preparation for Distance Education, details technical requirements, provides information on how to start a course, lists important dates, includes information on library services for Distance Education students, details policies and procedures, provides up-to-date information on state authorization of Distance Education and more. For support: (805) 897-3549 or itsupport@pipeline.sbccc.edu.

State Authorization of Distance Education Outside of California

If you are a Santa Barbara City College student (or prospective student) who will not reside in California while enrolled in Distance Education courses at Santa Barbara City College, be aware of the following information:

Santa Barbara City College delivers online education programs and courses throughout the United States and internationally, and its online offerings continue to expand. All programs have been approved by the California Community Colleges Chancellor's Office.

Many states have prescribed an “authorization” process for out-of-state institutions delivering online programs to its state residents. States are attempting through these processes to ensure quality postsecondary education, to preserve the integrity of an academic degree and to instill greater consumer protection for their student citizens.

Authorization (sometimes referred to as “registration,” “licensure,” “approval,” etc.) indicates that certain minimum standards have been met by the institution under the laws and regulations of that state. Authorization does not constitute an endorsement of any institution, course or degree program. Credits earned at an institution do not necessarily transfer to all other institutions.

Santa Barbara City College has taken steps to protect its students and operations nationwide. The institution has been granted authorizations, exemptions and waivers from many states. In other states, Santa Barbara City College can operate without such authorization because the state’s laws do not pertain to a public institution, to an accredited institution or to the college’s activities in that state. We advise students residing in states in which Santa Barbara City College is not approved to offer distance education not to enroll in Distance Education classes at Santa Barbara City College. See the Distance Education website (<http://www.sbccc.edu/distanceeducation/stateauthorization.php>) for a complete list of states in which Santa Barbara City College is approved to offer Distance Education.

Complaints about a Santa Barbara City College Online Course?

If you are a student who wishes to complain about a Santa Barbara City College course delivered via Distance Education, consider contacting your instructor. If you are unable to resolve your complaint through the instructor, contact the department chair. If you are unable to resolve your complaint through the department chair, contact Alan Price, the Dean for Distance Education at neufeld@sbccc.edu or price3@pipeline.sbccc.edu (itsupport@pipeline.sbccc.edu). If you are unable to resolve your complaint through the dean, contact the Executive Vice President of Educational Programs.

If you are unable to resolve your complaint at any of these levels, consider contacting:

DEGREES, CERTIFICATES AND AWARDS

Upon satisfactory completion of requirements and upon approval of the Board of Trustees students may earn the Associate in Arts Degree, Associate in Arts for Transfer Degree, Associate in Science Degree, Associate in Science for Transfer Degree, Certificate of Achievement, Skills Competency Award and Department Award.

Santa Barbara City College Associate in Arts/Science Degrees

The awarding of an Associate Degree represents more than an accumulation of units. It symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences designed to develop certain capabilities and insights.

Among these are the ability to think and to communicate clearly and effectively, both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for, and sense of, self-understanding. In addition to these accomplishments, the student should possess sufficient depth in some field of knowledge to contribute to lifetime interest.

The governing board of the Santa Barbara Community College District shall confer the degree of Associate in Arts or Associate in Science upon a student who has demonstrated competence in reading, written expression and mathematics, and who has satisfactorily completed at least 60 semester units of college work. This coursework requirement will be fulfilled in a curriculum accepted toward the degree by the college (courses numbered 100 or higher as shown in this *Catalog*). It must include at least 18 semester units in General Education and at least 18 semester units in a major.

Students who major in Liberal Studies, or are undecided about a major, should refer to "Liberal Studies" in this *Catalog's* Index.

Philosophy of General Education

The General Education program at Santa Barbara City College outlines a core curriculum that provides an opportunity for students to explore elements of the intellectual and ethical traditions to which they belong. The faculty believes that this common core is of general and lasting intellectual significance and that it will establish a foundation for the lifelong process of intellectual inquiry and the integration of knowledge, skills, attitudes and experiences.

College-educated persons should be able to use this knowledge when evaluating and appreciating the physical environment, the culture and the society in which they live. Most important, General Education should lead to better self-understanding. The General Education program has several major objectives:

- To cultivate the intellectual processes of learning and to examine methods for acquiring, integrating and applying knowledge.
- To help students understand the conditions and forces which shape their lives and thus help them to cope with a complex and changing world.

- To explore elements of our common human nature and to assist students in applying critical and informed judgments to the cultural achievements of their own and other cultures.

Santa Barbara City College Associate in Arts and Associate in Science Degree Graduation Requirements

The Associate Degree will be awarded upon completion of both department and college requirements as follows:

1. Complete all department requirements in a major or area of emphasis with a "C" or better or "P" in each course. Candidates for an Associate Degree are required to complete at least 20% of the department requirements through SBCC (some programs may require a higher percentage of the department requirements to be completed through SBCC).
2. Complete a general education option (*Option 1*: SBCC General Education and Institutional and Information Competency; *Option 2*: IGETC; *Option 3*: CSU GE Breadth). General Education options allowed for each Associate Degree program vary. Refer to individual departments for a list of General Education options pertaining to each SBCC Associate Degree program;
3. Complete a total of 60 degree-applicable units (SBCC courses numbered 100 or higher);
4. Maintain a cumulative GPA of 2.0 or better in all units attempted at SBCC;
5. Maintain a cumulative GPA of 2.0 or better in all college units attempted; and
6. Candidates for an Associate Degree are required to complete a minimum of 12 units through SBCC.

¹ These courses fulfill UCSB's General Education ethnicity requirement.

Santa Barbara City College Information Competency Requirement (Area F)

A. Complete at least 1.0 semester unit (or 1.0 quarter unit): Required of ALL new to college and new transfer students entering SBCC in Fall 2007 and after. Also required of all students who were enrolled at SBCC before Fall 2007, stopped attending for one semester or more, and returned to SBCC in Fall 2007 or after to complete

degree requirements. *Exception:* Information Competency is required effective Summer 2006 for Liberal Studies majors.
LIBR 101 Information Literacy with a Pass (P) satisfies this requirement.

Santa Barbara City College Associate in Arts and Associate in Science for Transfer Degrees

The Student Transfer Achievement Reform Act (Senate Bill 1440, codified in *California Education Code* sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an "Associate Degree for transfer", a variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated "high-unit" major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. For the latest information about transfer degrees, visit www.sb1440.org (<http://www.sb1440.org>) or www.adgreewithaguarantee.com (<http://www.adgreewithaguarantee.com>).

At the time of Catalog publication, a student may earn the following AA-T/AS-T degrees at SBCC: Administration of Justice (AS-T), Anthropology (AA-T), Art History (AA-T), Biology (AS-T), Business Administration (AS-T), Communication Studies (AA-T), Early Childhood Education (AS-T), Economics (AA-T), Elementary Teacher Education (AA-T), English (AA-T), Film, Television and Electronic Media (AS-T), Geography (AA-T), Geology (AS-T), Global Studies (AA-T), History (AA-T), Journalism (AA-T), Kinesiology (AA-T), Mathematics (AS-T), Nutrition and Dietetics (AS-T), Philosophy (AA-T), Physics (AS-T), Political Science (AA-T), Psychology (AA-T), Sociology (AA-T) Spanish (AA-T), Studio Arts (AA-T), and Theatre Arts (AA-T). Additional majors are under development. For more information, refer to appropriate *Catalog* section and see a counselor.

Requirements

The following is required for all AA-T or AS-T degrees:

1. Minimum of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in an AA-T or AS-T major as detailed in the appropriate departmental section of this Catalog. All courses required in the major must be completed with a grade of "C" or better or Pass (Title 5 § 55063).
4. Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental

General Education Transfer Curriculum (IGETC-CSU) pattern (see "Transfer Curricula" in the Catalog Index for more information about CSU GE Breadth and IGETC requirements). Important Note: The Physics and Geology AS-T require completion of IGETC. The Biology AS-T requires completion of IGETC-CSU for STEM. The CSU GE Breadth is not allowed for the Physics, Geology and Biology AS-T degrees.

5. Candidates for an Associate Degree for Transfer are required to complete 12 units through SBCC.

Santa Barbara City College Certificate of Achievement

A state-approved program of study, designed to prepare students for job entry or career advancement, allows for Certificate programs comprised primarily of courses within a specific discipline. For most Certificate programs, students must complete all department requirements with a cumulative grade point average (GPA) of 2.0 or better. Some Certificate programs require a "C" or better in every course. Candidates for a Certificate of Achievement are expected to complete at least 20% of the department requirements in residence at SBCC. Some certificates may require a higher percentage of requirements completed in residence at SBCC. Certificates of Achievement differ from Associate Degrees in that they do not require completion of SBCC Graduation Requirements for the Associate Degree.

Santa Barbara City College Skills Competency Award

The Skills Competency Award (SCA) Program identifies courses which, when taken together, will best prepare students to enter the work force in their chosen field. Candidates for a Skills Competency Award are expected to complete at least 20% of the department requirements in residence at SBCC. Some SCAs may require a higher percentage of requirements completed in residence at SBCC. Skills Competency Awards are not state-approved. These awards provide future employers with verification that the student has mastered core competencies. Students must complete each required course with a "C" or better or Pass (P). Santa Barbara City College Transfer Recognition Award

The Transfer Recognition Award is granted to any student who has completed a minimum of 24 units at Santa Barbara City College prior to transfer and has been presented a letter of acceptance from an accredited four-year college or university. An application must be submitted by the student to the Transfer Center.

Catalog Rights

Catalog rights permit the students who are continuously enrolled at the institution to select the catalog year the student will follow for the General Education and degree/certificate requirements provided the catalog selected is one of the following:

- The catalog in effect at the time of initial enrollment;
- The catalog in effect at the time of graduation; or
- Any catalog year between initial enrollment and graduation.

For purposes of determining catalog rights, the catalog year starts in the Fall (Fall/Spring/Summer).

Multiple Degrees/Multiple Majors

A student may earn AA, AA-T, AS, and AS-T Degrees for which all local and state requirements have been met. All majors in which degree requirements have been met will be noted on both the student's transcript and the diploma.

Santa Barbara City College Department Award

Department Awards are designed to provide students with needed skills in a particular area in a short period of time. Department Awards are not state-approved. They are offered to provide recognition of achievement in the following areas:

Specialty programs in Cooperative Education and job-site training allow students to combine classroom studies with on-the-job experiences. The main thrust of career and technical education is to provide the student with entry-level job skills for a smooth and productive transition to the workplace. Although the requirements in the majors are generally fixed, students have a wide range of courses from which to choose in meeting General Education requirements. *Counselors should be consulted for variations and assistance with planning programs.*

Cooperative Work Experience

Santa Barbara City College offers three types of Cooperative Work Experience—General Work Experience, International Work Experience and Career and Technical Education Work Experience:

General Work Experience 290 assists students to acquire good work habits, attitudes and career awareness in actual job settings. Units are based on the number of hours worked throughout the semester. For paid work, 1 unit = 75 hours, 2 units = 150 hours, 3 units = 225 hours. There are no regular class meetings, but students are required to complete a number of assignments throughout the semester.

International Work Experience assists students to acquire desirable work habits in foreign job settings and to develop an understanding of the role of international business, the foreign country's work habits, economy, labor laws, and cultural/political factors that affect employment.

By satisfactorily completing the International Work Experience/Internship course, a student may earn up to six units per semester. Units are based on the number of hours worked throughout the semester:

For paid work, 1 unit = 75 hours, 2 units = 150 hours, and 3 units = 225.
For volunteer work, 1 unit = 60 hours, 2 units = 120 hours, 3 units = 180 hours.

Career and Technical Education Work Experience combines on-the-job training with classroom instruction, enabling the student to acquire knowledge, skills and attitudes necessary to enter and/or progress in a chosen occupation. Class attendance in a regularly scheduled weekly coordinating class is required by some SBCC departments.

For each semester that a student is enrolled in Cooperative Work Experience, it is required that the student provide evidence of new or expanded responsibilities or learning opportunities beyond those experienced during previous employment. Satisfactory completion of specific job-oriented learning objectives is required for determining the student's progress and improvement of performance on the job.

By satisfactorily completing a Work Experience course, a student may earn from 1-4 college units. A maximum of 16 Work Experience units may be applied as electives toward the 60 units required for an Associate in Arts or an Associate in Science Degree.

Credits are based on the number of hours worked during the semester. 1 credit = 75 paid hours or 60 volunteer hours.

Prerequisites for Career and Technical Education Work Experience Courses

The Occupational Work Experience class must be directly related to the student's stated major and the college program in which he/she is enrolled.

Job Referral Services

The Career Center receives numerous job orders from employers in the community and provides referrals for full- and part-time jobs and internships. It also provides a website listing information on all on-campus student jobs and maintains an online job referral system. Every spring the center sponsors an annual Job Fair that invites local employers and allows students to learn about career opportunities and to apply for job openings. Additional information about job referral is available at the Career Center, located in the Student Services Building, Room 282, or by calling (805) 730-4131.

SCHOOL OF EXTENDED LEARNING

School of Extended Learning offers educational and community programs that serve our diverse adult population. Our programs advance career and life skills, and offer bridges to credit.

Our programs are designed for adult learners seeking to advance their career or life skills. Most Extended Learning programs are tuition-free and include Adult High School/GED, English as a Second Language, Career and Vocational Skills, Courses for Older Adults, Home Economics, Parenting, and Health & Safety. These programs can provide pathways for students to advance to the credit division of SBCC and/or obtain employment. In addition to tuition-free programs, Extended Learning offers fee-based programs in life enhancement subjects such as Cooking, Culture, Travel, Fitness, Recreation, Do-It-Yourself, Languages, and Spirituality. Courses at the School of Extended Learning are largely offered at our Wake and Schott campuses.

School of Extended Learning: Adult High School and GED

The Adult High School (AHS) Diploma Program is designed for adults who want to earn their high school diploma. Students meet with an advisor to create an individual learning plan, and work one-on-one with faculty and in small groups with other students. Subjects include reading comprehension, vocabulary and grammar, spelling, writing, mathematics and other subjects. Credit towards our high school completion program can be transferred from other accredited high schools or colleges. We offer free classes, student support services such as transcript analysis, assessment, orientation, registration support, academic advising/counseling and career counseling and a flexible class schedule.

GED exam preparation classes are designed for students who are 18 years of age or older who wish to earn a high school equivalency certificate. Students are given instruction in the basic skills needed, and have the opportunity to take practice tests that will help them

successfully complete all GED exams. Classes are offered both daytime and evenings. GED exam preparation classes are also offered bilingually (Spanish/English).

In this course, parents and children ages 16-30 months explore the power of rhythm, melody, tonality and beat. Parents learn how music nurtures children's physical, social, emotional, and intellectual development and strengthens the bond between parent and child. Participants will be exposed to various genres of music, play a wide variety of instruments, listen to stories with dramatization and puppets, and learn songs, rhymes, and finger plays in an interactive environment. Course restricted to 98 repetitions

ECEP NC159 Infant Times I: Newborn to Crawling (0 Units)

Hours: 12 (12 lecture)

Provides current information about infant development, stimulation and 'self-calming' techniques. Also provides opportunities for sharing and discussion of timely questions from new parents. Parents learn infant massage techniques, music and movements, songs, and how to make hand-made toys/equipment and play games. Course restricted to 98 repetitions

ECEP NC160 Growing Times I: Parenting Toddlers (18-24 months) (0 Units)

Hours: 16 (8 lecture, 8 lab)

Parents and caregivers with children 18 - 24 months of age meet weekly to learn to develop a safe and stimulating environment with age appropriate activities for toddlers. Parents learn about typical stages of development through child observation, direct participation with other families, and informal discussion groups. The skills learned in this class promote positive parenting attitudes and healthy parent-child relationships. Course restricted to 98 repetitions

ECEP NC161 Infant Times II: Crawling to Walking (0 Units)

Hours: 12 (12 lecture)

Provides information about infant development, stimulation and 'self-calming' techniques for crawling and walking infants. Also provides opportunities for sharing and discussion of timely questions from new parents. Parents learn infant massage techniques, music and movements, songs, and how to make hand-made toys/equipment and play games. Course restricted to 98 repetitions

ECEP NC162 Music Times III: For Parents of Children 2.5 - 5 Years (0 Units)

Hours: 12 (12 lecture)

Music Times II is for parents and their children ages 2.5 - 5 years. Parents and children explore the power of rhythm, melody, tonality and beat. Parents learn how music nurtures children's physical, social, emotional, and intellectual development and strengthens the bond between parent and child. Participants will be exposed to various genres of music, play a wide variety of instruments, listen to stories with dramatization and puppets, and learn songs, rhymes, finger plays in an interactive environment. Course restricted to 98 repetitions

ECEP NC164 Growing Times II: Parenting the Two to Three Year Old Child (0 Units)

Hours: 16 (8 lecture, 8 lab)

Parents and caregivers with children two to three years of age meet weekly to learn to develop a safe and stimulating environment with age appropriate activities for toddlers. Parents learn about typical stages of development through child observation, direct participation with other families, and informal discussion groups. The skills learned in this class promote positive parenting attitudes and healthy parent-child relationships. Course restricted to 98 repetitions

ECEP NC165 Growing Times III: Parenting the Preschool Child (0 Units)

Hours: 16 (8 lecture, 8 lab)

Parents and caregivers with children two and a half to five years of age meet weekly to learn to develop a safe and stimulating environment with age appropriate activities for preschoolers. Parents learn about typical stages of development through child observation, direct participation with other families, and informal discussion groups. The skills learned in this class promote positive parenting attitudes and healthy parent-child relationships. Course restricted to 98 repetitions

TRANSFER CURRICULA

The large majority of SBCC courses have been reviewed and approved for transfer by four-year colleges and universities through formal articulation agreements. These courses apply to one or more General Education, lower division major and/or elective requirements. These transferable courses have University of California (UC) and/or California State University (CSU) designations in this Catalog. These same designations also appear in the *Schedule of Credit Classes*, which is published each semester.

Most majors at four-year colleges and universities require completion of one or more lower division courses as preparation for the upper division. Nearly all of these lower division requirements can be met through transferable SBCC courses. Students can complete four-year institution General Education requirements prior to transfer.

Articulation agreements, available at www.assist.org (<http://www.assist.org>), identify which courses apply to General Education and lower division requirements at four-year universities. Students can complete many of the lower division requirements for majors offered by UC, CSU or independent institutions, even if SBCC does not offer the major. For more information on articulation visit <http://articulation.sbccc.edu/>.

Students can qualify for transfer to a multitude of four-year majors not specifically offered at SBCC. Students should check the catalog of the college of intended transfer and meet with a counselor for additional information about major programs and requirements.

Articulation with Four-Year Institutions

To assist the student with transfer to four-year institutions, articulation agreements have been established with most California State Universities, University of California campuses and some independent California colleges and out-of-state institutions. These agreements define the courses at Santa Barbara City College that satisfy many lower division major requirements and General Education requirements at four-year institutions. For more information on articulation visit <http://articulation.sbccc.edu/>.

ASSIST is a computerized student transfer articulation information system that can be accessed over the World Wide Web. It displays reports of how California community college courses can be applied when transferred to California State Universities and University of California campuses.

ASSIST is the official repository of articulation for California's public colleges and universities, and therefore provides the most accurate and up-to-date information available about student transfer in California. ASSIST may be accessed at www.assist.org (<http://www.assist.org>).

UC Minimum Eligibility Requirements for Transfer Admission

Non-California Residents

The minimum admission requirements for non-residents are very similar to those for California residents. Please consult with the admissions office at one of the university campuses for details. In all cases, however, non-residents must have a minimum grade point average of 2.8 or higher in all UC-transferable college coursework.

California Residents

As a junior-level transfer applicant, you must meet the following requirements. Some of your major preparation and general education coursework will count toward these requirements.

1. Complete the following 7-course pattern by the end of the spring term prior to fall enrollment at UC:
 - Two transferable college courses (3 semester or 4-5 quarter units each) in English composition; *and*
 - One transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning; *and*
 - Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, and the physical and biological sciences.
2. Complete at least 60 semester (90 quarter) units of UC-transferable credit. No more than 14 semester (21 quarter) units of the 60 semester (90 quarter) units may be taken pass/fail or credit/no credit.
3. Earn at least a 2.4 GPA in UC-transferable courses (2.8 if you're a nonresident). Some majors require a higher GPA for admission selection.
4. Complete the required/recommended courses need for your intended major with the minimum grades. Visit ASSIST (www.assist.org) to see the major preparation coursework expected by each campus or refer to UC's Transfer Pathways, a single set of courses you can take to prepare for your major on any of our nine undergraduate campuses.

Note: Fulfilling the UC minimum eligibility requirements does not guarantee admission to UC campuses. Admission selection criteria vary widely by campus and by major. Consult with your counselor or a UC campus representative to learn about the GPA and courses that may be required for admission to particular campuses and majors. Refer to the University of California website for UC transfer requirements: <https://admission.universityofcalifornia.edu/admission-requirements/transfer-requirements/>.

UC-Transferable Courses

Santa Barbara City College's UC-Transferable Course Agreement (TCA) is available online at www.assist.org (<http://www.assist.org>). In addition, the transferability of each course is indicated immediately after the course title and unit information listed in the department/course descriptions section of this *Catalog*.

CSU Minimum Eligibility Requirements for Transfer Admission

A Santa Barbara City college student who is planning to transfer to one of the campuses of the CSU system can qualify for admission by meeting the following requirements:

Lower-Division Transfer Admission Requirements (1 to 59 semester units)

Many campuses restrict enrollment of lower-division transfer students. California residents may be eligible for CSU admission with fewer than 60 transferable semester units (90 quarter units) if they:

- have completed 'a-g' course requirements in high school;
- have graduated from high school (received a high school diploma or General Educational Development, or GED, certificate);
- meet the Eligibility Index required of a first-time freshman;

- have achieved an overall college GPA of at least 2.00 (This GPA is calculated using all your transfer units attempted. In case of high-demand majors and campuses, a GPA of 2.00 may not be sufficient to be admitted);
- be in good standing at the last college or university you attended. (In simple terms, “good standing” means you are eligible to re-enroll at your last college or university); and
- have completed, with a grade of C- or better, a course in GE Section A2 in written communication and a course in GE section B4 in mathematics or quantitative reasoning.

Visit <https://www2.calstate.edu/apply/transfer/Pages/lower-division-transfer.aspx> for detailed information. Some campuses may require lower-division transfer students to have completed English composition and General Education mathematics prior to transfer. Some campuses do not admit lower-division transfer students. Contact your campus of choice to determine whether there are admission limits on the number of lower-division transfer students.

Note: Students who completed college units before they graduated from high school or during the summer between high school graduation and CSU enrollment are considered first-time freshmen and must meet those admission requirements. For more information regarding General Education and pre-major requirements, consult with a counselor and visit www.assist.org (<http://www.assist.org>).

Students who do not meet the eligibility index from high school are highly recommended to continue their education at a community college and complete 60 or more transferable semester units (90 quarter units) before attempting to transfer to a CSU. Students should complete as many of the General Education and pre-major requirements as possible. Consult with a counselor.

Upper-Division Transfer Admission Requirements (60 to 70 semester units)

To be admitted to the California State University as an upper-division transfer (UDT) student, you must:

- have completed a minimum of 60 semester or 90 quarter units of transferable coursework;
- have an overall college GPA of at least 2.00; your GPA is calculated using all your transfer units attempted. In high-demand majors and campuses a GPA of 2.00 may not be sufficient to be admitted;
- be in good standing at the last college or university attended. In simple terms, “good standing” means you are eligible to re-enroll at your last college or university;
- have completed 10 general education courses (30 semester units or 45 quarter units) of basic skills courses, with a grade of C- or better, and, specifically, four courses completed in the following areas: written communication, oral communication, critical thinking and mathematics/quantitative reasoning.

Note: Fulfilling the CSU minimum eligibility requirements does not guarantee admission to CSU campuses. Admission selection criteria vary widely by campus and by major. Consult with your counselor or a CSU campus representative to learn about the GPA and courses that may be required for admission to particular campuses and majors. Refer to the CSU Apply website for CSU transfer eligibility requirements (<https://www2.calstate.edu/apply/transfer/Pages/upper-division-transfer.aspx>).

CSU-Transferable Courses

Santa Barbara City College's CSU baccalaureate list of transferable courses is available online at www.assist.org (<http://www.assist.org>). In addition, the transferability of each course is indicated immediately after the course title and unit information listed in the department/course descriptions section of this *Catalog*.

Santa Barbara City College Associate in Arts and Associate in Science for Transfer Degrees

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code Sections 66746-66749, www.sb1440.org (<http://www.sb1440.org>)) guarantees admission to a California State University (CSU) campus for any community college student who completes an “Associate Degree for transfer”, a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated “high-unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. For the latest information about transfer degrees, visit www.adegreewithaguarantee.com (<http://www.adegreewithaguarantee.com>).

At the time of Catalog publication, a student may earn the following AA-T/AS-T degrees at SBCC:

- Administration of Justice (AS-T)
- Anthropology (AA-T)
- Art History (AA-T)
- Biology (AS-T)
- Business Administration (AS-T)
- Communication Studies (AA-T)
- Early Childhood Education (AS-T)
- Economics (AA-T)
- Elementary Teacher Education (AA-T)
- English (AA-T)
- Film, Television and Electronic Media (AS-T)
- Geography (AA-T)
- Geology (AS-T)
- Global Studies (AA-T)
- History (AA-T)
- Journalism (AA-T)
- Kinesiology (AA-T)
- Mathematics (AS-T)

- Nutrition and Dietetics (AS-T)
- Philosophy (AA-T)
- Physics (AS-T)
- Political Science (AA-T)
- Psychology (AA-T)
- Sociology (AA-T)
- Spanish (AA-T)
- Studio Arts (AA-T)
- Theatre Arts (AA-T)

Additional majors are under development. For more information, refer to appropriate Catalog section and see a counselor.

Requirements

The following is required for all AA-T or AS-T degrees:

1. Minimum of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in an "AA-T" or "AS-T" major as detailed in the appropriate departmental section of this Catalog. All courses in the major must be completed with a grade of "C" or better or Pass (Title 5 § 55063).
4. Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC-CSU) pattern (see "Transfer Curricula" in the Catalog Index for more information about CSU GE Breadth and IGETC requirements).
***Important Notes:** The Geology AS-T and the Physics AS-T require completion of IGETC-CSU. The CSU GE Breadth is not allowed for these degrees. The Biology AS-T requires completion of IGETC-CSU for STEM. The CSU GE Breadth for STEM is not allowed for this degree.*
5. Candidates for an Associate Degree for Transfer are required to complete a minimum of 12 units through SBCC.

Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org (<http://www.assist.org>) and www.c-id.net (<http://www.c-id.net>) to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course

requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org (<http://www.assist.org>) and www.c-id.net (<http://www.c-id.net>) for specific information on C-ID course designations. Counselors can help students interpret or explain this information.

General Education Patterns for Transfer

Santa Barbara City College students have several options to complete a General Education pattern prior to transfer:

1. Intersegmental General Education Transfer Curriculum (IGETC)
2. California State University General Education Breadth Pattern
3. Campus-specific General Education Pattern

Intersegmental General Education Transfer Curriculum (IGETC)

The Intersegmental General Education Transfer Curriculum (IGETC) is a pattern of courses that California community college students can follow to satisfy lower-division general education requirements at any California State University (CSU) or University of California (UC) campus. In addition, completion of IGETC qualifies students to receive a Certificate of Achievement from SBCC. *Students who do not qualify for a full or partial certification of their IGETC before transfer will be required to complete the General Education pattern of the UC or CSU campus to which they transfer.* Students should be aware that additional courses are often required to fully satisfy the General Education requirements of the particular UC or CSU campus to which they transfer. IGETC is not advisable for all transfer students. Students should meet with an academic counselor and visit www.sbccc.edu/transfercenter/whichge.php (<http://www.sbccc.edu/transfercenter/whichge.php>) to determine the appropriate general education option for their transfer goal. A student who is initially enrolled at a UC and is returning to the same UC campus (after attending a community college) is considered a "readmit" and cannot use IGETC. However, students who initially enroll at a UC, attend a community college and return to a different UC campus, may be able to use IGETC, but should check with the campus they wish to attend. This restriction does not apply to students who have taken UC summer session or Extension classes only. For a complete description of approved IGETC Standards, Policies and Procedures, go to <https://icas-ca.org/wp-content/uploads/2020/06/IGETC-STANDARDS-FINAL-Approved-June-3-2020.pdf>.

Frequently Asked Questions About IGETC

1. **What is IGETC?** The Intersegmental General Education Transfer Curriculum (IGETC) is a pattern of courses that California community college students can follow to satisfy lower-division General Education requirements at any California State University (CSU) or University of California (UC) campus. Completion of IGETC qualifies students to receive a Certificate of Achievement from SBCC. **Students who do not qualify for a full or partial certification of their IGETC before transfer will be required to complete the General Education pattern of the UC or CSU campus to which they transfer.** Students should be aware that additional courses are often required to fully satisfy the General Education requirements of the particular UC or CSU campus to which they transfer.
2. **Is IGETC an admission requirement?** No, IGETC is not advisable for all transfer students. Completion of IGETC is NOT an admission

requirement for transfer to a CSU or UC, nor is it the only way to fulfill the lower-division General Education requirements of the CSU or UC prior to transfer. Note: UC Berkeley's College of Letters and Science requires full completion of the IGETC or completion of the Essential Skills Requirement by the end of spring term for fall admission as selection criteria for admission. In general, all UC and CSU campuses highly recommend completion of IGETC for most majors, and some rank students for admission based on how closely they complete their lower-division General Education before transferring. However, completion of IGETC does NOT guarantee admission to a student's major or campus of choice. Students should meet with an academic counselor to discuss UC and CSU admission requirements. Refer to <https://admission.universityofcalifornia.edu/admission-requirements/transfer-requirements/>.

3. **Is it advisable for all transfer students to follow IGETC? No.** IGETC will be most useful to students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus. Some students may be better served by taking courses to fulfill CSU's General Education/breadth requirements or those of a particular UC or CSU campus. In general, students who are pursuing majors that require extensive lower-division preparation for admission to the major (such as Engineering or other sciences) should not use IGETC (see "IGETC Campus Guidance" at <https://admission.universityofcalifornia.edu/admission-requirements/transfer-requirements/general-education-igetc/igetc/campus-guidance.html> for additional information). Students pursuing these majors are normally advised to complete as much preparation for their major as possible before transfer. Students should meet with an academic counselor to discuss major preparation required for their campus and refer to www.assist.org (<http://www.assist.org>) for further information on major requirements. A student who is initially enrolled at a UC and is returning to the **same** UC campus (after attending a community college) is considered a "readmit" and **cannot** use IGETC. However, students who initially enroll at a UC, attend a community college and return to a **different** UC campus, may be able to use IGETC, but should check with the campus they wish to attend. This restriction does not apply to students who have taken UC summer session or Extension classes only.
4. **Must the entire IGETC pattern be completed prior to transfer? No.** However, to be eligible for full IGETC certification, students **MUST** complete all IGETC requirements before enrolling at a UC or CSU campus. Partial IGETC certification is defined as completing all but one (1) OR two (2) courses on the IGETC pattern. The student may be "partially certified" and complete the missing courses after transfer in a way that is acceptable to the receiving institution. Warning: Students need Areas 1 and 2 completed to meet minimum transfer admission requirements. Therefore, partial certification that acknowledges a deficiency in Area 1 and/or 2 may also indicate a student does not meet minimum transfer requirements. Note: Refer to question 2 above for UC Berkeley's College of Letters and Science admission requirements.
5. **May coursework completed at other institutions be used to certify a student's completion of IGETC? Yes.** However, only courses completed at regionally-accredited institutions can be used under the following conditions: (1) Coursework from other California community colleges (CCC) will be placed in the IGETC category listed by that campus. Courses must have been on that college's IGETC list when the courses were completed. Check the ASSIST website at www.assist.org (<http://www.assist.org>) for IGETC-approved courses from California community colleges. (2) Students transferring from institutions outside of the California community college system may have courses certified for IGETC **only if an equivalent course is taught at a CCC**. Such courses would be placed in the same IGETC category as the equivalent CCC course. Please consult with a counselor. (3) **Courses taken at foreign institutions are not permitted** for certification on the IGETC unless the institution is regionally accredited in the U.S.
6. **Is there a minimum grade required in all courses used for IGETC certification? Yes.** IGETC courses must be completed with a grade of "C" (2.0) or better (a "C-minus" cannot be used). A grade of Credit or Pass may be used if the college's policy states it is equivalent to a grade of "C" (2.0) or better.
7. **Can a course be used to satisfy more than one subject area? No.** Even though a course may be listed in more than one area on IGETC, a course may only be counted in one area (the only exception is an advanced course that meets Area 6A Language Other Than English). However, courses used for IGETC can also count toward preparation for major requirements, except for individual CSU campus restrictions.
8. **Can Advanced Placement (AP) scores be applied to IGETC? Yes.** AP scores of 3, 4 or 5 can be used to satisfy any IGETC subject area except the Critical Thinking/English Composition or the Oral Communication requirements (Areas 1B & 1C). Each AP score can only be used as one course. However, more than one AP score can be used in each area except Area 1. Refer to the IGETC AP chart (https://drive.google.com/file/d/1aKzb7xfuzt3yGKpl3PD2dOpz_Sa27H2/view/?usp=sharing) for a list of approved AP scores and the corresponding IGETC area credit.
9. **Can International Baccalaureate (IB) scores be applied to IGETC? Yes.** IB scores of 5, 6 or 7 can be used to satisfy certain IGETC subject areas. Each IB score can only be used as one course. However, more than one IB score can be used in each area. Refer to the IGETC IB (https://drive.google.com/file/d/1aKzb7xfuzt3yGKpl3PD2dOpz_Sa27H2/view/?usp=sharing) chart for a list of approved IB scores and the corresponding IGETC area credit.
10. **Is certification of IGETC completion automatic? No.** Certification of IGETC must be requested at the SBCC Transfer Center (SS-140) after the student completes the IGETC requirements. Certification applications may be obtained from the Transfer Center (SS140) or at <http://articulation.sbccc.edu/uforms/figetc/igetcapplication.pdf> and must be submitted to the Transfer Center. Certification will not be made when courses are still in progress or before grades are known. Certification of IGETC is the responsibility of the last California community college a student attends prior to transfer. Students must attach their official transcripts from other colleges to their request for IGETC certification unless they have already submitted an official copy to SBCC's Admissions & Records Office.
11. **Is there a minimum unit value per course? Yes.** All courses must have a minimum unit value of 3 semester or 4 quarter units. When combining quarter and semester unit values within an IGETC area, units should be converted to either all quarter or all semester units, whichever best meets the minimum unit requirement for that area.

American History and Institutions Requirement for UCSB

UCSB is one of the UC campuses that require a college-level American History and Institutions course. Current courses at SBCC which satisfy this requirement are:

Code	Title	Units
AJ 101	Introduction To The Administration Of Justice	3

AJ 105	Diversity, Law and Justice	3
AJ 245	Constitutional Law	3
ART 106	History Of American Art	3
ASAM 101	Comparative Asian-American History, 1849-1965	3
ASAM 102	Contemporary Asian-American History	3
BLST 101	The African-American In U.S. History To World War II	3
BLST 102	The African-American In U.S. History, From Civil Rights Movement To Present	3
BLST 102H	The African-American in U.S. History, from Civil Rights to Present, Honors	4
BLST 103	African-American Culture	3
CHST 101	Mexican-American (Chicano) History In The U.S.	3
CHST 102	The Chicano And Latino In U.S. History, From The 1960's To The Present	3

POLS 104	American Government: Policy Issues/ Process	3
POLS 151	Law And Society	3
SOC 107	Racism in America	3

Any of these courses may be used to meet UCSB's American History and Institutions Requirement, as well as a requirement for IGETC. There are other options available to students to satisfy this requirement (consult with an academic counselor).

Santa Barbara City College 2020-2021 IGETC Courses

IGETC requirements for Santa Barbara City College are also available on the ASSIST website, www.assist.org (<http://www.assist.org>). IGETC

represents approximately 35-40 units of the 60 transferable units required for UC/CSU transfer admissions.

IGETC is updated every fall semester. When registering for classes each semester, it is the student's responsibility to verify that the course(s) chosen to meet IGETC requirements are applicable to IGETC in the term that the course(s) will be completed. Consult with an academic counselor.

Area 1 – English Communication

- **CSU** – 3 courses required, one from each group below.
- **UC** – 2 courses required, one each from Group A and Group B.

Group A: English Composition – 1 course, 3 semester units or 4 quarter units

ENG 110 Composition and Reading or ENG 110GB(before Spring 15) or ENG 110H Composition and Reading, Honors

Group B: Critical Thinking-English Composition – 1 course, 3 semester units or 4 quarter units

Important Note: Courses that meet Area 1B are normally not offered at institutions outside of the California Community College system.

Code	Title	Units
COMM 235	Argumentation And Debate (Fall 10 & after) ¹	3
ENG 111	Critical Thinking and Composition Through Literature ¹	3
ENG 111GB (before Spring 15)		
ENG 111H	Critical Thinking and Composition Through Literature, Honors ¹	3
ENG 111HG (before Spring 15)		
ENG 115	Argumentative Writing and Critical Thinking (Fall 19 & after)	3
PHIL 111	Critical Thinking And Writing In Philosophy	3
PHIL 110 (Summer 94-Summer 98)		

¹ Designates courses listed in more than one area but can only be counted in one area.

Note: ENG 112 or 112HR and PHIL 205 or COMM 235 meet Area 1B: Critical Thinking-English Composition ONLY if one course was completed prior to Fall 1993.

Group C: Oral Communication (CSU requirement only) – 1 course, 3 semester units or 4 quarter units

Code	Title	Units
COMM 121	Interpersonal Communication (before Fall 93 or Fall 98 & after)	3
COMM 121H	Interpersonal Communication, Honors (Spring 03 & after)	3
COMM 122	Mediated Interpersonal Communication (Fall 14 & after)	3
COMM 131	Fundamentals Of Public Speaking	3
COMM 131H	Fundamentals Of Public Speaking, Honors	3
COMM 141	Small Group Communication	3
COMM 235	Argumentation And Debate (Fall 10 & after) ¹	3

¹ Designates courses listed in more than one area but can only be counted in one area.

Area 2A – Mathematical Concepts and Quantitative Reasoning

1 course, 3 semester units or 4 quarter units.

Code	Title	Units
CS 108	Discrete Structures	4

² Laboratory Course.

³ BOT 122 Flowering Plant Identification is a 3-unit lab science. Students *MUST* complete 4 units of Physical Science or an additional course in Biological Sciences to complete the units required in Area 5.

⁴ BIOL 126 (before Fall 15) will also satisfy this requirement. Before Fall 15, this course was 4 units and included a lab.

⁵ ZOOL 122 (before Spring 03), will also satisfy this requirement. Before Spring 03, this course was 4 units and included a lab.

5C: Laboratory Activity

Requirement must be met by any lab associated with the course taken to satisfy either 5A or 5B. Courses with footnote #2 include an associated laboratory component.

Area 6 – Language other than English

(UC requirement only) - Proficiency equivalent to two years of high school study in the same language, with a grade of “C”-minus or better OR 1 course from the following list (or a more advanced course: 102, 103, 104) with a grade of “C” or better or Pass. Consult with a counselor for other available options to meet this requirement.

Note: The first quarter of foreign language study is not sufficient to satisfy this requirement—2 quarters minimum required.

CSU Graduation Requirement in U.S. History, Constitution and American Ideals

This requirement may be met before or after transfer to the CSU. At the discretion of the CSU campus granting the degree, courses meeting this requirement may also be counted toward certification in general education. Students satisfy this CSU graduation requirement through coursework in three areas: US-1, US-2 and US-3. A student must take one course from each of the three areas. A student may use the same course to satisfy more than one area (US-1, US-2, US-3), if applicable. **Note:** The combination of HIST 101 History of the U.S. to 1877 and HIST 102 History of the U.S. Since 1865 (or HIST 102H History Of The U.S. Since 1865, Honors) may also satisfy this requirement but *ONLY* if both courses were completed before Fall 2004.

For complete information regarding Advanced Placement exams applicable to IGETC certification, see “Advanced Placement” in the *Catalog Index*.

International Baccalaureate

For complete information regarding International Baccalaureate exams applicable to IGETC certification, see “International Baccalaureate” in the *Catalog Index*.

Certificate of Achievement in IGETC

The Certificate of Achievement in IGETC at Santa Barbara City College is designed for transfer-bound students who complete their lower-division General Education requirements through the IGETC pattern prior to transferring to a University of California or a California State University campus.

Certificate Requirements

Students must complete all of the IGETC requirements as outlined above for a total of 35-40 semester units. All courses must be completed with a “C” grade or better or “Pass” (equivalent to a grade of “C” or better).

California State University General Education Breadth

The CSU General Education Breadth is a pattern of courses that community college students can use to satisfy lower division general/ graduation requirements at any California State University (CSU) campus. Completion of these courses is not required for admission to CSU. However, students who do not complete all the lower division G.E. requirements will not be “fully certified.” As a result, these students will be subject to additional G.E. requirements after transfer.

Certification

Certification must be requested after the student completes the CSU GE Breadth requirements. Certification applications may be obtained from the Transfer Center (SS-140) or at <http://articulation.sbccc.edu/uforms/fcsuge/csugeapplication.pdf> and must be submitted to the Transfer Center. Certification will not be processed when courses are still in progress or before grades are known. Certification is the responsibility of the **last** California community college a student attends prior to transfer. Students must attach their **official transcripts** from other colleges to their request for certification unless they have already submitted an **official copy** to SBCC's Admissions & Records Office.

Santa Barbara City College 2020-2021 CSU General Education Breadth Courses

CSU General Education Breadth requirements for Santa Barbara City College are also available on the articulation website (<https://drive.google.com/file/d/1zaMrPmmVVbzaoflWmiKt1QJHP5-jrs4S/view?usp=sharing>) and on the ASSIST website at www.assist.org (<http://www.assist.org>).

Completion of the CSU General Education Breadth pattern represents approximately 39 units of the total transferable units required for CSU transfer admissions.

Important Note: Courses listed in more than one area of CSU GE (Areas A-E) can only be counted in one area.

CSU Graduation Requirement in U.S. History, Constitution and American Ideals

This requirement may be met before or after transfer to the CSU. At the discretion of the CSU campus granting the degree, courses meeting this requirement may also be counted toward certification in general education. Students satisfy this CSU graduation requirement through coursework in three areas: US-1, US-2 and US-3. A student must take one course from each of the three areas. A student may use the same course to satisfy more than one area (US-1, US-2, US-3), if applicable.

Note: The combination of HIST 101 History of the U.S. to 1877 and HIST 102 History of the U.S. Since 1865 (or HIST 102H History Of The U.S. Since 1865, Honors) may also satisfy this requirement but ONLY if both courses were completed before Fall 2004.

Advanced Placement

For complete information regarding Advanced Placement exams applicable to CSU GE Breadth certification, see “Advanced Placement” in the *Catalog* Index.

International Baccalaureate

For complete information regarding International Baccalaureate exams applicable to CSU GE Breadth certification, see “International Baccalaureate” in the *Catalog* Index.

Certificate of Achievement in CSU General Education Breadth

The Certificate of Achievement in CSU General Education Breadth at Santa Barbara City College is designed for transfer-bound students who complete their lower-division General Education requirements through the CSU General Education Breadth pattern prior to transferring to a California State University campus.

Certificate Requirements

Students must complete all of the CSU General Education Breadth requirements as outlined above for a total of 39 semester units. The CSU General Education Breadth pattern must be completed with a cumulative grade point average of 2.0 or better to earn the certificate. “Pass” grades in courses used to satisfy the CSU General Education Breadth pattern are allowed.

Campus-Specific General Education Pattern

Students who do not complete IGETC or the CSU General Education Breadth pattern will be subject to the General Education pattern of the campus to which they transfer. Please refer to the respective UC, CSU or appropriate four-year institution campus catalog for a complete list of campus-specific General Education requirements.

ACADEMIC DEPARTMENTS

Disclaimer/Notification: SBCC operates its academic calendar on a 16-week semester. Information on lab and lecture hours per week may be found in the Schedule of Classes.

Department and Course Descriptions

Departmental Offerings

This section includes descriptions of programs, departmental requirements and faculty listings.

Because the General Catalog must be prepared in advance of the college year it covers, it may not reflect recent changes in curricula, requirements and faculty listings. Because course descriptions are subject to change without notice, students should consult departments for current information. The Schedule of Classes is the final authority in regard to classes offered and instructors of record. For up-to-date class schedules see www.sbcc.edu/classes (<http://www.sbcc.edu/classes/>).

Some courses are not offered every semester. The *Schedule of Classes* indicates when and where courses are offered. Students planning their schedules should contact departments to determine when courses are offered.

Course Listings Key

Course Lettering Legend

1. The letters A through D designate courses which are part of a general topic taught during a semester or over several semesters (i.e., one course taken over two or more semesters, or three modules of one course taken in one semester).
2. The letter L denotes lab courses for which a related lecture course is required in concurrent registration, or as a prerequisite.
3. The letter H is used to designate Honors Program courses.

Prerequisites for courses are stated where applicable. A student may not enroll in a course for which they are not eligible. Courses without prerequisite listings have NO prerequisites.

Transfer Code Designation

Courses that transfer for unit value to California four-year public institutions are noted as follows:

1. **CSU**—California State University
2. **UC**—University of California

For transferability of courses to the receiving institution's graduation, General Education, pre-major and major requirements, check the requirements of the institution to which transfer is planned. Courses not transferable to one four-year college or university may be considered acceptable by other colleges or universities.

For the most current information regarding transferability of courses to the California State University, the University of California and independent colleges and universities, contact the Transfer Center, Room SS-140, or refer to www.assist.org (<http://www.assist.org>).

Transfer Credit Limitation

Transfer credit limitations occur for some courses when taken in a particular sequence, or in combination with other courses. For those

courses designated as having a transfer credit limitation, contact a counselor or the Transfer Center for specific limitations.

Accounting Education

Accounting courses provide the essential foundation needed to succeed in these career areas:

- *Management*: general management, financial management, budget management, assets management, controller, treasurer
- *Private Accounting*: general financial accounting, accounting information systems design, cost accounting, budgeting, taxation, internal auditing, data processing
- *Public Accounting*—CPAs: auditing, tax compliance and tax planning services, management advisory services, computerized accounting systems
- *Government Accounting*
- *Accounting Education*: teaching, research, consulting

Those interested in preparing for immediate employment or advancement should consider:

1. The Skills Competency Award in Bookkeeping that prepares students for working in the areas of entry-level bookkeeper (for small business, sole proprietorship) or accounting clerk (accounts payable or accounts receivable, under supervision of an accounting supervisor).
2. The Accounting Assistant/Bookkeeper Certificate that prepares students to be full-charge bookkeepers in businesses that have computerized or manual accounting systems; or
3. The Associate Degree in Accounting that prepares students for advanced academic work in accounting (transfer to four-year institutions), or for employment and/or promotion to more responsible positions in accounting or business.

Tutorial Opportunities

Tutors are provided for Accounting students and are available to help students five days a week. Outstanding students in Business and Accounting are selected to serve as paid tutors.

Addictive Disorders Counseling

The Addictive Disorders Counseling Program is designed to prepare students to work in the field of addictions counseling. Both a Certificate of Achievement and Associate Degree are available. The program provides students with the education and training to develop paraprofessional expertise and to qualify for employment as entry-level addictions counselors. A required fieldwork component offers students invaluable hands-on experience working at a facility dedicated to the treatment of alcohol and drug addiction.

Licensed clinicians seeking expertise in addictions can complete the new non-fieldwork based Certificate of Achievement: Post-Professional Practice in Addictive Disorders Counseling.

Adult High School and GED

The Adult High School (AHS) Diploma Program is designed for adults who want to earn their high school diploma. Students meet with an advisor to create an individual learning plan, and work one-on-one with faculty and in small groups with other students. Subjects include reading comprehension, vocabulary and grammar, spelling, writing, mathematics and other subjects. Credit towards our high school completion program can be transferred from other accredited high schools or colleges. We offer free classes, student support services such as transcript analysis, assessment, orientation, registration support, academic advising/counseling and career counseling and a flexible class schedule.

GED exam preparation classes are designed for students who are 18 years of age or older who wish to earn a high school equivalency certificate. Students are given instruction in the basic skills needed, and have the opportunity to take practice tests that will help them successfully complete all GED exams. Classes are offered both daytime and evenings. GED exam preparation classes are also offered bilingually (Spanish/English).

Development of mathematical reasoning skills and applications to workplace, consumer and everyday life skills are emphasized. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA NC040 Introductory Algebra (1-10 Units)

Same as: HSMA 040

Hours: 200 (200 lecture)

Adult High School introductory algebra course. Course begins with a review of pre-algebra concepts such as order of operations, signed numbers, roots, formulas and writing simple algebraic expressions. Additional topics include writing, simplifying, and solving monomial and polynomial equations; functions and coordinate graphs; systems of equations; inequalities; proportion; and quadratic equations. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA NC050 Introductory Geometry (1-10 Units)

Same as: HSMA 050

Hours: 200 (200 lecture)

Adult High School course in basic geometry, including measurement and relationships of lines, angles, plane figures and solid figures. Topics include development of mathematical reasoning skills and strategies, identifying and applying formulas, estimation, mental math, calculator use, and application of geometry to workplace and everyday life. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 001 Math 1 (0 Units)

Hours: 144 (144 lecture)

Skills Development I offers individualized, small group, and one-on-one tutoring instruction in basic literacy, writing fluency, math, computer literacy and applied life skills. Students who test below a high school level in reading and writing can work to bring their skills up to higher levels. Students may also work to improve reading and writing skills for career or personal goals. Open enrollment. No prerequisites. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 010 Mathematics A: Whole Number Arithmetic (5 Units)

Same as: HSMA NC010

Hours: 72 (72 lecture)

This competency-based course reviews arithmetic, beginning with basic number concepts, like place value, ordinal value and estimation. The course also reviews the four basic operations with whole numbers and introduces problem-solving strategies and life skills and workplace math. Pretests for accurate placement and prescription, and post-tests for measurement of mastery are utilized. When taken in sequence with Mathematics B and Algebra/Geometry, this course prepares students for success in high school mathematics and in applying math to everyday life and work problems. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 020 Mathematics B: Fractions, Decimals, Percent (5 Units)

Same as: HSMA NC020

Hours: 72 (72 lecture)

This competency-based course review computation and problem solving skills with decimals, fractions, and percents. Geometry (perimeter, area, volume), estimation, problem-solving strategies, like skills and workplace math are included. Pretest for accurate placement and prescription, and post-tests for measurement of mastery are utilized. When taken in sequence with Mathematics A and Algebra or Geometry, this course prepares students for passing the Adult High School competency tests, the GED math test, and success in high school mathematics and in applying math to everyday life and work problems. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 030 Mathematics C: Pre-Algebra (5 Units)

Same as: HSMA NC030

Hours: 72 (72 lecture)

This competency-based course teaches problem solving strategies and their application in percent, ratio, proportion, measurement, and the use of formulas and equations. Students will learn basic geometry, graphing, probability, squares and roots. Students will learn to solve monomial equations and how to apply them. In the areas of ratios, proportions and percent, students will learn to calculate interest, commissions, discounts, and rates of increase, as well as apply ratio and proportion strategies to solve common travel and finance questions. Students will also be able to interpret graphs, charts, tables and meters. Pre-tests for accurate placement and post-tests for measurement of mastery are used for assessment. Successful completion of this course prepares a student for a high school algebra course. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 040 Integrated Mathematics 2: Algebra (10 Units)

Same as: HSMA NC040

Hours: 144 (144 lecture)

This competency-based course stresses the appropriate use of problem-solving strategies. It builds upon previous math courses and life experience with review and by addressing algebraic concepts and expressions. Life skills and workplace math are integrated into the course assignments. Pretests for accurate placement and prescription, and post-tests for measurement of mastery are utilized. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 050 Integrated Mathematics 3: Geometry (10 Units)

Same as: HSMA NC050

Hours: 144 (144 lecture)

This competency-based course builds skills in basic geometry, the study of measurements and relationships of lines, angles, plane figures and solid figures. Topics include the study of angles and triangles and the study of distance, area and volume. Skills developed include estimation, mental math, and calculator use. The topics and skills that are emphasized in this course are useful in many occupations, real-life problem-solving, and educational and vocational tests. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSPD NC010 Learning Skills: Note Taking Strategies (1 Unit)

Same as: HSPD 010

Hours: 20 (20 lecture)

This Adult High School course is designed to expand students' knowledge of note taking techniques and purposes. Topics include basic functions of note taking, pre-reading strategies, the Cornell Method, clustering and outlining. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC020 Learning Skills: Time Management (1 Unit)

Same as: HSPD 020

Hours: 20 (20 lecture)

This Adult High School course on time management introduces students to techniques designed to help manage time effectively and to create healthier lifestyle patterns. Topics include scheduling and how to avoid cramming. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC030 Learning Skills: Learning Styles (1 Unit)

Same as: HSPD 030

Hours: 20 (20 lecture)

This Adult High School course will teach students to identify their personal learning styles and how to adapt them to dominant teaching styles. Topics include the Learning Styles Questionnaire, the four learning styles, and matching your learning style and strategies. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC040 Learning Skills: Test-Taking Skills (1 Unit)

Same as: HSPD 040

Hours: 20 (20 lecture)

This Adult High School course builds student test-taking confidence by examining academic and emotional management techniques. Topics include test anxiety, test preparation, and strategies to use during and before taking a test. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC050 Learning Skills: Writing Skills (1 Unit)

Same as: HSPD 050

Hours: 20 (20 lecture)

Adult High School course in developing and improving writing skills. Students learn strategies for planning, writing and revision. Topics include assignment analysis, thesis development, organization and self-editing, as well as a review of language mechanics, spelling and grammar. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC060 Engaging Critical Thinking and Writing Strategies (2 Units)

Hours: 40 (40 lecture)

Reading and writing short skills course for increasing rational, higher order of critical reading and writing skills in order to meet the demands of advanced study in high school. Comprehension strategies will train students how to analyze arguments, problem solve, and acquire techniques for effective critical analysis and writing. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC070 Crossroads: Paving Your Career Path (1 Unit)

Hours: 20 (20 lecture)

This Adult High School course is designed to provide students with a path toward career development. Students will explore viable tools to develop career planning skills, chart a plan for further career growth, understand the application and interviewing process, and write a professional resume and cover letter. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC080 Pathway to Financial Literacy (1 Unit)

Hours: 20 (20 lecture)

Adult High School course designed to provide students with financial literacy and awareness. Students explore tools to create a budget, develop a financial plan, learn how to avoid financial scams, learn how to open checking and savings accounts, and understand fees and overdraft coverage. Course restricted to 98 repetitions

Transfer Information: AHS - Elective

HSPD NC090 Career Exploration for Adult High School/GED Students (1 Unit)

Hours: 20 (20 lecture)

This Adult High School course is designed to help students evaluate possible career options and pathways. Students examine their values, interests, abilities, and lifestyle and evaluate how these match with possible career choices. Research into career paths, available resources, and how they relate to students' current studies will be emphasized.

Course restricted to 98 repetitions

American Ethnic Studies

American Ethnic Studies is the critical and interdisciplinary study of race, ethnicity, and indigeneity with a focus on the experiences and perspectives of people of color within and beyond the United States. Since the emergence of ethnic studies as an academic field in the late 1960s, scholars have analyzed the ways in which race and racism have been, and continue to be, powerful social, cultural, and political forces and their connections to other axes of stratification, including gender, class, sexuality, and legal status. The Department of American Ethnic Studies here at Santa Barbara City College was one of the first in the nation. The Department offers Associate in Arts degrees in Black Studies, Chicano Studies and Native American Studies.

Anthropology

The study of Anthropology is the study of humanity—all aspects of humanity—and as such covers a hugely diverse range of seemingly disparate topics. Anthropologists look not just at one particular society, culture or religion, but examine how seemingly divergent cultures, pasts, individuals and social trends are related to one another and to all of humankind.

The goal of the Anthropology Program at Santa Barbara City College is to prepare students to use Anthropology's wide range of studies, research methods, and applications to gain a greater understanding of people in general and the world as a whole. The program aims to educate students as to the various forms that Anthropology can take and how some of the more specialized technological fields (such as Archaeology and Physical Anthropology) apply their research methods. Furthermore, Anthropology aims to give students the tools necessary to examine and evaluate world cultures, to understand the origin of human beings, and enable them to competently and confidently effect change in the society and culture of which they are a part.

Programs of Study

- Anthropology, Associate in Arts for Transfer (AA-T) (p. 163)
- Anthropology, Associate in Arts (AA) (p. 162)

Planning a Program of Study

A student planning a major in Anthropology should take the

three basic courses required for the major (, and) and as many of the more specialized courses offered by the department as possible. If the student's emphasis will be in the area of Physical Anthropology, the student should consider and explore other related courses in biology. If the student's emphasis will be in the area of Cultural Anthropology, the student should take and and related courses in the fields of sociology and psychology. A student interested primarily in Archaeology should take related courses in geology and biology.

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is *most important* for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling and Transfer Centers.

Learning Outcomes

- Demonstrate basic knowledge of the holistic nature of Anthropology and the concepts of culture and biology as used by contemporary anthropologists.
- Describe the development of Anthropology as a profession, explaining why it can be considered both a science and a humanity and how it became a distinct field of inquiry while retaining a relationship with other academic disciplines.
- Discuss the four-field nature of Anthropology and the relation of its sub-disciplines to one another, particularly in terms of the biological and social construction of such terms as sex, gender and race
- Describe ways in which different aspects of culture—economic, social, political, and religious practices and institutions—relate to one another in a cultural system, and draw comparisons between different cultures, past and present.
- Demonstrate an awareness and appreciation of cultural diversity enhanced by a holistic perspective on culture as integrated, dynamic, and embedded in broader processes of intercultural connection and globalization.
- Discuss their own cultural biases, as well as the biases of others, explaining why these biases exist while retaining the ability to put said biases aside in order to evaluate the cultural syntheses of others in ethnographies, films, news and media.
- Articulate the importance of ethics in Anthropology, specifically the fundamental obligations of anthropologists to members of the societies they study, their research sponsors and their profession.

Anthropology, Associate in Arts for Transfer, (AA-T)

The study of Anthropology is the study of humanity—all aspects of humanity—and as such covers a hugely diverse range of seemingly disparate topics. Anthropologists look not just at one particular society, culture or religion, but rather they look at how seemingly divergent cultures, pasts, individuals and social trends are related to one another and to all of humankind as a whole. With this knowledge, anthropologists believe it is possible for us to gain a better understanding of who we are, where we have come from, and where we may be heading in the future.

The Associate in Arts in Anthropology for Transfer degree (AA-T in Anthropology) will provide the foundational knowledge in Anthropology to students who want to earn a Baccalaureate Degree in Anthropology. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Art

The Art Department at Santa Barbara City College offers various areas of study, such as, Painting, Drawing, Art History, Printmaking, 3-D Design, Studio Art Foundations (2-D), Ceramics, and Sculpture. We provide students with a strong foundation through an integrated curriculum of Art and Art History.

The Art Department is committed to student success in its many programs by providing the highest level of instruction and experience, from our foundation level courses to the upper level studio classes.

We supply students with the skills necessary to successfully move on to specialized art institutes, 4-year universities, and professional careers.

Atkinson Gallery

Atkinson Gallery is SBCC's showcase for the visual arts, located on the second floor of the Humanities Building, H-202. Atkinson Gallery currently hosts three exhibitions each academic year, closing out the year with the Annual Student Exhibition. Usually, at least two exhibitions of artists are mounted annually. Through the Atkinson Gallery, the Art Department's dedicated gallery space, we maintain a strong commitment to our local community and have reached a broad audience through exhibition programming. Our Fine Arts Lecture Series brings speakers representing many art disciplines from across the country to our department. Dozens of innovative artists and historians have shared their journeys and directly advised our own students

Art History, Associate in Arts for Transfer (AA-T)

The field of art history covers a wide range of topics. The major in Art History has been planned to give students an overview of the History of Art. A broad range of courses is offered in both the Art of the Western and Non-Western World. This major is designed to give students exposure to basic information in the discipline and provide the opportunity to focus on the areas that best suit their individual needs. Students should consult with a departmental adviser and/or counselor when choosing both controlled and general electives in order to develop a program of study that is best suited to their specific needs. For example, requirements for the Baccalaureate Degree in Art History vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

The Associate in Arts degree in Art History for Transfer (AA-T in Art History) will provide the foundational knowledge in Art History to students who want to earn a Baccalaureate Degree in Art History at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Studio Arts, Associate in Arts for Transfer (AA-T)

The field of studio art covers a wide range of topics. The department offers courses in drawing, design, painting, sculpture, ceramics, printmaking and art history. This major is designed to give students exposure to basic information in the discipline and provide the opportunity to focus on the areas that best suit their individual needs. Students should consult with a departmental adviser and/or counselor

when choosing both controlled and general electives in order to develop a program of study that is best suited to their specific needs. For example, requirements for the Baccalaureate Degree in Studio Arts vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

The Associate in Arts degree in Studio Arts for Transfer (AA-T in Studio Arts) will provide the foundational knowledge in Studio Arts to students who want to earn a Baccalaureate Degree in Studio Arts at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, codified in California Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Automotive Service and Technology

The Automotive Technologies program provides students with the knowledge and skills necessary to gain entry into the automotive repair industry. This is a fun and rewarding field, providing high paying jobs and career opportunities for those people with the skills necessary to maintain, diagnose and repair today's incredibly complex automobiles.

Our program offers both a Certificate and an AS degree in Automotive Service and Technology to students who complete courses in all eight of the National Institute for Automotive Service Excellence (ASE) specialization areas: Engine Repair, Engine Performance, Heating and Air Conditioning, Electrical Systems, Automatic Transmissions, Manual Transmission and Axle, Brakes and Front End. We also offer courses designed to provide the renewal of emissions licensing, hybrid vehicle service techniques, update a technician's industry skills and retraining opportunities for entry-level employment. SBCC's Automotive Technologies program is a NATEF (ASE) certified Master Training Institution with all new/updated labs/classrooms and all of our instructors are NIASE (ASE) certified Master Technicians.

Biological Sciences

The Biological Sciences Department offers a diverse set of courses and degrees that prepare students for advancement in the areas of cellular and molecular biology, ecology and evolution, health science, environmental studies, natural history, and marine science. Additionally, numerous courses designed for non-majors provide opportunities to fulfill Natural Science lecture and lab requirements while developing a foundational understanding of the complexity and diversity of organisms, as well as how humans and other species function as individuals and as components of ecosystems.

The department's three Associate in Arts (AA) Degrees are designed to provide the knowledge, skills, and experience needed for successful transfer to a four-year institution or professional program. The Biological Sciences AA Degree provides preparation for transfer in areas such as Biochemistry, Cellular and Molecular Biology, Ecology, Evolutionary Biology, Marine Biology, Pharmacology, and Pre-Medicine. The Natural History AA Degree prepares students for transfer in areas such as Natural History and Fisheries & Wildlife Management, and can be completed fully online. The Liberal Arts, Associate in Arts: Bio-Medical Sciences Emphasis Degree provides a strong foundation for students interested in pursuing a career in the health sciences.

Biology, Associate in Science for Transfer (AS-T)

Biology is the scientific study of life through the observation of structure, function, reproduction, growth, origin, evolution, and behavior of living organisms and their relation to each other and their environment.

Advances in biological knowledge are providing solutions to the most challenging problems in medicine, environmental resources, agriculture and human ecology. Employment opportunities continue to increase as knowledge grows in genetic engineering, embryonic development, learning and memory, aging, environmental studies, natural resource management and the regulation of populations.

The Associate in Science in Biology for Transfer degree (AS-T in Biology) provides the foundational knowledge in Biology to students who want to earn a Baccalaureate Degree in Biology. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for

any community college student who completes an “associate degree for transfer,” a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Requirements

Associate Degree for Transfer Graduation Requirements

Complete all of the following:

1. All Department Requirements listed below with a “C” or better or ‘P’ in each course.
2. IGETC-CSU for STEM. The IGETC-CSU for STEM option permits students completing the AS-T in Biology to follow the IGETC-CSU (https://drive.google.com/file/d/1aKzb7xfu3t3yGKpl3PD2dOpz_Sa27H2/view/?usp=sharing) curriculum, but delay one Arts or Humanities course and one Social or Behavioral Science course until after transfer.
3. A total of 60 CSU transferable semester units.
4. Maintain a minimum cumulative CSU transferable GPA of 2.0.
5. A minimum of 12 units through SBCC.

Students are advised to meet with an academic counselor to discuss the best combination of courses to take for the AS-T and to meet the requirements of the transfer institution to which they are intending to transfer.

Learning Outcomes

1. Articulate the principles of evolutionary theory, the history of its development, and the role that evolution plays in the continuity and diversity of life.
2. Summarize and illustrate an understanding of the development of the organism, from fertilization to the adult form.
3. Explain and apply fundamental ecological principles, from populations to communities through ecosystems, and the geographical distribution of life on Earth.

4. Communicate the unifying principles governing the organization of organisms, from molecules to populations.
5. Compare and contrast organismal diversity and life histories, including nomenclature, taxonomy and systematics.
6. Characterize fundamental metabolic pathways, describe bioenergetics, and relate the interdependence of these pathways.
7. Demonstrate understanding of the structure and function of tissues, organs and organ systems, describing interrelationships and mechanisms of their integration to support the whole, functioning organism and the underlying causes of dysfunction.
8. Describe and connect the role of DNA in regulating cell activity to its importance as the basis of inheritance, evolution and biotechnology.
9. Demonstrate proficiency in the basic methods, instrumentation and quantitative analytical skills used to conduct biological research, including fundamental methods of microscopy, animal and plant dissection, and molecular and cellular biology.
10. Produce original research reports and review papers in a standard scientific format based on laboratory, field experiments and literature searches that include critical quantitative and qualitative evaluation of data to effectively communicate results, interpretations and concepts.

The completion of EMT 110 Emergency Medical Technician-Basic can be substituted for HE 103 Responding to Medical Emergencies.

The Marine Science Departmental Award signifies that students have a broad background in the physical and biological processes of the world's oceans and the tools and techniques with which they are studied. The

curriculum includes courses from Biology, Marine Technology and Earth and Planetary Sciences, and is especially suited to students interested in the fields of mariculture, boating and recreation, skin and Scuba diving, fishing, scientific research and marine science.

Students interested in a Marine Biology major should take the Biological Sciences majors sequence. Students are encouraged to supplement this sequence with courses in Marine Science.

Students planning on completing the Marine Science curriculum in two semesters can begin in either Fall or Spring.

Nutrition and Dietetics, Associate in Science for Transfer (AS-T)

The associate in science in nutrition and dietetics for transfer offers students basic knowledge in microbiology, human anatomy and physiology, chemistry and nutrition. Students learn about chemicals and nutrients in food and their effects on the human body and the world. The study of Nutrition provides a broad foundation in a practical and personally applicable exposure to a variety of scientific areas of nutrition such as chemistry, biochemistry, microbiology, anatomy, physiology, and biology. Popular topics include microbial pathogens, environmental contaminants, nutrigenomics, macronutrient balance, energy metabolism, obesity, global issues, biochemistry of exercise, and micronutrient and phytochemical utilization. Students in the program learn how the scientific method and process contributes to nutritional requirements and how nutrients function from a cellular to more practical level, and then apply this knowledge to their own health. The program also helps students understand the role of nutrition in disease prevention throughout the lifecycle and as an impact on society as a whole.

Students with degrees in nutrition and dietetics find employment within a wide range of organizations, such as medical facilities, research labs, government agencies, universities, pharmaceutical companies, and the food industry. This degree is also an excellent preparation for students

planning to continue training in medicine, public health and/or other allied health sciences.

The Associate in Science in Nutrition and Dietetics for Transfer degree (AS-T in Nutrition and Dietetics) will provide the foundational knowledge in the discipline to students who want to earn a Baccalaureate Degree in Nutrition and Dietetics. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a newly established variation of the associate degrees traditionally offered at a California community college. or SOC 101H	Introduction to Sociology, Honors
Total Units	26.00-31.30

Students are advised to meet with an academic counselor to discuss the best combination of courses to take for the AS-T and to meet the requirements of the transfer institution to which they are intending to transfer.

Learning Outcomes

1. Evaluate personal energy and nutrient requirements and food sources using current dietary and nutrition assessment tools.
2. Explain the physiological processing of nutrients in relation to energy balance, metabolism and physical activity.
3. Evaluate the impact of socioeconomic variables on food safety, food choices, food beliefs, and disease risk.
4. Identify dietary and lifestyle modifications for improving health throughout growth, development and aging.
5. Evaluate how human populations impact and are impacted by nutrition, food choices, and its relationship to disease.

Business Administration

The Business Administration Department provides students with a broad background in Business Administration, Business Law, Legal Environment of Business, Management, Leadership, Business Mathematics, Real Estate and Entrepreneurship. They provide foundational, specialized, knowledge in the areas of law, management, real estate and entrepreneurship, which represent the ongoing needs of business and industry.

The Department offers degrees and certificates as well as entry-level and advanced Skills Competency Awards.

The Department participates in a variety of industry/educational partnerships including the National Association for Community College Entrepreneurship, the United States Association for Business and Entrepreneurship, the American Management Association, the American Bar Association, Global Trade Workforce, LinkedIn, Santa Barbara Association of Realtors, and the Santa Barbara Chamber of Commerce.

The Department also provides introductory courses (electives) for students in programs campus-wide.

Scheinfeld Center for Entrepreneurship & Innovation

Scheinfeld.sbcc.edu (<http://www.Scheinfeld.sbcc.edu>)

Under the aegis of the Business Administration Department, the Scheinfeld Center for Entrepreneurship & Innovation is where students from any discipline can access the tools, resources and mentorship needed to start or grow their business. The Scheinfeld Center supplements the Business Administration courses in Entrepreneurship with an entrepreneurial internship program, the Enlightened Entrepreneurship Speaker Series, and the regional New Venture Challenge business plan and pitch competition. The Scheinfeld Center hosts the Small Business Development Center (SBDC) of Santa Barbara, which provides no-cost business consulting to students and the community. Additionally the Scheinfeld Center hosts the Center for International Trade and Development (CITD) to assist businesses with international expansion through importing and exporting. The Scheinfeld

Center is located in BC-220 and is open Monday through Friday, with scheduled and drop-in appointments available.

Business Administration, Associate in Science for Transfer (AS-T)

The Business Administration program gives students general business knowledge in managerial controls, economics of business, human resources (personnel), labor relations, business risks, interaction of government and business law, production and distribution. They provide the foundations for areas of specialization, such as accounting, finance, or marketing management.

The Associate in Science Degree in Business for Transfer provides students with the foundational knowledge in business to make a successful transition to a Baccalaureate Degree in Business program at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community

college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Chemistry

The Chemistry Department offers courses for both Chemistry majors and non-Chemistry majors. An Associate in Arts Degree may be earned. In addition, the department offers chemistry courses required by other departments.

There is virtually no area of science that is unaffected by discoveries in the field of chemistry. The exploration of our solar system is made possible by the development of exotic fuels for rockets, special ceramics to dissipate the enormous heat generated by re-entry into the atmosphere, and light-weight, high-strength alloys for the space vehicles themselves. A coalition of chemists and biologists is attempting to correct defects in living organisms through genetic engineering, while other chemists work with doctors to create synthetic body parts and to alleviate suffering through the design of new or more effective drugs. Additionally, chemists are helping to increase the world's food supply, to develop synthetic fuels, and to produce extremely pure chemicals for use in computers and energy-conversion devices.

Because chemistry touches so many areas of human activity, it is essential that each individual have some understanding of basic chemical principles. Only in this way can citizens make intelligent decisions concerning applications of technology.

Programs of Study

- Chemistry, Associate in Arts (AA) (p. 188)

Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is *most important* for a student to consult a counselor before planning an academic program for transfer. Articulation agreements for majors outlining transfer requirements are available on the ASSIST website at www.assist.org (<http://www.assist.org>).

Planning a Program of Study

Since many Chemistry courses have mathematics classes as prerequisites, it is important for students majoring in Chemistry to complete these courses prior to beginning the program.

General Chemistry (CHEM 155 General Chemistry I and CHEM 156 General Chemistry II) is offered every semester, including the summer. The one-year organic sequence begins in the Fall Semester with CHEM 211 Organic Chemistry I and CHEM 221 Organic Chemistry Laboratory I, and is completed in the Spring Semester with CHEM 212 Organic Chemistry II and CHEM 222 Organic Chemistry Laboratory II. Students must complete CHEM 156 General Chemistry II before being able to enroll in CHEM 211 Organic Chemistry I and CHEM 221 Organic Chemistry Laboratory I.

Communication

Whatever their age, social position, or occupation, people communicate. Humans spend more time engaged in speaking and listening than virtually any other activity. Communication is as important as it is pervasive—success or failure often depends on how well we express ourselves and understand others. Recognizing this fact, the Communication Department offers a wide range of courses to help students become more skillful, aware communicators.

The department's curriculum focuses on communication in a variety of settings—interpersonal, small group, organizational, presentational, via mass media and between cultures and nations. Courses are also available in argumentation and debate, communication theory and research methods.

Communication students will have the opportunity to gain practical and theoretical knowledge about human communication, develop their communication skills, and showcase their proficiency by participating in various projects through their classes.

The Communication Department at Santa Barbara City College offers two areas of emphasis within the AA Degree in Communication—a Communication Science Emphasis and an Applied Communication Emphasis. The Communication Science Emphasis provides students with the foundational knowledge in communication theory and research methods. The Applied Communication Emphasis provides students with foundational knowledge in Communication Studies and its application. Additionally, the Communication Department offers an AA-T Degree in Communication Studies for Transfer.

Programs of Study

Planning a Program of Study

The field of communication covers a wide range of topics. The major is designed to give students exposure to basic information in the discipline and provide the opportunity to focus on the areas that best suit their individual needs.

Students should consult with a departmental adviser and/or counselor when choosing both controlled and general electives in order to develop a program of study that is best suited to their specific needs. For example, requirements for the baccalaureate degree in Communication or Speech Communication vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

Not all Communication courses are offered every semester. Students should plan carefully so that all required courses are included in their program of study.

Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is *most important* for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Transfer Center.

Communication Studies, Associate in Arts for Transfer (AA-T)

The field of communication covers a wide range of topics. This major is designed to give students exposure to basic information in the discipline and provide the opportunity to focus on the areas that best suit their individual needs. Students should consult with a departmental adviser and/or counselor when choosing both controlled and general electives in order to develop a program of study that is best suited to their specific needs. For example, requirements for the baccalaureate degree in Communication or Speech Communication vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

The Associate in Arts degree in Communication Studies for Transfer provides students with the foundational knowledge in Communication Studies needed to make a successful transition into a Baccalaureate Degree in Communication Studies at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Students are advised to meet with an academic counselor to discuss the best combination of courses to take for the AA-T and to meet the requirements of the transfer institution to which they are intending to transfer.

Learning Outcomes

1. Demonstrate ability to analyze and critically evaluate communication practices, messages and outcomes in various contexts (e.g., interpersonal, intercultural, small group, public and professional communication, and mass media).
2. Develop a repertoire of strategies for improved communication effectiveness and demonstrate the strategies in oral, written and/or presentation contexts.
3. Read, evaluate and report on communication research.
4. Recognize and articulate the benefits and challenges of diverse communicative practices of people living in a global/multicultural society.
5. Demonstrate understanding of the ethical dimensions of communication.

Computer Applications and Office Management

The Computer Applications and Office Management Department (COMP) provides students with a broad range of computer application skills. COMP provides students with opportunities for the entire arc of digital

life—whether your career is still in preparation (pre-career), in progress (workforce training), or in transition (changing careers or retirement).

COMP programs of study prepare students for positions in the office workplace including office management and business software specialists. Because computer applications are needed in so many different career areas, the programs and individual courses are relevant in many different career paths.

The Department offers degrees and certificates as well as Skills Competency Awards and also provides introductory courses (electives) for students in programs campus-wide.

Programs of Study

- Computer Applications and Office Management, Associate in Science (AS): Emphasis in Business Software Specialist (p. 198)
- Computer Applications and Office Management, Associate in Science (AS): Emphasis in Office Management (p. 199)

Computer Information Systems

See "Computer Science (p. 209)" and "Computer Network Engineering and Electronics" (p. 206) sections for additional computer courses.

Computer Information Systems (CIS) provides students with a broad background in the application of computers to the emerging needs of business and industry. CIS programs of study prepare students for entry-level positions in computer programming, systems analysis, database programming, help desk, computer operations and network management, information systems management, and sales and technical information positions.

The Department offers degrees and certificates as well as entry-level and advanced Skills Competency Awards.

The Department participates in a variety of industry partnerships, including the Microsoft Imagine Academy, VMware Academy, Citrix Academy, Oracle Academy, AWS Academy, and is a CompTIA Academy Partner. It offers certification preparation classes on behalf of these vendors.

The Department also provides introductory courses (electives) for students in programs campus-wide.

Computer Network Engineering

The field of computer-related technologies continues to evolve at an astounding pace. Fortunately, the Department of Computer Network Engineering provides direct access to the wide variety of exciting careers in this field. The department not only offers programs which meet the general needs of the industry, but also provides several unique specialty

programs. Most programs may be completed for a highly specific technical Certificate, or taken along with General Education courses for the broader AS Degree.

The Computer Network Engineering Program prepares students to work in the area of network support, a field which currently commands excellent salaries. Students are given extensive training for many of the major industry certification exams: A+, Microsoft and Cisco. Graduates are currently working as LAN/WAN specialists, network administrators, Internet/intranet administrators and network designers, and network engineers.

In addition to the Degree program, the department offers Skills Competency Awards for the CCNA and CCNP certifications.

Graduates from the Computer Network Engineering Department benefit greatly from the excellent reputation Santa Barbara City College has earned. In contrast to those with only highly specific training, the broad education received by our students makes them preferred job candidates with many local employers.

Program Cost and Outcome

For planning purposes, the website below provides information on the cost of attendance, program length (assuming a student attends full-time), financing options and historical student completion rates: <http://www.sbccc.edu/financialaid/gainfulemployment/> (<http://www.sbccc.edu/financialaid/gainfulemployment/>)

Learning Outcomes

1. Apply basic computer hardware and software concepts to install, trouble-shoot and manage home and small business computer network systems.
2. Using appropriate IP addressing scheme and appropriate networking hardware and software, design, trouble-shoot and maintain a computer network infrastructure for small to medium size organizations.
3. Identify computer network security threats and vulnerabilities for a given network, choose appropriate network security hardware and software for a given security requirement, and apply necessary security measures to prevent a possible computer network compromise.
4. Given a computer network engineering problem, apply critical thinking, problem-solving techniques and effective communications skills to find solutions to the problem.

Computer Science

Computer science is a dynamic field which has broad impact across the entirety of the human experience. Everything from the phone in your pocket to space probes venturing out beyond the earth utilize the concepts and ideas of computer science. Never before in history has any single endeavor grown so fast or become so universally accepted,

as computers are leading the way at the forefront of the technological revolution.

The Computer Science department at Santa Barbara City College is committed to helping students meet the challenges presented by this new technology. Our course offerings range from introductory to advanced topics, with a focus on transfer and occupational training. Our AS and AS-T degrees are designed to prepare students for employment or for transfer to both the CSU (<https://www.calstate.edu/>) and UC (<https://www.universityofcalifornia.edu/>) systems. Additionally, we also offer several skills competency awards which demonstrate proficiency in specific areas, such as mobile application or web development.

CS 187	iOS Programming	
Total Units		12.00-14.50

Learning Outcomes

1. Design and implement programming solutions to complex problems.
2. Develop software that can perform standard operations on data stored in the standard data structures.
3. Develop software that implements designs that incorporate standard design patterns.
4. Employ analytical methods to estimate the duration and cost of a software development project.
5. Use code versioning systems to manage changes to a code base.
6. Work in a team environment to implement project goals.

Construction Technology

Construction Technology offers a series of carpentry courses, green-collar training courses and electrician trainee courses. CT 110 Beginning Construction, the introductory course, is open to all students.

The advanced Construction Technology carpentry courses—CT 111 Beginning Construction Trades, CT 112 Framing, CT 113 Roof Framing, CT 114 Beginning Finish Carpentry, CT 115 Intermediate Finish Carpentry

CT 116 Blueprint Reading, and CT 118 Measuring and Calculating—are designed for students who have completed CT 110 Beginning Construction, or those with a minimum of one year of carpentry experience. CT 290 Work Experience In Construction Trades combines on-the-job training with classroom instruction.

CT 122 Building Green, CT 124 Building Performance and CT 125 Introduction to Photovoltaic Systems do not require any previous building classes.

Santa Barbara City College (Division of Apprenticeship Standards, Electricians Certification Unit Approved School #138) offers four Electrician Trainee courses as a “partial” General Electrician curriculum. The courses—Blueprint Reading for Electricians, Electrical Mathematics and Introduction to *National Electrical Code*—are designed for students working as electricians who want to prepare for the state certification exam and those required to be enrolled in order to continue working for a C-10 electrical contractor’s license.

For further information concerning the carpentry courses or the Electrician Trainee courses, contact Dr. Alan Price, Dean, Educational Programs, aprice3@sbcc.edu.

Disability Services and Programs for Students (DSPS)

(Also see DSPS under “Student Services (p. 33).”)

Santa Barbara City College welcomes students with disabilities. The college has established the Office of Disability Services and Programs for Students to provide educational accommodations and support services for students with disabilities enrolled in SBCC courses, as follows:

- Support the participation of students with disabilities in all educational activities consistent with the mission of community colleges.
- Determine eligibility for educational accommodations and services through the interactive process and reviewing verification of disability.
- Provide educational accommodations and services such as disability-related counseling, extended time on tests, priority registration, alternate media, assistive technology, and auxiliary aides.
- Provide reasonable educational accommodations for students with disabilities while maintaining the fundamental nature of college programs and services.
- Provide programs and services for students with disabilities, in compliance with laws and regulations such as the Americans with Disabilities Act, Section 504 and 508 of the Rehabilitation Act, the California Community Colleges Title 5 regulations, and policies and procedures adopted by the Board of Trustees of the Santa Barbara Community College District.

SBCC invites students to request educational accommodations or DSPS services by contacting the DSPS Office, Room SS-160, or by calling (805) 730-4164 (voice) or dspshelp@sbcc.edu.

Drafting/Computer-Aided Design

The 21st century is witnessing a rapid growth in science, engineering and technology. This will require society to read, write and draw the language of technology—*drafting*.

Drafting is used in a wide variety of business, industrial, professional and governmental activities, including the following:

- Anthropology
- Archeology
- Architecture
- Art—Design

- Automotive Services
- Computer Drafting
- Computer Science
- Electronics
- Engineering
- Environmental Studies
- Geology/Geography
- Graphics—Design
- Industrial Technology
- Interior Design
- Landscape Architecture
- Landscape Horticulture
- Machine Shop/Welding
- Mapping
- Marine Diving Technology
- Mathematics—Applied
- Mechanical/Elect. Systems
- Physics—Applied
- Surveying
- Technical Illustration

Santa Barbara City College's Drafting/CAD Department offers comprehensive training for entry-level positions. California certificated and professionally experienced instructors teach all departmental courses, with heavy emphasis on the laboratory use of modern drafting equipment.

Full college credit is granted for each course successfully completed. Students who complete the 31.0 units of required Drafting/CAD courses and the controlled electives earn a Certificate of Achievement in Drafting/CAD. Those who also complete institutional and General Education course requirements earn the Associate in Science Degree in Drafting/CAD. The department offers all courses with an open-door policy—both for majors and non-majors.

Planning a Program of Study

Students are advised to see a college counselor and the Department Chairperson in planning a program of study. Many factors need to be considered in the plan, including:

1. Academic goals, i.e., bachelor's degree, associate degree, or certificate programs.
2. Career and occupational goals, i.e., professional, paraprofessional, technical, occupational, or trade.
3. Program majors, such as Architecture, Engineering, Computer Science, Graphic Design, Electronic/Computer Technology and others.
4. The Drafting/CAD Department advises the student to make the choice between pursuing Architectural Drafting or Mechanical Drafting early in his/her education.

Note: Students who have completed the Certificate of Completion requirements can continue on to the Associate in Science Degree by satisfying General Education and SBCC requirements for the AS Degree.

Honors and Awards

The Drafting/CAD Department selects one student each year as "Outstanding Student." Selections are made by the department faculty and are based on academic achievement and service to the college.

Tutorial Opportunities

Each semester, the Drafting/CAD Department is allocated funds to hire student tutors. Students who have performed well in a course and who demonstrate interest in teaching are selected by the department to tutor students currently enrolled in courses. The purpose of this program is two-fold. Students currently taking courses receive excellent peer tutoring and tutors learn the techniques of teaching. Tutors also find that to teach is to learn.

Special Department Resources

A wide range of resources is available to all students enrolled in the Drafting/CAD Program. Students have access to exceptionally well-equipped laboratories with modern drafting furniture, computers, machines and supplies. Blueprinting facilities are available. Light tables and special mapping tables are available in the Drafting laboratory. A CAD (Computer-Assisted Drafting) laboratory is the department's latest modern facility addition.

The department sponsors several events, programs and services to help the student become better acquainted with the professional world of drafting. These include seminars, guest lectures, films, internships and work experience liaison with area employers.

Advising

In addition to the college counselor for the Drafting/CAD Department and the Career Center, the Department Chairperson advises students who are planning academic, professional or occupational programs and investigating career goals. Contact, Armando M. Arias del Cid, OE-24, (805) 730-4236.

Early Childhood Education

The Early Childhood Education Program at Santa Barbara City College centers around the continuing experience of supervised teaching, combined with intensive classroom instruction. Basic principles of early childhood education, including curriculum for preschools, school age programs and care-giving for infant centers, are introduced. In-depth study of observation, assessment, health, safety and nutrition are also introduced.

Throughout, there is considerable emphasis placed on developing professional interaction styles consistent with fostering positive staff relationships, communication and collaboration with parents, knowledge of community resources, and multicultural awareness of the diverse populations with whom the student will work.

The ECE Program is coordinated with the child development major offered by several state universities which dovetails, in turn, with undergraduate and graduate work leading to advanced degrees in Early Childhood Education.

Early Childhood Education, Associate in Science for Transfer (AS-T)

Students who complete the AS-T in Early Childhood Education will achieve the following competencies: Child Development and Learning; Culture, Diversity, and Equity; Relationships, Interactions, and Guidance; Family and Community Engagement; Dual-Language Development; Observation, Screening, Assessment, and Documentation; Special Needs and Inclusion; Learning Environments and Curriculum; Health, Safety and Nutrition; Leadership in Early Childhood Education; Professionalism; and Administration and Supervision.

The Associate in Science Degree in Early Childhood Education for Transfer will provide the foundational knowledge in Early Childhood Education to students who want to earn a Baccalaureate Degree in Early Childhood Education. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Earth and Planetary Sciences

Earth and Planetary Sciences is the department for explorers! You can study Earth and beyond through programs in Astronomy, Geology, Geography, and Environmental Studies. Each of these programs contains one or more majors and supports the student body by providing popular and transferable introductory level physical and social science courses.

Earth Scientists study mountain building, rivers and groundwater, oceans and the atmosphere and the connections between them, and the history of earth and the life it supports. Geographers study how Earth processes and resources vary spatially over the globe and influence society. Students of Environmental Studies explore how Earth processes affect human populations and how people are changing our planet. Astronomers explore how Earth's trajectory through our solar system affects life on Earth, the possibility of life elsewhere, and the origins of our universe.

Courses include Astronomy, Geology, Physical and Human Geography, GIS, Weather and Climate, and even Black holes. Earth and planetary scientists pursue lucrative and rewarding careers protecting society from debris flows and earthquakes, finding and responsibly utilizing Earth's mineral and energy resources, modeling climate change and understanding its impact on people, and improving social justice. See the EPS department website (<http://www.sbcc.edu/earthscience/>) for more information.

The Astronomy Major

Astronomy has played an important role in the development of modern science and technology. Astronomers study the formation, chemistry, composition, and evolution of celestial objects. Modern astronomers work with advanced technology and instrumentation to study planets, stars galaxies, nebulae, black holes, and the universe itself. Students take astronomy courses to prepare for a major in astronomy, or to fulfill general education requirements in related fields, or to prepare for various vocational jobs as technicians for high-tech industries. Graduates with a bachelor's degree in astronomy pursue careers as museum and planetarium directors, astronomers/astrophysicists, space scientists, mission data analysts, spacecraft and instrument designers, teachers, observatory technicians, telescope operators, electronics technicians,

computer programmers, or to work in the fields of optics, mathematics, electronics, or computer programming.

For more information on the Astronomy program visit <http://www.sbccc.edu/earthscience/astronomy.php>

The Geography Major

Geography is the science of space and place. Geographers study spatial distributions and relations within Earth's human-environment systems, incorporating historic and contemporary human activities within the context of the biophysical and cultural environments, and the emergence of humanity as one of the major agents of change on Earth. The geography program exposes students to many of the tools and technologies employed by earth science professionals, including Geographic Information Systems (GIS) and Global Positioning Systems (GPS). The Associate in Arts Degree in Geography provides for a liberal education and prepares one for positions in business, government, environmental consulting, resource management, teaching, the technology sector, and service in foreign areas.

For more information on the Geography program visit <http://www.sbccc.edu/geography/>

The Geology Major

Geology is a multi-disciplinary science that applies biology, chemistry, physics, mathematics and engineering to the natural world around us. The rich variety of its fields of study includes oceanography, paleontology, geophysics, geochemistry, hydrogeology, engineering geology, environmental geology and more. That is what makes geology an exciting and challenging major for students with broad scientific interests and a love for natural systems, environments and our planet's history.

Geology majors gain scientific observational reasoning, communication skills and an understanding of geological concepts and history. This blend of interpretive scientific ability and historical perspective gives geologists an important role in society. They apply their skills and knowledge to solve complex problems related to human interaction with natural systems, hazards and resources, and to communicate solutions and options to the public.

Geology majors may choose between two AS degrees, one designed for students seeking the minimum requirements for transfer to a CSU, and the other to provide a deeper dive into the geosciences that gives students robust preparation for transfer anywhere.

Planning a Program of Study

Careers in the earth and planetary sciences are increasingly dependent upon completion of one year of calculus, college chemistry and college physics, along with a sound foundation in the earth sciences. The student is therefore urged to plan a program to ensure the orderly completion of the required courses outside the earth sciences. Students having deficiencies, particularly in mathematics, should correct these deficiencies early in their programs.

Not all courses in the Department of Earth and Planetary Sciences are offered each semester. Courses currently offered only during the Fall Semester are EARTH 125 (<https://catalog.sbccc.edu/search/?P=ERTH%20125>) Mineralogy and Resources, EARTH 114 (<https://catalog.sbccc.edu/search/?P=ERTH%20114>) The Geology Of California, and EARTH 131 (<https://catalog.sbccc.edu/search/?P=ERTH%20131>) Geologic Field Studies - Eastern Sierra Nevada.

Courses currently offered only during the Spring Semester are EARTH 126 (<https://catalog.sbccc.edu/search/?P=ERTH%20126>) Petrology and Rock-Forming Minerals, EARTH 113 (<https://catalog.sbccc.edu/search/?P=ERTH%20113>) Geology of National Parks, and EARTH 132 (<https://catalog.sbccc.edu/search/?P=ERTH%20132>) Geologic Field Studies - Death Valley.

Our longer field courses are offered only in the summers and some are staggered in alternating summers: EARTH 133 (<https://catalog.sbccc.edu/search/?P=ERTH%20133>) Introductory Geologic Field Seminar - Colorado Plateau is offered in Summer session I, EARTH 137 (<https://catalog.sbccc.edu/search/?search=erth+137&context=catalog>) and 138 (<https://catalog.sbccc.edu/search/?search=erth+138&context=catalog>) Introductory Field Geology and Geology Field Camp, which are offered only in odd-year summers over summer sessions I and II, and EARTH 134 (<https://catalog.sbccc.edu/search/?search=erth+134&context=catalog>) Geologic Field Studies - Western Sierra Nevada, which is offered only in even-year summers during summer session II.

Geology, Associate in Science for Transfer (AS-T)

The Earth and Planetary Sciences department strives to provide our students with the educational background necessary to pursue a successful career and to successfully transition into a 4-year academic program. Earth and planetary science is for explorers! Their discoveries are worlds away and also next door. They study mountains and plains, oceans and atmosphere, the history of the earth and the life it supports, and the origins of the universe. At Santa Barbara City College, Earth and Planetary Sciences students can choose from a wide variety of courses, including Geology, Geography, Oceanography, Meteorology, Astronomy and Geographic Information Systems (GIS). All are designed to prepare them for exciting and rewarding careers.

The Associate in Science in Geology for Transfer degree (AS-T in Geology) will provide the foundational knowledge in Geology to students who want to earn a Baccalaureate Degree in Geology. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, codified in California Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Education

Program Description

The Turner Teacher Education Program is designed to provide an introduction to the teaching profession. ED 101 Introduction To Teaching And Learning In K-12 Education will provide an opportunity to explore teaching as a career while working toward an Associate in Arts Degree in Liberal Studies. Included is a combination of in-class theory and information about teaching, along with an opportunity to intern with a local school.

Engineering

Engineering involves the application of science, mathematics, and technology to solve and analyze a wide range of problems. In today's society, engineering specialties include civil, electrical, mechanical, chemical, materials, industrial, aeronautical, environmental, and computer engineering, among others. In general, engineers participate in the

activities which make the resources of nature available in a form beneficial to society and provide systems that will perform optimally and economically.

The Engineering transfer program at Santa Barbara City College provides lower-division engineering coursework equivalent to the first two years of education at a 4-year university leading to a Bachelor of Science Degree. At Santa Barbara City College, all Engineering transfer students major in Engineering and do not declare a specific branch of engineering study until after they have transferred to a 4-year university. An Associate in Science and an Associate in Arts may also be obtained.

English as a Second Language (ESL)

The English as a Second Language Program offers classes to resident and international students who are learning English as a second or other language. SBCC credit ESL classes help students develop the language and academic skills necessary to help them meet their life, career, and academic goals.

ESL classes are offered from beginning to advanced levels necessary to enter community college classes in English and take other college classes. The program helps students develop their reading, writing,

speaking and listening skills in English and also offers classes that focus on specific skills that support learning such as: grammar and editing, basic computer skills for writing, conversation practice, listening, speaking and notetaking for academic courses, and English to enter specific career programs such as Early Childhood Education and Environmental Horticulture.

New students will take a placement test to help them enter the program in the best classes for their level. Students don't need to take the TOEFL and will be ready to enroll in college-level courses when they complete the ESL Program.

English, Composition and Literature

The English Program at Santa Barbara City College has been developed with the following vision as its guiding principle: to provide to all matriculating students an education that encompasses foundational skills for employment and for all of their college and university learning. The skills include composition and critical thinking, both of which further their ability to participate knowledgeably in the social dialogue of our times. The study of literature in its various forms of fiction, non-fiction, drama, and poetry enlarges students' cognitive abilities and connects them to the larger discourse relating to human experience and values.

A product of this vision and the Program's curricula is a student body that is curious, self-directed in inquiry, and engaged with ideas—historical, contemporary, artistic and social. The Program thus serves the individual student, the academic community, and society at large. The reading and writing components of the Program not only promote the critical thinking skills necessary for analysis but also develop understanding of diverse cultures, traditions, and histories.

The freshman English courses (ENG 110 (<https://catalog.sbccc.edu/search/?P=ENG%20110>) Composition and Reading and ENG 111 (<https://catalog.sbccc.edu/search/?P=ENG%20111>) Critical Thinking and Composition Through Literature) provide students with the foundation in college writing and research to promote their individual growth and to enhance their ability to succeed in their further education or in their work-certificate goals. In addition, sophomore literature courses satisfy the requirements for the English major and also attract and motivate students to become acquainted with important and exciting works of art. They also fulfill the General Education requirements for students enrolled in degree and transfer programs. Since one important goal of our English Program is to foster creativity and imaginative endeavors so necessary in the life of the mind and the spirit, our department also offers Creative Writing courses and the option to earn a Creative Writing Certificate.

Creative Writing, Certificate of Achievement (C): General Emphasis

There are two emphases in earning the Creative Writing Certificate.

1. The **General Writing** emphasis will enhance students' abilities as creative writers and help them market and publish their work.
2. The **Professional Writing** emphasis focuses on applied areas of study, such as screenwriting, technical writing, journalism and non-fiction.

The Certificate in Creative Writing requires a total of 18 units. Students must take both core courses (6 units), then 4 courses from their selected track—Creative Writing Emphasis or Professional Writing Emphasis (12 units), with the possibility of substituting two of those courses from the elective list (see below). Each emphasis has a list of recommended electives. During the semester that a student receives the Creative Writing Certificate, she or he should present a public reading of no less than twenty minutes as arranged with an English Department faculty member who regularly teaches creative writing courses.

Learning Outcomes

1. Distinguish key elements of the four genres—fiction, drama, creative non-fiction and poetry and incorporate key elements of each genre in their own work.
2. Evaluate both student and professional writers' mastery of key elements of the four genres using criteria established by the course texts and by instructor during class lecture and discussions.
3. Synthesize critical appraisals of original drafts and incorporate that critical feedback into subsequent revisions of an original short fiction, drama, creative non-fiction, and poetry.
4. Participate actively in class by supporting the workshop environment through reading, class discussion, and peer feedback.

¹ Recommended Electives for Professional Writing Emphasis.

Learning Outcomes

1. Distinguish key elements of the four genres—fiction, drama, creative non-fiction and poetry and incorporate key elements of each genre in their own work.
2. Evaluate both student and professional writers' mastery of key elements of the four genres using criteria established by the course texts and by instructor during class lecture and discussions.
3. Synthesize critical appraisals of original drafts and incorporate that critical feedback into subsequent revisions of an original short fiction, drama, creative non-fiction, and poetry.

4. Participate actively in class by supporting the workshop environment through reading, class discussion, and peer feedback.

English, Associate in Arts for Transfer (AA-T)

The objective of the English Department is to provide each student with the opportunity to develop his or her own reading, writing, research and critical thinking abilities for successful transfer to universities and for functioning in society and the job market.

The Associate in Arts degree in English for Transfer will provide the foundational knowledge in English to students who want to earn a Baccalaureate Degree in English at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

English (AA-T) Program Map

Environmental Horticulture

Environmental Horticulture (EH) teaches students the skills and knowledge required for success in the professions of landscape maintenance, landscape design, permaculture, nursery and greenhouse work, and ecological restoration. The program encourages professional standards, a strong work ethic and environmentally sound practices.

Horticulture industry professionals from the local community serve as members of the EH Department's Advisory Committee, providing guidance and expertise in enhancing the EH program's curriculum to ensure students are receiving up-to-date knowledge and skills needed to garner positions in the industry.

Through field trips and professional guest speakers, students have a chance to meet actual horticulture businesses and meet industry professionals. This helps prepare the student for future work and lays the groundwork for student's professional horticulture contacts—many landscape industry employers, in search of energetic and skilled apprentices, contact the department when looking for new apprentices, interns and employees.

Class lectures are held inside, while the lab portion of classes utilize two outdoor, instructional gardens: the SBCC Lifescape Garden and the Chumash Point Ethnobotanical Preserve. The gardens are also the site of the department's nursery/greenhouse unit.

There are no prerequisites for EH courses: Each can be taken as a stand alone course for personal enrichment, or as a series working towards a college Certificate or A.S. degree in EH.

Programs of Study

Planning a Program of Study

Many students of this program enter with some horticulture experience, working in the department's horticulture garden on campus, in the landscape contracting industry, the nursery/greenhouse industry, in landscape maintenance, design or ecological restoration. However, some students enter the program with no background in horticulture and enroll to gain such experience. The classes are open to anyone, home gardener, professional landscaper, designer, or farmer. There are no pre-requisites for any courses and students can start the program with any class.

Typically, more advanced students in the program enroll in EH 290 Work Experience In Environmental Horticulture. This course is considered a vital aspect of the program—generating two to four units of credit each semester for enrollees and giving the student real-world experience in the horticulture field, before they graduate. The college, the student and job supervisor work together to develop meaningful work experience situations and projects. Often, the professional relationships forged during this course lead to longer-term employment for the student or at least exposure to successful professionals in the horticultural field.

Units earned under the one-year Certificate of Achievement program can be applied toward the Associate Degree; many articulate toward the Horticulture degree program offered by California Polytechnic State University and other California State Universities.

Environmental Studies

Some of our greatest challenges and opportunities are associated with whether our growing human population can meet its needs without degrading environmental systems and making it impossible for future generations to meet their needs. Global environmental issues like climate change are making the future very different from the past and any student hoping to succeed in this new world must understand the science, economics, and politics of the environment.

Environmental Studies is an interdisciplinary program with courses in Biology, Earth Science, History, Economics, and Global Studies addressing the past, current, and future issues of population growth, food, water, energy, pollution, and underlying geology and associated policies. A student can receive an A.A., A.S.T. degree, a Certificate of Completion in Field Methods, or a Skills Completion Award in Field Methods.

Every discipline and segment of the economy is affected by the environment. Coursework in this area is, therefore, critical to success regardless of your major. Courses focus on the science, economics, politics, and history of how humans interact with Earth's biological and geological systems.

Courses include face to face and online lectures, on campus and field-based labs, and project-based courses. Most courses in the program satisfy IGETC requirements and are transferable.

Film and Media Studies

Film and Media Studies at SBCC explores the history, theory, and criticism of film and of evolving media that shape our everyday lives. The department offers a variety of courses, from the early years of film history to the contemporary era, including both American and international works, designed for film majors and interested non-majors who wish to

enhance their knowledge of film and media as part of their undergraduate education.

Students are able to immerse themselves in research and analysis in an academic setting, as well as in current film industry practices. The department offers courses on-campus, online, and as hybrids, as well as off-campus through Study Abroad, the Internship Program, and the Film Festival Studies courses.

The department offers an AA degree, certificates, and a Skills Competency Award. Students are prepared to pursue baccalaureate degrees in a variety of film related majors with courses that articulate to UC and CSU, as well as other 4-year universities. Students transfer to campuses in the UC and CSU system, as well as at top four-year film schools such as UCLA, USC, NYU and Chapman University.

Film, Television and Electronic Media, Associate in Science for Transfer (AS-T)

Film is a universally recognized medium that has a profound impact on how we view the world and ourselves. Filmmaking is the most collaborative of art forms. It demands the cooperation and dedication of screenwriter, cinematographer, producer, director and editor working together in a complex, creative enterprise. Film and Television explores the theory, criticism and production of motion pictures.

The Film and Television Department at Santa Barbara City College offers a wide variety of courses designed for film majors and interested non-majors who wish to enhance their knowledge and appreciation of film as part of their undergraduate education. Students are exposed to a vast array of films from the classic to the contemporary, including both American and international works.

Motion picture production is a vital component of the Film and Television Department at SBCC. Students are able to apply their critical and theoretical understanding of film art in a comprehensive production program, which includes hands-on experience in screenwriting, production, cinematography, directing, editing, sound and visual effects.

The Associate in Science in Film, Television, and Electronic Media for Transfer degree (AS-T in Film, Television, and Electronic Media) will provide the foundational knowledge in the discipline to students who want to earn a Baccalaureate Degree in Film, Television, and Electronic Media. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, now codified in California Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a newly established variation of the associate degrees traditionally offered at a California community college. Upon completion of the associate degree for transfer, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis.

Film and Television Production

The tools of visual storytelling are changing faster than ever before, but the basics remain unchanged. SBCC Film & Television Production provides students a strong foundation in theory, art and technology with industry-standard equipment and software taught by award-winning professionals working in the industry.

The program emphasizes hands-on, experiential learning. Students will be handling equipment or learning software in their first few weeks of class instead of waiting for their third year at a university, and the curriculum offers a broad array of electives to suit individual interests in production, post-production, or both.

Graduates will be ready for direct entry into the workplace, or for transfer to a university to earn a bachelor's degree.

Graduates are successfully working in Film & Television jobs throughout North and South America, Europe, and Asia. For students who plan to transfer to a university, SBCC Film and Television Production students have been accepted to USC, UCLA, NYU, Chapman, Columbia, and many others.

Finance, International Business and Marketing

The Finance Program offers personal and professional finance courses leading to state-approved certificate and transfer degree programs in finance. Students interested in the financial services industry should consider the course of study described for the Finance Certificate. Additional courses in personal money management and real estate investment offer opportunities for personal development. These programs have been designed in consultation with leading local professionals. Commercial and investment banks, savings and loans, credit unions, thrifts, and finance companies are looking for candidates with these skills.

The International Business Program provides an introduction to the central aspects of international business. Topics include the economic, political, and social environments in which we operate; how international activities alter the strategies for success in management tasks of planning, marketing, finance, law and personnel; and the principles associated with the international exchange of goods, services and investments. Unique applied short courses are offered in the spring in international business law and basics of importing and exporting.

The Marketing Program is designed to lead people to job opportunities in the fields of advertising, marketing, retail sales, wholesaling and international marketing. Concepts of planning and developing products

and services are emphasized, along with studies of packaging, distribution, and government regulations.

Finance, Associate in Arts (AA)

For success in business, a liberal education is invaluable. Particularly important are communication (written, oral and behavioral), quantitative (mathematics and statistics), and computer skills (word processing, spreadsheets, presentations and database management).

This program has been designed to equip the student with the specific techniques of business financial management—anticipation of cash needs, acquisition of financial resources, and allocation of cash in the company. Financial statement analysis, financing business activity, capital budgeting and working capital management are emphasized.

Graphic Design and Photography

Graphic Design and Photography Overview

The Graphic Design and Photography department cultivates the creation of powerful images and visual communication through an approach that combines art and technology. The programs begin with foundation courses that focus on the elements and principles of the discipline and also train students with industry-standard technology and equipment. Fundamentals of design and composition, as well as creative thinking and problem-solving techniques, give students a strong foundation for entry into the workforce, as well as for advanced study at other colleges and universities. Students work in a state-of-the-art digital arts center for hands-on training with digital tools and printers.

Graphic Design Concentration

With strong foundation courses in design and layout, typography, and creative thinking, students learn to create unique, professional, and creative designs from concept to final work. The Graphic Design program emphasizes the importance of concept and message, and the power that these have to communicate. Design history, theory, and professional practices are integrated into the curriculum. Challenging and varied studio projects develop technical proficiency in designing for print and screen media—including branding, illustration, advertising design, and publication design.

Health Information Technology and Cancer Information

The Health Information Technology (HIT) and Cancer Information Management (CIM) Department offers degrees and certificates in HIT, CIM, Medical Coding, and Data Analytics. Completion of these degrees and certificates prepares students to sit for national credentialing exams. The HIT and CIM programs are accredited and the Medical Coding program is nationally approved. These programs lead to various jobs in healthcare settings, including those in data management, revenue management, privacy and security, electronic health records, tumor registry and more.

These programs are all offered completely online. Students must have access to the Internet to enroll in these programs and must complete online orientation activities as the first assignment of each course. Students must meet online technical requirements. Core elements of each online lecture course include successful completion of the course objectives using the Internet, textbooks, study materials and computer applications. For some programs, a professional directed practice, under the guidance of a clinical preceptor, is required at facilities as close as possible to each student's location. See the HIT/CIM Department website for more information, www.sbccc.edu/hit.

History

History is the disciplined study of the human past. Santa Barbara City College offers a varied and integrated curriculum in history. For the major, the History Department provides the opportunity to pursue creative, critical and analytical historical thought in a rigorous manner. For the non-major, the History Department's courses offer enrichment, support and perspective to the student's major field of interest. Central to the liberal arts, history supplies a solid foundation for business, legal studies and education, as well as graduate study. Introductory courses normally precede more specialized offerings.

History, Associate in Arts for Transfer (AA-T)

The goal of the History Program at Santa Barbara City College is to prepare students to develop the fundamental understanding of history, the disciplined study of the human past. Santa Barbara City College offers a varied and integrated curriculum in history. The History Department provides the opportunity to pursue creative, critical and analytical historical thought in a rigorous manner. Central to the liberal arts, history supplies a solid foundation for business, legal studies and education, as well as graduate study.

The Associate in Arts degree in History for Transfer provides students with the foundational knowledge in History to make a successful transition into a Baccalaureate Degree in History at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, codified in California Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Students are advised to meet with an academic counselor to discuss the best combination of courses to take for the AA-T and to meet the requirements of the transfer institution to which they are intending to transfer.

Learning Outcomes

1. Incorporate evidence derived from primary and secondary sources to support a thesis.
2. Evaluate historical evidence for bias and for relevance to major historical issues and controversies.

3. Identify change over time, cross-cultural connections, and links between past and present.

Recommended Sequence

History (AA-T) Program Map

Honors

Honors students are not born; they are made when people decide they are ready to challenge themselves. The Honors Program at SBCC seeks these students to be part of a rewarding and challenging interdisciplinary approach to general education and community, grounded in a shared theme chosen by students. This creates a more coherent, interesting approach to GE and IGETC requirements, allowing Honors students to investigate ideas across disciplines while making lasting friendships. Our mini-communities, called PODS, arranged around particular interests, encourage students to know each other, while the Program kicks-off each semester with a field-trip for all. Because Honors believes that anyone can become an Honors Program student, whenever they are ready for a challenge, we host an academic conference for all SBCC students each spring. Our belief that all students can be Honors students, combined with students' hard work, results in our 100% transfer rate. Students attend excellent schools, from the best UCs to privates, including NYU and Columbia. Enrolling in the Honors Program and completing the certificate shapes independent learners who exercise their talents at their own highest level of excellence.

Interdisciplinary Studies

Santa Barbara City College provides interdisciplinary instruction through courses in Science, Technology, Engineering and Mathematics, as well as in those covering various aspects of the social and behavioral sciences, oral communication, lifelong learning and self-development. Interdisciplinary courses emphasize innovation, diversity and collaboration.

Students planning to transfer to a four-year university should meet with an SBCC academic counselor to discuss the transfer process. Because admission and major preparation requirements vary at each transfer institution, students should select their General Education option and their coursework according to their academic and transfer goal to ensure appropriate academic planning. For detailed information on transfer requirements to the University of California and California State University systems, students should meet with a counselor and refer to www.assist.org (<http://www.assist.org>).

Interior Design

Interior design focuses on the creation of interior environments that are both functional and pleasing. The field offers a variety of employment opportunities with interior design and architectural firms, kitchen and bath design studios, as well as with interior materials and furniture stores. A combination of education, work experience and passing the National Council for Interior Design Qualification (NCIDQ) exam is required for interior design professionals.

The SBCC Interior Design Program, offered within the Drafting/CAD Department, provides comprehensive training for entry-level interior design positions. It is a vocational program, not a transfer program. Certificated, professionally experienced instructors teach all courses.

Successful completion of each Interior Design (ID) course earns full college credit. Students who complete the required Interior Design, Art, Art History and Drafting courses and controlled electives earn a Certificate of Achievement in Interior Design. Those who also complete institutional and General Education course requirements earn the Associate in Arts Degree in Interior Design. Courses are offered with an open enrollment policy; they are open to both ID majors and non-majors.

Interior Design classes have corequisites. A corequisite is a class that must be taken at the same time or before taking the class to which it is a corequisite. DRFT 120 Architectural Drafting I is a corequisite to ID 101 Space Planning And Lighting and ID 105 Kitchen And Bathroom Design, though it is advisable to take DRFT 120 Architectural Drafting I before taking these classes. DRFT 120 Architectural Drafting I must be taken before taking DRFT 124 Architectural Rendering I and DRFT 130 Computer-Assisted Drafting And Design I. Plan your schedule accordingly.

- Interior Design: Part 2, Skills Competency Award (SCA) (p. 269)

Planning a Program of Study

Students are advised to see a college counselor and the Department Chairperson in planning a program of study. Many factors need to be considered in the plan, including:

1. Academic goals, i.e., Certificate program, Associate Degree or Bachelor's Degree.
2. Career and occupational goals, i.e., professional, paraprofessional, technical, occupational or trade.

Journalism

The profession of journalism has undergone a seismic shift in the last decade. Newspapers and broadcast journalism have moved online, allowing for more immediate reporting, faster news cycles and extensive public interaction. The popularity of mobile devices and social media has exponentially increased the demand for up-to-date news. It's led to a new class of journalists able to tell stories using the full array of digital tools. This is the world for which we prepare our students.

The Journalism Program at Santa Barbara City College provides an overview of the workings of the mass media today, along with a

foundation to the journalistic skills, knowledge and ethics needed to work in the industries that are hiring our graduates. Through the award-winning 24/7 online news site, thechannels.org (<https://www.thechannels.org/>), students practice reporting and nonfiction story production for multiple platforms, including photography, video, audio and social media. Students also learn about news writing, interviewing, reporting, editing, freelancing, photojournalism, video storytelling, journalism history, media law and journalism ethics.

The department offers two associate degrees for transfer and skills competency awards in public relations and photojournalism. SBCC faculty work closely with our counterparts at state universities to ensure the relevance, currency and transferability of all our classes and programs.

Journalism, Associate in Arts for Transfer (AA-T)

Students majoring in journalism learn about the American news media in all forms—newspapers, magazines, television, radio and the Internet—as the basis of a liberal arts education. Students also become media “practitioners” as every journalism class offers a unique opportunity to develop publishable work for *The Channels*, SBCC’s award-winning student newspaper and online service. The Journalism Department is an active part of the School of Media Arts, and we offer all students the opportunity to collaborate with those from the disciplines of film, video production, multimedia, photography and graphic design.

The Associate in Arts degree in Journalism for Transfer will provide the foundational knowledge in Journalism to students who want to earn a Baccalaureate Degree in Journalism at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, codified in California Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://>

Liberal Arts and Sciences

The Liberal Arts and Sciences degree is designed for students who wish to have a broad knowledge of arts and sciences, while building a foundation within an "area of emphasis." This degree can be a good option for students who may need to explore possibilities before selecting a major prior to transferring to a university or for students who wish to earn a degree in a particular area of study that interests them.

Students planning to transfer to a four-year university are cautioned that this degree may not meet all of the requirements for transfer into a particular major. However, through careful educational planning with an SBCC academic counselor, this degree would offer a solid foundation in the transfer process.

Because admission and major preparation requirements vary at each transfer institution, students should select their General Education option and their coursework for the Associate Degree in consultation with an SBCC academic counselor to ensure appropriate academic planning. For detailed information on transfer requirements to the University of California and California State University systems, students should meet with a counselor and refer to www.assist.org (<http://www.assist.org/>).

Elementary Teacher Education, Associate in Arts for Transfer (AA-T)

Liberal Studies at Santa Barbara City College is an interdisciplinary program that provides students with a foundation of knowledge in the areas of English composition, critical thinking, oral communication, physical and life sciences, arts and humanities, and social sciences. Through this program, students acquire a breadth of knowledge across multiple disciplines, explore how knowledge across disciplines can be connected, analyze and evaluate ideas using the tools of critical thinking, and demonstrate effective communication skills in reading, writing, listening and speaking.

The Associate in Arts Degree in Elementary Teacher Education for Transfer provides the foundational knowledge to students who want to earn a Baccalaureate Degree in Liberal Studies and a Multiple Subject Teaching Credential to prepare them for elementary school teaching (K-6). This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California

State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Students are advised to meet with an academic counselor to discuss the best combination of courses to take for the AA-T and to meet the requirements of the transfer institution to which they are intending to transfer.

Learning Outcomes

1. Develop an awareness of the study of cultural, literary, humanistic activities and artistic expression of human beings.
2. Evaluate and interpret the ways in which humans through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation.
3. Use the scientific method to develop and test a hypothesis.
4. Use mathematics to predict and model scientific phenomena.
5. Evaluate human behavior and human interaction in the social and physical environment.

- 6. Survey, analyze and interpret concepts, theories and methodologies to cultivate an understanding of human beings and the societies and cultures they create.
- 7. Identify and evaluate how societies and social subgroups operate.

Liberal Studies, Associate in Arts (AA): Education Emphasis

The Liberal Studies: Emphasis in Education Degree prepares students to transfer to a Liberal Studies—Teacher Education bachelor’s degree program. The degree is intended to provide students with options to select appropriate coursework to meet lower-division requirements of the Liberal Studies program of the four-year institution they are planning to attend. Articulation agreements for most Liberal Studies—Teacher Education programs offered at the University of California and the California State University systems are available on the ASSIST website at www.assist.org (<http://www.assist.org>).

Liberal Studies—Teaching Education programs are different at each four-year institution. Therefore, students must select their courses for the Associate Degree in consultation with an SBCC academic counselor to ensure they satisfy the lower-division preparation for the Liberal Studies program of the four-year institution to which they are planning to transfer.

The Liberal Studies: Emphasis in Education Degree at Santa Barbara City College is an interdisciplinary program that provides students with a foundation of knowledge in the areas of English composition, critical thinking, oral communication, physical and life sciences, arts and humanities, and social sciences. Through this program, students acquire a breadth of knowledge across multiple disciplines, explore how knowledge across disciplines can be connected, analyze and evaluate ideas using the tools of critical thinking, and demonstrate effective communication skills in reading, writing, listening and speaking. Since Liberal Studies is a “college-wide” interdisciplinary Associate Degree program, it does **not** have departmental affiliation. Inquiries regarding the Liberal Studies program should be directed to an academic counselor or the Dean, Educational Programs—Student Development and Counseling.

Library Overview

The library plays a central role in the life of the campus and is visited by thousands of students a day. The Eli Luria Library embraces its slogan: Explore, Learn, Grow. We inspire discovery by offering dynamic, innovative, and welcoming physical and virtual environments for students and faculty, and providing the resources, services, and instruction they need to achieve educational, professional, and personal growth and success.

Professional librarians are available at all open hours for reference and research support, and to provide instruction in information competency, whether within a research workshop or one-on-one. Individual research services are provided in-person, using chat online at the library website, or by telephone.

Access to the library catalog and information about all resources, staff, and services are available through the Library website, from on or off campus. Resources are expansive and include a print collection of over 92,000 books and over 123,500 electronic books, print periodicals, and many electronic databases representing a wide range of disciplines. Copies of most course textbooks are available for short-term use, checked out with a current campus ID. Books and copies of articles from periodical titles not owned are available to the SBCC students, faculty, and staff via interlibrary loan.

There are many different kinds of spaces in the library to sit, study, meet with others, participate in events hosted by the library, or enjoy a snack or beverage in the Buzz Shack, a cafe inside the library. Many kinds of technology are available including WiFi access, desktop computers, scanners, printers, copiers. There are even portable computers for 4-hour check out.

Marine Diving Technologies

Students who enroll in the Marine Diving Technologies Program have options to obtain an Associate in Science Degree or Certificate in marine technology. Industry-based certifications meeting the American National Standards Institute (ANSI) "Commercial Diver Training—Minimum Standard ANSI/ACDE-01-2015". The Association of Diving Contractors International (ADCI) Surface Supplied Diving Certification International Endorsement and the International Diving Schools Association (IDSA) standards are also available for the field of commercial diving. The

training is designed to meet the needs of the marine construction, research and tourism industries. These multi-billion dollar marine technology industries are dynamic and require personnel who have a broad training base involving technical skills above and below the water.

The Marine Science curriculum trains students interested in the fields of mariculture, boating and recreation, skin and Scuba diving, physical and biological oceanography, scientific research and marine science education. Satisfactory completion of the two-semester curriculum earns the student a Biological Sciences Departmental Marine Science Certificate. See the Biological Sciences (<https://catalog.sbcc.edu/academic-departments/biological-sciences/>) section of this Catalog.

Learning Outcomes

1. Demonstrate proper tending techniques used in commercial diving.
2. Demonstrate proficiency in the safe operation of a hyperbaric chamber.
3. Recognize signs/symptoms and select appropriate treatment schedules for diving related accidents.
4. Rig proper loads and calculate safety factors for lifting applications.
5. Successfully tie knots and perform splicing commonly used in marlinespike seamanship.
6. Demonstrate proficiency in safe small boat handling during various at sea conditions.
7. Perform First Aid and CPR to American Red Cross standards in single and two rescuer mode.
8. Safely perform cutting and welding in both topside and underwater environments.
9. Safely use and operate light-weight and heavy gear diving equipment.
10. Perform routine operation and maintenance of diesel engines and diving compressors.
11. Safely operate and maintain all related surface supplied diving apparatus, support equipment and life support equipment.
12. Perform as a Diving Supervisor in a diving operation demonstrating safe, effective leadership skills.
13. Demonstrate proficiency in performing safety/planning techniques using industry standards.

Mathematics

Each year, the list of careers demanding familiarity with basic mathematical skills grows. Animation, urban planning, geography, environmental science, architecture, business management, nursing, dentistry, forestry management, psychology and photography represent only a small sample from this list. Many careers require more sophisticated mathematical skills, such as physics, engineering, and computer science.

The Mathematics Department at Santa Barbara City College offers a broad curriculum to meet the needs of students with a wide variety of goals. The department offers the following sequences and courses to help our students achieve their career goals:

1. A standard college-level sequence in single and multivariable calculus, linear algebra, and differential equations for students who plan to transfer to four-year colleges or universities in STEM fields.
2. Transfer-level courses in statistics, mathematics for liberal arts majors, and college algebra.

3. A two-course sequence in calculus for Business, Biological Sciences and Social Science majors.
4. A complete precalculus program, including elementary algebra, intermediate algebra, college algebra and trigonometry to review old or gain new mathematical skills.

Programs of Study

- Mathematics, Associate in Science for Transfer (AS-T) (p. 288)
- Mathematics, Associate in Arts (AS) (p. 287)

Planning a Program of Study

The required first-year Calculus, and indeed all of our math courses, are offered each semester (except possibly in summer). The Physics courses are offered sequentially, beginning each spring with PHYS 121 Mechanics Of Solids And Fluids. Care should be taken, however, that one semester of calculus is completed before attempting the Physics sequence. It is recommended that students take courses in order. A programming language course should be taken as soon as possible because of its usefulness as a computational tool.

The mathematics major at Santa Barbara City College meets the accepted normal curriculum. However, transfer students are advised to review, in depth, the current catalogs of institutions to which they plan to transfer for additional course requirement information.

Because mathematics is such a precisely structured discipline, students who have not acquired adequate skills and understanding at one course level will find it most difficult to succeed in the next higher course. For this reason, an important part of the Mathematics Program at Santa Barbara City College is appropriate placement of students into classes to increase their chances of success in mastering course content.

Placement into a math class can occur one of three ways:

1. If students are beginning their college career and have not taken college level math classes at another accredited college or university, then they need to visit the assessment center. For assessment information and hours, call the Assessment Center at (805) 730-4149 or sbcc.edu/assessmentcenter (<http://www.sbcc.edu/assessmentcenter/>).
2. If students are transferring from another college or if have already taken college-level math classes, then they need to submit evidence of previous math courses to the Transcript Evaluation Office. For course evaluation information, go to sbcc.edu/teo (<http://sbcc.edu/teo/>).
3. If students are continuing at SBCC, they should follow the appropriate sequence posted in the Schedule of Classes. There are several branches of the sequence, and **each student should consult with a math instructor or counselor** to make sure he/she has chosen the correct path for his/her educational goals.

Students are urged to take placement examinations and enroll in math classes as soon as possible, preferably taking math their first semester. It is not wise to postpone taking required math courses. Doing so might significantly delay transfer.

Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is **most important for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer.** Information sheets for

majors, outlining transfer requirements, are available in the Counseling Center and the Transfer Center.

Mathematics, Associate in Science for Transfer (AS-T)

The Mathematics Department at Santa Barbara City College offers a broad curriculum to meet the needs of students with a wide variety of goals. It offers a standard college-level sequence in single and multivariable calculus, analytic geometry, linear algebra and ordinary differential equations for freshman and sophomore students who plan to transfer to baccalaureate institutions. In addition, the department offers courses in statistics and calculus for Business, Biological Sciences and Social Science majors, as well as courses in support of Career Technical Education programs.

The Associate in Science Degree in Mathematics for Transfer will provide the foundational knowledge to students who want to earn a Baccalaureate Degree in Mathematics at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Mathematics (AS-T) Program Map

Medical Imaging Sciences

Radiologic Technology is the art and science of using radiation (X-ray) to provide images of the bones, organs, soft tissue, and vessels that comprise the human body. A Radiologic Technologists or Radiographer is a health care professional, applying their learned art in hospitals, clinics, imaging centers, and private medical offices. The Radiologic Technologist is an essential member of the health care team working directly with the patient and the physician, performing a wide variety of diagnostic radiographic procedures.

Our program prepares the student for an entry level position with curriculum covering patient care, safety, image production, and patient positioning and procedures. Upon successful completion of the program the student will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists (ARRT) and the State of California Department of Public Health (CDPH).

The Radiologic Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), in coordination with the California Department of Public Health, Radiologic Health Branch (CDPH-RHB).

Diagnostic Medical Sonography, Certificate of Achievement (C)

Requirements

Certificate of Achievement Requirements

Complete all Department Requirements for the Certificate of Achievement with a 'C' or better or 'P' in each course. Candidates for a Certificate of Achievement are required to complete at least 20% of the department requirements through SBCC.

Program Prerequisites:

1. Completion of a two-year allied health education program that is patient-care related including, but not limited to: Radiographic/Radiologic Technologist (R.T.), Respiratory Therapist (R.T.), Registered Nurse (R.N.), Occupational Therapist (O.T.), Physical Therapist (P.T.). Program must have been full-time, 24 months that included six months clinical experience.

OR

2. A Bachelor's Degree

OR

3. Medical Doctor (M.D.) or Doctor of Osteopathy (D.O.) degrees from outside of the U.S., equivalent to those of the U.S. and Canada

In addition to one of the above, the following prerequisites must be completed with a C or better before applying to the program:

- Anatomy (e.g., BMS 107 Human Anatomy)
- Physiology (e.g., BMS 108 Human Physiology)
- General Physics (e.g., PHYS 101 Conceptual Physics or PHYS 102 Introductory Physics For Science Majors or higher OR RT 119 Radiological Technology if a radiology program was completed)
- Intermediate Algebra (e.g., MATH 107 Intermediate Algebra), Statistics or higher mathematics (e.g., MATH 117 Elementary Statistics, PSY 150 Statistics for the Behavioral Sciences, SOC 125 Introduction to Statistics in Sociology, MATH 137 College Algebra or higher)
- Communication (e.g., ENG 110 Composition and Reading or ENG 110H Composition and Reading, Honors or COMM 131 Fundamentals Of Public Speaking or COMM 131H Fundamentals Of Public Speaking, Honors)

The following may be taken concurrently with the program but must be completed with a passing grade of C or better prior to the start of DMS 148:

- Medical Terminology (e.g., HIT 135 Basic Medical Terminology - an equivalent course may be found at most community colleges)
- Patient Care in Radiography (e.g., RT 120 Patient Care in Radiography offered fall semester at SBCC)
- Cross Sectional Anatomy (e.g., RT 250 Principles and Applications of Cross-Sectional Anatomy in Imaging offered fall semester at SBCC)

Note: RT 120 and RT 250 may be taken the fall semester prior to starting the program with program approval.

DMS 170	Introduction to Vascular Ultrasound	4
DMS 185	Clinical Experience 4	9.5
Total Units		58.30

Learning Outcomes

1. Be clinically and technically prepared to enter the current job market.
2. Communicate effectively in the work care setting.
3. Perform and identify normal anatomy and pathology for the following examinations: the abdomen, superficial structures (breast, scrotum,

and thyroid), non-cardiac chest, gravid and non-gravid pelvis (both transabdominal and transvaginal).

- ¹ Before entering the program applicants will be required to:
 - Complete an application to the RT program
 - Be eligible for MATH 107 and ENG 110 or 110H
 - Complete RT 100 - Radiography and Health Care
 - Attendance at Program Orientation Meeting
 - Provide transcripts showing completion of BMS 107 (Human Anatomy) and BMS 108 (Human Physiology) with a grade of C or better
 - Pay required badge and materials fee
 - Pass a physical examination and current immunizations
 - Provide a current CPR card
 - Pass criminal background check
 - Pass a five panel drug screen
- ² HIT 135 Basic Medical Terminology has been approved by the Radiography Department as a possible substitute for AH 120 Medical Terminology.

Recommended Electives

Code	Title	Units
RT 251	Principles of Mammography and Procedures	2
RT 290	Work Experience in Radiography	1-4

Learning Outcomes

1. *Radiation Protection*: Students are able to apply the principles of radiation protection as required by the state and federal agencies.
2. *Equipment Operation and Quality Control*: Students are able to safely operate and perform quality control measurements on radiographic equipment.
3. *Image Production and Evaluation*: Students are able to evaluate radiographic images for proper anatomy, positioning and technical factors.
4. *Radiographic Procedures*: Students are able to perform radiographic procedures on various anatomical regions based on physical and pathologic conditions.
5. *Patient Care and Education*: Students are able to apply the principles of oral, written and verbal communication to effectively deliver patient care.

Multimedia Arts and Technologies

MAT programs prepare students for careers in:

- Motion Picture CGI
- Pixar 3D Animation
- Gaming
- Virtual Reality/Augmented Reality
- Web Design/Development
- Digital Marketing
- Interactive Design
- UX/UI Design
- App Design
- Media Art Production
- Digital Illustration

MAT students develop projects which allow them to compile a portfolio to showcase and share their work with 4-year colleges, potential employers or potential clients.

MAT offers 2 tracks: one in Media Arts and the other in Animation and Gaming.

Media Arts

Provides a foundation in digital media content, design and development, web communication and interactivity.

According to the State of California EDD, 'web developer' is the sixth fastest-growing occupation in the State, with an expected 48.3% growth by the year 2024. That is over 10,000 jobs in this field alone. Moreover, the field of 'media artist and animators' is expected to grow over 15% in the same time period.

Animation & Gaming

Provides proficiency in Maya, Unreal Engine and more. Every blockbuster motion picture for the past 8 years uses Maya to create Computer Generated Imagery.

3D technologies are widely used for visualization in technical, scientific and educational fields. Companies in fields from aerospace to microbiology hire specialists in 3D production.

Music

The Santa Barbara City College Music Department offers a comprehensive program aimed at reaching each student of music, both major and non-major alike. It provides the music major with a thorough basis in the creative (theory, composition, interpretation) and recreative (performance, applied music, history and appreciation) realms of musical endeavor and enjoyment. For those interested in the commercial music field, the department offers courses in jazz, sound recording and electronic music, song writing and arranging. Non-majors seeking a better understanding of music can participate in performance groups and classes in theory, history and instrumental instruction, among others.

The Associate in Arts Degree is conferred upon completion of the two-year program of study as a Music major and completion of the state and local requirements outlined later in this section. Courses are structured to offer an articulated transfer program for the major and a core of courses is offered to satisfy and nourish the reentry and continuing non-major student seeking an expressive and enjoyable musical experience.

The facilities at SBCC feature the finest in performance and rehearsal areas, no-cost use of musical instruments, individual practice rooms, and an array of special resources and equipment designed to aid students in their musical studies and achievements.

The program of study can be completed in one year and covers three broad areas; historical, theoretical and skill-based music courses, i.e., musicianship, technique classes, historical survey and performance ensembles. These courses are intended to give the student a complete introduction to a course of study in Music, culminating in a Departmental Award in Music. There are neither college requirements nor General Education requirements that need be taken.

Personal Development

Santa Barbara City College offers courses that provide opportunities for students to increase their potential for success, develop leadership competencies, management skills, and evaluate and plan their educational programs.

Personal Development courses at SBCC, allow students to develop and organize their program of courses, co-curricular activities, and use of support services to achieve desired career training, educational goals, life management skills, and leadership skills.

Educational planning and academic skills development opportunities through Student Success, Educational Planning, and College Search courses should be an essential part of every student's college curriculum, while specialized courses provide unique opportunities for leadership development.

All students, particularly those who are undecided or looking for possible new career directions, are urged to take advantage of Career Planning courses, services, and professional guidance provided by the faculty and staff of the Career Center. Career planning courses and services also provide an opportunity to explore, choose, and enter careers and professions.

Programs of Study Noncredit Programs

- Career Strategist, Certificate of Completion (<https://catalog.sbcc.edu/academic-departments/personal-development/career-strategist-certificate-completion/>)

Philosophy

Doing philosophy means reasoning about questions that are of fundamental importance to the human experience, such as: What is a good life? What is reality? How can we know anything? What should we believe? How should our societies be organized? How should humans interact with non-humans and the environment? Philosophers critically analyze ideas and practices that often are assumed without reflection. At SBCC, the Philosophy Department approaches subjects with techniques from a range of traditions of inquiry and offers a wide variety of perspectives on the deep and perplexing questions that are central to the study of philosophy.

The Philosophy Department offers a wide variety of courses: Introduction to Philosophy, Ethics, Critical Thinking, Logic, Comparative World Religions, Philosophy of Religion, Philosophy of Art, Great Ideas of Physics, and History of Philosophy: Ancient, Modern, and Contemporary. The Department also has Honors courses in Introduction to Philosophy and Ethics.

The Department also offers Philosophy Club, Internships, Independent Study, and Debate Team, and selects one student as Outstanding Student who is presented the Philosophy Award at the annual year-end SBCC Awards Banquet.

Programs of Study

- Philosophy, Associate in Arts for Transfer (AA-T) (p. 300)
- Philosophy, Associate in Arts (AA) (p. 299)

Planning a Program of Study

The required Philosophy courses for majors may be taken in any order, but it is recommended that Introduction to Philosophy be taken as a prelude to the other courses.

Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is *most important* for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling Center and Transfer Center.

Philosophy, Associate in Arts for Transfer (AA-T)

The study of philosophy develops and refines a rigorous, analytic understanding of certain of our fundamental concepts, e.g., knowledge, reason, truth and value. Since all other disciplines in academia rely on the use of such concepts, the study of philosophy is essential for an education directed toward completeness. The study of philosophy also yields other tangible academic benefits. It has been shown that philosophy students scored at least five percentage points above average in admission tests for professional and graduate schools in America. No other subject matches philosophy in this respect. Philosophy students do better in examinations for business and management school than anyone except mathematicians.

The Associate in Arts Degree in Philosophy for Transfer will provide the foundational knowledge to students who want to earn a Baccalaureate Degree in Philosophy at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a

California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adgreewithaguarantee.com/> for the latest information about these degrees.

Philosophy (AA-T) Program Map

Photography

The Photography curriculum is carefully designed to build fundamental technical skills in the operation of 35mm DSLR (digital single lens reflex), medium and large-format cameras. In addition, all classes emphasize the importance of creativity and build conceptual-development skills through a progressive series of thought-provoking assignments.

Basic to advanced skills in digital post-production (color management, editing, and printing technologies) are provided through the entire curriculum. The classroom and labs are equipped with state-of-the-art, professional-level computers, scanners, and small- and large-format archival printers capable of printing up to 44" x 96".

Areas of specialization include: Portraiture, Digital Imaging, Travel, Automotive, Architecture, Food, Fashion, Nature

Physical Education/Health Education/Dance/Athletics

Physical Education, Health Education, Dance, and Athletics provide equitable opportunities for students to gain knowledge and practices relevant to physical fitness, sports skills, healthful living, stress management, self-expression, team dynamics, leadership, and self-discipline. Through academic study and experiential learning, students develop the vital skills necessary to improve their physical literacy. Students practice effective goal setting techniques, time management, and personal responsibility strategies, and sound decision-making skills leading to academic and personal success. The Physical Education, Health Education, Dance, and Athletics programs deliver high quality, research-based instruction in a fun, collaborative, and respectful environment that empowers and educates students to progress towards their fullest health, wellness, and athletic potential in safe and inclusive classrooms.

The profession is based on the philosophy that physical education is an academic discipline, an essential portion of the General Education process. Further, the physical education curriculum is centered on the concept that movement skills, intellectual development, physical fitness, and healthful living practices are elements of life that must be taught and reinforced. Specific knowledge, skills, and practice techniques that best benefit the student do not just happen. Instruction, analysis, and evaluation by a credentialed professional is essential for implementing this philosophy.

Kinesiology, Associate in Arts for Transfer (AA-T)

The goal of the Kinesiology Program at Santa Barbara City College is to prepare students to develop the fundamental understanding of the

influence of human movement on the acquisition of physical skills, personal health and intellectual development. The study of Kinesiology is an academic discipline and an essential component of the general education process. Kinesiology contributes to the broader understanding of human development and the role that movement plays in cultural, social and personal expression. Students are advised to meet with an academic counselor to discuss the best combination of courses to take for their AA-T and to meet the requirements of the transfer institution to which they are intending to transfer. For example, requirements for the Baccalaureate Degree in Kinesiology vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

The Associate in Arts Degree in Kinesiology for Transfer provides students with the foundational knowledge in Kinesiology needed to make a successful transition into a Baccalaureate Degree in Kinesiology at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

PE 226	Running for Conditioning
Total Units	43.00-45.00

Learning Outcomes

The general degree in Physical Education is intended for individuals who wish to obtain entry-level positions in health clubs, the YMCA, youth sports organizations or camps. This degree will also help prepare students to transfer into a kinesiology program at a four-year university.

1. Articulate the differences between Physical Education and Athletics.
2. Recognize the potential for service to the individual, community and society provided by Physical Education and Athletics.
3. Describe the role of PE/Kinesiology as an academic discipline and its role in health promotion and disease prevention.
4. Demonstrate knowledge of functional human anatomy, physiology and biomechanics, and demonstrate proficiency in a variety of physical activity skills.
5. Develop appropriate physical training programs for adults based on demonstrated knowledge of coronary risk factor analysis, exercise prescription and nutritional guidelines established by industry standards

Learning Outcomes

The degree emphasis in Athletic/Personal Fitness Training prepares students to transfer to a four-year university and major in kinesiology, with an emphasis in Athletic Training or Sports Medicine. The practicum hours completed may count toward certification as an athletic trainer.

1. Articulate the differences between Physical Education and Athletics.
2. Recognize the potential for service to the individual, community and society provided by Physical Education and Athletics.
3. Demonstrate knowledge of functional anatomy, physiology and biomechanics, and properly demonstrate proficiency in a variety of physical activity skills.
4. Explain the appropriate course of treatment for each of the most common sports injuries.
5. Identify the factors that contribute to an evaluation of an injury and determine the treatment plan for safe return to sport participation.
6. Demonstrate and implement rehabilitative exercises appropriate to each sport.
7. Assess motivational readiness for client exercise and develop effective strategies for health behavior change consistent with the stages of the Transtheoretical Model of motivational readiness.
8. Develop appropriate physical training programs for children, adults and special needs populations, based on demonstrated knowledge of coronary risk factor analysis and exercise prescription standards defined by NASM / ACSM.
9. Administer appropriate practical physical fitness and muscular balance assessments.
10. Demonstrate academic competencies sufficient to pass professional certification exams consistent with entry-level positions in the health and fitness industry.
11. Demonstrate effective communication skills to lead individual and group fitness training sessions.

Physics

Physics is the foundation discipline that must be incorporated into the education of anyone preparing for a career in engineering or science. It is equally true for the non-scientist having the responsibility to make

meaningful decisions in society—the citizen in politics, the business person, or social scientist who deals with problems of a society strongly linked to technology based on the application of physical principles. A truly educated person preparing for life in the 21st century can hardly afford not to be aware of the statements of contemporary physics.

There is a three-semester, calculus-based sequence for the student in Engineering, Physics, and other physical sciences.

For the Biological Sciences student, both a two-semester trigonometry-level Physics sequence and a two-semester calculus-level Physics sequence are offered.

Introductory Physics For Science Majors satisfies the needs of those requiring an introduction to physics prior to entering the Engineering/Physics sequence.

For those fulfilling a General Education science requirement, a one-semester general survey Physics course is offered.

To satisfy the needs of the Liberal Studies major, the Physics Department offers a non-mathematical one-semester Physical Science course which covers the physical basis of a number of disciplines—Physics, Chemistry, Astronomy, Geology and Meteorology.

Physics, Associate in Science for Transfer (AS-T)

The Physics department strives to provide our students with the educational background necessary to pursue a successful career and to successfully transition into a 4-year academic program. Physics is

the foundation discipline which must be incorporated into the education of anyone preparing for a career in engineering, or science. It is equally true for the nonscientist having the responsibility to make meaningful decisions in society—the citizen in politics, the business person or social scientist who deals with problems of a society strongly linked to technology based on application of physical principles. A truly educated person preparing for life in the 21st century can hardly afford not to be aware of the statements of contemporary physics.

The Associate in Science Degree in Physics for Transfer will provide the foundational knowledge to students who want to earn a Baccalaureate Degree in Physics at any of the CSU campuses (see www.assist.org (<http://www.assist.org>) for transfer to UC/CSU). This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Political Science, Economics and Global Studies

The Political Science and Economics Department is home to four different majors: Political Science, Economics, Global and International Studies, and Middle Eastern Studies. Political Scientists aim to develop an understanding of the institutions, practices, and societal relations that constitute public life. Economists study society and the distribution of resources, including how people make decisions, how they interact, and how the economy as a whole works. Global and International Studies scholars seek to understand the multidimensional process of globalization and today's many global issues. The field of Middle East Studies focuses on the history, politics, cultures, religions and languages of one of the most complex and critical regions of the world. Please see the individual program descriptions for more details about each area of major/ program.

Political Science

Political Science: Program Description

The study of politics is the study of how people are governed and how they govern themselves. Political Scientists examine the distribution of political power and the allocation of scarce resources. To this end, they aim to develop an understanding of the institutions, practices,

and societal relations that constitute public life. As a discipline, in the West, Political Science originated with the Greeks. Today Political Scientists' study of governments includes an in-depth study of the American political experience, but also extends to other countries, both democracies and non-democracies, and the effort to understand differences and similarities between them. Furthermore, Political Scientists seek to understand the dynamics of cooperation and conflict in the international arena, by studying the interactions of states, international organizations, and non-governmental actors.

The Political Science major helps prepare students for a variety of careers. For example, Political Science serves well as a pre-law major and for related professions, such as careers in government at the federal, state or local levels. Political Science is also a great preparation for a number of careers at the international level, such as international diplomacy or international business, as well as other professions in non-governmental sectors both nationally and internationally.

Political Science: AA and AA-T Degree Requirements

We offer a Political Science Associate Degree (AA), and Political Science Associate Degree for Transfer (AA-T). Major requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling Center and Transfer Center.

Political Science: Planning a Program of Study

Students should begin their study of Political Science with POLS 101 (<https://catalog.sbcc.edu/search/?P=POLS%20101>) American Government And Politics because many of the basic concepts of the discipline are introduced here within the familiar context of American Politics. Thereafter, the selection of courses will, in part, depend upon the four-year school to which the student plans to transfer and the particular emphasis of the student's major. Commonly required courses include POLS 121 (<https://catalog.sbcc.edu/search/?P=POLS%20121>) International Politics, POLS 131 (<https://catalog.sbcc.edu/search/?P=POLS%20131>) Comparative Politics, POLS 132 (<https://catalog.sbcc.edu/search/?P=POLS%20132>) Political Thinking. The Department offers a course in POLS 104 (<https://catalog.sbcc.edu/search/?P=POLS%20104>) American Government: Policy Issues/Process. Our Honors courses include POLS 121H (<https://catalog.sbcc.edu/search/?P=POLS%20121H>) International Politics, and POLS 134H (<https://catalog.sbcc.edu/search/?P=POLS%20134H>) Political Violence, Honors.

The Political Science Department also encourages students to seek out an internship, or participate in an Internship Programs, as related to POLS 295 (<https://catalog.sbcc.edu/search/?P=POLS%20295>) and to POLS 108, which includes a field trip to Sacramento. More information about internship courses can be found below, in the section 'Political Science (All Programs) and Economics: Internships.'

Political Science: Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with a counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling and Transfer Centers.

Political Science: Awards and Honors

Each year, the faculty selects one student as the 'Outstanding Student of the Year in Political Science' on the basis of academic performance and contribution to our program. Students also have the opportunity to apply for a number of Political Science scholarships, such as the Holmes Scholarship, the Jason Davidson scholarship, and the John Kay scholarship.

Economics: Program Description

The Economics Program offers courses as part of an Associate of Arts Degree in Economics as well as other majors. Economics is also a worthwhile way to satisfy General Education requirements. Courses offer transfer students excellent preparation for further study in economics and fields such as environmental studies, global studies, and business.

Students from all disciplines benefit from taking economics courses as it helps make sense of the world in which they live. As a social science, the subject matter studied is society. This includes the study of how people make decisions, how they interact, and how the economy as a whole works. Economics addresses much more than just money, taxes, and unemployment. With an economic lens, one can analyze things such as policies that affect crime rates, the role of incentives on the decision of whether or not to drive an electric car, and how rent control can affect divorce rates. In fact, economics helps one understand nearly every aspect of human life.

Economics provides a systematic way of analyzing a wide range of societal issues. The arsenal of analytical tools students acquire by studying economics provide a foundation for lifelong problem-solving skills that are valued by employers, society, and, very likely, eventually by the student themselves.

Economics: AA and AA-T Degree Requirements

The department offers an Economics Associate Degree (AA), and an Economics Associate Degree for Transfer (AA-T). Major requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with his/her counselor and departmental advisor before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in Academic Counseling and the Transfer Center.

Economics: Planning a Program of Study

As a general rule, students should begin their Economics major by taking ECON 101 (<https://catalog.sbccc.edu/search/?P=ECON%20101>) Microeconomics and ECON 102 (<https://catalog.sbccc.edu/search/?P=ECON%20102>) Macroeconomics, in either order. Additional courses should be chosen after consultation with an academic counselor to meet degree and transfer goals, as the requirements for the AA Economics degree and the AA-T Economics degree differ, and as transfer institutions may also have specific requirements. ECON 101H and ECON 102H are offered as part of the Honors Program. The department encourages students to seek out internships and register for ECON 295 (<https://catalog.sbccc.edu/search/?P=ECON%20295>) Internship In Economics as part of the college experience. More information about internship courses can be found below, in the section 'Political Science (All Programs) and Economics: Internships.'

Economics: Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with a counselor and departmental advisor before planning an academic program for transfer. Information sheets

for majors, outlining transfer requirements, are available in the Academic Counseling and the Transfer Center.

Economics: Awards and Honors

Each year, the faculty selects one student as the 'Outstanding Student of the Year in Economics' on the basis of academic performance and contribution to our program.

Global and International Studies, and Global Leadership: Program Descriptions

The world seems to become "smaller" at an accelerated pace. Rise in global trade, rapid advances in technology, communication and international travel, a growing body of international law, and transnational environmental problems have been creating an increasingly connected world. This process has become known as 'globalization.'

The Global and International Studies major helps students develop an understanding of how globalization continues to evolve. It also aims to provide an academic background that prepares students to enter today's many career fields, which require knowledge of global problems, connections, actors, and processes. Examples of possible career fields include: careers in diplomacy and/ or with an international organization, careers with many types of non-governmental organizations, careers in the economics/ business field, and in the fields of journalism, research, and teaching. Many other fields, such as engineering, and health, also benefit from a global perspective.

Global Studies is an interdisciplinary major that draws from a variety of academic disciplines. These disciplines include, but are not limited to: Political Science, History, Communication, Economics, Business, Sociology, and Environmental Studies. Combining these diverse disciplines into one interdisciplinary, colorful major - in order to understand the complex, rapidly unfolding process of globalization - is the objective of our program.

Global and International Studies, and Global Leadership: AA and AA-T Degree Requirements

We offer a Global and International Studies Associate Degree (AA), and a Global Studies Associate Degree for Transfer (AA-T). Furthermore, in collaboration with the Department of Communication, we offer a Global Leadership Associate Degree (AA), and a Global Leadership Certificate.

Major requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling Center and Transfer Center.

Global and International Studies, and Global Leadership: Planning a Program of Study

For the Global and International Studies Associate Degree (AA), and the Global Studies Associate Degree for Transfer (AA-T), students should begin their study of Global Studies by taking GLST 101 (<https://catalog.sbccc.edu/search/?P=GLST%20101>) Introduction to Global Studies, and GLST 102 (<https://catalog.sbccc.edu/search/?P=GLST%20102>) Global Problems (in either order). Students should also enroll in POLS 121 (<https://catalog.sbccc.edu/search/?P=POLS%20121>) International Politics or POLS 121H (<https://catalog.sbccc.edu/search/?P=POLS%20121H>) International Politics, Honors, and/or POLS 131 (<https://catalog.sbccc.edu/search/?P=POLS%20131>) Comparative Politics. Additional elective courses from various disciplines should be chosen after consultation with an academic counselor to meet degree and transfer goals. The course in international governance, POLS

122 (<https://catalog.sbccc.edu/search/?P=POLS%20122>) International Organizations: Global and Regional Governance is a good choice, but there are many courses from which to choose.

For the Global Leadership Associate Degree (AA), and the Global Leadership Certificate, students should enroll in GLST 101 (<https://catalog.sbccc.edu/search/?P=GLST%20101>) Introduction to Global Studies and in GLST 102 (<https://catalog.sbccc.edu/search/?P=GLST%20102>) Global Problems (in either order), as well as choose two Communication courses from the following: COMM 121 (<https://catalog.sbccc.edu/search/?P=COMM%20121>) Interpersonal Communication, COMM 121H (<https://catalog.sbccc.edu/search/?P=COMM%20121H>) Interpersonal Communication, Honors, COMM 122 (<https://catalog.sbccc.edu/search/?P=COMM%20122>) Mediated Interpersonal Communication, COMM 142 (<https://catalog.sbccc.edu/search/?P=COMM%20142>) Leadership in a Global Society, or COMM 151 (<https://catalog.sbccc.edu/search/?P=COMM%20151>) Intercultural Communication. Additional elective courses from various disciplines should be chosen after consultation with an academic counselor to meet degree and transfer goals.

Global and International Studies, and Global Leadership: Preparation for Transfer

A number of colleges and universities have transfer programs in Global and International Studies and/or International Studies, or International Relations. Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with a counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling and Transfer Centers.

Global and International Studies: Honors and Awards

Each year, the faculty selects one outstanding student as the 'Global and International Studies Student of the Year' on the basis of academic performance and contribution to our program. In addition, each Spring Semester, the Global Studies Program awards the "Peter O. Haslund Global Studies Scholarship", a scholarship made possible by a generous donation by Mrs. Margareta Jamner in honor of the founder of the Global Studies Program at SBCC. Dr. Peter Haslund is given on the basis of both academic promise and financial need. This scholarship is administered by the SBCC Foundation. Please contact the Financial Aid Office for more information.

Middle East Studies: Program Description

The Middle East Studies Program/major involves the study of the history, politics, cultures, religions and languages of one of the most complex and critical regions of the world. The Middle East Studies major seeks to understand the question of democratization, political violence, the role of religion, ideology, and the role of tradition and history in shaping the physical and psychological make-up of the region. While the program is of special interest to students who plan careers in government service or business, majoring in Middle East Studies meshes with and complements well other areas of study, such as International Relations, Global Studies, Political Science, History and International Business, to name a few.

Career choices include State Department area specialist, Department of Defense area specialist, Homeland Security area specialist, diplomatic service (national and international), policy adviser, policy analyst, federal, state and local government service and teaching. This major with a B.A. Degree can lead to advanced degree programs in Middle East Studies, International Relations, Comparative Politics and Global Studies.

Middle East Studies: AA Degree Requirements

We offer a Middle East Studies Associate Degree (AA). This degree can be obtained by satisfying the department requirements in Middle East Studies and the General Education and institutional requirements for the Associate in Arts Degree.

Middle East Studies: Planning a Program of Study

As a general rule, students should begin their Middle East Studies Program by taking one of the three core courses required for the major, either ART 216 (<https://catalog.sbccc.edu/search/?P=ART%20216>) Survey Of Islamic Art And Architecture, HIST 137 (<https://catalog.sbccc.edu/search/?P=HIST%20137>) History Of Religions Of The Middle East or HIST 138 (<https://catalog.sbccc.edu/search/?P=HIST%20138>) History Of The Modern Middle East, or POLS 136 (<https://catalog.sbccc.edu/search/?P=POLS%20136>) Middle East Government And Politics. Students should continue taking one of the core classes per semester and adding at least one of the additional classes from the list above over the course of two years to complete their 18 required units in the program for the A.A. in Middle East Studies. Students are also encouraged, but not required, to take one of the languages for the program, either Arabic or Hebrew. Students transferring to UCSB's Middle East Studies Program should complete ART 216 (<https://catalog.sbccc.edu/search/?P=ART%20216>) Survey Of Islamic Art And Architecture, HIST 137 (<https://catalog.sbccc.edu/search/?P=HIST%20137>) History Of Religions Of The Middle East or HIST 138 (<https://catalog.sbccc.edu/search/?P=HIST%20138>) History Of The Modern Middle East, or POLS 136 (<https://catalog.sbccc.edu/search/?P=POLS%20136>) Middle East Government And Politics and ARBC 101 (<https://catalog.sbccc.edu/search/?P=ARBC%20101>) Beginning Modern Standard Arabic I sequence at SBCC.

Middle East Studies: Preparation for Transfer

SBCC's Middle East Studies Program is fully articulated with the UC and CSU systems. Students in the program will have satisfied most if not all lower division requirements for the respective majors at four-year schools, such as UCSB's Islamic and Near Eastern Studies Program and major. Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with a counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling and Transfer Centers.

Economics, Associate in Arts for Transfer (AA-T)

Have the demonstrations against the World Trade Organization puzzled you? What has changed in the electric power industry? Did a Federal Reserve change in the discount rate catch your attention? How well do you feel you understand the economic events reported in the news? The Economics Program at Santa Barbara City College will provide you with a solid foundation from which you can build analytical skills. These skills will improve your decision making processes in many aspects of your life: as a consumer, an employee, an employer, a voter, etc. Courses in economics will offer the transfer student both theoretical and empirical foundations which will prepare you for further study in many fields, including environmental studies, global and international studies, sociology and history, as well as economics.

The Associate in Arts Degree in Economics for Transfer provides students with the foundational knowledge in Economics to make a successful transition into a Baccalaureate Degree in Economics at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Global Studies, Associate in Arts for Transfer (AA-T)

We live in a world that seems to become “smaller” at an accelerated pace. Rise in global trade, rapid advances in technology, unprecedented degrees of inter-cultural communication and international travel, a growing body of international law, the growing number of global non-state actors and the seriousness of today's environmental problems have been creating an increasingly connected world. This process of globalization has transformed our planet, creating new opportunities and many new challenges. The mission of the Global Studies Program is to enable students to understand how globalization continues to evolve, and to provide an academic background which prepares them for today's many career fields that require a global perspective.

The Associate in Arts in Global Studies for Transfer degree (AA-T in Global Studies) will provide the foundational knowledge in Global Studies to students who want to earn a Baccalaureate Degree in Global Studies, Global Politics, International Relations, International Studies, International Relations and Comparative Government. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. Upon completion of the associate degree for transfer, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis.

Political Science, Associate in Arts for Transfer (AA-T)

The goal of the Political Science Program at Santa Barbara City College is to prepare students to develop the fundamental understanding of the American political experience as a unique experiment in "self-government," going beyond studying how America is governed to look at other political systems with a view to realizing the differences and commonalities between these political systems. The program examines these differences in an attempt to understand something about the degree to which one system is better suited to a country than another, and whether or not one can indeed speak of one type of political arrangement as the "best." Our discipline also seeks to understand the causes, dynamics and possibilities of conflict and conflict resolution in the international arena, by studying the interactions of states, international organizations, non-governmental organizations, and non-state actors on the global scene.

The Associate in Arts degree in Political Science for Transfer provides students with the foundational knowledge in Political Science to make a successful transition into a Baccalaureate Degree in Political Science at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State

University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adgreewithaguarantee.com/> for the latest information about these degrees.

Psychology
Program Description

Psychology is the scientific, multidisciplinary study of behavior, mental processes, growth, and well-being. Psychologists investigate how biological, cognitive, and sociocultural factors affect our experiences and actions and, furthermore, apply this knowledge to optimize our mental health and performance. The Psychology Associates Degree (AA) offers courses important for general education, while the AA-T curriculum offers transfer-oriented courses as preparation for upper-division study. Students who complete the AA/AA-T explore a variety of career fields and/or graduate programs, including industrial/organizational psychology; business administration; sales, advertising, marketing; law; recreation; social work; education; counseling; clinical psychology; forensic science; neuroscience; communications; health psychology; sports psychology, and others. The AA-T degree complies with the

Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code Sections 66746-66749) and guarantees admission to a California State University (CSU) for any community college student who completes the AA-T. Students will receive priority consideration when applying to a program that is similar to a student’s community college area of emphasis. Please note: most professional Psychology careers require training beyond the undergraduate level. Students should discuss their plans with a counselor or department adviser as early as possible. For the latest information about transfer degrees, visit www.sb1440.org.

Psychology, Associate in Arts for Transfer (AA-T)

Psychology is the social science discipline most concerned with studying the behavior, mental processes, growth and well-being of individuals. Psychological inquiry also examines the roles played by biological and sociocultural factors that affect behavior and mental processes. It is a broad discipline and profession, having both scientific and applied branches, with practical applications for personal growth and well-being. Students should consult with a departmental adviser and/or counselor when choosing both controlled and general electives in order to develop a

program of study that is best suited to their specific needs. For example, requirements for the baccalaureate degree in Psychology vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

The Associate in Arts degree in Psychology for Transfer will provide the foundational knowledge in Psychology to students who want to earn a Baccalaureate Degree in Psychology at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. School of Justice Studies Program Description

The School of Justice Studies (SoJS) prepares students for entry into the criminal justice system and related professions, as well as those transferring to the California State University (CSU) system, other four-year universities, or law school. Full college credit is granted for each course successfully completed, and an Associate in Science (A.S.) Degree or Certificate of Achievement is awarded upon completion of the respective program chosen.

The School of Justice Studies offers four A.S. degrees and three Certificates of Achievement.

1. A.S. Degree or Certificate of Achievement: **Criminology Emphasis** - Ideally suited for students interested in understanding the nature, extent, causes, and control of criminal behavior in both the individual and society.
2. A.S. Degree or Certificate of Achievement: **Law Enforcement Emphasis** - Ideally suited for students interested in understanding the nature of law enforcement as it pertains to enforcing and detecting

crime, investigations, apprehending law violators, preparing a case for trial, and crime prevention.

3. A.S. Degree or Certificate of Achievement: **Legal Studies Emphasis** - Ideally suited for students interested in understanding the history, philosophy, ethics, and practice of the American legal system.
4. A.S.-T. Degree: **Administration of Justice for Transfer** - Designed for students who want to earn a Baccalaureate Degree in Criminal Justice. Students successfully completing an A.S.-T degree are guaranteed admission to a Criminal Justice program with junior standing at one of the California State University (CSU) campuses.

Administration of Justice, Associate in Science for Transfer (AS-T)

The School of Justice Studies (which houses the Administration of Justice Program) strives to provide our students with the legal, ethical, and educational background necessary to pursue a career in a criminal justice-related field and to successfully transition into a 4-year academic program. The criminal justice system is a diversified occupational area with available employment opportunities on the federal, state and county levels: Federal Bureau of Investigation, Department of Homeland Security, U.S. Border Patrol, California Highway Patrol, municipal police departments, county sheriff's departments, federal and state departments of correction, probation and parole.

The Associate in Science degree in Administration of Justice for Transfer will provide the foundational knowledge in Administration of Justice to students who want to earn a Baccalaureate Degree in Criminal Justice at any of the CSU campuses. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California

Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

School of Modern Languages

Languages are the key to the understanding and appreciation of value systems and social attitudes of different cultures. Furthermore, acquiring communication skills in other languages facilitates the exchange of ideas and transactions, and increases awareness, appreciation and understanding of cultural diversity.

The need for skills in other languages is evident on a daily basis. The global community has reached a level of human relations where languages skills are required for communication in all aspects of life. Whether for recreational purposes, business, or other endeavors such as politics, health, science, education, art, or government, learning another language is imperative.

On a practical level, learning a new language is an intellectual stimulus that helps the learner develop critical thinking and creative skills, while enhancing the individual's participation in traveling, reading of literature, appreciation of music, fashion, cuisine, cinema, and even sporting events. And last, but not least, opportunities for employment and higher salaries

increase when another language is mastered because it gives a bilingual or multilingual person an edge to compete in the global economy.

Programs of Study

- Spanish, Associate in Arts for Transfer (AA-T) (p. 337)
- American Sign Language, Associate in Arts (AA) (p. 335)
- French, Associate in Arts (AA) (p. 336)
- Spanish, Associate in Arts (AA) (p. 336)

American Sign Language Courses

American Sign Language, or ASL, is the dominant sign language of Deaf Americans, including Deaf communities in the United States and in some regions of Canada and Mexico. It contains phonology, morphology, semantics, syntax and pragmatics just like spoken languages. It is both a manual and a visual language; the information is encoded with the shape and movement of the hands and other parts of the body and also with facial expressions, including mouth morphemes.

French Program

The French Program offers a sequence of courses in the basic language skills of listening, speaking, reading and writing. On the intermediate level, courses are designed for specific needs: conversation, grammar review and literature. The Associate in Arts Degree may be obtained through French major.

Spanish Program

The Spanish language courses, as an integral part of the humanities program, prepare students for transfer to a university with strong second language skills and knowledge about the Spanish speaking culture.

In addition to careers in education and business, Spanish provides occupational opportunities in all areas in which it is advantageous to be bilingual in English and Spanish. This skill is especially useful in California. Knowledge of Spanish may complement careers such as foreign service officer, foreign correspondent, travel agent, teacher, international banker, lawyer, export and import employee, legal secretary, receptionist, nurse, interpreter, social worker, government employee and medical doctor.

Spanish, Associate in Arts for Transfer (AA-T)

We live in a world of economic, industrial, technological and political interrelationships where skills in languages other than English are useful and needed. Languages are the key to the understanding and appreciation of value systems and social attitudes of different cultures. Furthermore, acquiring communication skills in other languages facilitates the exchange of ideas and transactions, and increases awareness, appreciation and understanding of cultural diversity. The need for skills in other languages is evident on a daily basis. The global community has reached a level of human relations where languages skills are required for communication in all aspects of life. Whether for recreational purposes, business, or other endeavors such as politics, health, science, education, art, or government, learning another language is imperative.

The Associate in Arts Degree in Spanish for Transfer will provide the foundational knowledge to students who want to earn a Baccalaureate Degree in Spanish at any of the CSU campuses. This degree is in

compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

School of Nursing

The School of Nursing offers three programs that prepare students for various levels of nursing practice and nursing licensure.

The Associate Degree in Nursing Program prepares students to become competent entry-level professional registered nurses, lifelong learners and active community members. This program is approved by California State Board of Registered Nursing and accredited by Accreditation Commission for Education in Nursing. Graduates of this program are qualified to take the state board examination for licensure as registered nurses.

Visit the ADN Program website for more information: sbcc.edu/nursing/adn (<https://www.sbcc.edu/nursing/adn/>)

The Vocational Nursing program is a 3-semester course of study designed to provide the student with knowledge and skills to function as a Licensed Vocational Nurse (LVN) under the direction of a licensed registered nurse or a physician. The combined academic and clinical training prepares vocational nursing students to take the National Council Licensure Examination (NCLEX-PN) for licensure as a vocational nurse meeting the standards set by the California Board of Vocational Nursing and Psychiatric Technicians.

Licensed Vocational Nurses provide skilled nursing care in various healthcare settings such as skilled nursing facilities, assisted living facilities, residential care facilities, memory care units, home health agencies, schools, jails, clinics, outpatient surgery centers, and physicians' offices. Upon successful completion of the program, graduates receive a Certificate of Achievement in Vocational Nursing and are eligible to receive an Associate of Science Degree in Vocational Nursing if all college AS degree requirements are complete. articulation.sbcc.edu/uforms/fsbcc/sbccge.pdf (<http://articulation.sbcc.edu/uforms/fsbcc/sbccge.pdf>)

The Vocational Nursing program website contains further information about the course of study, program requirements, costs, application procedure, and information meetings sbcc.edu/nursing/vn/ (<https://www.sbcc.edu/nursing/vn/>)

The Certified Nursing Assistant Program: These program prepare students to give basic nursing care and learn how to care for the elderly through classroom and clinical experience. Learn how to apply here. This program meets the requirements for the California Certified Nursing Assistant and graduates are qualified to take the State Certification Exam.

Visit the CNA Program website for more information: sbcc.edu/nursing/cna/ (<https://www.sbcc.edu/nursing/cna/>)

Sociology

Sociology is the scientific study of society and social life, and as such, looks at a diverse range of topics concerning the social causes and consequences of human behavior. Sociologists examine the structure of groups, organizations and societies as a whole, as well as how people act and interact within those social contexts. Sociology is a rapidly evolving discipline that is particularly well suited to addressing issues and problems in a complex contemporary world.

Sociology can help students to gain a better understanding of themselves and the society of which they are a part. The field features a range of theoretical approaches that can generate new ideas, stimulate debate and challenge taken-for-granted notions about the nature of social reality and the status quo. The field also offers a range of research methodologies that allow for systematic and scientific investigation of social phenomena, rather than using common sense, propaganda, opinion or other such subjective explanations for human behavior.

Sociological theories and methods can be applied to studying virtually any aspect of social life: culture and technology; crime and deviance; politics and economics; the self and socialization; family and group dynamics; class, race and gender; social movements and social change.

Programs of Study

- Sociology, Associate in Arts for Transfer (AA-T) (p. 345)
- Sociology, Associate in Arts (AA) (p. 344)

Planning a Program of Study

A student planning a major in Anthropology should take the three basic courses required for the major (SOC 101 Introduction To Sociology, SOC 101H Introduction to Sociology, Honors and SOC 101 Introduction To Sociology) and as many of the more specialized courses offered by the department as possible. If the student's emphasis will be in the area of Physical Anthropology, the student should consider SOC 109 Social Problems and explore other related courses in biology. If the student's emphasis will be in the area of Cultural Anthropology, the student should take SOC 104 Social Psychology and SOC 106 Sociology of Deviance and related courses in the fields of sociology and

psychology. A student interested primarily in Archaeology should take related courses in geology and biology.

Preparation for Transfer

Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is *most important* for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling and Transfer Centers.

Sociology is the study of society and social life, and as such, looks at a diverse range of topics concerning the social causes and consequences of human behavior. Sociologists examine the structure of groups, organizations and societies as a whole, as well as how people act and interact within those social contexts. Sociology is a rapidly evolving and ever expanding discipline that is particularly well suited to addressing issues and problems in a fast-paced and complex contemporary world. Sociological theories and methods can be applied to studying virtually any aspect of social life: culture and technology; crime and deviance; politics and economics; the self and socialization; family and group dynamics; class, race and gender; social movements and social change.

The Associate in Arts degree in Sociology for Transfer will provide the foundational knowledge in Sociology to students who want to earn a Baccalaureate Degree in Sociology. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate

degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Theatre Arts

The Theatre Arts Department offers a variety of programs of study suited to the needs of the serious theatre student, as well as for students wishing to include theatre arts as part of their college education. With classes in Acting/Directing, Design/Lighting, Costuming/Make-up and Technical Production, the program provides an intensive two-year course of study that prepares Theatre Arts majors for transfer to a four-year university or immediate entry into the entertainment industry. No audition, experience or special application is required for admission to the program, and courses are offered at all levels of expertise.

Theatre is an art form embodying the idea of human stories communicated by actors and supported by light, sound and physical elements including sets and costumes performed before a live audience. Theatre provides an emotionally affecting and transformative experience for participants and audience alike. Studying the art of theatre promotes creativity, a nimble mindset, collaboration, and the ability to complete significant projects. The skills taught translate to jobs in a variety of fields including in the theatre, film, television and event industries. Hands-on practical experience is stressed through a wide-ranging production program. Students have the opportunity of working in all phases of production and performance.

Theatre Arts, Associate in Arts for Transfer (AA-T)

The Theatre Arts Department at Santa Barbara City College offers a variety of programs of study and experience suited to the needs of the serious theatre student, as well as those students who wish to include theatre arts as part of their liberal arts education. With curricula in Acting/Directing, Design/Lighting, Costuming and Technical Production, the program provides an intensive two-year course of study that prepares Theatre Arts majors for transfer to a four-year college or university—ready to do advanced, upper-division work.

The Associate in Arts in Theatre Arts for Transfer degree (AA-T in Theatre Arts) will provide the foundational knowledge in Theatre Arts to students who want to earn a Baccalaureate Degree in Theatre Arts. This degree is in compliance with the Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. Visit www.sb1440.org (<http://www.sb1440.org/>) and <https://adegreewithaguarantee.com/> for the latest information about these degrees.

Work Experience

Santa Barbara City College offers two types of Work Experience:

- General Work Experience
- Occupational Work Experience

General Work Experience

General Work Experience 290 provides opportunities for students to practice effective work habits, attitudes and career awareness in actual job settings. Units are based on the number of hours worked throughout the semester.

For each semester of Work Experience 290, the student is required to complete a job-oriented, workplace project in order to show evidence of new or expanded responsibilities or learning opportunities beyond those experienced during previous employment.

Internships and Volunteer Experience

Internships and volunteer experience can be a powerful career development tool. Units are based on the number of hours completed. To receive academic credit for internships and volunteer experience, sign up for WEXP 290 (<https://catalog.sbccc.edu/search/?P=WEXP%20290A>).

Occupational Work Experience

This type of work experience combines on-the-job training with classroom instruction, enabling the student to enter and/or progress in a chosen occupation. A student may earn 1-4 college units. A maximum of 16 units may be applied as electives toward an AA or AS Degree.

Contact the chairperson or faculty adviser of the respective department offering Occupational Work Experience for more information.

HSMA 010 Mathematics A: Whole Number Arithmetic (5 Units)

Same as: HSMA NC010

Hours: 72 (72 lecture)

This competency-based course reviews arithmetic, beginning with basic number concepts, like place value, ordinal value and estimation. The course also reviews the four basic operations with whole numbers and introduces problem-solving strategies and life skills and workplace math. Pretests for accurate placement and prescription, and post-tests for measurement of mastery are utilized. When taken in sequence with Mathematics B and Algebra/Geometry, this course prepares students for success in high school mathematics and in applying math to everyday like and work problems. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 020 Mathematics B: Fractions, Decimals, Percent (5 Units)

Same as: HSMA NC020

Hours: 72 (72 lecture)

This competency-based course review computation and problem solving skills with decimals, fractions, and percents. Geometry (perimeter, area, volume), estimation, problem-solving strategies, like skills and workplace math are included. Pretest for accurate placement and prescription, and post-tests for measurement of mastery are utilized. When taken in sequence with Mathematics A and Algebra or Geometry, this course prepares students for passing the Adult High School competency tests, the GED math test, and success in high school mathematics and in applying math to everyday like and work problems. Course restricted to 98 repetitions

HSMA 040 Integrated Mathematics 2: Algebra (10 Units)

Same as: HSMA NC040

Hours: 144 (144 lecture)

This competency-based course stresses the appropriate use of problem-solving strategies. It builds upon previous math courses and life experience with review and by addressing algebraic concepts and expressions. Life skills and workplace math are integrated into the course assignments. Pretests for accurate placement and prescription, and post-tests for measurement of mastery are utilized. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA 050 Integrated Mathematics 3: Geometry (10 Units)

Same as: HSMA NC050

Hours: 144 (144 lecture)

This competency-based course builds skills in basic geometry, the study of measurements and relationships of lines, angles, plane figures and solid figures. Topics include the study of angles and triangles and the study of distance, area and volume. Skills developed include estimation, mental math, and calculator use. The topics and skills that are emphasized in this course are useful in many occupations, real-life problem-solving, and educational and vocational tests. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA NC010 Mathematics A: Whole Number Arithmetic (1-5 Units)

Same as: HSMA 010

Hours: 100 (100 lecture)

Adult High School course in basic whole-number arithmetic. Topics include place value, reading and writing numbers, rounding, estimation and development of problem-solving skills in whole number addition, subtraction, multiplication and division. Application of these skills to everyday life and workplace skills is emphasized, including measurement and reading charts and tables. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA NC020 Mathematics B: Fractions, Decimals, Percents (1-5 Units)

Same as: HSMA 020

Hours: 100 (100 lecture)

Adult High School mathematics course covering fractions, decimals, and percent. Topics include development of computational and problem-solving skills, as well as the application of those skills to solve measurement, basic geometry, financial, and other workplace and life skills problems. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA NC030 Mathematics C: Pre-Algebra (1-5 Units)

Same as: HSMA 030

Hours: 100 (100 lecture)

Adult High School pre-algebra course includes a review of percent, ratio, proportion, measurement, formulas and basic algebraic equations, as well as basic geometry, graphing, probability, signed numbers, roots and exponents. Development of mathematical reasoning skills and applications to workplace, consumer and everyday life skills are emphasized. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA NC040 Introductory Algebra (1-10 Units)

Same as: HSMA 040

Hours: 200 (200 lecture)

Adult High School introductory algebra course. Course begins with a review of pre-algebra concepts such as order of operations, signed numbers, roots, formulas and writing simple algebraic expressions. Additional topics include writing, simplifying, and solving monomial and polynomial equations; functions and coordinate graphs; systems of equations; inequalities; proportion; and quadratic equations. Course restricted to 98 repetitions

Transfer Information: AHS - Mathematics

HSMA NC050 Introductory Geometry (1-10 Units)

Same as: HSMA 050

Hours: 200 (200 lecture)

Adult High School course in basic geometry, including measurement and relationships of lines, angles, plane figures and solid figures. Topics include development of mathematical reasoning skills and strategies, identifying and applying formulas, estimation, mental math, calculator use, and application of geometry to workplace and everyday life. Hours: 90 (36 lecture, 54 lab)

Introduction to the materials, tools and techniques of sculpture.

Fundamentals of sculpture production explored, including methods of carving, construction and casting.

Transfer Information: CSU Transferable, UC Transferable

ART 171 Intermediate Sculpture (3 Units)

Prerequisites: ART 141 and ART 170.

Hours: 90 (36 lecture, 54 lab)

Continuation of ART 170. Studies and projects in lasting materials and the use of power tools. Three-dimensional aesthetics and problem-solving techniques included.

Transfer Information: CSU Transferable, UC Transferable

ART 172 Advanced Sculpture (3 Units)

Prerequisites: ART 171.

Hours: 90 (36 lecture, 54 lab)

Includes the generation of unique individual projects, from conception to formal presentation. Relying on foundation courses, emphasis is on three-dimensional, problem-solving aesthetics.

Transfer Information: CSU Transferable, UC Transferable

ART 173 Beginning Casting (3 Units)

Prerequisites: ART 171.

Hours: 90 (36 lecture, 54 lab)

Introduction to a variety of casting techniques and sculptural relationships. Covers all steps of the casting process, but concentrates on the early stages of casting. Possible casting techniques to include plaster, wax, ceramic and poured metals.

Transfer Information: CSU Transferable

ART 174 Beginning Bronze Casting (3 Units)

Prerequisites: ART 173.

Hours: 90 (36 lecture, 54 lab)

Introduction to traditional bronze casting techniques, particularly the early stages of casting, including wax working, gating, the investment processes, furnace procedures and metal pouring.

Transfer Information: CSU Transferable

ART 180 Sculpture Fabrication (3 Units)

Prerequisites: ART 171.

Hours: 90 (36 lecture, 54 lab)

Concentration on sculpture fabrication. Covers a variety of assemblage techniques and materials, including wood and metal. Concentration on the additive processes and elements of design in sculpture fabrication.

Transfer Information: CSU Transferable

ART 181 Intermediate Sculpture Fabrication (3 Units)

Prerequisites: ART 180.

Hours: 90 (36 lecture, 54 lab)

Explores a variety of assemblage techniques and materials, including wood assemblage and welding.

Transfer Information: CSU Transferable

ART 182 Advanced Sculpture Fabrication (3 Units)

Prerequisites: ART 181.

Hours: 90 (36 lecture, 54 lab)

Concentration on sculpture fabrication. Covers advanced techniques and materials, including Mig and Tig welding.

Transfer Information: CSU Transferable

ART 190 Introduction to Printmaking (3 Units)

Course Advisories: ART 101 and 120 ART 140.

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 90 (36 lecture, 54 lab)

Introduction to printmaking history and methods. This class explores materials in relief, intaglio, silkscreen and contemporary practices.

Transfer Information: CSU Transferable, UC Transferable

ART 191 Intermediate Printmaking (3 Units)

Prerequisites: ART 190.

Corequisites: ART 140.

Course Advisories: ART 101 and ART 120.

Hours: 90 (36 lecture, 54 lab)

Expanded study of the processes covered in Art 190, with the introduction of multiple-layer and mixed-media printmaking. Readings related to theoretical application of print in fine art will be covered.

Transfer Information: CSU Transferable, UC Transferable

ART 192 Advanced Printmaking (3 Units)

Prerequisites: ART 191.

Course Advisories: ART 101 and/or ART 120.

Hours: 90 (36 lecture, 54 lab)

Continuation of the printmaking processes covered in Art 191.

Students choose their own advanced print process in response to each assignment. Processes include multiple-color intaglio, relief and silkscreen. Experimental forms of multi-media printmaking are introduced. An artist statement related to the print work to be written at the beginning and end of the course.

Transfer Information: CSU Transferable, UC Transferable

ART 193 Beginning Printmaking: Silkscreen (3 Units)

Course Advisories: ART 101 and ART 120 ART 140.

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 90 (36 lecture, 54 lab)

Introduction to techniques used in making silkscreens; Photographic and non-photographic stencil processes employed.

Transfer Information: CSU Transferable, UC Transferable

ART 194 Intermediate Printmaking: Silkscreen (3 Units)

Prerequisites: ART 193.

Course Advisories: ART 101 and 103.

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 90 (36 lecture, 54 lab)

Expansion of the silkscreen processes covered in ART 193. Expands the exploration of the technique to include mixed-process silkscreen prints and sculptural screen printing techniques.

Transfer Information: CSU Transferable, UC Transferable

ART 195 Printmaking, Theory and Application (3 Units)

Prerequisites: ART 192.

Course Advisories: ART 101.

Hours: 90 (36 lecture, 54 lab)

Introduction to a theory-based approach to contemporary Printmaking and a continued study of technique. Readings, lecture and discussion will be used to guide the creation of portfolio artwork with an emphasis on the conceptual territory of the medium.

Transfer Information: CSU Transferable, UC Transferable

ART 210 Survey Of Renaissance And Baroque Art (3 Units)

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 54 (54 lecture)

Survey of the evolution of major styles, meanings, iconography and innovations in art during the Renaissance and Baroque periods, with investigation of the social, cultural, political and philosophical contexts of the art. Emphasis on the interdisciplinary aspects of expressive behavior during these periods.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

ART 211 Nineteenth Century Art (3 Units)

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 54 (54 lecture)

Surveys European and American art of the 19th century and artistic innovations that defined modernism and the avant-garde. Historical context of art, including democracy, worker's rights, suffrage, and abolition are highlighted. Romanticism, Realism, Impressionism and Post-Impressionism style periods are surveyed.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

ART 215 Survey Of Non-Western Art (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Introduction to the art produced by the non-European world. International survey of the art of Asia (India, China, Japan), Pre-Columbian Meso and South America, Native North America, Africa and Oceania (the South Seas).

SBCC General Education: SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

ART 216 Survey Of Islamic Art And Architecture (3 Units)

Skills Advisories: Eligibility for ENG 100 or 103 or 110 or 110H.

Hours: 54 (54 lecture)

Survey of Islamic art and architecture from Asia to North Africa and Spain, from the era of Muhammad 19th century C.E. Considers the regional artistic manifestations of the vast Islamic world. Analyzes how intercultural relations between Europe and the Islamic world have influenced both spheres of art.

SBCC General Education: SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

Asian-American Studies (ASAM)

Credit Courses

ASAM 101 Comparative Asian-American History, 1849-1965 (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Comparative analysis of Chinese, Japanese, Korean and Filipino immigration into Hawaii and the continental United States; settlement and employment patterns, community organizations, anti-Asian movements; women and families; internment of Japanese-Americans during World War II; and post-war developments.

SBCC General Education: SBCCGE Area B, SBCCGE Area E5

Transfer Information: CSUGE Area C2, CSUGE Area D3, CSU US-1, IGETC Area 3B, IGETC Area 4C, CSU Transferable, UC Transferable

ASAM 102 Contemporary Asian-American History (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Focuses on Asian-Americans from 1965 to present, including renewed immigration, the impact of new Asian-American ethnic groups, responses to racism, and the demographics, culture and politics of Asian-Americans in the 21st century.

SBCC General Education: SBCCGE Area B, SBCCGE Area E5

Transfer Information: CSUGE Area C2, CSUGE Area D3, IGETC Area 3B, IGETC Area 4C, CSU Transferable, UC Transferable

Automotive Service and Technology (AUTO)

Credit Courses

AUTO 101 Introduction to Auto Mechanics (3 Units)

Hours: 54 (54 lecture)

Lecture/demonstration course introducing the operation and maintenance of the modern automobile; emphasis on the theory of basic operating systems, including engine, electrical, chassis and driveline.

Transfer Information: CSU Transferable

AUTO 101A Introduction to Auto Mechanics (3 Units)

Hours: 54 (54 lecture)

Lecture/demonstration course introducing the operation and maintenance of the modern automobile and shop safety; emphasis on the theory of basic operating systems including the electrical, fuel ignition, and electronics and computer controls.

Transfer Information: CSU Transferable

AUTO 101B Introduction to Auto Mechanics (3 Units)

Hours: 54 (54 lecture)

Lecture/demonstration course introducing the operation and maintenance of the modern automobile and shop safety. Basic operating systems covered include cooling, brake, steering, suspension, drivetrain and air conditioning systems.

Transfer Information: CSU Transferable

AUTO 102 Basic Car Care, Maintenance and Repair (3 Units)

Hours: 90 (36 lecture, 54 lab)

Introductory study and practice in basic car care, maintenance and repair. Students acquire laboratory experience, performing service and minor repairs.

Transfer Information: CSU Transferable

AUTO 110 Fundamentals of Automotive Servicing (4 Units)

Course Advisories: AUTO 101.

Hours: 108 (54 lecture, 54 lab)

Introductory lecture/lab course covering maintenance and diagnostic procedures used in the automotive service industry. Lab exercises cover maintenance and service areas of engine lubrication, under hood, undercar, tire and wheel, cooling system, belts and hoses, fuel system, battery and electrical system, brakes and wheel bearings.

Transfer Information: CSU Transferable

AUTO 110A Fundamentals of Auto Servicing (3 Units)

Hours: 90 (36 lecture, 54 lab)

Introductory lecture/lab course covering maintenance and diagnostic procedures used in the automotive service industry. Emphasis on lubrication, under-hood and under-car inspections, electrical systems service, fuel and ignitions systems service, and computer control diagnosis.

Transfer Information: CSU Transferable

AUTO 110B Fundamentals of Auto Servicing (3 Units)

Hours: 90 (36 lecture, 54 lab)

Introductory lecture/lab course covering maintenance and diagnostic procedures used in the automotive service industry. Topics include cooling system service, brake tire and wheel service, suspension and steering service, and drivetrain service.

Transfer Information: CSU Transferable

AUTO 111 Engine Rebuilding (7 Units)

Course Advisories: AUTO 101 and AUTO 110.

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 234 (72 lecture, 162 lab)

Lecture/lab course on generic theory and repair of automotive engines. The valve train and lower end assemblies are covered in detail. Engine problem diagnosis, service and repair, engine rebuilding and machining, and performance enhancement emphasized.

Transfer Information: CSU Transferable

AUTO 112 Brakes, Suspension and Steering (4.6 Units)

Course Advisories: AUTO 101 and AUTO 110.

Skills Advisories: Eligibility for ENG 103.

Hours: 144 (54 lecture, 90 lab)

Principles of brakes, suspension, steering systems, wheel alignment and tire service. Includes disc and drum brakes, brake power assist units, anti-lock braking, tire service, wheel balancing and wheel alignment. Live vehicle laboratory study of lecture material. NATEF-certified course.

Transfer Information: CSU Transferable

AUTO 113 Automotive Fuel and Air Conditioning Systems (4.6 Units)

Course Advisories: AUTO 101 and 110.

Skills Advisories: Eligibility for English 98 and 103.

Hours: 144 (54 lecture, 90 lab)

Principles of automotive fuel supply systems, carburetion, fuel injection heating, ventilation and air conditioning (HVAC) systems. Live vehicle repair in lab. NATEF-certified course.

Transfer Information: CSU Transferable

AUTO 114 Automotive Power Train (7 Units)

Prerequisites: AUTO 111.

Course Advisories: AUTO 101 and AUTO 110.

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 234 (72 lecture, 162 lab)

Principles of the automotive power train, including the clutch, standard and automatic transmissions and transaxles, C/V joints, drive shafts and differentials. NATEF-certified course.

Transfer Information: CSU Transferable

AUTO 115 Automotive Electricity (7 Units)

Course Advisories: AUTO 101 and 110.

Skills Advisories: Eligibility for ENG 103; proficiency in MATH 1.

Hours: 216 (81 lecture, 135 lab)

Study of the complete automotive electrical system, including theory, the battery, starting system, charging system, wiring, lighting and body electrical systems. Theory of operation covered in lecture; testing, diagnosis and repair applied in lab. NATEF-certified course.

Transfer Information: CSU Transferable

AUTO 116 Engine Performance (7 Units)

Course Advisories: AUTO 101 and AUTO 110.

Hours: 216 (81 lecture, 135 lab)

Principles of engine performance diagnosis and maintenance, ignition and emission controls. Drivability, vehicle emissions and fuel economy concerns is also addressed. Lab study includes engine condition testing, ignition system testing, emission testing and electronic scan tools.

Transfer Information: CSU Transferable

AUTO 207 Smog Check Technician Update (1 Unit)

Hours: 18 (18 lecture)

The California Bureau of Auto Repair (BAR) requires this course for anyone applying for an EA or EB smog check license. Also required as update training for anyone interested in renewing a smog check license from January 1, 2005 through December 31, 2007. Covers BAR program updates, 'Lambda' air/fuel calculations, operation of wide range of air/fuel sensors, and diagnosing emission failure problems using scan tool data stream analysis.

AUTO 217 Automotive Specialty I (2 Units)

Prerequisites: AUTO 112 or AUTO 113.

Hours: 108 (108 lab)

Designed to further increase the skills and knowledge of students in the ASE (Automotive Service Excellence) specialty areas of brakes, steering, suspension or air-conditioning, working to trade standards.

AUTO 218 Automotive Specialty II (3 Units)

Prerequisites: AUTO 111 or AUTO 114 or AUTO 115 or AUTO 116.

Hours: 162 (162 lab)

Designed to further increase the skills and knowledge of students in the ASE (Automotive Service Excellence) specialty area(s) of engine repair, automotive electricity, automotive powertrain, or engine performance, working to trade standards.

AUTO 221 Principles of Hybrid and Electric Drives (1.6 Unit)

Hours: 54 (18 lecture, 36 lab)

Study of hybrid, plug-in hybrid and electric vehicle powertrains. Topics include high-voltage battery packs, inverters and motor-generators. This lecture/demonstration course will include hands-on exercises using a second generation Toyota Prius in a lab setting. Course is suitable for anyone interested in advanced automotive technology.

Transfer Information: CSU Transferable

AUTO 290 Work Experience In Automotive Service And Technology (1-4 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 300 (300 lab)

Supervised automotive employment for students whose career objectives, automotive course studies and employment complement each other. The student must be employed in an occupation directly related to the Automotive major. Must also be enrolled in no less than seven (7) units, including Work Experience. Course restricted to 3 repetitions

Bio-Medical Sciences (BMS)

Credit Courses

BMS 100 The Human Body (4 Units)

Course Advisories: One semester High School Biology.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 108 (54 lecture, 54 lab)

Structure and function of the human body. Non-technical introduction to anatomy, physiology, exercise, fitness and nutrition. Laboratory experiments in human physiology; study of human anatomical materials. Satisfies SBCC General Education requirement in Natural Sciences, and Anatomy and Physiology requirements for SBCC LVN program. Does not satisfy requirements for ADN majors.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: No credit for BMS 100 if taken after BMS 107 or 108; BMS 100, 107, 108, and 146 combined: maximum credit, two courses.

BMS 107 Human Anatomy (4 Units)

Hours: 108 (54 lecture, 54 lab)

Structure of the human body. Laboratory includes study of a human anatomical specimen and comparative anatomy. Transferable to all four-year institutions, including nursing schools.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: BMS 100, 107, 108 and 146 combined: maximum credit, two courses.

C-ID: BIOL 110B.

BMS 107D Human Anatomy Discussion (1 Unit)

Corequisites: BMS 107.

Hours: 18 (18 lecture)

Concurrent Discussion and problem solving course designed for students currently enrolled in BMS 107.

Transfer Information: CSU Transferable, UC Transferable

BMS 108 Human Physiology (4 Units)

Course Advisories: BMS 107, CHEM 101 or CHEM 104.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 108 (54 lecture, 54 lab)

Functions of the human body. Laboratory emphasizes recording physiological data from each student. Transferable to all four-year institutions, including nursing schools. Satisfies SBCC General Education requirement in Natural Sciences.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B,

IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: BMS 100, 107, 108, and 146 combined: maximum credit, two courses.

C-ID: BIOL 120B.

BMS 108D Human Physiology Discussion (1 Unit)

Corequisites: BMS 108.

Hours: 18 (18 lecture)

Concurrent Discussion and problem-solving course designed for students currently enrolled in BMS 108.

Transfer Information: CSU Transferable, UC Transferable

BMS 110 Physiology of Exercise (3 Units)

Course Advisories: BMS 107 and BMS 108.

Hours: 54 (54 lecture)

This course provides and in-depth analysis into the effects of acute and chronic physical activity on the structure and function of the human body. Specific emphasis on the chemistry, anatomy, physiology, and physical principles of exercise will be provided. The course will also include analyses of cellular respiration, biomechanics, the musculoskeletal system, body composition, ergogenic aids, athletic performance and other variables influencing exercise training, performance, and adaptations.

Transfer Information: CSU Transferable

BMS 110L Physiology of Exercise Laboratory (1 Unit)

Corequisites: BMS 110.

Hours: 54 (54 lab)

Prerequisite or Laboratory investigations of the effects of acute and chronic physical activity on the structure and function of the human body utilizing various fitness assessment methodologies.

Transfer Information: CSU Transferable

BMS 118 Human Microanatomy (3 Units)

Hours: 54 (54 lecture)

Functional histology of the human body. Cell structure and function; architecture, control and integration of cells in tissues of all major organs.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

BMS 119A Human Dissection: Head and Neck (1 Unit)

Prerequisites: BMS 107.

Hours: 54 (54 lab)

Directed dissection of the head and neck of a cadaver.

Transfer Information: CSU Transferable

BMS 119B Human Dissection: Appendages (1 Unit)

Prerequisites: BMS 1119A.

Hours: 54 (54 lab)

Directed dissection of the appendages of a cadaver.

Transfer Information: CSU Transferable

BMS 119C Human Dissection: Torso (1 Unit)

Prerequisites: BMS 119B.

Hours: 54 (54 lab)

Directed dissection of the external and internal structures of the torso of a cadaver.

Transfer Information: CSU Transferable

BMS 127 Medical Microbiology (4 Units)

Prerequisites: CHEM 101 or one year of high school chemistry or CHEM 104 or CHEM 155.

Course Advisories: BMS 108, BIOL 100.

Hours: 108 (54 lecture, 54 lab)

Surveys the microorganisms that contribute to human health and human disease. Biology of bacteria, viruses, fungi and a variety of Eukaryotic organisms will be investigated; emphases includes the structural and metabolic diversity of microorganisms, and the molecular and cellular basis of host-microbe interactions.

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

BMS 128 Human Nutrition (3 Units)

Hours: 54 (54 lecture)

Nutritional needs of the human body. Studies individual, local, national and world nutritional efforts.

Transfer Information: CSUGE Area E, CSU Transferable, UC Transferable

C-ID: NUTR 110.

BMS 128L Human Nutrition Laboratory (1 Unit)

Corequisites: BMS 128.

Hours: 54 (54 lab)

Laboratory investigations of human nutrition; nutritional analysis of food; and guidelines for prevention of chronic diseases through diet.

Transfer Information: CSU Transferable, UC Transferable

BMS 136 Biology Of Human Sexuality (3 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Fundamental principles and current research focused on the anatomy and physiology of reproductive systems, hormonal control of reproductive cycles, diversity of sexual responses, basic genetics and heredity, early human development, pregnancy, parturition, causes and treatments of infertility, sexually transmitted infections, contraception, age-related changes in sexual function and behavior, sexual dysfunction and comparative sexual behaviors.

Transfer Information: CSUGE Area B2, CSUGE Area E, IGETC Area 5B, CSU Transferable, UC Transferable

BMS 146 Human Form and Function (3 Units)

Course Advisories: Chem 101.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Descriptive introduction to the structure and function of the human body.

Transfer Information: CSUGE Area B2, CSU Transferable, UC Transferable

UC Transfer Limit: BMS 100, 107, 108, and 146 combined: maximum credit, two courses.

BMS 157 General Microbiology (4 Units)

Prerequisites: CHEM 101 or one year of high school chemistry with a minimum grade of C or CHEM 104 or CHEM 155.

Course Advisories: BIOL 100, BMS 108.

Hours: 108 (54 lecture, 54 lab)

Surveys the biology and ecology of various microbiological taxa: bacteria, archaea, viruses, fungi, protists, and microscopic animals. Emphasis placed on their symbiotic roles in nature, as well as on their evolution, taxonomy, metabolism, and genetics. Associated biotechnological techniques and industrial applications are explored.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

Biology (BIOL)

Credit Courses

BIOL 100 Concepts Of Biology (4 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 108 (54 lecture, 54 lab)

Basic concepts of biology. Designed for non-biological sciences majors with no prior general biology course. Satisfies SBCC General Education requirement in Natural Sciences.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: No credit for BIOL 100 if taken after BIOL 101, 102 or 103.

BIOL 101 Plant Biology (4 Units)

Prerequisites: MATH 107 or MATH 110C or MATH 137C or SS 110C or equivalent based on SBCC's Assessment Center placement via multiple measures.

Course Advisories: Eligibility for ENG 110 or 110H.

Hours: 108 (54 lecture, 54 lab)

Principles of biology, with emphasis on major plant groups. Anatomy, physiology, evolution, and diversity of the archaea, bacteria, algae, fungi and plantae. Required for the Biological Sciences major. Satisfies SBCC General Education requirement in Natural Sciences.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: BIOL 135S, BIOL 140, BIOL 155.

BIOL 102 Animal Biology (5 Units)

Prerequisites: MATH 110C or MATH 137C or MATH 107 or SS 110C or equivalent based on SBCC's Assessment Center placement via multiple measures.

Course Advisories: BIOL 101, ENG 110 or ENG 110H.

Hours: 162 (54 lecture, 108 lab)

Principles of animal taxonomy, evolution, population and community ecology; protist and animal diversity and adaptations; emphasis on vertebrate anatomy and physiology. Required for the Biological Sciences major.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: BIOL 135S, BIOL 140, BIOL 150.

BIOL 103 Cell and Molecular Biology (5 Units)

Prerequisites: CHEM 155 or CHEM 104, MATH 107 or MATH 110C or MATH 137C or SS 110C or equivalent based on SBCC's Assessment Center placement via multiple measures.

Course Advisories: ENG 110 or ENG 110H.

Hours: 162 (54 lecture, 108 lab)

Cell structure and function: molecular architecture, reproduction and growth; mechanisms of genetics; intercellular communication; cell and organ system physiology; life's origin. Study scientific literature with instruction in critical thinking, composition and logical analyses of ideas and experiments. Required for Biological Sciences majors. Satisfies SBCC General Education requirement in Communication and Analytical Thinking.

SBCC General Education: SBCCGE Area A, SBCCGE Area D2

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: BIOL 103 maximum credit, 5 units.

C-ID: BIOL 135S, BIOL 190.

BIOL 110 Natural Science (3 Units)

Hours: 54 (54 lecture)

Physical and chemical principles underlying biological architecture and function. In combination with BIOL 141, BIOL 110 satisfies General Education requirement in Natural Sciences.

Transfer Information: CSUGE Area B1, CSUGE Area B2, IGETC Area 5A, IGETC Area 5B, CSU Transferable, UC Transferable

UC Transfer Limit: BIOL 110 and 110H combined: maximum credit, one course.

BIOL 112 Evolution and Adaptation (3 Units)

Hours: 54 (54 lecture)

Principles of biological evolution, diversity of life on earth, and a survey of living and extinct organisms. Investigates theories of life's origin, modes of speciation and adaptations of dominant life forms through the ages.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

BIOL 116 Biological Illustration (4 Units)

Course Advisories: ART 120.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 108 (54 lecture, 54 lab)

Traditional and contemporary techniques of scientific illustration of biological subjects for technical and medical print and electronic publications.

Transfer Information: CSU Transferable

BIOL 118 Nature Photography (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Photography of biological subjects. Camera, light and the special methods of field and wildlife photography.

Transfer Information: CSU Transferable

BIOL 120 Natural History (4 Units)

Hours: 108 (54 lecture, 54 lab)

Survey of the natural environment through studies of Earth's ecosystems, with emphasis on the plant and animal inhabitants and the influences of cosmic, geological and meteorological phenomena. Weekly field trips.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

BIOL 122 Ecology (3 Units)

Hours: 54 (54 lecture)

Organisms and populations as integrated elements of communities and ecosystems. Covers population structure; growth and evolution; relationships between species including competition, predation and coevolution; community structure and development; biodiversity; and biogeography.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

BIOL 123 Ecology Laboratory (1 Unit)

Corequisites: BIOL 122.

Hours: 54 (54 lab)

Laboratory and field investigations of ecological principles.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

BIOL 124 Biological Oceanography (4 Units)

Hours: 108 (54 lecture, 54 lab)

Relationships between marine plants and animals and physical characteristics of Earth's oceans. Emphasis on forms of marine organisms found in the open sea, their characteristics and ecological relationships. Biological sampling techniques and physical measurements studied in laboratory and at sea.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable
UC Transfer Limit: BIOL 124 combined with EARTH 151: maximum credit, one course.

BIOL 125 Marine Biology (4 Units)

Hours: 108 (54 lecture, 54 lab)

Study of marine plants and animals, with emphasis on local organisms and their ecological adaptations. Laboratory includes visits to local coastal and marine ecosystems.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable
UC Transfer Limit: BIOL 125 and 126 combined: maximum credit, one course.

BIOL 126 Aquatic Ecosystems (3 Units)

Hours: 54 (54 lecture)

Diversity of life associated with marine and freshwater aquatic ecosystems; ecological relationships and adaptations to life in water.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

UC Transfer Limit: BIOL 125 and 126 combined: maximum credit, one course.

BIOL 130 Methods in Field Biology (3 Units)

Hours: 90 (36 lecture, 54 lab)

Through weekly field trips and 2-3 weekend field experiences, students study flora and fauna of California using current biological and ecological field research methods, collect and analyze data, demonstrate leadership and group work skills, and write and present a research proposal.

Students must be able to hike in rough terrain and carry bulky equipment.

Transfer Information: CSU Transferable

BIOL 133 Ecology of Morro Bay Area (1 Unit)

Hours: 36 (9 lecture, 27 lab)

Field course focusing on organisms and ecology of California coastal ecosystems (e.g., mudflats, salt marsh, rocky outer coast). Weekend, overnight field trip required.

Transfer Information: CSU Transferable

BIOL 140 Principles of Biology (3 Units)

Hours: 54 (54 lecture)

Basic principles of cells, genetics, evolution, biodiversity and ecology. Designed for Natural History majors. Satisfies Natural Science General Education requirement when combined with Bio 141.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

UC Transfer Limit: No credit for BIOL 140 if taken after BIOL 100, 101, 102 or 103.

BIOL 141 Biology Laboratory (2 Units)

Corequisites: BIOL 110 or BIOL 112 or BIOL 140.

Hours: 72 (18 lecture, 54 lab)

Prerequisite or Laboratory investigation of biological principles and techniques of investigation.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: No credit for BIOL 141 unless taken after or concurrently with BIOL 112 or 140.

BIOL 142 Marine Science (3 Units)

Hours: 54 (54 lecture)

Introduction to physical oceanography and marine biology. Exploration of ocean ecosystems and organisms including tropics, poles, temperate and deep-sea regions. Marine environmental issues and solutions.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

BIOL 144 Biogeography (3 Units)

Hours: 54 (54 lecture)

Survey of the history, distribution and diversity of life and the methods by which biodiversity is defined and measured.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

BIOL 150 Biodiversity (3 Units)

Hours: 54 (54 lecture)

Broad introduction to life on Earth including diversity, adaptations and evolutionary history; principles of ecology and evolution; and examination of how life evolved and the tree of life is constructed using fossil evidence, comparative morphology and genomics.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

BIOL 161 DNA and Society (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Introduction to DNA structures and functions, heredity, genetics, biotechnology, cloning, genetically modified organisms, and stem cells from a biological perspective; relevant ethical issues and implications for society and the individual will be explored. Satisfies SBCC General Education requirement in Natural Sciences.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

BIOL 171 Human Evolution (3 Units)

Hours: 54 (54 lecture)

Evolution of Humans from early primate ancestors to modern humans including cultural, genetic and anatomical changes.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

UC Transfer Limit: BIOL 171, ANTH 101, 101H combined: maximum credit, one course.

BIOL 172 Symbiosis (3 Units)

Hours: 54 (54 lecture)

Origin and nature of biological partnerships. Symbiotic relations from microbial landscapes to global ecology. Emphasis on ecological, behavioral and chemical exchanges between organisms and ecosystems.

Transfer Information: CSUGE Area B2, CSU Transferable, UC Transferable

BIOL 291 Seminars in Biology (2 Units)

Hours: 36 (36 lecture)

Topics of current interest in the Biological Sciences are presented in seminar format by invited researchers and students enrolled in the course. Emphasis on research and presentation skills, including analysis of primary literature.

Transfer Information: CSU Transferable

BIOL 295 Internship In Biology (1-4 Units)

Limitations on Enrollment: Student must have completed 12 units at SBCC with a G.P.A. of 2.5 and a minimum of 6 units with a G.P.A. of 3.0 in the Biological Sciences Department.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 273 (273 lab)

Structured, on-the-job experience in a field directly related to the student's area of interest in the biological sciences.

Transfer Information: CSU Transferable

BIOL 298 Independent Reading in Biology (1-4 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 192 (192 lab)

Independent literature search and/or reading of material on a topic in biology. A final report, including an annotated bibliography, is required.

Transfer Information: CSU Transferable

BIOL 299 Independent Research In Biology (1-4 Units)

Limitations on Enrollment: Student must have completed 12 units at SBCC with a G.P.A. of 2.5 and a minimum of 6 units with a G.P.A. of 3.0 in the Biological Sciences Department.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 192 (192 lab)

Independent, systematic research investigation of a problem in biology. A final report on research conducted is required. May be taken four times for credit. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Black Studies (BLST)

Credit Courses

BLST 101 The African-American In U.S. History To World War II (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Historical survey of Black people in American society and culture, from the African background to World War II, with special emphasis on contributions, institutions, trends, movements and problems relevant to Black America. A balanced emphasis is placed on social, political, economic and intellectual considerations. This is a lecture course with an emphasis on discussion.

SBCC General Education: SBCCGE Area B, SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C2, CSUGE Area D3, CSU US-1, IGETC Area 3B, IGETC Area 4C, CSU Transferable, UC Transferable

BLST 102 The African-American In U.S. History, From Civil Rights Movement To Present (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Comprehensive examination of the history of Black people in American society and culture from the Civil Rights Movement to the present, with special emphasis on contributions, institutions, trends, movements and problems relevant to Black America. The award-winning film series, Eyes on the Prize, serves as a focal point.

SBCC General Education: SBCCGE Area B, SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C2, CSUGE Area D3, IGETC Area 3B, IGETC Area 4C, CSU Transferable, UC Transferable

UC Transfer Limit: 102 and 102H combined: maximum credit, one course.

BLST 102H The African-American in U.S. History, from Civil Rights to Present, Honors (4 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Comprehensive examination of the history of Black people in American society and culture from the Civil Rights Movement to the present, with special emphasis on contributions, institutions, trends, movements and problems relevant to Black America. The award-winning film series, Eyes on the Prize, serves as a focal point.

SBCC General Education: SBCCGE Area B, SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C2, CSUGE Area D3, IGETC Area 3B, IGETC Area 4C, CSU Transferable, UC Transferable

UC Transfer Limit: 102 and 102H combined: maximum credit, one course.

BLST 103 African-American Culture (3 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Analysis of what it means to be Black in America. Historical, sociological and anthropological methods are used to examine African-American culture and its relationship to the larger society.

SBCC General Education: SBCCGE Area B, SBCCGE Area E5

Transfer Information: CSUGE Area C2, CSUGE Area D3, IGETC Area 3B, IGETC Area 4C, CSU Transferable, UC Transferable

BLST 111 The African-American Music Experience (3 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Survey and appreciation of basic concepts in music, via examination of the principal developments in the primitive, folk and classical music of African-Americans as culture for the non-music major.

SBCC General Education: SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

BLST 113 African-American And Afro-Caribbean Literature In The U.S. (3 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Designed to increase the knowledge and appreciation of Black American and Afro Caribbean literature in the United States. Examines the story, novel, poem and essay genres.

SBCC General Education: SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C2, IGETC Area 3B, CSU Transferable, UC Transferable

Botany (BOT)

Credit Courses

BOT 100 Concepts of Botany (4 Units)

Hours: 108 (54 lecture, 54 lab)

Plant structure and function; the role of plants in the biosphere and society. Laboratory includes field studies. Designed for non-Biological Sciences majors with no prior general botany course.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: No credit for BOT 100 if taken after BOT 121; BOT 100, 121, and 122 combined: maximum credit, two courses.

BOT 121 Plant Diversity (4 Units)

Hours: 108 (54 lecture, 54 lab)

Plant diversity, adaptations and evolutionary history; principles of ecology and evolution.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: BOT 100, 121, and 122 combined: maximum credit, two courses.

BOT 122 Flowering Plant Identification (3 Units)

Hours: 90 (36 lecture, 54 lab)

Botanical classification, methods of identification and recognition of important California plant species and families.

Transfer Information: CSUGE Area B2, CSUGE Area B3, IGETC Area 5B, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: BOT 100, 121 and 122 combined: maximum credit, two courses.

C-ID: AG-EH 112L.

BOT 123 Field Botany (3 Units)

Hours: 90 (36 lecture, 54 lab)

Flora, vegetation and major ecological features of natural ecosystems; field lectures, laboratories and camping. Multiple field trips varying from one to four days in length.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

Business Administration (BUS)

Credit Courses

BUS 101 Introduction To Business (3 Units)

Hours: 54 (54 lecture)

Examines economic activity in the American free enterprise system.

Provides students with a broad understanding of: social responsibility and ethics, government regulations, business law, globalization, technology and e-commerce, economic and financial systems, securities markets, management, marketing, accounting and finance.

SBCC General Education: SBCCGE Area B

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: BUS 101 and IBUS 102 combined: maximum credit, one course.

C-ID: BUS 110.

BUS 103 Business Mathematics (3 Units)

Course Advisories: BUS 101.

Hours: 54 (54 lecture)

Arithmetic approach used to solve business problems dealing with interest, depreciation, percentage, discounts, pricing merchandise, bank discounts, stocks and bonds, partial payments, payroll, small loans and installment purchases.

Transfer Information: CSU Transferable

BUS 290 Work Experience In Business Administration (1-4 Units)

Hours: 300 (300 lab)

Consists of supervised employment for students whose career objectives, course of study and employment complement each other.

Students must accomplish specific course objectives. Class meetings on campus are scheduled each semester. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Business Law (BLAW)

Credit Courses

BLAW 101 Business Law (4 Units)

Course Advisories: BUS 101.

Hours: 72 (72 lecture)

Fundamental legal principles pertaining to business transactions.

Introduction to the legal process. Topics include sources of law and ethics, contracts, torts, agency, criminal law, business organizations, and judicial and administrative processes.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: BLAW 101, BLAW 110 and IBUS 211 combined: maximum credit, one course.

C-ID: BUS 125.

BLAW 110 Legal Environment of Business (4 Units)

Course Advisories: BUS 101.

Hours: 72 (72 lecture)

Study of the law concerned with the courts, business enterprises, ethics, the Constitution, torts, crimes, contracts, commercial paper, real/ personal property, secured transactions, security regulations, bankruptcy, employment, antitrust, administrative and international law.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: BLAW 101, BLAW 110 and IBUS 211 combined: maximum credit, one course.

C-ID: BUS 120.

Cancer Information Management (CIM)

Credit Courses

CIM 100 Cancer Registry Management I (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Introduction to hospital-based and central cancer registries; legal issues; confidentiality; standard-setting organizations; types of cancer registries and other disease registries; data users, computer applications; quality control; and registry operations, including case ascertainment and registry files.

Transfer Information: CSU Transferable

CIM 125 Cancer Disease Management (4 Units)

Prerequisites: HIT 135 and BMS 146.

Corequisites: CIM 100.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Overview of the oncology disease process, using principles from anatomy, physiology and chemistry; diagnostic and staging procedures (laboratory, pathology, imaging and surgery); Treatments (surgery, radiation, chemotherapy, immunotherapy, etc.); emphasis on the major sites of cancer; Overview of clinical trials/research protocols.

Transfer Information: CSU Transferable

CIM 150 Oncology Coding And Staging Systems (4 Units)

Prerequisites: CIM 125.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Overview of oncology coding and staging systems (ICD-O-3, SSS2K, AJCC, the MP/H rules, and the Hematopoietic DB/Manual). Focus on coding clinical information from medical records; staging and extent of disease concepts used by physicians and cancer surveillance organizations; and the rules used to determine the number of primaries.

Transfer Information: CSU Transferable

CIM 201 Abstracting Principles And Practice I (3 Units)

Prerequisites: HIT 135.

Corequisites: CIM 125 Prior or concurrent enrollment in CIM 125.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Identification/selection of appropriate clinical information from medical records for capture on the abstract, in a manner consistent with cancer registry regulatory core data requirements.

Transfer Information: CSU Transferable

CIM 202 Abstracting Principles And Practice II (3 Units)

Prerequisites: CIM 201.

Corequisites: Prior or concurrent enrollment in CIM 150.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Application of the principles of cancer registry abstracting. Identification, selection, and recording of appropriate cancer-related information consistent with regulatory requirements. Manual quality control edits of abstracted information to assure timeliness, completeness and accuracy of data.

Transfer Information: CSU Transferable

CIM 225 Cancer Registry Management II (2 Units)

Corequisites: Prior or concurrent enrollment in CIM 100.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 36 (36 lecture)

Overview of management reports, cancer reporting to the central registry and the NCDB, survival analysis, clinical practice guidelines, uses of central cancer registry data, standard setters and professional organizations, central cancer registries, geographic information systems, federal and other types of registries, clinical trials, and cancer registries in other countries.

Transfer Information: CSU Transferable

CIM 250 Cancer Statistics And Epidemiology (3 Units)

Prerequisites: CIM 201.

Corequisites: CIM 202, prior or concurrently.

Skills Advisories: MATH 95 and Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Introduction to cancer statistics, descriptive and analytic epidemiology, cancer surveillance, annual report preparation, presentation of cancer data and special studies. Use of cancer statistical data for marketing and strategic planning.

Transfer Information: CSU Transferable

CIM 275 CIM Practicum (3 Units)

Prerequisites: CIM 202 and 225 and 250.

Corequisites: HIT 240 prior to or concurrent.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 162 (162 lab)

Supervised clinical experience in performing NCRA-required CIM competencies in a cancer registry setting. Students are assigned to affiliated hospital or central cancer registry for supervised professional practice. Students have the status of learner and shall not be considered agency employees, nor do they replace employed staff. Clinical practice is conducted as a non-paid, laboratory experience.

Transfer Information: CSU Transferable

Certified Nursing Assistant (CNA)

Credit Courses

CNA 101 Certified Nursing Assistant (6 Units)

Limitations on Enrollment: Must pass physical exam and have current CPR card specifying 'For Health Care Provider,' current immunizations and a copy of Social Security card.

Course Advisories: ENG 070 and ENG 080.

Hours: 191 (64 lecture, 127 lab)

Content follows the California State-approved CNA curriculum which teaches basic care-giving skills focusing on the elderly. Upon completion, student meets requirements to take the CA CNA test that grants CNA certification. Students must apply through the Health Technologies office.

CNA 102 Home Health Aide (1.8 Unit)

Corequisites: Prior or concurrent enrollment in CNA 101.

Limitations on Enrollment: Up-to-date physical exam, immunizations, and CPR card specifying 'For Health Care Provider' and a Social Security card.

Skills Advisories: Eligibility for ENG 70 and ENG 80.

Hours: 51 (25 lecture, 26 lab)

Content builds upon the basics taught in the CNA course, focusing on care of the client in the home. On completion, student receives a CA Home Health Aide license (HHA).

CNA 103 Acute Care Skills For The CNA (1.5 Unit)

Corequisites: Prior or concurrent enrollment in CNA 101.

Limitations on Enrollment: Must pass physical exam and hold current CPR card specifying 'For Health Care Provider' and a Social Security card.

Hours: 45.5 (18 lecture, 27.5 lab)

The long-term care skills of the CNA are expanded to include basic nursing skills used in an acute-hospital setting. Classroom lecture and supervised experience in an acute-care hospital included.

CNA 105 The Art of Caring for the Person with Dementia-Memory Care Basics (4.5 Units)

Corequisites: CNA 106.

Limitations on Enrollment: All students entering this course will need a physical exam, current TB test and must pass a criminal background check per agency policies.

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 153 (45 lecture, 108 lab)

Concurrent Dedicated to improving the quality of life of the person with dementia, while enhancing the life of the caregiver. Focusing on providing a partnership between the caregiver and the memory-impaired adult, this course will offer a distinctive approach that allows the student to practice newly-acquired knowledge in selected clinical sites.

CNA 106 Compassionate Communication for Caregivers: The Art of Connecting in a Caregiving Relationship (1 Unit)

Corequisites: CNA 105.

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

Concurrent Designed to build on the ability to convey compassion, allowing persons with dementia or others who receive care, including family members, to experience compassion. The caregiver grows wiser, stronger, and more capable in the process. Strategies for preventing caregiver "burn-out" are offered, along with insights into nourishing the soul of the caregiver.

Chemistry (CHEM)

Credit Courses

CHEM 101 Introductory Chemistry (4 Units)

Skills Advisories: Eligibility for ENG 098 and 103 and proficiency in MATH 095.

Hours: 108 (54 lecture, 54 lab)

Introduction to Chemistry, with laboratory. Topics include atomic structure; matter and energy; the Periodic Table; chemical properties and reactions; nomenclature; behavior of gases, liquids, and solids; intermolecular forces; acid-base chemistry; and nuclear chemistry.

Recommended for non-science majors as a science with a laboratory course or as a preparatory course for CHEM 155.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: CHEM 101, CHEM 104 and CHEM 110 combined: maximum credit, one course. No credit for CHEM 101 or CHEM 104 or CHEM 110 if taken after CHEM 155.

CHEM 101W Workshop for Introductory Chemistry (1 Unit)

Corequisites: CHEM 101.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 095.

Hours: 54 (54 lab)

Study skill development and supplementary problem-solving for CHEM 101.

CHEM 104 Fundamentals Of General, Organic And Biological Chemistry (4 Units)

Skills Advisories: MATH 095 and Eligibility for ENG 098 and 103.

Hours: 108 (54 lecture, 54 lab)

Introduction to chemistry, with emphasis on chemical principles and their application to biological systems and processes. Approximately half of the semester covers general chemistry topics, with the remainder covering an introduction to organic chemistry topics and biochemistry topics. Recommended for non-science majors, especially those in the fields of allied health, nursing (ADN), and physical education.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: CHEM 101, CHEM 104 and CHEM 110 combined: maximum credit, one course. No credit for CHEM 101 or CHEM 104 or CHEM 110 if taken after CHEM 155.

CHEM 110 Survey of Chemistry (3 Units)

Hours: 54 (54 lecture)

Introduction to atoms, molecules, chemical reactions, and a survey of general chemistry, organic chemistry, biochemistry and applications for the sciences.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: CHEM 101, CHEM 104 and CHEM 110 combined: maximum credit, one course. No credit for CHEM 101 or CHEM 104 or CHEM 110 if taken after CHEM 155.

CHEM 155 General Chemistry I (5 Units)

Prerequisites: CHEM 101 or CHEM 104 or One year of high school chemistry, MATH 107 or MATH 110C or MATH 137C or SS 110C or or equivalent based on SBCC's Assessment Center placement via multiple measures.

Course Advisories: ENG 110 or ENG 110H.

Hours: 126 (72 lecture, 54 lab)

First semester of a two-semester General Chemistry course sequence. Includes laboratory. Topics include the structure of atoms and molecules, stoichiometry, types of chemical bonding and chemical reactions, gas laws, molecular structure, acid-base chemistry, and thermodynamics. Laboratory focuses on collection and interpretation of data, and includes spectroscopy. Required for science, engineering and pre-dental and pre-medical majors.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: CHEM 110, CHEM 120S.

CHEM 155W Workshop for General Chemistry I (1 Unit)

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 104 or MATH 107 or MATH 111.

Hours: 54 (54 lab)

Concurrent: CHEM 155. Study skill development and supplementary problem-solving for CHEM 155.

CHEM 156 General Chemistry II (5 Units)

Prerequisites: CHEM 155.

Skills Advisories: MATH107 and Eligibility for ENG 110 or 110H.

Hours: 126 (72 lecture, 54 lab)

Second semester of a two-semester General Chemistry course sequence. Includes laboratory. Topics include thermodynamics, chemical equilibrium, chemical kinetics, electrochemistry, and chemical applications. Laboratory focuses on collection and interpretation of data, and includes quantitative analysis and spectroscopy. Required for science, engineering and pre-dental and pre-medical majors. (CAN CHEM 4 or CAN CHEM SEQ A [with CHEM 155])

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: CHEM 120S.

CHEM 156W Workshop for General Chemistry II (1 Unit)

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 104 or MATH 107 or MATH 111.

Hours: 54 (54 lab)

Concurrent: CHEM 156. Study skill development and supplementary problem-solving for CHEM 155.

CHEM 211 Organic Chemistry I (3 Units)

Prerequisites: CHEM 156.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

First semester of a two-semester Organic Chemistry course sequence. Topics cover the study of fundamental principles of organic chemistry and includes structure, functional groups, nomenclature, stereochemistry, organic reactions, syntheses and mechanisms, as well as spectroscopic methods. Intended for students in chemistry, chemical engineering, biology, pre-med, pre-dental, and related programs. Concurrent enrollment in CHEM 221 recommended.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: CHEM 211 and 221 combined: maximum credit, 5 units.

C-ID: CHEM 150, CHEM 160S.

CHEM 212 Organic Chemistry II (3 Units)

Prerequisites: CHEM 211.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Second semester of a two-semester Organic Chemistry course sequence. Topics further study the fundamental principles of organic chemistry, with emphasis on organic syntheses and reaction mechanisms, as well as spectroscopic methods. Intended for students in chemistry, chemical engineering, biology, pre-med, pre-dental, and related programs. Concurrent enrollment in CHEM 222 recommended.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: CHEM 212 and 222 combined: maximum credit, 5 units.

C-ID: CHEM 160S.

CHEM 221 Organic Chemistry Laboratory I (2.3 Units)

Corequisites: CHEM 211.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 90 (18 lecture, 72 lab)

First-semester Organic Chemistry laboratory. Focuses on organic chemistry laboratory techniques, including techniques of separation, purification, and identification of organic compounds. Includes IR spectroscopy, distillation, crystallization, extraction, determination of physical properties, and microscale techniques.

Transfer Information: CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: CHEM 221 and 221 combined: maximum credit, 5 units.

C-ID: CHEM 150, CHEM 160S.

CHEM 222 Organic Chemistry Laboratory II (2.5 Units)

Prerequisites: CHEM 221.

Corequisites: CHEM 212.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 135 (135 lab)

Second-semester Organic Chemistry laboratory. Focuses on organic syntheses and corresponding organic chemistry laboratory techniques, including techniques of separation, purification, and identification of organic compounds. Includes IR spectroscopy, NMR, distillation, crystallization, extraction, determination of physical properties, and microscale techniques.

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: CHEM 212 and 222 combined: maximum credit, 5 units.

C-ID: CHEM 160S.

CHEM 299 Independent Study in Chemistry (1-4 Units)

Limitations on Enrollment: To be eligible for independent study, a student must have completed 12 units at SBCC with a GPA of 2.5 and a minimum of 6 units with a GPA of 3.0 in the Chemistry Department.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 192 (192 lab)

Independent, systematic research investigation of a problem in chemistry. A final report on research conducted is required. For chemistry students who are capable and interested in pursuing studies in chemistry at a level beyond that covered in regular classes. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Chicano Studies (CHST)

Credit Courses

CHST 101 Mexican-American (Chicano) History In The U.S. (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Survey of electronic commerce and the use of the Internet to conduct business. Includes an interdisciplinary exploration of the issues, trends, opportunities and technologies which shape electronic commerce.

Transfer Information: CSU Transferable

CIS 222 MS Private Cloud Administration (3 Units)

Course Advisories: CIS 114 and CIS 206.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Introduction to configuration and administration of a Microsoft private cloud. Provides occupational preparation for information systems professionals, such as PC support personnel, computer programmers, network/systems managers and technical and operations administration personnel.

Transfer Information: CSU Transferable

CIS 224 Apache Web Server Administration (2 Units)

Course Advisories: CIS 201 or 206.

Skills Advisories: Eligibility for ENG 110, ENG 110H.

Hours: 36 (36 lecture)

Install, configure and trouble-shoot the Apache Web Server on multi-platform environments.

Transfer Information: CSU Transferable

CIS 228 Apple macOS System Administration (4 Units)

Course Advisories: CIS 101.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Introduction to macOS desktop and server administration. Provides occupational preparation for information systems professionals, such as PC support personnel, network/systems managers and related technical and operations administration personnel.

Transfer Information: CSU Transferable

CIS 231 SQL Server Design And Programming (3 Units)

Course Advisories: CIS 117 or CIS 107 and CIS 119.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Designing and implementing SQL Server databases. Programming in Transact-SQL. Designed for students and professionals seeking Microsoft certification.

Transfer Information: CSU Transferable

CIS 232 SQL Server Database Administration (3 Units)

Course Advisories: CIS 206 and CIS 231.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Administering, backing up and recovering SQL Server databases. Designed for students and professionals seeking Microsoft certification.

Transfer Information: CSU Transferable

CIS 234 Oracle Design and Programming (4 Units)

Course Advisories: CIS 117 or CIS 107.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Programming in SQL and creating basic PL/SQL procedures. Designed for students and professionals seeking Oracle certification.

Transfer Information: CSU Transferable

CIS 235 Oracle PL/SQL Programming (4 Units)

Course Advisories: CIS 234.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Programming PL/SQL procedures, functions, triggers, packages and object types in Oracle's SQL*Plus and Procedure Builder environments. Designed for students and professionals seeking Oracle certification.

Transfer Information: CSU Transferable

CIS 236 Oracle Database Administration (3 Units)

Course Advisories: CIS 201 or CIS 206 or CIS 234.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Administering, backing up and recovering Oracle databases. Designed for students and professionals seeking Oracle certification.

Transfer Information: CSU Transferable

CIS 237 Advanced SQL Programming (2 Units)

Course Advisories: CIS 107 or CIS 117.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 36 (36 lecture)

Using SQL to clean and consolidate data; perform correlated subqueries and hierarchical retrievals; write SQL queries; and access object-relational data, VARRAYs and nested tables.

Transfer Information: CSU Transferable

CIS 238 Data Warehousing SQL Server (3 Units)

Course Advisories: CIS 107 or CIS 117.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Using Microsoft SQL Server to create data warehouses and analyze warehoused data.

Transfer Information: CSU Transferable

CIS 239 Crystal Reports (2 Units)

Course Advisories: CIS 107, CIS 117.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 36 (36 lecture)

Developing database-independent reports using Crystal Reports.

Transfer Information: CSU Transferable

CIS 243 Systems Analysis And Design (4 Units)

Course Advisories: CIS 101.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Analyzing and designing information systems. Information gathering, cost-benefit analysis, systems modeling techniques and prototyping.

Transfer Information: CSU Transferable

CIS 245 IT Project Management (4 Units)

Course Advisories: CIS 101.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Introduction to information technology project management.

Transfer Information: CSU Transferable

CIS 246 Management of Information Technology (3 Units)

Course Advisories: CIS 101.

Skills Advisories: Eligibility for ENG 110, ENG 110H.

Hours: 54 (54 lecture)

Introduction to the management of information technology.

Transfer Information: CSU Transferable

CIS 251 Advanced SQL Server Programming (4 Units)

Course Advisories: CIS 231.

Skills Advisories: Eligibility for ENG 110, ENG 110H.

Hours: 72 (72 lecture)

SQL Server programming using advanced features of Transact-SQL. Coding functions, procedures and triggers using Common Language Runtime integration are explored.

Transfer Information: CSU Transferable

CIS 252 MySQL Design and Programming (3 Units)

Course Advisories: CIS 107 or 117.

Skills Advisories: Eligibility for ENG 110, ENG 110H.

Hours: 54 (54 lecture)

Programming in SQL and creating basic procedures and functions in MySQL. Designed for students and professionals seeking MySQL certification.

Transfer Information: CSU Transferable

CIS 253 Business Intelligence with Microsoft SQL Server (4 Units)

Course Advisories: CIS 238.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Implementing and designing business intelligence solutions with Microsoft SQL Server. Provides occupational preparation for information systems professionals, such as PC support personnel, computer programmers, network/systems managers, and related technical and operations administration personnel.

Transfer Information: CSU Transferable

CIS 254 MongoDB Design and Programming (3 Units)

Course Advisories: CIS 120.

Hours: 54 (54 lecture)

Designing and programming using MongoDB document database.

Transfer Information: CSU Transferable, UC Transferable

CIS 255 Apache Cassandra Design and Programming (3 Units)

Course Advisories: CIS 120.

Hours: 54 (54 lecture)

Designing and programming an Apache Cassandra database.

Transfer Information: CSU Transferable, UC Transferable

CIS 262 VMware Desktop Administration (3 Units)

Course Advisories: CIS 219 CIS 206.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Virtual desktop administration using VMware Horizon View. Provides occupational preparation for information systems professionals, such as PC-support personnel, computer programmers, network/systems managers, and related technical and operation administration personnel.

Transfer Information: CSU Transferable

CIS 263 Microsoft System Center Configuration Manager Administration (3 Units)

Course Advisories: CIS 206.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Administering and deploying Microsoft System Center Configuration Manager. Provides occupational preparation for information systems professionals, such as PC support personnel, computer programmers, network/systems managers, and related technical and operations administration personnel.

Transfer Information: CSU Transferable

CIS 264 AWS Cloud Computing Architecture (2 Units)

Course Advisories: CIS 116.

Hours: 36 (36 lecture)

Introduction to Amazon Web Services cloud architecture and implementation. Provides occupational preparation for information systems professionals such as network/systems managers and related technical and operations administration personnel.

Transfer Information: CSU Transferable

CIS 265 Google Cloud Computing Architecture (2 Units)

Course Advisories: CIS 116.

Hours: 36 (36 lecture)

Introduction to Google Cloud architecture and implementation. Provides occupational preparation for information systems professionals such as network/systems managers and related technical and operations administration personnel.

Transfer Information: CSU Transferable

CIS 290 Work Experience In Computer Information Systems (1-4 Units)

Hours: 300 (300 lab)

Supervised employment for students whose career objectives, course of study and employment complement each other. Students must accomplish specific course objectives. Class meetings on campus are scheduled each semester. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Computer Network Engineering (CNEE)

Credit Courses

CNEE 101 Introduction to Computers and Networks (4 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 72 (72 lecture)

Technical introduction to computers and networks. It provides a thorough understanding of basic computer and network components and how they are implemented in a system. Topics include computer hardware and software, standards, protocols, terminology and concepts.

Transfer Information: CSU Transferable, UC Transferable

CNEE 102 A+ Computers and Network Support (4 Units)

Skills Advisories: Eligibility for ENG 110, ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 108 (54 lecture, 54 lab)

Technical introduction to managing and maintaining PC hardware, peripherals, mobile devices and network equipment. Prepares for A+ Certification exams. Includes hands-on lab activities.

Transfer Information: CSU Transferable

C-ID: ITIS 110.

CNEE 106 Telecommunications And WAN (3 Units)

Skills Advisories: Eligibility for ENG 98.

Hours: 54 (54 lecture)

Introduction to voice, data and video communications. Overview of the telecommunications industry, customer premises equipment, switched and private networks, transmission media, fiber optics, T-1 technology, channel banks, switching and signaling; advanced telecommunications services, local area networks, wide area networks, Internet, ISDN, personal computing systems and telecommunications protocols.

Transfer Information: CSU Transferable

CNEE 110 Networking Essentials (4 Units)

Course Advisories: CNEE 102.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 4 or MATH 41.

Hours: 108 (54 lecture, 54 lab)

Introduction to networking components and systems including networking standards, protocols, operating systems, security, media and hardware. Prepares students for CompTIA N+ Certification.

Transfer Information: CSU Transferable

C-ID: ITIS 150.

CNEE 112 Managing and Maintaining Computer Software - A+ (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 4 or MATH 41.

Hours: 72 (45 lecture, 27 lab)

Technical introduction to managing and maintaining computer software. Prepares for A+ Software Certification exam. Includes hands-on lab activities.

Transfer Information: CSU Transferable

C-ID: ITIS 110.

CNEE 120 Introduction to Cybersecurity (4 Units)

Course Advisories: CNEE 110.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 4 or MATH 41.

Hours: 108 (54 lecture, 54 lab)

Fundamentals of Cybersecurity principles and implementation. Covers authentication, attacks and malicious code, threats and countermeasures, security topologies, intrusion detection, cryptography, firewalls and physical security concepts.

Transfer Information: CSU Transferable

CNEE 124 Internetworking with Tcp/Ip (4 Units)

Course Advisories: CNEE 110.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 108 (54 lecture, 54 lab)

Introduction to TCP/IP Protocol suite, including IPv4 and IPv6 addressing, name resolution, and other concepts and information relevant to setting up and using TCP/IP-based networks.

Transfer Information: CSU Transferable

CNEE 125 CCNAI-Introduction to Switching and Routing (5 Units)

Course Advisories: CNEE 110.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 126 (72 lecture, 54 lab)

First half of CCNA certification preparation. Networking concepts, switching, static and dynamic routing.

Transfer Information: CSU Transferable

CNEE 126 CCNA II Advanced Routing and Switching (5 Units)

Course Advisories: CNEE 125.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 126 (72 lecture, 54 lab)

Second half of CCNA certification preparation. Advanced routing and switching concepts.

Transfer Information: CSU Transferable

CNEE 135 CCNP Advanced Routing (4 Units)

Course Advisories: CNEE 126.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 108 (54 lecture, 54 lab)

Advanced Cisco routing configurations including OSPF, EIGRP, BGP and extended IP addressing. Provides classroom and laboratory experience in current and emerging technologies leading to CCNP Routing certification exam.

Transfer Information: CSU Transferable

CNEE 137 CCNP Advanced Switching (4 Units)

Course Advisories: CNEE 126.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 108 (54 lecture, 54 lab)

Planning, configuring and verifying the implementation of complex enterprise switching solutions that use the Cisco Enterprise Campus Architecture.

Transfer Information: CSU Transferable

CNEE 138 CCNP Advanced Troubleshooting (4 Units)

Course Advisories: CNEE 137, CNEE 135.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 108 (54 lecture, 54 lab)

Advanced troubleshooting for complex enterprise routed and switched networks. Provides classroom and laboratory experience in troubleshooting leading to CCNP Certification.

Transfer Information: CSU Transferable

CNEE 146 CCNA Security - Firewalls and VPNs (4 Units)

Course Advisories: CNEE 125.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 108 (54 lecture, 54 lab)

An advanced networking course on installation, configuration and operation of network security on Cisco routers and ASA firewalls, including AAA, access control, intrusion detection, NAT, and VPNs.

Transfer Information: CSU Transferable

CNEE 148 CCNA Cybersecurity Operations (4 Units)

Course Advisories: CNEE 125.

Hours: 108 (54 lecture, 54 lab)

Advanced cybersecurity course. network security concepts, and techniques used in a Security Operations Center (SOC) to find threats on a network using a variety of popular security tools. Prepares for CCNA Cyber Ops certification.

Transfer Information: CSU Transferable

CNEE 175 Cisco Network Associate Review (1.5 Unit)

Course Advisories: CNEE 126.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 004 or MATH 041.

Hours: 45 (18 lecture, 27 lab)

Intensive course designed as a review of Cisco Network Associate principles.

Transfer Information: CSU Transferable

CNEE 206 MS Windows Network Infrastructure (3 Units)

Course Advisories: CNEE 110 and CIS 206.

Skills Advisories: Eligibility for ENG 110 or 110H and proficiency in MATH 004 or MATH 041.

Hours: 72 (45 lecture, 27 lab)

Introduction to MS Windows network infrastructure. Installation, configuration, management and support of DHCP, DNS, Active Directory, security and Internet services. Includes hands-on lab activities.

Transfer Information: CSU Transferable

CNEE 295 Internship In Computer Network Engineering And Electronics (4 Units)

Hours: 273 (273 lab)

Structured internship program in which students gain experience with community organizations related to the discipline.

Transfer Information: CSU Transferable

Computer Science (CS)

Credit Courses

CS 101 Computer Concepts (4 Units)

Skills Advisories: MATH 095 and Eligibility for ENG 103.

Hours: 72 (72 lecture)

Survey of the concepts of computer hardware and software, with emphasis on the latest technologies and programming. Topics include, but are not limited to, the Internet, productivity applications, databases, programming and numbering systems. Suitable for all majors and is a recommended first course for Computer Science majors.

SBCC General Education: SBCCGE Area D2

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: CS 101 combined with CIS 101: maximum credit, one course.

CS 104 Introduction to Programming (3 Units)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 90 (36 lecture, 54 lab)

Exposes students to the fundamental concepts of programming using an object-oriented language and is intended as an introductory-level programming course. Ideal for beginners and also serves as the first course in a sequence that is compliant with the standards of the Association for Computing Machinery.

Transfer Information: CSU Transferable, UC Transferable

CS 105 Theory and Practice I (3 Units)

Course Advisories: CS 101 or CS 104.

Hours: 90 (36 lecture, 54 lab)

Study of fundamental programming concepts. Topics include structured and OOP programming, definition of data types, nested IFs, looping techniques, CASE statements, procedures, functions, value and address parameters, file structures, dynamic list structures and recursion.

Transfer Information: CSU Transferable, UC Transferable

C-ID: COMP 122.

CS 106 Theory and Practice II (3 Units)

Prerequisites: CS 105.

Skills Advisories: Eligibility for ENG 103.

Hours: 90 (36 lecture, 54 lab)

Study of data structures and algorithms. Design, coding and testing of linked lists, trees, queues, stacks, hash tables, and other dynamic data structures, as well as searching and sorting algorithms. Time and space analysis of data structures and algorithms. Programs are written in the Java language.

Transfer Information: CSU Transferable, UC Transferable

CS 107 Computer Architecture and Organization (3 Units)

Prerequisites: CS 105.

Skills Advisories: Eligibility for ENG 103.

Hours: 90 (36 lecture, 54 lab)

The organization and behavior of real computer systems at the assembly-language level. The mapping of statements and constructs in a high-level language into sequences of machine instructions is studied, as well as the internal representation of simple data types, pointers, structures, and non-numeric data. Numerical computation is also examined.

Transfer Information: CSU Transferable, UC Transferable

C-ID: COMP 142.

CS 108 Discrete Structures (4 Units)

Prerequisites: CS 105.

Course Advisories: ENG 103.

Hours: 72 (72 lecture)

Introduction to the study of discrete objects, with a focus on applications in computer science. Topics include logic and proofs, sets, functions, sequences, sums, algorithms, integers, induction, recursion, counting, relations, graphs and trees, and discrete probability.

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

CS 111 HTML And Webmastering (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 90 (36 lecture, 54 lab)

Project-oriented course focusing on the creation of web pages and the technology behind the web. Includes Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), Forms, Extensible Markup Language (XML), Common Gateway Interface (CGI) and Content Management Systems (CMS). Students must also enroll in a CS 111 lab.

Transfer Information: CSU Transferable

CS 114 Intermediate Python (3 Units)

Course Advisories: CS 104 or CS 105.

Skills Advisories: Eligibility for ENG 103.

Hours: 90 (36 lecture, 54 lab)

Project-oriented exploration of intermediate aspects of the Python programming language. Teaches 'pythonic' programming while exploring intermediate level topics like developing and deploying python programs, interacting with local and remote resources, web application development, and aspects of object-oriented and functional programming. It also features problem-solving with python across multiple domains (e.g. neural networks, graphics, media computation, mapping and data visualization), software engineering principles and debugging techniques.

Transfer Information: CSU Transferable, UC Transferable

CS 115 Javascript Programming (3 Units)

Course Advisories: CS 105.

Skills Advisories: Eligibility for ENG 103.

Hours: 90 (36 lecture, 54 lab)

Project-oriented introduction to JavaScript programming and frameworks. Application domains include client-side web applications, server side programming and games.

Transfer Information: CSU Transferable

CS 116 Web Server Programming (3 Units)

Course Advisories: CS 111 or CS 120.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 90 (36 lecture, 54 lab)

Project-oriented class that explores programming a Web server using PERL, Active Server Pages (ASP), Personal Home Pages (PHP) and Python, with an emphasis on PERL and PHP. Class develops Common Gateway Interface (CGI) scripts and Internet applications using these common tools. Includes such topics as e-commerce, security, browser independence and database integration.

Transfer Information: CSU Transferable

CS 123 Android Programming (1.5 Unit)

Course Advisories: CS 120 or 125.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 42 (18 lecture, 24 lab)

Project-based course covering the development of applications for the Android platform. Students use state-of-the-art tools and frameworks to build and analyze programs that incorporate user interfaces, web services, animation, multimedia, and location awareness.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: No credit for CS 123 unless taken subsequent to or concurrently with CS 120.

CS 130 Introduction to the Linux Operating System (2.5 Units)

Course Advisories: CS 101.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 004 or MATH 041.

Hours: 63 (36 lecture, 27 lab)

Survey of the Unix/Linux operating system and related subject matter.

Topics include Unix/Linux architecture, commands, file system, processes, and bash shell environment. Lectures and computer laboratory exercises provide a moderate-depth understanding of Unix/Linux architecture and commands from a computer science perspective.

Transfer Information: CSU Transferable, UC Transferable

CS 132 Digital Logic Design (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 90 (36 lecture, 54 lab)

Proficiency in MATH 104 or 107 or 111. Introduction to digital systems and logic design. Logic of propositions, boolean algebra, minterm and maxterm expansions, Karnaugh maps, Quine-McCluskey methods, multi-level circuits, combinational and sequential circuit design and timing diagrams, multiplexers, decoders, programmable logic devices, latches and flip-flops, finite state machines, registers and counters, register transfer language, simulation and debugging.

Transfer Information: CSU Transferable, UC Transferable

CS 133 Introduction to Programming for Engineers (3 Units)

Prerequisites: MATH 150.

Course Advisories: CS 101 or CS 104 or CIS 101.

Hours: 90 (36 lecture, 54 lab)

Students learn to use a modern programming environment (e.g. MATLAB) to become proficient in computer-based problem-solving methods that are relevant to science and engineering. Students are introduced to the fundamentals of procedural and object-oriented programming, numerical analysis, and data structures. Examples and assignments are drawn from practical applications in engineering, physics, and mathematics.

Transfer Information: CSU Transferable, UC Transferable

CS 137 C Programming (3 Units)

Course Advisories: CS 107 or CS 105.

Skills Advisories: Eligibility for ENG 103.

Hours: 90 (36 lecture, 54 lab)

Study of the programming language C. Definition of data types, loop controls structures, functions, parameter passing, pointers, recursion, records data structures, and the UNIX operating system.

Transfer Information: CSU Transferable, UC Transferable

CS 140 Object-Oriented Programming Using C++ (4 Units)

Course Advisories: CS 120 or CS 137.

Skills Advisories: Eligibility for ENG 103.

Hours: 108 (54 lecture, 54 lab)

Study of the object-oriented programming paradigm, including objects, messages, encapsulation, classes, inheritance and implementation issues. Implementations written in the object-oriented language C++.

Transfer Information: CSU Transferable, UC Transferable

CS 165 Software Design Patterns (1.5 Unit)

Course Advisories: CS 105 or CS 140.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 45 (18 lecture, 27 lab)

Introduction to software design patterns and their use in object-oriented systems. Creational, structural and behavioral patterns are investigated. Real world examples by acknowledged experts are studied. Students strengthen their software design skills by applying patterns in course projects. State of the art development tools are used throughout the course.

Transfer Information: CSU Transferable

CS 180 Software Engineering With UML (3 Units)

Course Advisories: CS 105.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 90 (36 lecture, 54 lab)

Study of software engineering and component-based design using the Unified Modeling Language (UML). Students employ a standard software engineering process that includes requirements analysis, design, implementation and testing. Students learn about various UML diagrams and use them to express software requirements and designs. The course investigates rapid application development using state-of-the-art tools and component libraries.

Transfer Information: CSU Transferable, UC Transferable

CS 187 iOS Programming (3 Units)

Course Advisories: CS 105.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 90 (36 lecture, 54 lab)

Project-oriented course in developing Objective-C based native applications for the iOS devices (e.g. iPhone, iPad). Covers development tools (Xcode, Interface Builder, Instruments). Objective-C language, Cocoa and Cocoa Touch frameworks, as well as deployment to the App store.

Transfer Information: CSU Transferable, UC Transferable

CS 189 Programming Practicum (1 Unit)

Hours: 18 (18 lecture)

Programming course focused on rapid team-based problem solving techniques. Problems are rapidly classified based on difficulty and the ability to partition the problem across the team. Algorithms are developed to solve those problems using standard tools and libraries. Emphasis on leadership skills, team dynamics, and team problem solving. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Construction Technology (CT)

Credit Courses

CT 104 Basic Construction Skills (3 Units)

Hours: 72 (45 lecture, 27 lab)

Introduction to basic construction skills for residential wood construction. Designed for students interested in a career in home construction, focusing on career overview, safety, work ethics, tool use and basic framing.

CT 110 Beginning Construction (4.7 Units)

Hours: 144 (54 lecture, 90 lab)

Introduction to a career in building trades. Topics include safety, planning, foundations, floor framing, wall framing roof framing, plumbing, electrical and siding.

Transfer Information: CSU Transferable

CT 111 Beginning Construction Trades (4.7 Units)

Hours: 144 (54 lecture, 90 lab)

Introduction to basic construction skills and concepts of the sub-trades involved in residential wood construction: concrete work, roofing, sheetrock, insulation, plumbing and electrical. Overview of trades, designed for students interested in a career in home construction.

Transfer Information: CSU Transferable

CT 112 Framing (3 Units)

Course Advisories: Eligibility for English 98.

Hours: 72 (45 lecture, 27 lab)

Intermediate-level class in rough framing skills and concepts in residential framing. Designed for continuing students who have taken CT 110 and for carpenters with some experience in residential framing. Topics include safety, foundations, framing hardware, exterior siding, special wall construction, stair framing and special topics in framing.

Transfer Information: CSU Transferable

CT 113 Roof Framing (3 Units)

Hours: 72 (45 lecture, 27 lab)

Intermediate-level class in rough framing skills and concepts in residential wood construction, with emphasis on roof framing. Designed for continuing students who have taken CT 110 and for carpenters with some experience in residential framing. Topics include safety, layout, rafter design, rake walls and cornice treatment.

Transfer Information: CSU Transferable

CT 114 Beginning Finish Carpentry (3 Units)

Hours: 72 (45 lecture, 27 lab)

Introduction to finish carpentry, with emphasis on residential wood construction. Designed for students who have already taken CT 110 or who have some prior experience in carpentry or construction. Topics include safety, tool care, door hanging, door and window casing, baseboard, crown molding, flooring and closet shelf and pole.

Transfer Information: CSU Transferable

CT 115 Intermediate Finish Carpentry (3 Units)

Hours: 72 (45 lecture, 27 lab)

Intermediate finish carpentry, with emphasis on residential wood construction. Designed for students who have taken CT 110 or have some prior experience in carpentry or construction. Topics include cabinet installation and construction, built-ins, paneling and wainscoting.

Transfer Information: CSU Transferable

CT 116 Blueprint Reading (3 Units)

Hours: 54 (54 lecture)

Introduction to blueprint reading in residential construction. Topics include understanding the uses of blueprints, types of plans, drafting conventions, contents of plans, focus on floor plans, elevations and sections, using the architectural scale, drafting simple plans, and shop drawings from plans.

Transfer Information: CSU Transferable

CT 118 Measuring and Calculating (3 Units)

Skills Advisories: Math 001.

Hours: 54 (54 lecture)

Introduction to measuring and calculating used in residential wood construction. Topics include working with common and decimal fractions, using the standard tape measure, using a calculator for construction, estimating material, understanding the special triangles used in roof rafter calculations, rafter length calculation, and stair stringer calculation.

Transfer Information: CSU Transferable

CT 120 Building Green (4 Units)

Hours: 72 (72 lecture)

Overview of Green Building approach and coverage of design, planning and construction details of sustainable building, including site protection, water conservation, solar and electrical energy efficiency, health and indoor air quality, green material and efficient on-site material management.

CT 121 Blueprint Reading for Electricians (3 Units)

Skills Advisories: Eligibility for English 098 and 103.

Hours: 54 (54 lecture)

Overview of blueprints, plans and specifications; symbols used in electrical-related trades; preparation and use of as-built drawings, wiring and line diagrams, schematics and ladder diagrams. (Approved School #138 for California Electrician Trainees).

Transfer Information: CSU Transferable

CT 122 Building Green (6 Units)

Hours: 108 (108 lecture)

Overview of Green Building approach to design, planning and construction details in sustainable building. Includes site protection, water conservation and management, energy efficiency, solar heating and PV, material efficiency, deconstruction, insulation, indoor air quality, building performance, and alternative building techniques.

Transfer Information: CSU Transferable

Prerequisites: BMS 107 and BMS 108 and COMM 131 or COMM 131H or ENG 110 or ENG 110H.

Hours: 90 (36 lecture, 54 lab)

Interpretation of normal anatomy, sonographic and gross anatomy, demonstrating scanning techniques and identifying normal sonographic protocols for abdomen and small parts.

Transfer Information: CSU Transferable

DMS 156 Ob/Gyn Scanning (2.7 Units)

Prerequisites: DMS 155 and RT 120 and RT 250.

Hours: 72 (36 lecture, 36 lab)

Interpretation of normal anatomy, sonographic and gross anatomy, demonstrating scanning techniques and identifying normal sonographic protocols for OB/GYN.

Transfer Information: CSU Transferable

DMS 160 Pathophysiology (3 Units)

Prerequisites: DMS 150 and DMS 155.

Hours: 54 (54 lecture)

Specific study of pathology and pathophysiological mechanisms related to diagnostic medical sonography.

Transfer Information: CSU Transferable

DMS 165 Abdominal and Small Parts Scanning and Pathology (3 Units)

Prerequisites: DMS 155 and DMS 150.

Hours: 90 (36 lecture, 54 lab)

Interpretation of normal and abnormal anatomy of abdomen and small parts. Sonographic and gross anatomy, comparing one disease to another. Identification of pathophysiological anatomic structures in various sonographic planes and images.

Transfer Information: CSU Transferable

DMS 166 Ob/Gyn Scanning and Pathology (2 Units)

Prerequisites: DMS 156, DMS 160.

Hours: 36 (36 lecture)

Interpretation of normal and abnormal OB/GYN anatomy, sonographic and gross anatomy, comparing one pathological condition to another. Identification of pathophysiological anatomic structures in various sonographic planes and images.

Transfer Information: CSU Transferable

DMS 170 Introduction to Vascular Ultrasound (4 Units)

Prerequisites: DMS 165, DMS 160, DMS 150, DMS 148 Students must pass summer clinicals in order to take this class.

Hours: 108 (54 lecture, 54 lab)

Introduction to Doppler (color flow), with a hands-on approach. Overview of normal and pathological sonographic data includes arterial and venous peripheral vascular, abdominal vasculature and extracranial carotid.

Transfer Information: CSU Transferable

DMS 183 Clinical Experience 2 (9.3 Units)

Prerequisites: DMS 148.

Hours: 504 (504 lab)

Continuation of clinical experience. Exposure to departmental organization, policies and procedures, patient flow, darkroom and processing procedures, observation of clinical case techniques and protocols. Beginning hands-on experience and equipment setup.

Transfer Information: CSU Transferable

DMS 184 Clinical Experience 3 (2.4 Units)

Prerequisites: DMS 183, DMS 166 and DMS 170.

Hours: 128 (128 lab)

Clinical experience in ultrasound, including equipment handling, patient management, as well as departmental operations and scope.

Transfer Information: CSU Transferable

DMS 185 Clinical Experience 4 (9.5 Units)

Corequisites: DMS 183.

Hours: 513 (513 lab)

Advanced clinical experience, including sonographic study of the abdomen, small parts, and pelvis as well as OB/Gyn exams to identify normal anatomy and pathologic conditions.

Transfer Information: CSU Transferable

DMS 250 Sonography Interpretation (3 Units)

Prerequisites: DMS 166.

Hours: 54 (54 lecture)

Interpretation and critique of normal anatomy with correlation of didactic, clinical presentations and critiques. Written and oral case presentations with emphasis on OB/GYN subjects.

Transfer Information: CSU Transferable

DMS 290 Work Experience in Sonography (1-4 Units)

Limitations on Enrollment: Enrollment in a Sonography course, or current Sonography license and at least one year's experience as a licensed Sonographer in a medical establishment within the preceding three years.

Hours: 300 (300 lab)

Consists of supervised on-the-job work experience for students whose sonography career objectives and course of study or employment complement each other. Students must accomplish specific course objectives. Students must work 75 paid hours or 60 non-paid hours per unit earned. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Disability Services and Programs (DSPS)

Credit Courses

DSPS 066 Math Strategies (2 Units)

Hours: 36 (36 lecture)

Designed for students with disabilities who are enrolled in mainstream college math classes and whose disabilities result in educational limitations in the area of math. Students learn a variety of strategies to promote self-monitoring, organization, study skills and test-taking techniques relative to math concepts and computation. Graded Pass/No Pass. Course restricted to 4 repetitions

DSPS 077 Writing/Reading Strategies (2 Units)

Hours: 36 (36 lecture)

Designed for students with disabilities, but is open to all students who are enrolled in an academic course. Students learn a variety of multisensory approaches to writing and reading in order to improve their management of the written language. Graded Pass/No Pass. Course restricted to 3 repetitions

Transfer Information: Extnl - Not Degree Applicable

Drafting/CAD (DRFT)

Credit Courses

DRFT 101 Basic Drafting (3 Units)

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Fundamental concepts of technical drafting. Topics include: drafting standards and conventions; multi-view orthographic projections; non-perspective Pictorial views; planning, elevation and section views; manual and computer aided drafting tools and annotations. Emphasis placed on architectural and engineering technical drafting.

Transfer Information: CSU Transferable, UC Transferable

DRFT 120 Architectural Drafting I (3 Units)

Hours: 72 (45 lecture, 27 lab)

Fundamental concepts in architectural drafting. Topics include architectural drafting standards and conventions, multi-view orthographic projections, floor plan, elevation and section views, manual and computer aided drafting tools, output and delivery methods.

Transfer Information: CSU Transferable, UC Transferable

DRFT 121 Architectural Drafting II (3 Units)

Corequisites: DRFT 120.

Hours: 72 (45 lecture, 27 lab)

Topics include drafting standards, conventions, CAD standards, MasterFormat and construction documents. Emphasis in project deliverables including cover sheet, site plan, floor plans, roof plan, elevations, sections, wall sections, schedules, interior elevations, details, manual and computer-aided drafting tools, output/delivery methods.

Transfer Information: CSU Transferable, UC Transferable

DRFT 124 Architectural Rendering I (3 Units)

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Fundamentals of architectural rendering using manual and computer-aided drafting tools, including interior and exterior one/two-point perspectives, oblique, and isometric drawings. Rendering techniques include surfaces, textures, shades, shadows, figures and foliage. Emphasis on compiling a portfolio of architectural presentation drawings.

Transfer Information: CSU Transferable, UC Transferable

DRFT 125 Architectural Rendering II (3 Units)

Prerequisites: DRFT 124.

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Advanced architectural rendering using manual and computer-aided drafting tools, including presentation drawings, two-point perspectives, oblique and isometric drawings. Rendering techniques include surfaces and textures, shades and shadow, figures and foliage. Emphasis on compiling a portfolio of architectural presentation drawings.

Transfer Information: CSU Transferable, UC Transferable

DRFT 126 Landscape Drafting I (3 Units)

Same as: EH 126

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Principles of drafting and plan reading for landscape architecture and ornamental horticulture. Style research, drafting of plans, elevations and details.

Transfer Information: CSU Transferable, UC Transferable

DRFT 127 Landscape Drafting II (3 Units)

Same as: EH 127

Prerequisites: EH 126 or DRFT 126.

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Advanced drafting and plan reading using manual and computer drafting tools, for landscape architecture and ornamental horticulture fields.

Includes site plans, elevations and details..

Transfer Information: CSU Transferable, UC Transferable

DRFT 129 Principles Of Residential Construction (3 Units)

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 54 (54 lecture)

Overview of residential construction for homeowners, remodelers, drafters and designers. Topics include building codes, materials, grading, foundations, framing, mechanical systems, doors and windows, roofing and drywalling.

Transfer Information: CSU Transferable

DRFT 130 Computer-Assisted Drafting And Design I (5 Units)

Prerequisites: DRFT 101 or DRFT 120 or DRFT 126.

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 126 (72 lecture, 54 lab)

Intermediate AutoCAD. Set Up, drafting, editing, output, and delivery.

Coverage of latest AutoCAD features.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: DRFT 130, 131, and 132 combined: maximum credit, one course.

DRFT 131 Computer-Assisted Drafting And Design II (5 Units)

Prerequisites: DRFT 130.

Skills Advisories: MATH 001 and eligibility for ENG 103.

Hours: 126 (72 lecture, 54 lab)

Advanced AutoCAD. File Management and CAD Standards for Project Driven Productivity, 3D Modeling.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: DRFT 130, 131, and 132 combined: maximum credit, one course.

DRFT 132 CAD Drafting/Design III (5 Units)

Course Advisories: DRFT 129.

Skills Advisories: Eligibility for English 103 and Math 001.

Hours: 126 (72 lecture, 54 lab)

Introduction to Autodesk Revit®. Designed to meet the needs of students who want to learn the basics of industry-standard building information modeling software.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: DRFT 130, 131, and 132 combined: maximum credit, one course.

DRFT 142 Product Design Fundamentals (3 Units)

Skills Advisories: Eligibility for ENG 103 and MATH 001.

Hours: 72 (45 lecture, 27 lab)

In this product design studio, students are introduced to the process of product design and develop the skills necessary for bringing design ideas to fruition. We will explore product design practice as the intersection of creativity, critical thinking, and practical application in commerce, and learn to approach designed objects as challenges to meet human needs.

Transfer Information: CSU Transferable

DRFT 143 Product Design and Rapid Prototyping Workshop (3 Units)

Prerequisites: DRFT 142.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001.

Hours: 72 (45 lecture, 27 lab)

Students turn their design concepts into physical objects through hands-on experience in the complete cycles of product design applied to small scale additive manufacturing. Tailored to expose students to selected software used for product design and visualization, with emphasis on 3D modeling applications with capabilities, features, and support for rapid prototyping with 3D printers.

Transfer Information: CSU Transferable

DRFT 146 3D Printing Fundamentals (3 Units)

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001.

Hours: 72 (45 lecture, 27 lab)

Fundamentals of 3D Printing. Topics include history of 3D printing, the present state of rapid prototyping, the future of rapid prototyping, best practices, materials for additive manufacturing, and the business side of additive manufacturing. Identifying sources for 3D printing. Operation, servicing and maintenance of 3D printers. Legal aspects and ramifications of rapid prototyping.

Transfer Information: CSU Transferable

DRFT 148 3D Modeling with Solid Works (3 Units)

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001.

Hours: 72 (45 lecture, 27 lab)

3D modeling with Solid Works and ProE.

Transfer Information: CSU Transferable

DRFT 150 Intro to Landscape Architecture (3 Units)

Hours: 72 (45 lecture, 27 lab)

Introduces students to the nature and practice of Landscape Architecture. Core elements of the course examine the history, theories, design principles, ecology, and the latest professional and educational developments in the field of Landscape Architecture.

Transfer Information: CSU Transferable, UC Transferable

DRFT 151 Landscape Architecture Design Studio I (5 Units)

Corequisites: DRFT 150.

Hours: 126 (72 lecture, 54 lab)

Prerequisites or This course explores design principles, materials, and issues relevant to landscape architecture. Emphasizing the design process, topics include; site analysis, design synthesis, and methods to communicate intended concepts and ideas. Builds on the principles and techniques covered in Intro to Landscape Architecture.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: DRFT 151 and DRFT 152 combined: maximum credit, one course.

DRFT 152 Landscape Architecture Design Studio II (5 Units)

Corequisites: DRFT 151.

Hours: 126 (72 lecture, 54 lab)

Prerequisite or Development of design principles and processes of landscape architecture through complex design projects. The course examines large-scale landscape planning & urban design projects and approaches towards balancing ecological health and public needs. Emphasis on program development, site suitability, and design for human behavior & comfort. Explores sustainable practices across environmental, sociocultural, and economic realms.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: DRFT 151 and DRFT 152 combined: maximum credit, one course.

DRFT 290 Work Experience In Drafting (1-4 Units)

Limitations on Enrollment: (1) Employed or available for employment in an occupation directly related to the Drafting major; and, (2) Must be enrolled in no less than seven (7) units, including Work Experience.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 1 or MATH 41.

Hours: 300 (300 lab)

(1) Available for employment in an occupation related to Drafting; (2) Must be enrolled in no less than seven (7) units. May be taken for 1, 2, 3 or 4 units of credit. Maximum (4) units per semester for a maximum of (16) units. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

DRFT 299 Independent Study In Drafting (1-4 Units)

Limitations on Enrollment: Completion of a minimum of 12 units at SBCC, with a 2.5 G.P.A., and a minimum of 6 (six) units completed in Drafting.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 1 or MATH 41.

Hours: 192 (192 lab)

Provides students with an opportunity to engage in Independent study in drafting. Students work under direction of sponsoring faculty member on a project directly related to drafting. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Early Childhood Education (ECE)

Credit Courses

ECE 102 Child, Family and Community (3 Units)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 54 (54 lecture)

Examines the developing child in a societal context, focusing on the interrelationship of family, school and community, with an emphasis on historical and cultural factors that influence the process of socialization and the importance of respectful, reciprocal relationships that support and empower families.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D7, IGETC Area 4G, CSU Transferable, UC Transferable

C-ID: CDEV 110.

ECE 103 Foundations of ECE I Principles (5 Units)

Course Advisories: ECE 102 and 120 or PSY 140.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 180 (45 lecture, 135 lab)

Foundation course in Early Childhood Education. Emphasis is on developing skills and knowledge needed to work effectively with children, birth to age eight. Introduction to building relationships, developing guidance and supervision skills, observation techniques, curriculum planning, historical context, theoretical perspectives, professionalism and reflective practice. Requires 45 (3 hour shifts) of guided supervision in ECE lab.

Transfer Information: CSU Transferable

C-ID: ECE 120, ECE-103.

ECE 104 Foundations of ECE II Practicum (5 Units)

Prerequisites: ECE 102 and 103 and 108 and 120 or PSY 140.

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 180 (45 lecture, 135 lab)

Design, implementation and evaluation of developmentally appropriate curriculum for young children, birth to age 8. Research on brain development, language development, and cognition is integral. Professional skills of resume writing, accessing community resources for families and providing group times/experiences are developed.

Coursework combined with a minimum of 45 days of student teaching, with each shift lasting 3 hours in an ECE lab setting.

Transfer Information: CSU Transferable

C-ID: ECE 210.

ECE 107 Administration Of Child Development Programs I (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Enrollment Limitation: Completion of 12 core ECE units as defined by Community Care Licensing plus 3 units of supervised field experience. Study of administrator's responsibilities in various types of programs, including developing philosophy; selecting/supervising personnel; planning curriculum; programming for staff/families; complying with regulatory authorities; conducting business procedures; planning for facility, equipment and food; evaluating programs; effecting change through legislative process.

Transfer Information: CSU Transferable

ECE 108 Creative Learning and Curriculum (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Overview of knowledge and skills related to providing appropriate curriculum and environments for young children. Examination of teacher's role in supporting development and engagement for all young children. Provides strategies for developmentally-appropriate practice based on observation and assessment across the curriculum, including academic content areas, play, art and creativity plus social-emotional, communication and cognitive skills.

Transfer Information: CSU Transferable

C-ID: ECE 130.

ECE 109 Family-Teacher-Child Relationships (3 Units)

Limitations on Enrollment: 12 ECE core units according to Community Care Licensing.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Establishing and sustaining effective relationships between teacher, families and child. Common problems handled between families and teachers; ways of distinguishing special problems requiring other professional attention; and supportive ways of helping families enjoy and appreciate their children. Includes interviewing, home visiting, parent education and family engagement strategies.

Transfer Information: CSU Transferable

ECE 111 Administration of Child Development Programs II (3 Units)

Limitations on Enrollment: Completion of 12 core ECE units as defined by Community Care Licensing plus 3 units of supervised field experience.

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Explores leadership styles and skills, emerging issues in early childhood education, ethics, grant writing, advocacy and staff professional development for leaders of child development programs.

Transfer Information: CSU Transferable

ECE 115 Children's Literature (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Develops awareness of value and variety of children's literature by surveying traditional and contemporary selections, including poetry, fiction, non-fiction and folk literature from many cultures. Proposes criteria for literary/artistic evaluation, use and age appropriateness in selection. Demonstrates presentation techniques, including storytelling.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C2, IGETC Area 3B, CSU Transferable, UC Transferable

ECE 117 Adult Supervision and Mentoring (3 Units)

Prerequisites: ECE 102 and 103 and 108 and 120.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Methods and principles of supervising student teachers, volunteers, staff and other adults in early care and education settings. Emphasis is on the roles and development of early childhood professionals as mentors and leaders.

Transfer Information: CSU Transferable

ECE 120 Child Growth and Development/Educators (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

History and current issues of early childhood growth and development, from birth through adolescence, are covered. In addition to theoretical ideas and observations of children, special emphasis is given to the child from birth to age eight in relation to cultural, gender, class and racial influences.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D7, CSUGE Area E, IGETC Area 4G, CSU Transferable, UC Transferable

C-ID: CDEV 100.

ECE 121 Health, Safety And Nutrition For Young Children (3 Units)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 54 (54 lecture)

Introduction to the legalities, standards, policies and procedures, prevention techniques, and early childhood curriculum related to health, safety and nutrition. Key components that ensure physical health, mental health and safety for children identified, along with the importance of the collaboration with families and health professionals. Focus on integrating the concepts into everyday planning and program development.

Transfer Information: CSU Transferable

C-ID: ECE 220.

ECE 123 Children with Special Needs (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Overview of information and strategies for early childhood educators in working with children with special needs. Topics include identification, assessment, early intervention services and curriculum adaptations, plus family resources and partnerships. Atypical development includes delays, disabilities and giftedness.

Transfer Information: CSU Transferable

ECE 124 Working With School-Age Children (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Introduction to the increasing role communities play in providing out-of-school services to school-age children. Features include planning and implementing curriculum, designing a safe environment, exploring developmental issues, administrative policies and procedures, identifying community resources, and establishing partnerships to ensure high quality school-age programs.

Transfer Information: CSU Transferable

ECE 128 Observation and Assessment (3 Units)

Prerequisites: ECE 102 and ECE 120 and ECE 108 and ECE 103.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Provides theoretical framework for understanding the connection between effective observations assessments and curriculum planning in early childhood settings. Anecdotal records, rating systems and multiple assessment strategies are explored. Focuses on the appropriate use of observation and assessment to document growth, play and learning to join with families in promoting children's success.

Transfer Information: CSU Transferable

C-ID: ECE 200.

ECE 129 ECE Special Education (3 Units)

Skills Advisories: Eligibility for English 098 and 103.

Hours: 54 (54 lecture)

Examines the field of ECE special education. A variety of educational models explored, as well as specific disabilities. Current research and professional experience evaluated in terms of prenatal substance exposure, health and safety issues, and dealing with stress, grief and trauma.

Transfer Information: CSU Transferable

ECE 131 The Developing Bilingual Child (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Introduction to the range of development of the language of the developing bilingual child, with emphasis on language and effective domains. The influences of different methods of language acquisition, modes of instruction, environmental factors and strategies for second language acquisition are evaluated.

SBCC General Education: SBCCGE Area E5

Transfer Information: CSU Transferable

ECE 132 Teaching in a Diverse Society (3 Units)

Skills Advisories: Eligibility for English 098 and 103.

Hours: 54 (54 lecture)

Examines processes involved in human relations, as related to differences, and how these processes impact teaching, learning and interactions with young children and families. Self-examination, reflection and integration of practices to promote equity and how to best support children as they gain a sense of identity and become confident members of a diverse society.

Transfer Information: CSUGE Area D7, CSU Transferable

C-ID: ECE 230.

ECE 136 Introduction to Autism Spectrum Disorders (3 Units)

Prerequisites: ECE 102 and ECE 120 or PSY 140.

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 54 (54 lecture)

Overview of information and strategies for early childhood educators in working with children with Autism Spectrum Disorders. Topics include identification, assessment, early intervention services, strategies and curriculum adaptations. Family resources and partnerships are emphasized.

Transfer Information: CSU Transferable

ECE 141 Development And Caregiving Of Infants And Toddlers (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Developmental stages of infants and toddlers and accompanying behavior, guidelines for health and safety, observation and caregiving strategies including primary caregiving, small groups, and continuity of care are covered. Development of optimal environment for child, parent and staff growth also addressed.

Transfer Information: CSU Transferable

ECE 142 Infant/Toddler Socialization (3 Units)

Skills Advisories: Eligibility for English 098 and 103.

Hours: 54 (54 lecture)

Focus on developing trusting relationships between caregivers and infants/toddlers who are developing social/emotional competence and intellectual growth. Caregivers need to be aware of their feelings, expectations, cultural values and attitudes from their own childhood experiences.

Transfer Information: CSU Transferable

ECE 151B Leadership In Early Childhood Education (1 Unit)

Prerequisites: ECE 117.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 18 (18 lecture)

Examines ways in which individuals working in the field of early childhood education can be successful by creating an environment in which trust and empowerment can flourish. Explores the distinction between leadership and management while emphasizing the value of character ethics over personality ethics.

Transfer Information: CSU Transferable

ECE 152B Guidance: Effective And Caring Approaches (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

Designed to allow the ECE Department the opportunity to offer a variety of courses related to child behavior and development which reflect student interest, community need and current trends in early childhood education.

Transfer Information: CSU Transferable

ECE 152D Working With Aggression In Children (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103 .

Hours: 18 (18 lecture)

The course is designed to allow the ECE Department the opportunity to offer a variety of courses related to child behavior and development which reflect student interest, community need and current trends in early childhood education.

Transfer Information: CSU Transferable

ECE 152E Children'S Sexuality (1 Unit)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 18 (18 lecture)

Designed to allow the ECE Department the opportunity to offer a variety of courses related to child behavior and development which reflect student interest, community need and current trends in early childhood education.

Transfer Information: CSU Transferable

ECE 153A Use Of The Community As Curriculum (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

The course is designed to allow the ECE Department the opportunity to offer a variety of courses related to curriculum development which reflect student interest, community need and current trends in early childhood education.

Transfer Information: CSU Transferable

ECE 153G Quality Group Times (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

The course is designed to allow the ECE Department the opportunity to offer a variety of courses related to curriculum development which reflect student interest, community need and current trends in early childhood education.

Transfer Information: CSU Transferable

ECE 153H Holiday Celebrations For Young Children (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

The course is designed to allow the ECE Department the opportunity to offer a variety of courses related to curriculum development which reflect student interest, community need and current trends.

Transfer Information: CSU Transferable

ECE 156B Issues In Parenting (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

One of a variety of ECE Department courses on parenting and working with parents, reflecting student interest, community need and current trends in early childhood education.

Transfer Information: CSU Transferable

ECE 157C Child And Family Abuse: The Teacher's Role (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

The course is designed to allow the ECE Department the opportunity to offer a variety of courses related to special, unique or very sensitive issues which reflect student interest, community need and current trends in early childhood education.

Transfer Information: CSU Transferable

ECE 157E Working With Challenging Families (1 Unit)

Skills Advisories: Eligibility for ENG 098 and 103.

Hours: 18 (18 lecture)

Characteristics and dynamics of challenging families explored along with strategies for supporting healthy child development in non-ideal settings.

Transfer Information: CSU Transferable

ECE 290 Work Experience In Early Childhood Education (1-3 Units)

Limitations on Enrollment: 6 ECE units, according to Community Care Licensing.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 225 (225 lab)

May be taken for 1, 2, 3 or 4 units of credit. Maximum of four (4) units per semester for a maximum of sixteen (16) units. Consists of supervised employment for Early Childhood Education students whose career objectives, course of study and employment complement each other. Students must accomplish specific course objectives. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

Earth and Planetary Sciences (ERTH)

Credit Courses

ERTH 101 Introductory Astronomy (3 Units)

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

Non-mathematical presentation of knowledge of the universe. Includes birth and death of stars, formation of the solar system, black holes, quasars, the fourth dimension, and the fate of the universe. Also considered are common phenomena such as eclipses, the motion of the planets and their moons, comets, and meteors.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: ERTH 101 and ERTH 101H combined: Maximum credit, one course.

ERTH 101H Introductory Astronomy, Honors (4 Units)

Limitations on Enrollment: Admission to Program.

Course Advisories: ERTH 102.

Skills Advisories: Eligibility for ENG 110 or 110H and proficiency in MATH 1 or MATH 41.

Hours: 72 (72 lecture)

Introduces students to the universe throughout its history. It emphasizes astronomical knowledge from Earth, as a planet in the solar system, to quasars at the edge of the known universe. The motions of objects within the galaxy are also examined.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: ERTH 101 and ERTH 101H combined: Maximum credit, one course.

ERTH 102 Observational Astronomy Laboratory (1 Unit)

Corequisites: ERTH 101 or 101H.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 1 or MATH 41.

Hours: 54 (54 lab)

Emphasizes night-time observation of the stars, galaxies and constellations with real-time observations. Simulation programs are used to graphically examine astronomical phenomena. Celestial navigation, motions of the earth and moon, and study of the celestial sphere emphasized.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

ERTH 103A Adv Observational Astronomy Lab - FALL (1 Unit)

Prerequisites: ERTH 102.

Hours: 54 (54 lab)

Follow-up course to ERTH-102. Use of planetarium and observatory to illustrate constellations, celestial motions, and to observe stars, planets, and deep sky objects. Emphasis for continuing students is on stars & constellations of the FALL sky, use of larger and more advanced telescopes, and in-depth observations of deep sky objects of the FALL sky.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: ERTH 103A, 103B, 103C combined: Maximum credit, one course.

ERTH 103B Adv Observational Astronomy Lab - SPRING (1 Unit)

Prerequisites: ERTH 102.

Hours: 54 (54 lab)

Follow-up course to ERTH-102. Use of planetarium and observatory to illustrate constellations, celestial motions, and to observe stars, planets, and deep sky objects. Emphasis for continuing students is on stars & constellations of the SPRING sky, use of larger and more advanced telescopes, and in-depth observations of deep sky objects of the SPRING sky.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: ERTH 103A, 103B, 103C combined: Maximum credit, one course.

ERTH 103C Adv Observational Astronomy Lab - SUMMER (1 Unit)

Prerequisites: EARTH 102.

Hours: 54 (54 lab)

Follow-up course to EARTH-102. Use of planetarium and observatory to illustrate constellations, celestial motions, and to observe stars, planets, and deep sky objects. Emphasis for continuing students is on stars & constellations of the SUMMER sky, use of larger and more advanced telescopes, and in-depth observations of deep sky objects of the SUMMER sky.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 103A, 103B, 103C combined: Maximum credit, one course.

ERTH 104 Introductory Astrophysics (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Proficiency in MATH 104 or 107 or 111. Introductory astronomy course that integrates mathematics of physics in the study of objects in the universe.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

ERTH 105A Planetary Geology of Recent NASA Missions (1 Unit)

Hours: 18 (18 lecture)

Skills Advisories Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041. Designed for students wanting to go beyond the regular introductory astronomy courses. Lectures, discussions, guest speakers, activities and field trips help students explore specific topics in physics and astronomy. This semester's topic is on recent discoveries from planetary space flight missions to Mercury, Mars, Saturn, Saturn's moon titan and comets.

Transfer Information: CSU Transferable

ERTH 106 Black Holes and the Universe (3 Units)

Course Advisories: EARTH 101 or 101H.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

Basic introduction to relativity, cosmology, quantum mechanics, string theory, black holes, time travel, higher dimensions and other abstract theories of the universe. Provides students with a broad-based overview of these physics theories and allows them to explore various current topics in astronomy.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

ERTH 111 Dynamic Earth - Physical Geology (3 Units)

Course Advisories: EARTH 111L and 131 or 132.

Hours: 54 (54 lecture)

Introduction to the physical development of the Earth. Emphasis on earth materials (rocks and minerals), hydrologic processes, tectonic process (plate tectonics, earthquakes, mountain building and volcanism) and structures (folds, faults). Current theories on structure and evolution of the earth are discussed. Designed for both non-science majors and earth science majors. Required of all Geology majors.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 111 and 111H combined: maximum credit, one course.

C-ID: GEOL 100.

ERTH 111H Dynamic Earth - Physical Geology, Honors (4 Units)

Limitations on Enrollment: Acceptance into the Honors Program.

Course Advisories: EARTH 111L or EARTH 131.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 1 or MATH 41.

Hours: 72 (72 lecture)

Introduction to the physical development of the earth. Emphasis on earth materials (rocks and minerals), hydrologic processes (weathering, streams, glaciers, beaches and ground water), tectonic processes (plate tectonics, earthquakes, mountain building and volcanism), and structures (folds, faults). Current theories on structure and evolution of the earth are discussed.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 111 and 111H combined: maximum credit, one course.

C-ID: GEOL 100.

ERTH 111L Dynamic Earth - Physical Geology Laboratory (1 Unit)

Corequisites: EARTH 111 (prior to or concurrently) or EARTH 111H (concurrently).

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lab)

Laboratory approach to earth materials and processes, including rock and mineral identification and interpretation, plate tectonic rock cycle, topographic map and aerial photo interpretation, structural geology (folds and faults), geologic cross sections and geologic maps. Activities include four field trips to local areas of geologic interest. Required of all Geology majors.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: GEOL 100L.

ERTH 112 History Of The Earth (3 Units)

Course Advisories: concurrent enrollment in EARTH 112L and EARTH 131 or EARTH 132.

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Introduction to the geologic history of the earth, using plate tectonic concepts, stratigraphy, geologic dating, fossils and evolution. Emphasis on the origin and evolution of continents, oceans, the atmosphere and life on earth. Designed to accommodate both non-science and science majors. Required of Geology majors.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

C-ID: GEOL 110.

ERTH 112L Historical Geology Laboratory (1 Unit)

Corequisites: EARTH 112.

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Laboratory approach to understanding the scientific method as it applies to deciphering earth history. Topics include sedimentary rock identification and interpretation, stratigraphy, paleogeographic maps and fossil identification. Activities include field trips to local areas of geologic interest. Required of Geology majors.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: GEOL 110L.

ERTH 115 Environmental Geology (3 Units)

Same as: ENVS 115

Course Advisories: Concurrent enrollment in EARTH 115/ENVS 115L and EARTH 131 or EARTH 132.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 1 or MATH 41.

Hours: 54 (54 lecture)

Introduction to the problems of volcanism, earthquakes, fire, floods, landslides, and other geologic hazards; air and water pollution, hazardous materials and land use planning. Applications to the Santa Barbara area emphasized. Required of Environmental Studies majors.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

C-ID: GEOL 130.

ERTH 115L Environmental Geology Laboratory (1 Unit)

Same as: ENVS 115L

Corequisites: EARTH 115/ENVS 115.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lab)

Laboratory approach to topics covered in ENVS 115, with emphasis on rock and mineral identification, hazard assessment, geologic resource management, and land use planning. In-lab field trips.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: GEOL 130L.

ERTH 116 Energy and Natural Resources (3 Units)

Same as: ENVS 116

Hours: 54 (54 lecture)

Study of formation, exploration, development and judicious use of natural resources in relation to present and future energy requirements, including electricity, conservation, fossil fuels, solar, geothermal, nuclear and hydrogen. Required of Environmental Studies majors.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

ERTH 122 Dinosaurs (3 Units)

Hours: 54 (54 lecture)

Introduction to the science of dinosaurs, stressing their evolution, ecology, bone structures and extinction. Emphasizes dinosaurian diversity, rise of dinosaurs, and their extinction in a Mesozoic world.

Provides for a better perspective on the patterns and trends of all life, living and extinct. Scientific videos and fossil material used in the course.

Transfer Information: CSUGE Area B1, CSUGE Area B2, IGETC Area 5A, CSU Transferable, UC Transferable

ERTH 125 Mineralogy and Resources (5 Units)

Course Advisories: EARTH 111 or EARTH 112 and CHEM 101.

Skills Advisories: MATH 4 and ENG 103.

Hours: 162 (54 lecture, 108 lab)

Introduction to the identification and basic concepts of mineralogy, emphasizing crystallography, crystal chemistry, mineral chemistry, paragenesis of economic minerals and plate tectonics of mineral resources. A portion of the course is devoted to optical mineralogy. Hand-identification of minerals stressed.

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 125 and 232B combined: maximum credit, one course.

ERTH 126 Petrology and Rock-Forming Minerals (5 Units)

Course Advisories: EARTH 111 or EARTH 112 and CHEM 101.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 004 or MATH 041.

Hours: 162 (54 lecture, 108 lab)

Designed to familiarize students with the basic fundamentals and classification of rock-forming mineralogy, textures, origins and occurrences of igneous, sedimentary and metamorphic rocks. Use of the polarizer, X-ray and field identification procedures stressed.

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 126 and 232A combined: maximum credit, one course.

ERTH 130V Geologic Field Studies - Hawaii Volcanology (2.5 Units)

Corequisites: EARTH 111 or 111H or 112 or 113 or 114 or 115 or ENVS 115 or EARTH 125 or 126 or 131 or 132 or 133 or 141 or GEOG 101 or EARTH 151.

Skills Advisories: Eligibility for ENG 103.

Hours: 117 (9 lecture, 108 lab)

A twelve-day field-studies course with an emphasis on the structural, plutonic and volcanic features of Kilauea volcano, Hawaii. Kilauea's long-documented eruptive history and easy accessibility make it a training ground for USGS volcanologists. Focuses on the history and features of the volcano and its interactions with the people that live on it.

Transfer Information: CSU Transferable, UC Transferable

ERTH 131 Geologic Field Studies - Eastern Sierra Nevada (2 Units)

Corequisites: EARTH 111 or 111H or 112 or 113 or 114 or 115 or ENVS 115 or EARTH 122 or 125 or 126 or 132 or 141 or GEOG 101 or 106 or EARTH 151.

Hours: 72 (18 lecture, 54 lab)

Five-day field course to study and interpret the geologic features and history of the Eastern Sierra Nevada region. Topics include faults, volcanoes, glaciers, mining and tectonic history of the region. Fee required.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 113, 131, 132, 133, 135, 137, 138, 233, any or all of these courses combined: maximum credit, one course.

ERTH 132 Geologic Field Studies - Death Valley (2 Units)

Corequisites: EARTH 111 or EARTH 111H or EARTH 112 or EARTH 113 or EARTH 114 or EARTH 115 or ENVS 115 or EARTH 122 or EARTH 125 or EARTH 126 or EARTH 131 or EARTH 141 or GEOG 101 or 106 or EARTH 151.

Hours: 72 (18 lecture, 54 lab)

Five-day field course to study and interpret the geologic features and history of the Death Valley region. Topics include the volcanic, tectonic and hydrologic history of the region. Fee required; see department for information.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 113, 131, 132, 133, 135, 137, 138, 233, any or all of these courses combined: maximum credit, one course.

ERTH 133 Introductory Geologic Field Seminar - Colorado Plateau (4 Units)

Corequisites: EARTH 111 or EARTH 112 or EARTH 113 or EARTH 114 or EARTH 115 or ENVS 115 or EARTH 125 or EARTH 126 or EARTH 131 or EARTH 132 or EARTH 141 or GEOG 101 or EARTH 151.

Skills Advisories: Eligibility for ENG 103.

Hours: 170 (23 lecture, 147 lab)

Fifteen-day intensive field study of the geology of the Colorado Plateau region. Emphasis on the geologic processes and features of the parks of the Southwest, including the Grand Canyon, Canyonlands, Arches, Capitol Reef, Bryce and Zion National Parks. Designed for students with previous geologic background. Fee required-see department for information.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 113, 131, 132, 133, 135, 137, 138, 233 any or all of these courses combined: maximum credit, one course.

ERTH 134 Geologic Field Studies - Western Sierra Nevada (2.5 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 81 (27 lecture, 54 lab)

Fee required; contact department for information. Eight-day field course to study and interpret the geologic features and history of the western Sierra Nevada region. Topics include plutonism, landform evolution, glaciation, tectonic and geologic history, and uplift processes of the modern Sierra Nevada.

Transfer Information: CSU Transferable

ERTH 137 Introductory Field Geology (4.5 Units)

Prerequisites: EARTH 111 or EARTH 112 or EARTH 125 or EARTH 126 or EARTH 131 or EARTH 132 or EARTH 133.

Course Advisories: EARTH 111L or EARTH 112L.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 4 or MATH 41.

Hours: 153 (45 lecture, 108 lab)

Provides intensive field experience in application of field geology equipment, methods, techniques and maintenance procedures. "Hands-on" approach includes use of Brunton compass and tape, aerial photos, plane table and alidade, and geographical mapping.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 113, 131, 132, 133, 135, 137, 138, 233 any or all of these courses combined: maximum credit, one course.

ERTH 138 Geology Field Camp (4.5 Units)

Corequisites: EARTH 137.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 004 or MATH 041.

Hours: 189 (27 lecture, 162 lab)

Summer Session that consists of 14 consecutive days at a geologic field camp, followed by five eight-hour days in an on-campus laboratory. Provides for rigorous work experience in field geology for Earth Science majors. Includes field mapping of a "badlands" area, using aerial photographs, topographic maps, geological surveying equipment and earth materials.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 113, 131, 132, 133, 135, 137, 138, 233 any or all of these courses combined: maximum credit, one course.

ERTH 141 Physical Geography (3 Units)

Same as: GEOG 101

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

A spatial study of Earth's dynamic physical systems and processes. Interrelationships between the basic elements of the physical and human environments are examined, including geology (plate tectonics; volcanoes and earthquakes), geomorphology (formation and modification of landforms; river, coastal, and glacial processes), meteorology (Earth's atmosphere; weather and climate), and hydrology (water on Earth).

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

C-ID: GEOG 110, GEOG 115.

ERTH 141L Physical Geography Laboratory (1 Unit)

Same as: GEOG 101L

Corequisites: EARTH 141/GEOG 101.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lab)

Laboratory approach to a combination of earth science disciplines, including cartography, geology, geomorphology, meteorology and oceanography. Remote sensing techniques are utilized in 75% of laboratory activities.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: GEOG 111, GEOG 115.

ERTH 142 Economic Geography (3 Units)

Same as: GEOG 105

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

Explores the impact humans have on their environment and on each other through resource exploitation and economic activity. Investigates the development and global impact of diverse geographies, the effect of place on economic sectors, and the role of place in strengthening or weakening economies. Also addresses regional patterns of principal economic activities of the world, with an emphasis on economic development, urbanization, transportation and the environment.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D2, CSUGE Area D5, IGETC Area 4E, CSU Transferable, UC Transferable

ERTH 151 Introductory Physical Oceanography (3 Units)

Hours: 54 (54 lecture)

Designed for students desiring a broadly-based analysis of the physical aspects of the oceans. Study of the origin of the continents and oceans, marine geology, chemistry of seawater, currents, waves, tides and the ocean environment. Required of Marine Science majors.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: ERTH 151 and BIOL 124 combined: maximum credit, one course.

ERTH 151L Introductory Physical Oceanography Laboratory (1 Unit)

Corequisites: ERTH 151.

Hours: 56 (56 lab)

Designed for students desiring a broadly-based analysis of the physical aspects of the oceans. Study of the origin of the continents and oceans, marine geology, chemistry of seawater, currents, waves, tides and the ocean environment. Required of Marine Science majors.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

ERTH 152 Weather and Climate (3 Units)

Same as: GEOG 152

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 095.

Hours: 54 (54 lecture)

Fundamentals of meteorology, including the nature of the atmosphere, solar radiation and energy balances, circulation of the atmosphere, air masses and fronts, atmospheric moisture, clouds and fog, precipitation, cyclones, weather analysis and forecasting, climate, and climate change.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

C-ID: GEOG 130.

ERTH 152L Weather and Climate Laboratory (1 Unit)

Same as: GEOG 152L

Corequisites: ERTH 152 or GEOG 152.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 095.

Hours: 54 (54 lab)

Laboratory approach to topics covered in the Weather and Climate lecture (ERTH 152/GEOG 152). Exercises introduce fundamentals of meteorology, including the nature of the atmosphere, circulation of the atmosphere, air temperature and humidity, and weather analysis and forecasting.

Students collect and analyze a variety of environmental data.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

ERTH 171 Introduction To Geographic Information Systems And Maps (2 Units)

Same as: GEOG 171

Corequisites: ERTH 172 or GEOG 172.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 004 or MATH 041.

Hours: 36 (36 lecture)

Techniques, tools and theories used to examine geographic information. Includes the structure, uses, and basic operations of a Geographic Information System (GIS). Cartography and cartographic design are incorporated, as well as overviews of aerial photography, remote sensing, and global positioning systems. Includes uses of GIS software in business, urban planning, resource management and scientific research.

Transfer Information: CSU Transferable, UC Transferable

C-ID: GEOG 155.

ERTH 172 Geographic Information Systems: Software Applications (2 Units)

Same as: GEOG 172

Corequisites: GEOG 171 or ERTH 171.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 004 or MATH 041.

Hours: 54 (27 lecture, 27 lab)

Extensive practice with a GIS package, accompanied by exploration of the range of applications in which GIS is used (resource management, public works, business, planning, scientific research). Covers key skills for operating GIS software packages, including geographical data acquisition, creation, management, analysis and output.

Transfer Information: CSU Transferable, UC Transferable

C-ID: GEOG 155.

ERTH 231A Field Study - Mineralogy and Mineral Resources of the Eastern Sierra Nevada (2 Units)

Corequisites: ERTH 125.

Hours: 72 (18 lecture, 54 lab)

Concurrent Five-day field course to study and interpret the mineralogy and resources of the Eastern Sierra Nevada region. Topics include metallic and industrial mineral resources, energy resources and mining of the region. Fee required - see department for information.

Transfer Information: CSU Transferable, UC Transferable

ERTH 231B Field Study - Energy Resources of the Eastern Sierra Nevada (2 Units)

Prerequisites: ERTH 131 or ERTH 231A.

Hours: 72 (18 lecture, 54 lab)

Fee required - see department for information. Five-day field course to study and interpret the energy resources of the Eastern Sierra Nevada region. Topics include wind, solar-thermal electric, solar photovoltaic, micro hydropower, hydropower and geothermal energy resources of the region.

Transfer Information: CSU Transferable, UC Transferable

ERTH 232A Field Study - Petrology of the Death Valley Region (2 Units)

Corequisites: ERTH 126.

Hours: 72 (18 lecture, 54 lab)

Prerequisite or Five-day field course to study and interpret the petrology of the Death Valley region. Topics include field recognition and interpretation of igneous, sedimentary and metamorphic rocks, and mining of the region. Fee required - see department for information.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: ERTH 126 and 232A combined: maximum credit, one course.

ERTH 232B Field Study - Mineral Resources and Plate Tectonic History of the Death Valley Region (2 Units)

Prerequisites: EARTH 132 or EARTH 232A.

Hours: 72 (18 lecture, 54 lab)

Five-day field course to study and interpret the mineral resources and tectonic history of the Death Valley region. Topics include field recognition and interpretation of rocks, mineral deposits, and structures of the region. Fee required - see department for information.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 125 and 232B combined: maximum credit, one course.

ERTH 233 Advanced Geologic Field Seminar - Colorado Plateau (4 Units)

Prerequisites: EARTH 133.

Skills Advisories: Eligibility for ENG 103.

Hours: 170 (23 lecture, 147 lab)

15-day intensive field study of the geology of the Colorado Plateau region. Emphasis on the stratigraphy, tectonic evolution and geologic history of the parks of the Southwest, including the Grand Canyon, Canyonlands, Arches, Capitol Reef, Bryce and Zion National Parks. Designed for second-year geology students. Fee required - see department for information.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: EARTH 113, 131, 132, 133, 135, 137, 138, 233 any or all of these courses combined: maximum credit, one course.

ERTH 299 Independent Study In Earth Science (1-4 Units)

Limitations on Enrollment: Completion of a minimum of 12 units at SBCC, with a 2.5 G.P.A., and a minimum of six units, with a 3.0 G.P.A. within the department.

Hours: 192 (192 lab)

For complete information, see 'Independent Study' in the Catalog Index.

Course restricted to 3 repetitions

Economics (ECON)

Credit Courses

ECON 101 Microeconomics (3 Units)

Prerequisites: MATH 095 or MATH 007C or Equivalent based on SBCC's Assessment Center placement via multiple measures.

Course Advisories: MATH 107, ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Principles of microeconomic analysis, economic institutions, and issues of public policy. Topics include scarcity, specialization and trade, market equilibrium, elasticity, production and cost theory, market structures, factor markets, and market failure.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D2, IGETC Area 4B, CSU Transferable, UC Transferable

C-ID: ECON 201.

ECON 101H Microeconomics, Honors (4 Units)

Prerequisites: MATH 095 or MATH 007C or Equivalent based on SBCC's Assessment Center placement via multiple measures.

Limitations on Enrollment: Admission to the Honors program.

Course Advisories: MATH 107, ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Principles of microeconomic analysis, economic institutions and issues of public policy. Topics include scarcity, specialization and trade, market equilibrium, elasticity, production and cost theory, market structures, factor markets and market failure. The honors course is enhanced with supplemental analytical tools and requires additional readings, writing and a research capstone project.

Transfer Information: CSUGE Area D, IGETC Area 4, CSU Transferable, UC Transferable

UC Transfer Limit: ECON 101 and 101H combined: maximum credit, 1 course.

ECON 102 Macroeconomics (3 Units)

Prerequisites: MATH 095 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Skills Advisories: Eligibility for ENG 110 or 110H and proficiency in MATH 104 or 107 or 111.

Hours: 54 (54 lecture)

An introductory course focusing on aggregate economic analysis.

Topics include market systems, aggregate measures of economic activity, macroeconomic equilibrium, money and the financial system, the business cycle, monetary and fiscal policy, and economic growth.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D2, IGETC Area 4B, CSU Transferable, UC Transferable

UC Transfer Limit: ECON 102 and 102H combined: maximum credit, one course.

C-ID: ECON 202.

ECON 102H Macroeconomics, Honors (4 Units)

Prerequisites: MATH 095 or qualifying score on SBCC placement exam.

Limitations on Enrollment: Honors course Students must be accepted into The Honors Program at SBCC.

Skills Advisories: Eligibility for ENG 110 or 110H and proficiency in MATH 104 or 107 or 111.

Hours: 72 (72 lecture)

An introductory course focusing on aggregate economic analysis.

Topics include market systems, aggregate measures of economic activity, macroeconomic equilibrium, money and the financial system, the business cycle, monetary and fiscal policy, and economic growth. The honors course is enhanced with supplemental analytical tools and requires additional readings, writing, and a research capstone project.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D, IGETC Area 4, CSU Transferable, UC Transferable

UC Transfer Limit: ECON 102 and 102H combined: maximum credit, one course.

ECON 114 Environmental and Natural Resource Economics (3 Units)

Hours: 54 (54 lecture)

Skills Advisories: Eligibility for ENG 110 or 110H and proficiency in MATH 104 or 107 or 111. An introduction to the economic analysis of environmental quality and natural resource utilization. Topics include market failures, environmental degradation, sustainable resource allocation, conventional and market-based solutions to environmental problems, as well as the evaluation of public policies aimed at addressing such problems.

Transfer Information: CSUGE Area D, IGETC Area 4, CSU Transferable, UC Transferable

ECON 295 Internship In Economics (4 Units)

Limitations on Enrollment: Completion of two courses in the Economics Department at SBCC prior to enrolling in an internship course.

Skills Advisories: Eligibility for ENG110 or ENG 110H.

Hours: 273 (273 lab)

Structured internship program in which students gain experience in community organizations related to the discipline.

Transfer Information: CSU Transferable

Transfer Information: CSU Transferable

C-ID: AG-EH 116.

EH 109 Permaculture Design (5 Units)

Hours: 90 (90 lecture)

Application of ecological and environmental principles to designing human systems that are locally sustainable and require reduced inputs. The successful student receives Permaculture Design certification, recognized worldwide.

Transfer Information: CSU Transferable

EH 109B Advanced Permaculture Design (3 Units)

Hours: 90 (36 lecture, 54 lab)

Provides hands-on opportunities to gain skills in permaculture design, while reviewing and adding depth of knowledge to basic permaculture design concepts.

Transfer Information: CSU Transferable

EH 110 Introduction To Horticulture (3 Units)

Hours: 54 (54 lecture)

Introduction to central concepts of environmental horticulture, covering horticultural practices and methods, with focus on long-term sustainability and local ecological issues.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

C-ID: AG - PS104

EH 112 Ecological Restoration I (3 Units)

Hours: 90 (36 lecture, 54 lab)

Examines the principles and techniques of regional habitat restoration. Class work emphasizes the identification, collection, propagation and care of native plants.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

EH 113 Ecological Restoration II (3 Units)

Hours: 90 (36 lecture, 54 lab)

Review of the concepts and implementation of habitat restoration. Santa Barbara region habitats studied include chaparral, coastal sage scrub, oak woodland, and riparian Eco-niches. Emphasis on watersheds and riparian restoration. Principles of ecological recreation and restoration techniques include seed collection, propagation and project evaluation.

Transfer Information: CSU Transferable, UC Transferable

EH 126 Landscape Drafting I (3 Units)

Same as: DRFT 126

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 72 (45 lecture, 27 lab)

Principles of drafting and plan reading for landscape architecture and ornamental horticulture. Style research, drafting of plans, elevations and details.

Transfer Information: CSU Transferable, UC Transferable

EH 127 Landscape Drafting II (3 Units)

Same as: DRFT 127

Prerequisites: DRFT 126 or EH 126.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 72 (45 lecture, 27 lab)

Advanced Drafting and plan reading course using manual and computer drafting tools. For landscape architecture and ornamental horticulture fields. Includes site plans, elevations and details.

Transfer Information: CSU Transferable, UC Transferable

EH 201 Arboriculture (3 Units)

Hours: 54 (54 lecture)

Introduction to the care of woody plants, including trees, shrubs, vines and palms. Covers function, structure, taxonomy, anatomy and physiology of woody plants; the effects of soil, water and fertilizer, pruning, safety, planting, early care, and diagnostics of pests and disease.

Transfer Information: CSU Transferable, UC Transferable

EH 202 Residential Landscape Design (3 Units)

Skills Advisories: Proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

Foundational course for basic skills in design and implementation of residential landscaping. Theory and practical development of skills and artforms associated with hardscape and softscape elements and plans examined.

Transfer Information: CSU Transferable

EH 207 Small Scale Food Production (3 Units)

Hours: 90 (36 lecture, 54 lab)

Explores the natural and sustainable techniques and skills used to produce healthy organic produce. Soil development, composting, mulching, suitable vegetables, fruit trees and herb cultivation covered.

Transfer Information: CSU Transferable

EH 290 Work Experience In Environmental Horticulture (2-4 Units)

Prerequisites: Any 100 level EH class.

Skills Advisories: Eligibility for ENG 98 and proficiency in MATH 001 or MATH 041.

Hours: 300 (300 lab)

Exploration of elements essential to success in the fields of horticulture, including proper work ethic, job searching and job preparation. Outside of class, students work to earn credit. Time sheets are done monthly, supervisor evaluation is required, and a three-way semester contract is developed between the student, the student's supervisor and the instructor. Course restricted to 3 repetitions

Environmental Studies (ENVS)

Credit Courses

ENVS 110 Humans And The Biological Environment (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Growth and variations in populations of organisms and their interactions with the physical environment. Characteristics of living natural resources and changes caused by expanding human populations and technological developments. Satisfies SBCC General Education requirement in Natural Sciences when combined with ENVS 111. (Required for the Environmental Studies major.)

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

ENVS 111 Environmental Field Studies (1 Unit)

Corequisites: ENVS 110.

Hours: 54 (54 lab)

Field studies designed to demonstrate general ecological/environmental principles through exposure to and analysis of many different communities and sites of environmental concern.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: No credit for ENVST 111 unless taken after or concurrently with 110.

ENVS 112 American Environmental History (3 Units)

Same as: HIST 112

Hours: 54 (54 lecture)

Examines American attitudes and actions toward the environment by Indians and European immigrants, from the colonial period to the present. Analyzes current environmental problems in the context of American development.

ENVS 115 Environmental Geology (3 Units)

Same as: EARTH 115

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

Introduction to the problems of volcanism, earthquakes, fire, floods, landslides and other geologic hazards; air and water pollution, hazardous materials and land use planning. Applications to the Santa Barbara area emphasized. Required of all Environmental Studies majors.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

C-ID: GEOL 130.

ENVS 115L Environmental Geology Laboratory (1 Unit)

Same as: EARTH 115L

Corequisites: ENVS 115 or EARTH 115.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lab)

Laboratory approach to topics covered in ENVST 115, with emphasis on rock and mineral identification, hazard assessment, geologic resource management, and land use planning. In-lab field trips.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: GEOL 130L.

ENVS 116 Energy and Natural Resources (3 Units)

Same as: EARTH 116

Hours: 54 (54 lecture)

Study of formation, exploration, development and judicious use of natural resources in relation to present and future energy requirements, including electricity, conservation, fossil fuels, solar, geothermal, nuclear and hydrogen. Required of Environmental Studies majors.

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

ENVS 200 Projects In Sustainability (2 Units)

Hours: 36 (36 lecture)

Students work in groups to develop projects that make the college and local community more sustainable. Lectures, discussions and workshops provide the student with current knowledge in environmental science, sustainable practices, and real-world skills needed to implement practical solutions to local environmental and social problems.

Transfer Information: CSU Transferable

ENVS 295 Internship in Environmental Studies (2-4 Units)

Skills Advisories: Eligibility for ENG 110, ENG 110H.

Hours: 273 (273 lab)

Student must have completed 12 units at SBCC, with a GPA of 2.5 and a minimum of 2 units in Environmental Studies. Structured internship program in which students gain experience with work on campus or in the community, related to Environmental Studies.

Transfer Information: CSU Transferable

Exhibit and Display Design (EXBT)

Credit Courses

EXBT 100 Introduction to Exhibit and Display Design (3 Units)

Corequisites: ART 129A.

Skills Advisories: Eligibility for ENG 098.

Hours: 90 (36 lecture, 54 lab)

Introduction to creating exhibitions, from conceptualization through design development and presentation. Students apply principles and criteria specific to organizing and conveying information in exhibitions environments. Students demonstrate their understanding of these exhibition principles through project proposals that include models, presentation drawings and other design materials.

Transfer Information: CSU Transferable

EXBT 101 Exhibit and Display Design II (1.3 Unit)

Prerequisites: EXBT 100.

Hours: 72 (72 lab)

Continuation of EXBT 100. Focuses on construction methods and materials used in the exhibit and display design industry. Materials range from alloys, aluminum extrusions, wood/laminate composites, Plexiglas, modular systems, tension fabrics, 'green materials' to advanced lightweight materials, including carbon/fiber construction. GED NC010 GED Test Subject - Reading (0 Units)

Hours: 200 (200 lecture)

This course prepares students for the GED Reasoning through Language Arts exam. Topics include applying critical thinking skills to reading fiction and informational texts; reviewing language mechanics, grammar, vocabulary, and editing skills; and writing extended response essays. Emphasis is also placed on developing test-taking strategies. Course restricted to 98 repetitions

GED NC020 GED Test Subject - Social Studies (0 Units)

Hours: 200 (200 lecture)

This course prepares students for the GED Social Studies exam. Topics include a review of key concepts in US government, US history, world history, and economics. Emphasis is placed on developing test-taking skills and strategies and on applying critical thinking skills to analyze text, graphs, tables, charts, and diagrams. Course restricted to 98 repetitions

GED NC030 GED Test Subject - Science (0 Units)

Hours: 200 (200 lecture)

This course prepares students for the GED Science exam. Topics include a review of key concepts and processes in biology, chemistry, physical, and earth and space science. Emphasis is placed on applying critical thinking skills to analyze text, graphs, tables, charts, and diagrams, and on developing test-taking strategies. Course restricted to 98 repetitions

GED NC040 GED Test Subject - Writing (0 Units)

Hours: 60 (60 lecture)

This course covers the Writing GED subject matter and provides students with test-taking skills, critical thinking and reading skills, and various approaches to essay writing including descriptive and narrative prose. GED book are used to ensure that the information students obtain is directly related to the Writing examination and practice tests are administered to verify that students are prepared to take (and pass) the Writing subject test. Course restricted to 98 repetitions

GED NC050 GED Test Subject - Mathematics (0 Units)

Hours: 200 (200 lecture)

This course prepares students for the GED Mathematics exam. Topics include review of whole-number operations, fractions, decimals, percent, geometry, and algebra. Emphasis is placed on developing test-taking skills as well as developing strategies for solving word problems, graph problems, and problems typically found on the GED and other mathematics exams. Course restricted to 98 repetitions

GED NC101 Accelerated Cohort GED Preparation (0 Units)

Hours: 200 (200 lecture)

Covers all four GED test subjects and is taught in a cohort setting using lecture, discussion, guided practice, and computer-based assignments. Students receive instruction in language arts, science, social studies, math and test-taking strategies, with an emphasis on developing analytical writing and effective problem-solving skills. Course restricted to 98 repetitions

General Education Development Bilingual (GEDB)

Noncredit Courses

GEDB NC060 GED Test Subject - Bilingual Reading (0 Units)

Geography (GEOG)

Credit Courses

GEOG 101 Physical Geography (3 Units)

Same as: EARTH 141

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

A spatial study of Earth's dynamic physical systems and processes. Interrelationships between the basic elements of the physical and human environments are examined, including geology (plate tectonics; volcanoes and earthquakes), geomorphology (formation and modification of landforms; river, coastal, and glacial processes), meteorology (Earth's atmosphere; weather and climate), and hydrology (water on Earth).

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

C-ID: GEOG 110, GEOG 115.

GEOG 101L Physical Geography Laboratory (1 Unit)

Same as: EARTH 141L

Corequisites: GEOG 101/ERTH 141.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lab)

Laboratory approach to a combination of earth science disciplines, including cartography, geology, geomorphology, meteorology and oceanography. Remote sensing techniques are utilized in 75% of laboratory activities.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

C-ID: GEOG 111, GEOG 115.

GEOG 102 Human Geography (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

An interpretation of the cultural elements of the geographic landscape and the study of human's changing relationship with the environment. Investigates culture and human processes as seen in global patterns of population and migration patterns, language, religion, political and economic systems, urbanization, and human impact on the physical world.

SBCC General Education: SBCCGE Area B, SBCCGE Area E5

Transfer Information: CSUGE Area D5, IGETC Area 4E, CSU Transferable, UC Transferable

C-ID: GEOG 120.

GEOG 104 World Regional Geography (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

A global survey of cultural regions, people and environments. Geographic methodologies are employed to evaluate people, resources, landscapes, livelihoods and economies across eleven major geographic regions. The gap between developed and undeveloped economies, global roles and interconnections of countries and regions, and conflicting pressures between cultural diversity and globalization are analyzed.

SBCC General Education: SBCCGE Area B, SBCCGE Area E5

Transfer Information: CSUGE Area D5, IGETC Area 4E, CSU Transferable, UC Transferable

C-ID: GEOG 125.

GEOG 105 Economic Geography (3 Units)

Same as: EARTH 142

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

Explores the impact humans have on their environment and on each other through resource exploitation and economic activity. Investigates the development and global impact of diverse geographies, the effect of place on economic sectors, and the role of place in strengthening or weakening economies. Also addresses regional patterns of principal economic activities of the world, with an emphasis on economic development, urbanization, transportation and the environment.

Transfer Information: CSUGE Area D5, IGETC Area 4E, CSU Transferable, UC Transferable

C-ID: GEOG 140.

GEOG 152 Weather and Climate (3 Units)

Same as: EARTH 152

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 095.

Hours: 54 (54 lecture)

Fundamentals of meteorology, including the nature of the atmosphere, solar radiation and energy balances, circulation of the atmosphere, air masses and fronts, atmospheric moisture, clouds and fog, precipitation, cyclones, weather analysis and forecasting, climate, and climate change.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

C-ID: GEOG 130.

GEOG 152L Weather and Climate Laboratory (1 Unit)

Same as: EARTH 152L

Corequisites: GEOG 152 or EARTH 152.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 095.

Hours: 54 (54 lab)

Laboratory approach to topics covered in the Weather and Climate lecture (EARTH 152/GEOG 152). Exercises introduce fundamentals of meteorology, including the nature of the atmosphere, circulation of the atmosphere, air temperature and humidity, and weather analysis and forecasting.

Students collect and analyze a variety of environmental data.

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

GEOG 171 Introduction To Geographic Information Systems And Maps (2 Units)

Same as: EARTH 171

Corequisites: GEOG 172 or EARTH 172.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 004 or MATH 041.

Hours: 36 (36 lecture)

Techniques, tools and theories used to examine geographic information. Includes the structure, uses, and basic operations of a Geographic Information System (GIS). Cartography and cartographic design are incorporated, as well as overviews of aerial photography, remote sensing, and global positioning systems. Includes uses of GIS software in business, urban planning, resource management and scientific research.

Transfer Information: CSU Transferable, UC Transferable

C-ID: GEOG 155.

GEOG 172 Geographic Information Systems: Software Applications (2 Units)

Same as: EARTH 172

Corequisites: GEOG 171 or EARTH 171.

Skills Advisories: Eligibility for ENG 103 and proficiency in MATH 004 or MATH 041.

Hours: 54 (27 lecture, 27 lab)

Extensive practice with a GIS package, accompanied by exploration of the range of applications in which GIS is used (resource management, public works, business, planning, scientific research). Covers key skills for operating GIS software packages, including geographical data acquisition, creation, management, analysis and output.

Transfer Information: CSU Transferable, UC Transferable

Graphic Design and Photography (GDP)

Credit Courses

GDP 110 Media Design (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Recommended starting point for students interested in careers in graphic design and media arts. An introductory course in design and composition as it relates to the digital arena. Students learn elements of design such as line, shape, color, and texture, as well as principles of design such as balance, repetition, and unity and apply them to designs and illustrations created with digital tools and industry-standard software programs.

Provides a strong introduction to composition and conceptualization in design for print and electronic output.

Transfer Information: CSU Transferable

GDP 111 Introduction to Graphic Design (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Starting point for those studying Graphic Design. Students are introduced to industry software applications to create basic page layouts. Topics include overview of the commercial print industry, image preparation, basic layout design and typography principles, color modes and file preparation for print. Student assignments encompass both design creativity and technical skills. Recommended to take concurrent with GDP110 Media Design.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: GDP 111, GDP 114 and GDP 212 combined: maximum credit, 6 units.

GDP 112 Digital Literacy for Media Artists and Designers (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Introduction to theory, history and practice of interaction design, visualization and software art through current software and introductory programming languages.

Transfer Information: CSU Transferable, UC Transferable

GDP 113 Typography (3 Units)

Hours: 90 (36 lecture, 54 lab)

Develops the student's understanding of the effective use of type.

Emphasis is on the use of typography in graphic design. Topics include the history of type, aesthetic qualities of letter forms, anatomy of the letter, typefaces and style and compositional arrangement. Best if taken after, or in conjunction with GDP111.

Transfer Information: CSU Transferable, UC Transferable

GDP 114 Intermediate Graphic Design (3 Units)

Course Advisories: GDP 110 or GDP 111.

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Students apply the principles of design and visual communication to a variety of print-related and electronic projects. Students add to their understanding of the design software applications, and advance their critical thinking in regards to design principles and conveying messages visually. Students participate in individual and group critiques, which emphasize the objective and subjective qualities of their work. The design process, concept and content are stressed, using industry-standard software in a state-of-the-art computer lab.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: GDP 111, GDP 114 and GDP 212 combined: maximum credit, 6 units.

GDP 115 Information Visualization (3 Units)

Prerequisites: GDP 112.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

An introductory course that surveys the expanding field of infographics and visualization. Students will gain an understanding of this expanding field and demonstrate how to visualize and present data in clear and meaningful ways. Explorations will include data display methods and technologies, graphical model choices, and industries in which data visualizations are utilized.

Transfer Information: CSU Transferable

GDP 116 History of Graphic Design (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

An introduction to the history of graphic design, including the creative innovators, breakthrough technologies and important historical developments which have defined graphic design throughout the last 150 years.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

GDP 118 Creative Thinking (3 Units)

Hours: 90 (36 lecture, 54 lab)

Students learn how to develop techniques to enhance their innate creative abilities. Specific problems are presented and students work alone and in groups to work through the exercises and develop original and creative solutions. Creative problem-solving techniques and ideas are explored. Helps students to better develop problem-solving skills with a particular focus on visual art and design. The focus is on creation of original and innovative concepts, and analyzation of how ideas are created. Students use sketchbooks and software programs.

Transfer Information: CSU Transferable

GDP 212 Graphic Design II (3 Units)

Prerequisites: GDP 111.

Course Advisories: GDP 114.

Hours: 90 (36 lecture, 54 lab)

Advanced studies and projects in graphic design. Students explore the creative process in developing ads and promotions for print and other media. Emphasis is on concepts, content and design.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: GDP 111, GDP 114 and GDP 212 combined: maximum credit, 6 units.

GDP 215 Publication Design (3 Units)

Prerequisites: GDP 111.

Hours: 90 (36 lecture, 54 lab)

Advanced study in design and production for multi-page print and digital publications. Topics include paper choices, pagination, preflight issues, proofing, output options, and publications for web devices. Students design and produce multi-page booklets and publications for mobile devices to be used as portfolio pieces.

Transfer Information: CSU Transferable

GDP 217 Dynamic Information Visualization (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Continuation of visualization practices towards user interactivity for web, mobile, and other media choices. Areas explored include dynamic and large data sets, embedded sensors and the internet of things.

Transfer Information: CSU Transferable

GDP 230 Portfolio (3 Units)

Course Advisories: GDP 212 or GDP 215.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 90 (36 lecture, 54 lab)

Guides students in developing and refining a body of work that constitutes a portfolio reflecting individual creative and visual communication skills. Assignments include improving current pieces, presenting their work and themselves to prospective employers in a compelling way. Portfolios are essential in transitioning to other institutions or the professional world.

Transfer Information: CSU Transferable

GDP 290 Work Experience In Graphic Design and Photography (1-4 Units)

Course Advisories: PHOT 109 or GDP 114.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 300 (300 lab)

Limitation on enrollment: Must be enrolled in any GDP course. Supervised employment for students whose career objectives, course of study and employment complement each other. Student to carry out assigned duties as an employee; follow employer's policies, rules and regulations; write learning objectives; keep a record of time worked; fill out student data card; and secure employer's evaluation at the end of the semester.

Course restricted to 3 repetitions

Transfer Information: CSUGE Area E, CSU Transferable, UC Transferable
UC Transfer Limit: HE 101 and 102 combined: maximum credit, one course.

HE 102 Personal Health for Women (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Lecture course designed for both men and women which deals with a variety of health issues, with special emphasis and focus on health factors unique to women. Topics include mental and emotional health, date rape, partner and child abuse, drugs and alcohol, fitness and nutrition, and sexuality and relationships.

SBCC General Education: SBCCGE Area E3 PE

Transfer Information: CSUGE Area E, CSU Transferable, UC Transferable
UC Transfer Limit: HE 101 and 102 combine: maximum credit, one course.

HE 103 Responding to Medical Emergencies (3 Units)

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Recommended for all students who have an interest in learning to recognize, assess and provide care for injuries or sudden illness until professional medical help arrives. Emphasizes the importance of a safe, healthy lifestyle and the prevention of injuries. American Red Cross Responding to Emergency and Adult CPR certification possible.

Transfer Information: CSU Transferable, UC Transferable
C-ID: KIN 101.

HE 104 Introduction to Athletic Injuries (3 Units)

Course Advisories: BIOL 100 or BMS 100.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Teaches students interested in allied health professions, coaching or personal enhancement the methods of prevention, recognition and care of sports-related injuries through lecture and hands-on experience. Comprehension of injury-causing mechanisms, the resulting pathology, protective taping/wrapping and an awareness of the duties of the athletic trainer are emphasized.

Transfer Information: CSU Transferable, UC Transferable

HE 108 Advanced Assessment And Treatment Of Athletic Injuries (3 Units)

Prerequisites: HE 104.

Course Advisories: BMS 107.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 54 (54 lecture)

Teaches students interested in paramedical professions (pre-med, physical therapy, athletic training) and coaching. Covers proper methods of systematic evaluation and rehabilitative principles/ techniques of athletic injuries through lecture and 'hands on' laboratory. Comprehension of evaluation skills in scenarios, theory/utilization of modalities, and implementation of rehabilitative techniques for sport injuries is stressed.

Transfer Information: CSU Transferable, UC Transferable

HE 109 Health And Physical Fitness For Older Adults (1 Unit)

Hours: 18 (18 lecture)

Designed to advance an understanding of the relationship between living habits and health for older adults. Enhances the physical and emotional well-being of individuals by providing information and activities designed for improvement of nutrition, fitness, cardiovascular health and stress management skills. Student is able to design a safe and effective health program.

Prerequisites: KOR 101 or two years of high school Korean or qualifying score on SBCC SoML placement exam.

Course Advisories: ENG 110 or ENG 110H.

Hours: 90 (90 lecture)

Provides students simple and complex sentences with basic grammatical patterns. Emphasizes correct use of basic grammatical patterns and their application in actual life. Students are required to write short essays based on topics from everyday life.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C2, IGETC Area 3B, CSU Transferable, UC Transferable

KOR 103 Intermediate Korean I (5 Units)

Prerequisites: KOR 102, or qualifying score on SBCC SoML placement exam.

Hours: 90 (90 lecture)

Aims to develop communicative skills based on the fundamentals of grammar, vocabulary and conversational expressions. Students will acquire speaking and listening proficiency to carry out simple everyday conversation; reading skills to understand short, simple written materials; and writing skills to be able to write journals, letters and short essays. Students also learn many cultural aspects such as traditional clothing, music and religion.

Transfer Information: CSU Transferable, UC Transferable

Latin (LATN)

Credit Courses

LATN 101 Beginning Latin I (5 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 90 (90 lecture)

Beginning course in reading, grammar and syntax of classical Latin.

Study of the presence of Latin in modern languages, sciences and culture.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C2, IGETC Area 6A, CSU Transferable, UC Transferable

LATN 102 Beginning Latin II (5 Units)

Prerequisites: LATN 101 or two years of high school Latin or qualifying score on SBCC SoML placement exam.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 90 (90 lecture)

Continuation of Latin 101. Focuses on reading, grammar and syntax of classical Latin. Study of the presence of Latin in modern languages, sciences and culture.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C2, IGETC Area 3B, IGETC Area 6A, CSU Transferable, UC Transferable

Library (LIBR)

Credit Courses

LIBR 101 Information Literacy (1 Unit)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 18 (18 lecture)

Information literacy is introduced and practiced. Topics include how information and misinformation are produced, valued, organized, shared or suppressed; the nature of research and finding information; notions of authority and credibility; and the use of information in creating new knowledge and participating ethically in communities of learning. Students critically analyze the information ecosystem and practice research skills. Satisfies SBCC Information Competency requirement.

SBCC General Education: SBCCGE Area F

Transfer Information: CSU Transferable, UC Transferable

Management (MGMT)

Credit Courses

MGMT 101 Introduction To Management (3 Units)

Course Advisories: BUS 101.

Hours: 54 (54 lecture)

Examines the basic management functions of planning, organizing, leading and controlling. Included is an examination of key management concepts involving strategic planning, decision-making, organizational behavior, ethics and social responsibility, team building, diversity, and the role of manager as leader.

Transfer Information: CSU Transferable, UC Transferable

MGMT 102 Leadership in Organizations (3 Units)

Course Advisories: BUS 101, ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

. Overview of leadership in organizations at the individual and group levels, providing for the preparation and practice of effective leadership in various group and organizational environments.

Transfer Information: CSU Transferable, UC Transferable

Marine Diving Technologies (MDT)

Credit Courses

MDT 100 Skin And Scuba Diving (1.8 Unit)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 60 (18 lecture, 42 lab)

An introductory SCUBA diving certification course taught under the standards of the National Association of Underwater Instructors (NAUI). Students obtain skills in basic diving techniques, physiology, skin and SCUBA equipment. Laboratory sessions focus on acquisition and application of necessary water skills in skin and SCUBA diving in a confined water (pool) environment. Practical application of diving skills are evaluated in a minimum of five open sea dives. Successful students will receive a lifetime certification as a SCUBA diver from NAUI.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: MDT 100, MDT 105, HE 108, HE 213 and PE Activity courses combined: maximum credit, 4 units.

MDT 101 Information and Introduction to Marine Diving Technology (0.3 Units)

Hours: 8 (5 lecture, 3 lab)

Overview of marine diving and the SBCC Marine Diving Technologies modular curriculum. Assessment of swimming, diving and mathematical skills. Primary purpose is to provide information on the modular concepts, equipment requirements, fees and application process required for enrollment in the MDT Program.

MDT 104 Fundamentals and Practices of Diving (2 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 36 (36 lecture)

Modular study of diving physics, physiology, dive planning and safety. Stresses the importance of environmental and equipment-related situations. Computations utilizing various decompression profiles emphasized.

MDT 105 Advanced Scuba Techniques (1.7 Unit)

Corequisites: MDT 101.

Hours: 60 (16 lecture, 44 lab)

Practical application of Scuba diving techniques and skill building in the confined water and open ocean environments.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: MDT 100 and 105 combined with PE activity and HE 213: maximum credit, 4 units.

MDT 106 Open Water Navigation And Rescue (0.7 Units)

Corequisites: MDT 105.

Limitations on Enrollment: Health and Safety regulations.

Hours: 24 (8 lecture, 16 lab)

Practical application of navigation and rescue skills in the ocean environment.

MDT 107 Hyperbaric Chamber Operations (1.5 Unit)

Corequisites: MDT 101.

Hours: 48 (16 lecture, 32 lab)

Theoretical and practical application of hyperbaric chambers and treatment of diving and non-diving related accidents. Hands-on practice utilizing department's recompression chamber facility is the focus of laboratory activities.

MDT 108 Rigging (1 Unit)

Corequisites: MDT 101.

Hours: 40 (8 lecture, 32 lab)

Introduction to and practical application of basic rigging techniques, including knots, splices, block and tackle, and marlin spike.

MDT 109 Seamanship and Small Boat Handling (1.5 Unit)

Corequisites: MDT 101.

Hours: 48 (16 lecture, 32 lab)

Modular study and application of small boat handling, maritime rules of the road and navigational principles and practices.

MDT 111 First Aid For The Diving Professional (1.3 Unit)

Hours: 24 (24 lecture)

Modular certification program in oxygen administration, first aid for hazardous marine life injuries CPR and AED use, with emphasis as a first responder to diving-related accidents. Certification available through appropriate agencies, which include, American Red Cross and the Divers Alert Network (DAN).

MDT 112 Introduction To Marine Welding (1.1 Unit)

Hours: 40 (8 lecture, 32 lab)

Introductory module on the theory, practical application and procedures of cutting and welding in the topside environment. Skills are acquired and developed in welding shop environment. Prepares students for MDT 145 which is taught in the welding booth and underwater training tank.

MDT 140 Principles Of Surface-Supplied Diving (1 Unit)

Corequisites: MDT 105.

Limitations on Enrollment: Must be a certified diver by a nationally recognized scuba diving agency.

Hours: 40 (8 lecture, 32 lab)

Introductory module which exposes students to the various types of diving apparatus and procedures in confined water training tanks. Emphasis on tending, dress-in and operational procedures which parallel a surface-supplied diving operation.

MDT 141 Commercial Diving Equipment (1.5 Unit)

Corequisites: MDT 101.

Hours: 48 (16 lecture, 32 lab)

Course presents principles of operation and maintenance as applied to diesel engines, diving compressors and pneumatic tools. Particular emphasis placed upon identification of the various fittings used in an industrial environment. In addition, the maintenance and repair practices and procedures relating to surface-supplied diving head gear and diving umbilicals are presented and applied.

MDT 142 Surface-Supplied Ocean Diving (1.8 Unit)

Corequisites: MDT 140.

Course Advisories: MDT 141.

Hours: 60 (16 lecture, 44 lab)

Study and practical application of advanced tethered diving working procedures and operational theory. Particular emphasis is placed on charting dive profiles, computing decompression schedules and organizing field operations. All lab activities conducted in open sea environments which simulate actual working conditions likely to be encountered in commercial diving.

MDT 143 Mixed Gas Diving (1.1 Unit)

Corequisites: MDT 142.

Hours: 44 (8 lecture, 36 lab)

Advanced modular study of the physics and application of specialized gas mixtures, gas diving apparatus, decompression tables and operational procedures.

MDT 145 Principles Of Underwater Cutting And Welding (1 Unit)

Corequisites: MDT 112 and MDT 140.

Hours: 40 (8 lecture, 32 lab)

Introductory module on the theory, practical application and procedures of welding and burning in the underwater environment. Skills are acquired and developed in a wet diving training tank. Prepares students for advanced techniques which are applied in the open sea environment.

MDT 146 Advanced Underwater Cutting And Welding (1.5 Unit)

Corequisites: MDT 142.

Hours: 48 (16 lecture, 32 lab)

Advanced practical application in the use of underwater cutting and welding techniques in the ocean and open water environments. Students utilize foundational techniques in advanced surface-supplied ocean diving to perform a multitude of individual and team projects.

MDT 147 Ocean Structures (0.5 Units)

Course Advisories: MDT 101.

Hours: 8 (8 lecture)

Modular study of ocean structures likely to be encountered in the marine industry. Focuses on nomenclature and types and construction of offshore platforms, pipelines and other subsea structures.

MDT 148 Hydraulics I (0.74 Units)

Corequisites: MDT 101.

Hours: 24 (8 lecture, 16 lab)

Study of industrial fluid power mechanics with a practical laboratory component as related to marine equipment. Emphasis placed upon schematic design, interpretation and the role of hydraulic equipment and control systems as applied to subsea work systems, tools and work class remotely-operated vehicles.

MDT 152 Underwater Tools And Inspection (1.7 Unit)

Corequisites: MDT 140.

Hours: 60 (16 lecture, 44 lab)

Study of techniques and tools used to collect data and perform inspection work in underwater environments. Students use a variety of equipment in hands-on application including subsea video cameras, ultrasonic equipment and other non-destructive testing devices. Students apply advanced diving skills in assembling and disassembling various underwater projects in an open sea environment.

MDT 154 Bell And Saturation Diving Procedures (1.7 Unit)

Corequisites: MDT 143.

Hours: 60 (16 lecture, 44 lab)

Intensive exposure to saturation diving theory and a practical application of skills in bell/saturation diving. Practical training in bell and saturation diving operations, equipment and procedures. Culminates with the performance of a round-the-clock saturation diving run in the department's saturation diving complex.

MDT 179 Nitrox Diving (0.8 Units)

Corequisites: MDT 101.

Hours: 20 (8 lecture, 12 lab)

Modular study of EANx NITROX mixtures used in diving. Two optional open water dives may be made upon successful completion of classroom portion. Certification through the International Association of NITROX and Technical Divers (IANTD) as a NITROX diver is available upon completion of the entire course.

MDT 190 Assessment And Development Of Diving Competence (1 Unit)

Hours: 18 (18 lecture)

Introductory module designed to enhance student knowledge of diverse employment opportunities in field of commercial diving. Bureau of Ocean Energy Management, Regulation and Enforcement mandated orientation and safety training.

MDT 290 Work Experience In Marine Diving Technology (2-4 Units)

Limitations on Enrollment: Must be a currently enrolled MDT student with a current physical exam (within one year).

Course Advisories: MDT 101.

Hours: 300 (300 lab)

Supervised employment for MDT and related technologies majors whose career objectives, course study and employment complement each other. The student must be employed in an occupation directly related to the Marine Diving Technologies major. The student must also be enrolled in no less than seven (7) units, including Work Experience. Course restricted to 3 repetitions

Marketing (MKT)

Credit Courses

MKT 101 Introduction to Marketing (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Examines the critical role of marketing in customer-driven marketplaces. Topics covered include marketing research, customer-driven marketing, marketing strategies for profit businesses, as well as not-for-profit businesses and institutions. Includes advertising as well as the other elements of promotion. Course material is reinforced with the use of marketing computer simulation.

Transfer Information: CSU Transferable

MKT 120 Relationship Selling (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Theories, principles and techniques of creating relationships within the process of selling. Study areas include application of current theories within the fields of psychology and technology for obtaining increased buyer-seller relationship utility in the marketplace.

Transfer Information: CSU Transferable

MKT 125 Principles Of Customer Service (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Introduction to the theories, principles and practices of customer service. Analysis of creating complementary relationships that focus on participatory partnering and reciprocity conducted.

Transfer Information: CSU Transferable

MKT 135 Public Relations (3 Units)

Same as: JOUR 135

Skills Advisories: Eligibility for English 110 or English 110H.

Hours: 54 (54 lecture)

Survey of public relations history, theories and practices, focusing on applications to business, public and nonprofit agencies and institutions. Practical approach to using the media, creating press releases, organizing and executing campaigns, and promoting favorable relations with various segments of the public.

Transfer Information: CSU Transferable

C-ID: JOUR 150.

MKT 164 Online and Mobile Marketing (3 Units)

Same as: MAT 164

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Introduction to those components needed to develop effective online and search engine marketing (SEM) strategies. Emerging digital media and mobile advertising campaigns are emphasized. Includes search engine optimization (SEO), paid placement ads, keyword identification, placement strategies, SEM research and management tools, and WAP advertising applications in mobile marketing and video advertising.

Transfer Information: CSU Transferable

MKT 200A Social Media and Self-Branding (3 Units)

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 54 (54 lecture)

Social Media and self-branding are critical to organizational success in real and digital marketing exchanges. Using social media to convert potential customers into advocates or users.

Transfer Information: CSU Transferable

MKT 201A Marketing Strategy and Positioning (3 Units)

Skills Advisories: Eligibility for ENG 98 and 103.

Hours: 54 (54 lecture)

Understand customer and product profitability and how to position your firm and product for growth. Takes an in-depth look at pricing, competitive dynamics, comparative advantage and how to integrate marketing strategy into your overall plan. Understand customer and product profitability and how to position your firm and product for growth.

Transfer Information: CSU Transferable

MKT 203 Marketing Communications (3 Units)

Course Advisories: MKT 101.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Study of how businesses use marketing to communicate through advertising and public relations. Topics include identifying target markets, selecting types of media, evaluating and developing ads and implementation of public relations programs.

Transfer Information: CSU Transferable

MKT 205 Consumer Selling Strategies (3 Units)

Course Advisories: MKT 101.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Study of the principles of sales and customer service. Examines how the differences between buyers and sellers impact sales, purchasing and service decisions. Also briefly reviews the use of marketing research methods.

Transfer Information: CSU Transferable

MKT 209 International Marketing (3 Units)

Course Advisories: MKT 101.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Theory and practice of marketing on an international scale. Presents information on the global nature of the marketing process and its impact on the effectiveness of firms entering a different market. Special emphasis is placed on economic and business systems throughout the world. Provides information about the Pacific Rim and EC markets and their development.

Transfer Information: CSU Transferable

MKT 212 Supply Chain Logistics (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

The key elements of international logistics, including definitions, regulations, documentations, transportation, warehousing and pricing, as well as emerging issues of the industry in today's economy. Includes practical exercises and lectures.

Transfer Information: CSU Transferable

MKT 215 Segmentation and Target Marketing (3 Units)

Course Advisories: MKT 101.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Demographics and target marketing are the fundamental concepts by which all ideas begin their developmental process on there way to market launch. Understanding the components of demographics, psychographics, geographics, and benefit segmentation have, through technology, allowed all size target markets to potentially be served and profitability to be achievable.

Transfer Information: CSU Transferable

MKT 220 Introduction To Electronic Commerce (3 Units)

Same as: CIS 220

Course Advisories: BUS 101 and COMP 103.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Survey of electronic commerce and the use of the Internet to conduct business. Includes an interdisciplinary exploration of the issues, trends, opportunities and technologies which shape electronic commerce.

Transfer Information: CSU Transferable

MKT 221 Tourism and Hospitality Marketing (3 Units)

Hours: 54 (54 lecture)

Examines the field of marketing in the global tourism and hospitality industries. Provides students with a broad understanding of planning, organizing, leading and implementing marketing strategies. Topics covered include examination of tourism management and marketing concepts involving strategic planning, decision making, organizational planning, social responsibility and diversity in a global marketplace. Transfer Information: CSU Transferable

MKT 223 Digital Destination Marketing (3 Units)

Hours: 54 (54 lecture)

Examines the specific role of digital marketing in a global customer driven economic space. Topics covered include general marketing communication concepts, social media marketing, e-commerce, and consumer selling strategies. Special topics include digitization practices for the tourism industry and maximizing customer relationships. Transfer Information: CSU Transferable

MKT 225 Strategic Positioning in Global Tourism (3 Units)

Hours: 54 (54 lecture)

Explores current strategies leveraged by physical and digital based tourism companies. Examines the impact of various strategies in a global customer driven economic space. Topics covered include S.W.O.T. analysis, customer relationship management, innovative tourism strategies, experiential tourism and sustainable tourism. Transfer Information: CSU Transferable

Mathematics (MATH)

Credit Courses

MATH 007C Support for Intermediate Algebra (2 Units)

Same as: MATH 077

Prerequisites: or equivalent based on SBCC's Assessment Center placement via multiple measures.

Corequisites: MATH 107.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies and concepts for intermediate algebra. Intended for students who are concurrently enrolled in Math 107 Intermediate Algebra. Review topics include skills developed in pre-algebra and elementary algebra, operations on integers and fractions, simplifying and manipulating algebraic expressions, solving simple linear equations, applying basic geometric formulas, translation from English to algebra, and using the vocabulary/language of arithmetic and pre-algebra.

MATH 010C Support for Statistics and Liberal Arts Math (2 Units)

Prerequisites: MATH 107 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Corequisites: MATH 117 or MATH 114 or MATH 108.

Skills Advisories: Eligibility for ENG 098.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies and concepts for elementary statistics and liberal arts mathematics. Intended for students who are concurrently enrolled in Math 117 Elementary Statistics, Math 114 Mathematics for Liberal Arts Majors, or Math 108 Mathematics for Elementary Teachers at Santa Barbara City College. Review topics include skills developed in elementary algebra and intermediate algebra, translation from English to algebra, evaluation of literal expressions, solving and graphing linear equations and calculator skills.

MATH 037C Support for College Algebra (2 Units)

Prerequisites: MATH 107 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Corequisites: MATH 137.

Skills Advisories: Eligibility for ENG 098.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies, and concepts for college algebra. Intended for students who are concurrently enrolled in Math 137 College Algebra at Santa Barbara City College. Review topics include skills developed in elementary algebra and intermediate algebra, with an emphasis on refining skills in algebraic manipulation and simplification of linear, quadratic, polynomial, radical, and rational expressions, functions and graphing.

MATH 041 Fundamentals in Mathematics and Pre-Algebra (5 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 90 (90 lecture)

Foundational course, including language development, place value; definitions, concepts and operations on whole numbers, fractions, decimals, ratios, proportions, percentage and signed numbers; U.S. and metric measurement systems; introduction to algebra, rules of exponents, roots, evaluation and simplification of algebraic expressions; solving linear equations, basic polynomial factoring, and introduction to graphing. Application/word problems throughout the course.

MATH 041W Workshop for Fundamentals in Mathematics and Pre-Algebra (1 Unit)

Corequisites: MATH 41. Concurrent enrollment in Math 41.

Hours: 54 (54 lab)

Concurrent Open-entry/open-exit supplementary problem-solving course designed for students currently enrolled in Math 41. Co-requisites: Concurrent enrollment in Math 41.

MATH 074 Pre-algebra Refresher (1 Unit)

Hours: 18 (18 lecture)

Pre-algebra refresher for students who desire higher placement; students who've completed Math 004 but need review; or those who have attempted Math 95 and need pre-algebra review. Successful completion of this course may serve as a petition to challenge Math 4. Course does not replace a failing grade in Math 4.

MATH 077 Support for Intermediate Algebra (2 Units)

Prerequisites: Placement by SBCC assessment through multiple measures.

Corequisites: MATH 107.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies and concepts for intermediate algebra. Intended for students who are concurrently enrolled in Math 107 Intermediate Algebra. Review topics include skills developed in pre-algebra and elementary algebra, operations on integers and fractions, simplifying and manipulating algebraic expressions, solving simple linear equations, applying basic geometric formulas, translation from English to algebra, and using the vocabulary/language of arithmetic and pre-algebra. Transfer Information: Extnl - Not Degree Applicable

MATH 080 Elementary Algebra Refresher (1 Unit)

Hours: 18 (18 lecture)

For students who assessed into Math 95 and wish to improve their assessment level or who unsuccessfully attempted Math 107 and need review of elementary algebra. Successful completion may serve as a petition to challenge Math 95 through a comprehensive exam.

MATH 087 Intermediate Algebra Refresher (1 Unit)

Hours: 18 (18 lecture)

Intermediate algebra refresher for students who desire higher placement; students who have completed Math 107 but need review; or those who have attempted Math 120 and need review. Successful completion of this course may serve as a petition to challenge Math 107. Course does not replace a failing grade in Math 107.

MATH 095 Elementary Algebra (5 Units)

Prerequisites: MATH 004 or MATH 041 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (90 lecture)

Beginning algebra, similar to a standard first-year high school algebra course. Includes a review of signed numbers and their properties, equations and inequalities in one variable, graphing linear equations, systems in two variables, integer exponents, rational and polynomial expressions, quadratic equations, the quadratic formula and graphing parabolas.

MATH 107 Intermediate Algebra (5 Units)

Prerequisites: MATH 095 or MATH 007C or or equivalent based on SBCC's Assessment Center placement via multiple measures.

Hours: 90 (90 lecture)

Second course in algebra, including algebraic manipulation of polynomials, rational expressions, exponents, radicals, linear equations, ratio and proportion, inequalities, word problems, quadratic equations, systems of linear and quadratic equations. An introduction to functions and nonlinear equations. Exponential and logarithmic functions and their applications.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

MATH 108 Mathematical Concepts for Elementary School Teachers-Number Systems (4 Units)

Prerequisites: MATH 107 or equivalent, based on SBCC's Assessment Center placement via multiple measures.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 72 (72 lecture)

Recommended for prospective and in-service elementary school teachers. Mathematical investigations and problem solving involving sets, number sense, integers, and rational and real numbers.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, CSU Transferable, UC Transferable
C-ID: Math 120.

MATH 110C Support for Statistics and Liberal Arts Math (2 Units)

Prerequisites: MATH 107 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Corequisites: MATH 117 or MATH 114 or MATH 108.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies and concepts for elementary statistics and liberal arts mathematics. Intended for students who are concurrently enrolled in Math 117 Elementary Statistics, Math 114 Mathematics for Liberal Arts Majors, or Math 108 Mathematics for Elementary Teachers at Santa Barbara City College. Review topics include skills developed in elementary algebra and intermediate algebra, translation from English to algebra, evaluation of literal expressions, solving and graphing linear equations and calculator skills.

SBCC General Education: SBCCGE Area E1

MATH 114 Mathematics for Liberal Arts Majors (4 Units)

Prerequisites: MATH 107 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Hours: 72 (72 lecture)

Intended to broaden students' understanding of methods, history and applications of mathematics. Logic, mathematical proofs, numeration systems, modular arithmetic, coordinate geometry and graphing, elementary probability and statistics, linear programming and financial math.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

MATH 117 Elementary Statistics (4 Units)

Prerequisites: MATH 107 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

General education mathematics course. Introduction to design of experiments, descriptive statistics and sampling distributions. Central Limit Theorem, statistical inference, confidence interval estimation, tests of hypotheses, correlation and linear regression, categorical variables, Chi-square, one-way ANOVA, and multiple comparisons procedure.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 117, PSY 150 and SOC 125 combined: maximum credit, one course.

C-ID: MATH 110.

MATH 130 Calculus for Biological Sciences, Social Sciences and Business I (5 Units)

Prerequisites: MATH 137 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (90 lecture)

Calculus of one variable, limits, continuity, differentiation, Riemann approximations, definite and indefinite integrals; introduction to integration techniques, exponential and logarithmic functions, curve-sketching, maxima/minima problems, and related rates and applications.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 130 and MATH 150 combined: maximum credit, one course.

C-ID: MATH 140.

MATH 130C Support for Calculus for Biological Sciences, Social Sciences and Business I (2 Units)

Prerequisites: Placement by SBCC assessment through multiple measures or.

Corequisites: MATH 130.

Skills Advisories: Eligibility for ENG 098.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies and advanced algebra concepts for calculus. Intended for students who are concurrently enrolled in Math 130 Calculus for Biological Sciences, Social Sciences and Business I at Santa Barbara City College. Review topics include skills developed in college algebra, with an emphasis on refining skills in algebraic manipulation, functions and geometry.

Transfer Information: CSU Transferable

MATH 131 Calculus For Biological Sciences, Social Sciences And Business II (3 Units)

Prerequisites: MATH 130.

Course Advisories: ENG 098 or ENG 103.

Hours: 54 (54 lecture)

Techniques of integration for single and multivariable calculus, functions of several variables, partial differentiation, maxima/minima problems, differential equations, and probability. Optional topics: infinite series, Taylor's Theorem and the calculus of trigonometric functions.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 131 and 160 combined: maximum credit, one course.

MATH 137 College Algebra (5 Units)

Prerequisites: MATH 107 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (90 lecture)

Extensive treatment of functions and graphing techniques, including translations, symmetries, reflections, and graphs of inverse functions. Analysis and applications of polynomial, rational, absolute value, exponential and logarithmic functions. Systems of equations and inequalities, conics, and sequences and series.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 137 and MATH 138 combined: maximum credit, 5 semester/7.5 quarter units.

MATH 137C Support for College Algebra (2 Units)

Prerequisites: MATH 107 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Corequisites: MATH 137.

Skills Advisories: Eligibility for ENG 098.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies, and concepts for college algebra. Intended for students who are concurrently enrolled in Math 137 College Algebra at Santa Barbara City College. Review topics include skills developed in elementary algebra and intermediate algebra, with an emphasis on refining skills in algebraic manipulation and simplification of linear, quadratic, polynomial, radical, and rational expressions, functions and graphing.

SBCC General Education: SBCCGE Area E1

MATH 138 Precalculus - College Algebra and Trigonometry (4 Units)

Prerequisites: MATH 137 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Hours: 72 (72 lecture)

Advanced algebra course emphasizing analysis, graphing and applications of trigonometric functions. Such functions are developed from circular functions. Trigonometric identities and conditional equations, applications to triangles, vectors, complex numbers, parametric equations and polar coordinates are covered. Additional topics include matrix algebra, logic and structure of proof, and the Binomial Theorem.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 137 and MATH 138 combined: maximum credit, 5 semester/7.5 quarter units.

C-ID: MATH 120.

MATH 138C Support for Precalculus (2 Units)

Prerequisites: Placement by SBCC assessment through multiple measures or MATH 120.

Corequisites: MATH 138.

Skills Advisories: Eligibility for ENG 098.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies and advanced concepts for precalculus. Intended for students who are concurrently enrolled in Math 138 Precalculus II at Santa Barbara City College. Review topics include skills developed in college algebra, with an emphasis on refining skills in algebraic manipulation, functions and geometry.

Transfer Information: CSU Transferable

MATH 150 Calculus with Analytic Geometry I (5 Units)

Prerequisites: MATH 138 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Skills Advisories: Eligibility for ENG 098 and ENG 103.

Hours: 90 (90 lecture)

Limits, derivatives and integrals of algebraic, trigonometric, exponential and logarithmic functions. Differentials and applications of the derivative.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 130 and 150 combined: maximum credit, one course.

C-ID: MATH 210.

MATH 150C Support Course for Calculus with Analytic Geometry I (2 Units)

Prerequisites: placement by SBCC assessment through multiple measures or MATH 138.

Corequisites: MATH 150.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies and advanced algebra concepts for calculus. Intended for students who are concurrently enrolled in Math 150 Calculus with Analytic Geometry I at Santa Barbara City College. Review topics include skills developed in college algebra and precalculus, with an emphasis on refining skills in algebraic manipulation, functions, trigonometry and geometry.

Transfer Information: CSU Transferable

MATH 160 Calculus with Analytic Geometry II (5 Units)

Prerequisites: MATH 150.

Hours: 90 (90 lecture)

Techniques of integration; applications of definite integrals; polar and parametric equations; sequences and infinite series; introduction to differential equations and to vectors.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 131 and 160 combined: maximum credit, one course.

C-ID: MATH 220.

MATH 160C Support Course for Calculus with Analytic Geometry II (2 Units)

Corequisites: MATH 160.

Hours: 36 (36 lecture)

Concurrent A review of core prerequisite skills, competencies, advanced algebra and beginning calculus concepts for second semester calculus. Intended for students who are concurrently enrolled in Math 160 Calculus with Analytic Geometry II at Santa Barbara City College. Review topics include skills developed in college algebra, precalculus, and first-semester calculus, with an emphasis on refining skills in algebraic manipulation, functions, trigonometry, proofs, limits and differentiation.

Transfer Information: CSU Transferable

MATH 180 Transition to Advanced Mathematics (3 Units)

Prerequisites: MATH 160.

Hours: 54 (54 lecture)

Designed to introduce students to the rigors of advanced mathematics courses, with an emphasis on reading and writing proofs. Topics include set theory and logic, relations, functions, induction, countable and uncountable sets, the Heine-Borel Theorem and the Bolzano-Weierstrass Theorem. Some elementary group theory and/or topology is covered.

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

MATH 188 Trigonometry Refresher (1 Unit)

Hours: 18 (18 lecture)

This short course is intended for students who wish to review trigonometry topics before or while taking Calculus or higher courses. A computer program is used to refresh concepts identified as needed for each student, plus weekly contact with the instructor. This course is not intended to replace Math 138.

MATH 200 Multivariable Calculus (4 Units)

Prerequisites: MATH 160.

Hours: 72 (72 lecture)

Functions of several variables, multiple integrals and applications, partial differentiation and applications, calculus of vector functions, Green's Theorem, Stokes' Theorem, and Divergence Theorem.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

C-ID: MATH 230.

MATH 210 Linear Algebra (4 Units)

Prerequisites: Math 160.

Hours: 72 (72 lecture)

Finite dimensional vector spaces, linear independence, basis, systems of linear equations, linear transformations, matrices, LU factorization, change of basis, similarity of matrices, eigenvalues and eigenvectors, applications, quadratic forms, symmetric and orthogonal matrices, canonical forms, and introduction to infinite dimensional vector spaces.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

C-ID: MATH 250.

MATH 220 Differential Equations (4 Units)

Prerequisites: Math 200 and Math 210.

Hours: 72 (72 lecture)

Theory and applications of ordinary and partial differential equations. Topics include constant coefficient equations, series techniques, introduction to Laplace Transforms, qualitative and quantitative solutions to linear and nonlinear systems of differential equations, and separable partial differential equations.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

C-ID: MATH 240.

Multimedia Arts and Technologies (MAT)

Credit Courses

MAT 103 Introduction to Multimedia (3 Units)

Hours: 90 (36 lecture, 54 lab)

Provides a comprehensive look at the concepts and principles of digital media and computer graphics, and the consequences and influences in our current world. Elements of sensorial perception, psychology and narrative regarding media will be explored. Analysis of photography, film, animation, video and gaming, regarding elements of linear and interactive structures including history, aesthetics, and their cultural significance.

Transfer Information: CSUGE Area C1, CSU Transferable, UC Transferable

MAT 105 Survey Of Multimedia Tools (3 Units)

Course Advisories: MAT 103.

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Overview of tools and applications used to produce interactive multimedia, including software applications, peripherals and hardware. Major applications for design, photo processing, web design, authoring and video. Evaluation and description of the strengths of each program and potential for integration of production applications.

Transfer Information: CSU Transferable

MAT 109 Informational Graphics for the Web (0.5 Units)

Hours: 9 (9 lecture)

Overview of how to create and publish on the web; informational graphics, with typical office applications (MS Word, Excel, PowerPoint, FileMaker, etc.).

MAT 112 Digital Drawing (3 Units)

Hours: 90 (36 lecture, 54 lab)

Introduction to digital drawing through the powerful art tool Adobe Illustrator. Create vector-based artwork that translates well to other graphic software and media. Create icons, characters, illustrations, interface elements and patterns. Work with type, native 2D shapes, 3D effects and vectorized bitmaps.

Transfer Information: CSU Transferable, UC Transferable

MAT 116 Interactive Design I (3 Units)

Hours: 90 (36 lecture, 54 lab)

Introduction to principles of Interactivity through the production of projects that use animation, interactive storytelling, interface design and responsive maps. Students learn to structure non-linear content and are exposed to principles of user experience, working with a variety of graphic and audio assets.

Transfer Information: CSU Transferable, UC Transferable

MAT 118 2-D Animation techniques (3 Units)

Hours: 90 (36 lecture, 54 lab)

Students will develop stronger skills in 2-D digital Animation. We will work with timing, storytelling, audio syncing, stop-motion, rotoscope and matting techniques. We will explore and recognize styles and techniques, incorporate both vector-based and bitmap graphics, and integrate photographic and video material.

Transfer Information: CSU Transferable, UC Transferable

MAT 121 Computer Interface Design (3 Units)

Hours: 90 (36 lecture, 54 lab)

Building Graphic user-interfaces (GUI) through the principles of computer interaction: window, icon, menu and mouse activity. Strategies to organize information on an interactive screen. Case Studies: Computer, Web and Mobile devices/Apps. Behavior, Usability(UX)and basic Prototyping. Good digital graphic-skills required.

Transfer Information: CSU Transferable, UC Transferable

MAT 131 Digital Imaging I (3 Units)

Hours: 90 (36 lecture, 54 lab)

An introduction to the image processing capabilities of PhotoShop to create and edit images and to prepare images for various media. No prior knowledge of PhotoShop is required. Includes Tools Selection, Channels, Layers, Filters, Text, Brushes, Effects, Masks, Adjustment Layers.

Transfer Information: CSU Transferable, UC Transferable

MAT 132 Digital Imaging II (3 Units)

Course Advisories: MAT 131 and 112.

Skills Advisories: Eligibility for English 98 and 103.

Hours: 90 (36 lecture, 54 lab)

Advanced Photoshop course which builds on skills learned in MAT 131. Students work on projects which challenge their creativity and technical ability. Working with this image manipulation software, students develop complex commercial and surreal projects.

Transfer Information: CSU Transferable

MAT 134A Classical Animation I (3 Units)

Same as: ART 124A

Course Advisories: ART 120.

Hours: 90 (36 lecture, 54 lab)

Basic principles of animation studied through drawing and other media. Includes analytical understanding and depiction of movement of things and natural life forms in the real world.

Transfer Information: CSU Transferable

MAT 134B Classical Animation II (3 Units)

Same as: ART 124B

Prerequisites: ART 124A, MAT 134A.

Course Advisories: ART 120.

Hours: 90 (36 lecture, 54 lab)

Further study and application of animation principles through drawing, with emphasis on character development, timing, action analysis, complex movement and the filmmaking process.

Transfer Information: CSU Transferable

MAT 136 Introduction to 3D Animation (3 Units)

Hours: 90 (36 lecture, 54 lab)

Fundamentals of 3D animation including modeling, animation and rendering. Focuses on computer animation tools and techniques, and builds a solid foundation for developing character animation and special effect sequences.

Transfer Information: CSU Transferable, UC Transferable

MAT 137 Visual Effects for Film, Television and Gaming (3 Units)

Prerequisites: DRFT 136/MAT 136.

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Course on visual effects using 3-D and Compositing software to complete the scene production. Utilizing particles, rigid-bodies and soft bodies, students apply techniques for creating natural phenomena, such as waterfalls and blowing leaves. Also explored are methods for simulating physical interactions, such as a chair falling down a staircase.

Transfer Information: CSU Transferable, UC Transferable

MAT 138 3-D Character Animation (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Advanced 3-D computer animation course on character animation, including character design, modeling techniques for bodies, heads, hands and feet, skeletal and muscle systems, facial animation and lip-syncing to dialogue.

Transfer Information: CSU Transferable, UC Transferable

MAT 139 3-D Lighting And Rendering (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 90 (36 lecture, 54 lab)

Advanced 3-D computer animation course on the art and science of lighting and rendering. Techniques for creating photo-realistic computer-generated imagery explored, including lighting, shadowing, texture mapping and shader manipulation.

Transfer Information: CSU Transferable, UC Transferable

MAT 141 3-D Modeling (3 Units)

Hours: 90 (36 lecture, 54 lab)

Fundamentals of 3-D modeling, texturing, lighting and rendering. Focus on 3-D modeling tools and techniques. Builds a solid foundation for designing and modeling products, characters, sets and props for animation, product advertisements, movies and video games.

Transfer Information: CSU Transferable, UC Transferable

MAT 145 Video Game Design (3 Units)

Hours: 90 (36 lecture, 54 lab)

Introduction to the design and development of video games. Focuses on the elements that make computer games compelling and the basics of game mechanics and environments to their stories and social experiences. Covers industry workflow from theories and practices to a hands-on AAA game engine. No programming experience is necessary.

Transfer Information: CSU Transferable, UC Transferable

MAT 149 Social Networking and Social Media (3 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

The use and creation of media content in developing, integrating and leveraging social networks and applications. Through integration of a variety of social networking applications, students learn about how the creation of media content helps to establish network and communities of shared professional and personal interests. Includes online applications Wikis, Youtube, Vimeo, Flickr, Myspace, Facebook, Digg, etc., and their use as media-oriented platforms.

Transfer Information: CSU Transferable

MAT 153 Web Design I (3 Units)

Course Advisories: Art 140.

Hours: 90 (36 lecture, 54 lab)

Students focus on design principles, including: usability, color, layout, fonts, negative space, image quality and placement. Students learn: designing with grids, designing for different screen environments, sizing and optimizing photos. Proficiency in Photoshop required.

Transfer Information: CSU Transferable

MAT 154 Web Design II: Integration (3 Units)

Prerequisites: MAT 153.

Hours: 90 (36 lecture, 54 lab)

Students learn the difference between markup and presentation, how to create a Web page from scratch, manipulating HTML5, CSS3 and image files. Create layouts that are completely custom and learn about floats and positioning as part of this process. Requires proficiency in Photoshop.

Transfer Information: CSU Transferable

MAT 164 Online and Mobile Marketing (3 Units)

Same as: MKT 164

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Introduction to those components needed to develop effective online and search engine marketing (SEM) strategies. Emerging digital media and mobile advertising campaigns are emphasized. Includes search engine optimization (SEO), paid placement ads, keyword identification, placement strategies, SEM research and management tools, and WAP advertising applications in mobile marketing and video advertising.

Transfer Information: CSU Transferable

MAT 167 3-D Environments Design (3 Units)

Course Advisories: MAT 136, this course will provide you with a basic foundation in the program in which to create 3D Assets for your environments.

Hours: 90 (36 lecture, 54 lab)

MAT 141, this course will help you create models for your environment. MAT 145, this course will provide a foundation with the game engine you work with in your environment. Introduction to the design and creation of a 3D environment for a game or visualization. Students practice with techniques and workflow towards the creation of 3D assets, and bring them into a modern rendering engine, to create there the Environments or worlds where the project will take place. Students complete a 3D portfolio piece from their own inspiration.

Transfer Information: CSU Transferable

MAT 168 Serious Game Prototyping (3 Units)

Hours: 90 (36 lecture, 54 lab)

Prototyping games for virtual reality, simulations, education and marketing. Topics include game play, game-based learning, game concept development and game prototyping. Students explore game prototyping through hands-on projects.

Transfer Information: CSU Transferable

MAT 205 Portfolio Development And Professional Practices (3 Units)

Prerequisites: MAT 153 or GDP 212 or PHOT 180.

Hours: 90 (36 lecture, 54 lab)

In this final course, students learn how to prepare for media arts careers (web design, digital design, audio, animation and video). Communicating with employers through cover letters and interviews, developing resumes and portfolios/reels, and using online resources for job hunting are covered. For the person who has taken several media arts courses and is nearing completion of the program.

Transfer Information: CSU Transferable

MAT 216 Interactive Design II - Simple Games (3 Units)

Prerequisites: MAT 116.

Hours: 90 (36 lecture, 54 lab)

Students further develop skills in interactive production by prototyping projects like simple games and apps. They work on interactive environments to develop portfolio pieces and discover, first hand, about issues in user experience.

Transfer Information: CSU Transferable, UC Transferable

MAT 290 Work Experience In Multimedia (1-4 Units)

Skills Advisories: Eligibility for ENG 98.

Hours: 300 (300 lab)

Supervised employment of students with the intent of creating student awareness of work opportunities, assisting them to acquire desirable work habits, and providing them with experiences in multimedia and related industries. Students perform assigned responsibilities as an employee, follow employer's policies, write individual learning objectives, keep a record of time worked, fill out a student data sheet, and secure an employee evaluation. Course restricted to 3 repetitions

Music (MUS)

Credit Courses

MUS 100 Fundamentals Of Music Techniques (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Learning to read music, developing aural perception, fundamentals of music theory and keyboard skills. (Primarily for non-Music majors)

Transfer Information: CSU Transferable, UC Transferable

C-ID: MUS 110.

MUS 102A Basic Musicianship (3 Units)

Corequisites: MUS 104A.

Hours: 54 (54 lecture)

This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory I through ear training, sight singing, analysis, and dictation. Music majors only; non-majors, see MUS 100.

Transfer Information: CSUGE Area C1, CSU Transferable, UC Transferable

C-ID: MUS 125, MUS 135.

MUS 102B Basic Musicianship (2.5 Units)

Prerequisites: MUS 102A.

Corequisites: MUS 104B.

Hours: 45 (45 lecture)

Musicianship fundamentals for college freshmen or sophomores. Beginning aural and dictation skills are developed to allow the student to solve practical as well as theoretical musical problems. Music majors only; non-majors, see MUS 100.

Transfer Information: CSU Transferable, UC Transferable

MUS 104A Beginning Theory (3 Units)

Corequisites: MUS 102A.

Hours: 54 (54 lecture)

Intervals, keys, scales, chord structure and relationship of diatonic harmonies and non-chordal tones and cadences, harmonization of melodies. Music majors only; non-majors see MUS 100.

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

C-ID: MUS 120.

MUS 104B Beginning Theory (3 Units)

Prerequisites: MUS 104A.

Corequisites: MUS 102B.

Hours: 54 (54 lecture)

This course incorporates the concepts from Music Theory I. Through guided composition and analysis, the course will include fundamental two voice contrapuntal principles and chromatic chord functions and voice-leading. Music majors only; non-majors see MUS 100.

Transfer Information: CSU Transferable, UC Transferable

MUS 110 Music Appreciation (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Survey of music history and literature; its elements, construction, forms, styles and composers from Medieval through contemporary periods.

Guided listening to masterpieces. Concert attendance. Primarily for non-Music majors.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

UC Transfer Limit: MUS 110 and 110H combined: maximum credit, one course.

C-ID: MUS 100.

MUS 112 History And Appreciation Of Contemporary Jazz And 20th Century American Music (3 Units)

Hours: 54 (54 lecture)

General survey of jazz music history of the 20th century, with emphasis on eclecticism, cultural and ethnic diversity as related to current musical styles. Primarily for non-Music majors.

SBCC General Education: SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

MUS 114A Survey Of Music History (3 Units)

Hours: 54 (54 lecture)

This course is a survey of music history and literature from antiquity to 1750, including cultural, intellectual and social influences, and provides an in-depth examination of the development of Western European music through analysis and synthesizing of historical details and stylistic elements of the musical trends of the era.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

MUS 114B Survey Of Music History (3 Units)

Hours: 54 (54 lecture)

This course is a survey of music history and literature from 1750 to the present, including cultural, intellectual and social influences. This course provides an in-depth examination of the development of Western European music through analysis and synthesizing of historical details and stylistic elements of the musical trends of the era.

SBCC General Education: SBCCGE Area C

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

MUS 115 History And Appreciation Of Rock And Popular Music (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

General survey of rock and popular music, concentrating on the period from the late 1940s to the late 1990s. (Primarily for non-Music majors).

SBCC General Education: SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

MUS 118 World Music (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Survey of world music traditions, including the style and performance practice of various cultures and the resulting social, cultural and historical role of the music and musicians.

SBCC General Education: SBCCGE Area C, SBCCGE Area E5

Transfer Information: CSUGE Area C1, IGETC Area 3A, CSU Transferable, UC Transferable

MUS 120A Sound Recording And Electronic Music (3 Units)

Hours: 54 (54 lecture)

This introductory course examines the terminology, equipment, techniques, and concepts related to music technology. The course will survey the principles and practices of sound, MIDI, synthesis, notation, and audio recording utilizing hardware and software platforms.

Transfer Information: CSUGE Area C1, CSU Transferable

MUS 120B Sound Recording And Electronic Music (3 Units)

Prerequisites: MUS 120A.

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Intermediate-level continuation, with emphasis on composition/analysis.

Transfer Information: CSU Transferable

MUS 122 Music Technology For Musicians (3 Units)

Course Advisories: MUS 100.

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Introduction to the basic techniques of computer-based composition, notation, digital audio editing and encoding techniques for musicians. Recommended for Music majors.

Transfer Information: CSU Transferable

MUS 123 Business of Music (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Designed to give students information on all aspects of the business of music, including entrepreneurial opportunities, management and promotion skills, basic elements of copyright, publishing, and management contract laws.

Transfer Information: CSU Transferable

MUS 128A Songwriting I (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Study of the skills and techniques of popular song writing in a variety of genres. Topics include lyrics, song structures, chord progressions, melodies, and analysis of popular songs.

Transfer Information: CSU Transferable

MUS 128B Songwriting II (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Study and practice of the skills and techniques of popular song writing in a variety of genres. Second semester includes more commercial applications for advertising, writing for instruments and arranging.

Transfer Information: CSU Transferable

MUS 129A Intermediate Songwriting I (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Continued study and practice of the skills and techniques of popular song writing in a variety of genres. Emphasis on commercial applications for advertising, writing for instruments and arranging.

Transfer Information: CSU Transferable

MUS 129B Intermediate Songwriting II (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lecture)

Commercial applications including songwriting for advertising, writing for instruments, and arranging.

Transfer Information: CSU Transferable

MUS 132A Summer Jazz Seminar (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Exploratory courses in jazz designed to supplement regular college and school programs with training in the areas of instrumental jazz performance. Open to students performing on jazz instruments.

Transfer Information: CSU Transferable, UC Transferable

MUS 132B Summer Jazz Seminar II (3 Units)

Skills Advisories: Eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Exploratory course in jazz, with continued training in instrumental jazz performance. Open to students performing on jazz instruments.

Transfer Information: CSU Transferable, UC Transferable

MUS 133 Summer Jazz Seminar: Intermediate (3 Units)

Course Advisories: MUS 132A

Skills Advisories: Eligibility for ENG 103.

Hours: 72 (45 lecture, 27 lab)

Intermediate course in jazz designed to supplement regular school and college programs with training in instrumental jazz performance. Open to students performing on jazz instruments.

Transfer Information: CSU Transferable

MUS 140A Beginning Piano (1 Unit)

Hours: 54 (0 lecture, 54 lab)

This course is an introduction to beginning keyboard skills, including notation. It includes basic technique, major and minor five finger patterns, major scales, sight reading and basic chord progressions, as they are encountered in beginning piano music.

Transfer Information: CSU Transferable, UC Transferable

MUS 140B Beginning Piano (1 Unit)

Prerequisites: MUS 140A.

Hours: 54 (0 lecture, 54 lab)

In this course students refine and further develop beginning keyboard skills. This includes piano technique, major scales and arpeggios, sight-reading, chord progressions and harmonization and transposition skills, as encountered in upper-beginning/early intermediate piano music.

Transfer Information: CSU Transferable, UC Transferable

MUS 142A Intermediate Piano (1 Unit)

Prerequisites: MUS 140B.

Hours: 54 (0 lecture, 54 lab)

This course will allow students to refine and develop beginning keyboard skills. Piano technique, major and minor scales and arpeggios, sight-reading, expanded chord progressions, and harmonization and transposition skills are encountered in intermediate piano music.

Transfer Information: CSU Transferable, UC Transferable

MUS 142B Intermediate Piano (1 Unit)

Prerequisites: MUS 142A.

Skills Advisories: Eligibility for ENG 103.

Hours: 36 (18 lecture, 18 lab)

Class piano techniques for intermediate students; designed to provide pleasure in playing the piano. Development of skills in sight reading, melody harmonization, improvisation, transposition and musical interpretation of the standard classics.

Transfer Information: CSU Transferable, UC Transferable

MUS 146 Beginning Guitar (1 Unit)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Class method for beginning guitar students to provide pleasure in playing the guitar. Development of skills in note-reading, sight-reading, chord symbols and understanding music theory.

Transfer Information: CSU Transferable, UC Transferable

MUS 147 Popular Guitar Styles Beginning (1 Unit)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Class for developing guitar skills used in folk, rock, blues, and jazz. Class involves study of strumming patterns, finger picking, chords voicings, and soloing. Emphasis on playing by ear. Guitar must be provided by student.

Transfer Information: CSU Transferable, UC Transferable

MUS 148 Intermediate Guitar (1 Unit)

Course Advisories: MUS 146.

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

For intermediate guitarists. Skills in reading more complex chord symbols, chord progressions, voice leading, major scales in all positions, inversions of triads, and right-hand finger-picking patterns.

Transfer Information: CSU Transferable, UC Transferable

MUS 149 Popular Guitar Styles Intermediate (1 Unit)

Prerequisites: MUS 147.

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Course for Intermediate guitar students to learn folk, blues, jazz, and other pop guitar styles. Emphasis on playing by ear. Guitar must be provided by student.

Transfer Information: CSU Transferable, UC Transferable

MUS 150 Beginning String Techniques (1 Unit)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Instruction in the fundamentals of playing an orchestral string instrument (violin, viola, cello and string bass). Any student may enroll, but Music majors are given first priority on use of college instruments.

Transfer Information: CSU Transferable, UC Transferable

MUS 151 Intermediate String Techniques (1 Unit)

Prerequisites: MUS 150.

Skills Advisories: Eligibility for ENG 103.

Hours: 36 (18 lecture, 18 lab)

Continuation of instruction in the fundamentals of playing an orchestral string instrument (violin, viola, cello and string bass). Any student may enroll, but Music majors are given first priority on use of college instruments.

Transfer Information: CSU Transferable, UC Transferable

MUS 152 Beginning Wind And Percussion Techniques (1 Unit)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Introduction to the basic techniques of instrumental performance-brass, woodwind and percussion. Recommended for Music majors.

Transfer Information: CSU Transferable, UC Transferable

MUS 153 Intermediate Wind And Percussion Techniques (1 Unit)

Prerequisites: MUS 152.

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Continuation of instruction in the basic techniques of instrumental performance - brass, woodwind and percussion. Ensemble experience for Music majors and others on their secondary instruments.

Transfer Information: CSU Transferable, UC Transferable

MUS 154 Vocal Techniques I (1 Unit)

Skills Advisories: Eligibility for ENG 103.

Hours: 54 (54 lab)

Development of fundamental singing skills, including stage presence, posture, breath control, tone production, diction, musical interpretation and preparation of musical selections for performance.

Transfer Information: CSU Transferable, UC Transferable

MUS 155 Vocal Techniques II (1 Unit)

Course Advisories: MUS 154.

Hours: 108 (54 lecture, 54 lab)

Conceptual non-mathematical introduction to the physical sciences.

Topics of current interest from astronomy, physics, chemistry, geology, weather and the environment. Practical illustrations taken from art, music, sports, the home. Recommended for all non-science majors.

Satisfies General Education laboratory science requirement.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A,

IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: No credit for PHSC 103 if taken after a college level course in astronomy, chemistry, geology, or physics.

PHSC 107 Nanoscience in Society (4 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 95.

Hours: 108 (54 lecture, 54 lab)

Interdisciplinary physical sciences course that uses the fundamental principles of science to examine nanoscience, nanotechnology, and the societal impact of these emerging technologies on our lives and environment. Topics of interest include development and global sustainability, nanotechnology and personal responsibility, developing a green future, the pros and cons of emerging nanotechnologies, and energy.

SBCC General Education: SBCCGE Area A

IGETC Area 5C, CSU Transferable, UC Transferable

Physics (PHYS)

Credit Courses

PHYS 101 Conceptual Physics (3 Units)

Skills Advisories: Eligibility for ENG 098 and proficiency in MATH 001 or MATH 041.

Hours: 54 (54 lecture)

Concept-oriented non-mathematical course in general physics. Topics include motion, heat, sound, light, electricity and modern physics. Special emphasis on everyday experience, with practical illustrations taken from art, music, sports, the home.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B1, IGETC Area 5A, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 101, 101L and 102 combined: maximum credit, 4 units; no credit for PHYS 101 or 102 if taken after 105.

PHYS 101L Conceptual Physics Laboratory (1 Unit)

Corequisites: PHYS 101.

Skills Advisories: Eligibility for ENG 98 and proficiency in MATH 1 or MATH 41.

Hours: 54 (54 lab)

Concept-oriented laboratory in general physics. Topics include motion, heat, sound, light, electricity and modern physics. Special emphasis on everyday experience, with practical illustrations taken from art, music, sports, the home.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 101, 101L and 102 combined: maximum credit, 4 units.

PHYS 102 Introductory Physics For Science Majors (4 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 104 or MATH 107 or MATH 111.

Hours: 108 (54 lecture, 54 lab)

Introductory course, with quantitative applications and problem-solving introduced where appropriate, for students majoring in the physical sciences. Topics include the meaning of physical law, vectors, Newton's Laws of Motion (classical physics), work and energy, waves, electricity, magnetism, light, atomic and nuclear physics.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 101, 101L and 102 combined: maximum credit, 4 units; no credit for PHYS 101 or 102 if taken after 105.

PHYS 105 General Physics (4 Units)

Prerequisites: Mah 137 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Hours: 108 (54 lecture, 54 lab)

Newton's Laws of Motion, statics and dynamics of particles and rigid bodies, work and energy, rotational motion, fluid statics and dynamics, temperature and heat, thermodynamics, wave motion and sound.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 105 and 106 or PHYS 110 and 111 or 121, 122 and 123 combined: maximum credit, one series.

C-ID: C-ID PHYS 105 or C-ID PHYS 100S (with SBCC's PHYS 106).

PHYS 105D Physics Discussion I (1 Unit)

Corequisites: PHYS 105 or PHYS 110.

Hours: 54 (54 lab)

Concurrent Discussion session designed to accompany PHYS 105 or PHYS 110. This course will allow for extra practice and group discussion of the course topics, and also cover more in-depth problem solving techniques and applying the concepts to real world scenarios. Topics include Newton's Laws of Motion, statics and dynamics of particles and rigid bodies, work and energy, rotational motion, fluid statics and dynamics, temperature and heat, thermodynamics, wave motion and sound.

Transfer Information: CSU Transferable, UC Transferable

PHYS 106 General Physics (4 Units)

Prerequisites: MATH 137 or equivalent based on SBCC's Assessment Center placement via multiple measures.

Hours: 108 (54 lecture, 54 lab)

, PHYS 105. Electricity, magnetism, circuits, optics, relativity, atomic and nuclear physics.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 105 and 106 or PHYS 110 and 111 or 121, 122 and 123 combined: maximum credit, one series.

C-ID: C-ID PHYS 110 or C-ID PHYS 100S (with SBCC's PHYS 105).

PHYS 106D Physics Discussion II (1 Unit)

Corequisites: PHYS 106 or PHYS 111.

Hours: 54 (54 lab)

Concurrent Discussion session designed to accompany PHYS 106 or PHYS 111. This course will allow for extra practice and group discussion of the course topics, and also cover more in-depth problem solving techniques and applying the concepts to real world scenarios. Topics include electricity, magnetism, circuits, optics, relativity, atomic and nuclear physics.

Transfer Information: CSU Transferable, UC Transferable

PHYS 110 Introductory Physics (4 Units)

Prerequisites: MATH 130 or MATH 150.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 108 (54 lecture, 54 lab)

Newton's Laws of Motion, statics and dynamics of particles and rigid bodies, work and energy, rotational motion, fluid statics and dynamics, temperature and heat, thermodynamics, wave motion and sound.

(Appropriate for Life Science majors requiring calculus-level physics).

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 105 and 106 or PHYS 110 and 111 or 121, 122 and 123 combined: maximum credit, one series.

C-ID: PHYS 105.

PHYS 111 Introductory Physics (4 Units)

Prerequisites: PHYS 110 and MATH 130 or MATH 150.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 108 (54 lecture, 54 lab)

Electricity, magnetism, circuits, optics, relativity, atomic and nuclear physics. Appropriate for Life Science majors requiring calculus-level physics.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 105 and 106 or PHYS 110 and 111 or 121, 122 and 123 combined: maximum credit, one series.

C-ID: PHYS 110.

PHYS 121 Mechanics Of Solids And Fluids (5 Units)

Prerequisites: PHYS 102 or trigonometry based High School Physics and Math 150.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 126 (72 lecture, 54 lab)

For Engineering and Physical Science students. Statics and dynamics of particles and rigid bodies, Newton's Laws of Motion, conservation principles, rotational motion, simple harmonic motion, wave motion and sound, and introduction to hydrostatics and hydrodynamics.

SBCC General Education: SBCCGE Area A

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 105 and 106 or PHYS 110 and 111 or 121, 122 and 123 combined: maximum credit, one series.

C-ID: PHYS 200S, PHYS 205.

PHYS 121W Workshop for Physics 121 (1 Unit)

Corequisites: PHYS 121 (concurrent).

Hours: 54 (54 lab)

'Excellence in Mathematics, Science and Engineering' (EMSE) supplementary problem-solving workshop designed for PHYS 121.

PHYS 122 Electricity and Magnetism (5 Units)

Prerequisites: PHYS 121 and MATH 160.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 126 (72 lecture, 54 lab)

For Engineering and Physical Science students. Electrostatics, Coulomb's Law, Gauss' Law, capacitors and dielectrics, DC circuits, Ohm's Law, magnetism, and electromagnetism, Ampere's Law, Faraday's Law, alternating current theory, electrical oscillators, electromagnetic radiation and electromagnetic waves.

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 105 and 106 or PHYS 110 and 111 or 121, 122 and 123 combined: maximum credit, one series.

C-ID: PHSY 200S, PHYS 210.

PHYS 122W Workshop for Physics 122 (1 Unit)

Corequisites: PHYS 122 (concurrent).

Hours: 54 (54 lab)

'Excellence in Mathematics, Science and Engineering' (EMSE) supplementary problem-solving workshop designed for PHYS 122.

PHYS 123 Heat, Light and Modern Physics (5 Units)

Prerequisites: PHYS 121 and MATH 160.

Skills Advisories: Eligibility ENG 110 or ENG 110H.

Hours: 126 (72 lecture, 54 lab)

For Engineering and Physical Science students. Mechanical waves, thermodynamic processes and systems, kinetic theory, light and modern physics.

Transfer Information: CSUGE Area B1, CSUGE Area B3, IGETC Area 5A, IGETC Area 5C, CSU Transferable, UC Transferable

UC Transfer Limit: PHYS 105 and 106 or 110 and 111 or 121, 122 and 123 combined: maximum credit, one series.

C-ID: PHYS 200S, PHYS 215.

PHYS 123W Workshop for Physics 123 (1 Unit)

Corequisites: PHYS 123 (concurrent).

Hours: 54 (54 lab)

'Excellence in Mathematics, Science and Engineering' (EMSE) supplementary problem-solving workshop designed for PHYS 123.

PHYS 298 Independent Reading in Physics (1-4 Units)

Limitations on Enrollment: To be eligible for independent reading, a student must have completed 12 units at SBCC with a G.P.A. of 2.5 and a minimum of 4 units with a G.P.A. of 2.5 in the Physics Department.

Hours: 192 (192 lab)

Other: To be eligible for independent reading, a student must have completed 12 units at SBCC with a G.P.A. of 2.5 and a minimum of 4 units with a G.P.A. of 2.5 in the Physics Department. Independent literature search and/or reading of material on a topic in physics. Student works under guidance and direction of sponsoring faculty member on project consistent with interests and abilities. A final report, including an annotated bibliography, is required.

Transfer Information: CSU Transferable

PHYS 299 Independent Research in Physics (1-4 Units)

Limitations on Enrollment: Completion of a minimum of 12 units at SBCC, with a 2.5 G.P.A., and a minimum of 4 units, with a 2.5 G.P.A. within the department.

Hours: 192 (192 lab)

Independent, systematic research investigation of a problem in physics. A final report on research conducted is required. May be taken four times for credit. Course restricted to 3 repetitions

Political Science (POLS)

Credit Courses

POLS 101 American Government And Politics (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Introduction to Constitutional principles and their application to the political process and institutions of the United States and the State of California. Attention given to political ideas, processes and issues.

SBCC General Education: SBCCGE Area B, SBCCGE Area E2

Transfer Information: CSUGE Area D8, CSU US-2, CSU US-3, IGETC Area 4H, CSU Transferable, UC Transferable

C-ID: POLS 110.

POLS 102 American Government And Politics: Discussion (1 Unit)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 18 (18 lecture)

Optional course intended to augment student understanding of the political process and related issues as presented in Political Science 101.

Transfer Information: CSU Transferable, UC Transferable

UC Transfer Limit: No credit for POLS 102 unless taken concurrently or after 101.

POLS 104 American Government: Policy Issues/Process (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Study of formulation, enactment and impact of public policy issues in the U.S. and the state of California, including environment, health care, energy, poverty and welfare, defense, criminal justice, education, civil rights and budgets. Emphasis on policy models, processes and issues.

SBCC General Education: SBCCGE Area B, SBCCGE Area E2

Transfer Information: CSUGE Area D8, CSU US-2, CSU US-3, IGETC Area 4H, CSU Transferable, UC Transferable

POLS 108 California Government and Politics (2 Units)

Hours: 72 (18 lecture, 54 lab)

Analysis and hands-on experience of the policy process in Sacramento/California, studying and meeting with state and local government entities and all the principals involved in the policy process, from inception to policy implementation. Special Fee: Field Trip fee of \$900.00 will cover lodging, meals and incidentals. Scholarships are available.

Transfer Information: CSU Transferable

POLS 110 Politics, Society And The Mass Media (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Examination of the role played by the mass media in contemporary political society. This survey course includes a focus on such topics as national and international propaganda, the evolution of television and campaign advertising, news analysis, television and political information, government regulation and First Amendment controversies.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D8, IGETC Area 4H, CSU Transferable, UC Transferable

POLS 121 International Politics (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Introduction to the field of international politics. Discussion of the history of international politics, including the emergence of nation-states, international organization, and nongovernmental organizations. Use of various international relations theories to analyze war and conflict, diplomacy and cooperation, and foreign policy making.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D8, IGETC Area 4H, CSU Transferable, UC Transferable

UC Transfer Limit: POLS 121 and 121H combined: maximum credit, one course.

C-ID: POLS 140.

POLS 121H International Politics, Honors (4 Units)

Limitations on Enrollment: Admission to Honors Program.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Introduction to the field of international politics. Discussion of the history of international politics, including the emergence of nation-states, international organizations and nongovernmental organizations. Use of various international relations theories to analyze war and conflict, diplomacy and cooperation, and foreign policy making.

Transfer Information: CSUGE Area D, IGETC Area 4, CSU Transferable, UC Transferable

UC Transfer Limit: POLS 121 and 121H combined: maximum credit, one course.

C-ID: POLS 140.

POLS 122 International Organizations: Global and Regional Governance (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Focuses on the history and current actions of international organizations, such as the UN and the EU, and their diverse member states. Discussion of a variety of international problems, such as effective governance, war, economic development, environmental problems and human rights. Students participate in an in-class simulation activity.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D8, IGETC Area 4H, CSU Transferable, UC Transferable

POLS 131 Comparative Politics (3 Units)

Course Advisories: POLS 101 or POLS 121.

Hours: 54 (54 lecture)

Comparative analysis of different kinds of political systems, including their history, political institutions, processes and policies; the environments in which they occur; and their consequences. Comparisons will be made between autocratic and democratic political systems and the political institutions of selected countries, such as Russia, China, Iran, Britain, France and Germany.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D8, IGETC Area 4H, CSU Transferable, UC Transferable

C-ID: POLS 130.

POLS 132 Political Thinking (3 Units)

Course Advisories: POLS 101.

Hours: 54 (54 lecture)

Exploration of fundamental issues in political theory as interpreted by such thinkers as Plato, Aristotle, Hobbes, Locke, Burke, Rousseau, Marx and others.

Transfer Information: CSUGE Area C2, CSUGE Area D8, IGETC Area 3B, IGETC Area 4H, CSU Transferable, UC Transferable

C-ID: POLS 120.

POLS 134H Political Violence, Honors (4 Units)

Limitations on Enrollment: Admission to Honors Program.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Interdisciplinary study of origin, causes, dimensions and kinds of political violence, from regicide to terrorism, from revolution to war. Emphasis on theoretical and historical studies of political violence.

SBCC General Education: SBCCGE Area B, SBCCGE Area E5

Transfer Information: CSUGE Area D8, IGETC Area 4H, CSU Transferable, UC Transferable

POLS 136 Middle East Government And Politics (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Introduction to the comparative study of the governments and politics of Middle Eastern states. Emphasis on the study of the relationships between political development, political organization and social structure and such concepts as tradition, modernity, autocracy, democracy and political transition.

SBCC General Education: SBCCGE Area B, SBCCGE Area E5

Transfer Information: CSUGE Area D8, IGETC Area 4H, CSU Transferable, UC Transferable

POLS 151 Law And Society (3 Units)

Hours: 54 (54 lecture)

Study of the American judicial system as a political institution. Courts, judges, lawyers and police will be examined. Emphasis placed on issues involving the criminal justice system.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D8, IGETC Area 4H, CSU Transferable, UC Transferable

UC Transfer Limit: POLS 151 and 151H combined: maximum credit, one course.

POLS 295 Internship In Political Science (2-4 Units)

Limitations on Enrollment: Completion of two courses in Political Science at SBCC prior to enrolling in an internship course.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 216 (216 lab)

Internship program in which students gain experience in community organizations related to the discipline.

Transfer Information: CSU Transferable

POLS 299 Independent Study In Political Science (1-4 Units)

Limitations on Enrollment: Completion of a minimum of 12 units at SBCC, with a 2.5 GPA, and a minimum of six units, with a 3.0 GPA within the department.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 192 (192 lab)

Independent study course that provides an opportunity for students to explore a specific Political Science topic in depth, while working closely with their Professor.

Transfer Information: CSU Transferable

Professional Development (PRO)

Credit Courses

PRO 138D Personal Planning (3 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 54 (54 lecture)

Learning to evaluate a career. How to identify opportunities and evaluate skills, interests and identify needed training for chosen career path.

PRO 290 Professional Development Studies Work Experience (1-4 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 300 (300 lab)

Consists of supervised employment for students whose career objectives, course of study and employment complement each other.

Students must accomplish specific course objectives. Course restricted to 3 repetitions

PRO 292 Service Learning Experience (0.5-4 Units)

Skills Advisories: Eligibility for ENG 98 and ENG 103.

Hours: 240 (240 lab)

Consists of community-based volunteer experience, plus two scheduled office hours and other conference hours. Supervised volunteerism of students with the goal of experiential learning, improved self-esteem and career awareness acquired in community and public service settings. Volunteer positions need not be related to students' educational goals or college major. Students follow agencies' policies, rules and regulations; write learning objectives; keep a record of time worked; complete a student data sheet; and secure agency supervisor's evaluation at the end of the semester.

Psychology (PSY)

Credit Courses

PSY 100 General Psychology (3 Units)

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Psychology is the scientific study of behavior and mental processes.

This survey course serves as a foundation for further studies in psychology. Theories and research pertaining to the biological basis of behavior, human development, perception, emotions, learning, cognition, consciousness, intelligence, motivation, personality, social influences on behavior, mental disorders and psychotherapy are covered.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, CSUGE Area E, IGETC Area 4I, CSU Transferable, UC Transferable

UC Transfer Limit: PSY 100, 100H and 120 combined: maximum credit, one course.

C-ID: PSY 110.

PSY 100H General Psychology, Honors (4 Units)

Limitations on Enrollment: Acceptance into the Honors Program.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and Math 104 or Math 107 or Math 111 or qualifying score on SBCC placement exam.

Hours: 72 (72 lecture)

Survey of psychology as a science. Principles of behavior, maturation, emotions, intelligence, learning, thinking, motivation and personality are some of the many topics covered. This Honors class emphasizes the development of creative application and critical analyses of these behavioral principles.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, CSUGE Area E, IGETC Area 4I, CSU Transferable, UC Transferable

UC Transfer Limit: PSY 100, 100H and 120 combined: maximum credit, one course.

C-ID: PSY 110.

PSY 105 Applied Behavior Analysis (2 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 36 (36 lecture)

Basic concepts of behavior analysis, and application of these principles to various life domains (increasing physical activity, athletic performance, coaching, education, substance-dependence, psychotherapeutic treatment). Single-subject research methods, and social, ethical and professional issues relevant to applied behavior analysis.

Transfer Information: CSU Transferable

PSY 106 Positive Psychology (3 Units)

Prerequisites: PSY 100 or 100H.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Scientific study of psychological strengths and optimal functioning including (1) positive subjective states, such as happiness, satisfaction, love and contentment; (2) positive individual traits, such as courage, honesty, kindness and wisdom; and (3) positive institutions, such as healthy families, work environments and communities.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, CSU Transferable, UC Transferable

PSY 110 Introduction to Physiological Psychology (3 Units)

Prerequisites: PSY 100 or PSY 100H.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Elementary physiology of the nervous system. Physiological mechanisms underlying sensation, perception, emotion, arousal, motivation, learning, and cortical specialization. Function of the endocrine system. Intended primarily for psychology majors as part of the lower-division pre-major pattern. Also useful for students in allied health fields.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

C-ID: PSY 150.

PSY 112 Introduction to Cognitive Psychology (3 Units)

Course Advisories: PSY 100 or PSY 100H.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

An introduction to the general concepts and experimental approaches in the study of cognitive psychology. Topics include mental processes such as pattern recognition, perception, memory, thinking, problem solving and comprehension of language. Also included is an overview of experimental procedures used to study human sensation, perception and cognition.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D, CSUGE Area E, IGETC Area 4, CSU Transferable, UC Transferable

PSY 115 Psychology Of Health And Effective Behavior (3 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Issues in personal and social adjustment to prepare students for a life-long understanding of themselves as integrated persons. Study of personality, personal development, psychological and physical aspects of stress and health, abnormal behavior, coping skills, therapy, interpersonal communication, intimacy, family relationships, gender issues, and effective functioning at work and as a parent.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, CSUGE Area E, IGETC Area 4I, CSU Transferable, UC Transferable

PSY 120 Introduction To Psychology (3 Units)

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Introduces students to the general field of psychology. Examines basic principles of human behavior and how they may be applied effectively in daily living situations.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, IGETC Area 4I, CSU Transferable, UC Transferable

UC Transfer Limit: PSY 100, 100H and 120 combined: maximum credit, one course.

PSY 125 Psychology Of Human Sexuality (4 Units)

Course Advisories: PSY 100 or PSY 100H.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 72 (72 lecture)

Focuses on major aspects of human sexuality: psychological perspectives, research findings, human sexual response cycles, gender differentiation, sexuality through the life span, and diversity in human sexuality. Includes communication and relationship dynamics; love, romance and dating patterns; birth control, pregnancy and parenthood; sexual dysfunction and treatment; and the issues of sexual abuse and harassment.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, CSUGE Area E, IGETC Area 4I, CSU Transferable, UC Transferable

UC Transfer Limit: PSY 125 and HE 111 combined; maximum credit, one course.

C-ID: PSY 130

PSY 130 Personality Dynamics And Effective Behavior (3 Units)

Course Advisories: PSY 100 or PSY 100H.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

Personality theory, assessment and development, interpersonal communications, abnormal behavior, mental hygiene and psychotherapy. Study of psychological systems. Intended for either Psychology majors or as a useful elective for vocations dealing with people. Also includes mental health principles for personal growth.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, CSUGE Area E, IGETC Area 4I, CSU Transferable, UC Transferable

PSY 135 Psychology of Film (3 Units)

Corequisites: PSY 100 or PSY 100H.

Skills Advisories: Eligibility for English 110 or English 110H.

Hours: 54 (54 lecture)

Introduction to human psychological behavior, as portrayed through the medium of film. Students view and analyze films and discuss how filmmakers achieve psychological reactions in their audience members. Topics include human personality and development of individual differences; motivation; learning; memory; sensation and perception; physical, emotional and social development; abnormal behavior; aggression; and interpersonal relationships.

SBCC General Education: SBCCGE Area B, SBCCGE Area C

Transfer Information: CSUGE Area C2, CSUGE Area D7, CSUGE Area D9, IGETC Area 4G, IGETC Area 4I, CSU Transferable, UC Transferable

PSY 140 Child Development (3 Units)

Skills Advisories: Eligibility for ENG 98.

Hours: 54 (54 lecture)

History and philosophy of care and development of the child, from conception through adolescence, with emphasis on the preschool and elementary school-age child. Studies include children's developmental characteristics, records of children's growth, individual differences, personality development, and signs of physical or emotional disturbance. Emphasis placed on normal healthy development. Includes child observation and reports.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, CSUGE Area E, IGETC Area 4I, CSU Transferable, UC Transferable

PSY 145 Human Development (3 Units)

Course Advisories: PSY 100 or 100H or PSY 120.

Skills Advisories: Eligibility for ENG 110 or 110H.

Hours: 54 (54 lecture)

This course provides an overview, from a psychological perspective, of human physical, cognitive, and social development, as well as developmental problems, and the biological and environmental influences on development, from conception through death. The course examines the theories, research findings, and methodological approaches to human development through the life span.

C-ID: PSY 180.

PSY 150 Statistics for the Behavioral Sciences (4 Units)

Prerequisites: MATH 107 or Equivalent through placement by the Assessment Center using multiple measures.

Course Advisories: PSY 100 or PSY 100H.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 72 (72 lecture)

Principles and procedures of measurement, data analysis, probability, sampling theory and statistical significance. Covers basic descriptive statistics, including measures of linear relationships and standard scores. Covers the logic of hypothesis testing and inferential statistics up to analysis of variance, including a conceptual introduction to factorial designs. Students conduct analyses by hand and computer software.

SBCC General Education: SBCCGE Area D2, SBCCGE Area E1

Transfer Information: CSUGE Area B4, IGETC Area 2A, CSU Transferable, UC Transferable

UC Transfer Limit: MATH 117, PSY 150 and SOC 125 combined: maximum credit, one course.

C-ID: MATH 110, SOCI 125.

PSY 170 Abnormal Psychology (3 Units)

Prerequisites: PSY 100 or PSY 100H.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

Introduction to assessment, diagnosis, treatment, research and prevention of mental disorders. Covers the major DSM disorders, including the phenomenology, etiology and treatment of anxiety, affective, dissociative, somatoform, psychophysiological, schizophrenic, sexual dysfunctions, paraphilias and gender identity disorder; substance-related; impulse-control; developmental, cognitive and personality disorders. Theories, therapies, research, legal and social issues are addressed.

PSY 200 Research Methods and Experimental Design in Psychology (4 Units)

Prerequisites: PSY 100 or PSY 100H and PSY 150 or MATH 117 or MATH 117H.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 108 (54 lecture, 54 lab)

The logic of and empirical procedures used in psychological research, with emphasis on experimental, quasi-experimental, and correlational research methods. Covers ethical principles used to guide research.

Includes practical applications of descriptive and inferential statistics. Students will analyze research studies, participate in designing and conducting a research project, and write an APA research report.

SBCC General Education: SBCCGE Area B

Transfer Information: CSUGE Area D9, IGETC Area 4I, CSU Transferable, UC Transferable

C-ID: PSY 205B and POLS 160.

PSY 210 Introduction to Psychopharmacology (3 Units)

Course Advisories: PSY 100H or PSY 100, ENG 110 or ENG 110H.

Hours: 54 (54 lecture)

An introduction to clinical and nonclinical use of psychoactive drugs. Students gain an understanding of the effects of both therapeutic and recreational drugs on brain chemistry, and their role in modifying behavior and mental processes. Includes historical perspectives on drug use, drug development stages, and pharmacokinetics and pharmacodynamics of psychoactive drugs.

PSY 295 Internship In Psychology (2-4 Units)

Limitations on Enrollment: Completion of two courses in Psychology at SBCC prior to enrolling in course.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 277 (4 lecture, 273 lab)

Five-20 lab hours per week (plus weekly meeting with instructor).

Students gain work experience in clinical/community outreach programs and/or research laboratories.

Transfer Information: CSU Transferable

PSY 299 Independent Study In Psychology (1-4 Units)

Limitations on Enrollment: Six units of Psychology with a 3.0 or above GPA; minimum 12 units of course work completed at SBCC, with a GPA of at least 2.5.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 192 (192 lab)

Student works under guidance and direction of sponsoring faculty member on project consistent with interests and abilities. Minimal weekly meetings required. May be taken for one to four (4) units of credit. For complete information, see 'Independent Study' in the Catalog Index.

Radiologic and Imaging Sciences (RT)

Credit Courses

RT 100 Radiography and Health Care (2 Units)

Hours: 36 (36 lecture)

Introduction, overview and orientation for those interested in exploring radiographic imaging or other health care careers. Completion of this course and departmental prerequisites satisfy the requirements for entry into the Radiography Associate Degree Program.

Transfer Information: CSU Transferable

RT 101 Introduction To Radiography (2.33 Units)

Prerequisites: RT 100 and BMS 107 and BMS 108.

Skills Advisories: Eligibility for ENG 110 or ENG 110H.

Hours: 54 (36 lecture, 18 lab)

Proficiency in MATH 104 or MATH 107 or MATH 111. Orientation to Radiography, providing students with entry-level information and skills to begin practice in an X-ray department. Topics include ethics, introduction to fluoroscopy, lab practice, basic radiation protection and patient care.

Transfer Information: CSU Transferable

RT 102 Fundamentals of Radiographic Positioning and Procedures I (4 Units)

Prerequisites: RT 101 and HIT 136.

Hours: 108 (54 lecture, 54 lab)

Precise and detailed information on routine radiographic procedures of the chest, abdomen and appendicular skeleton. Portable and traumatic exams also included.

Transfer Information: CSU Transferable

RT 103 Fundamentals Of Radiographic Positioning And Procedures II (4 Units)

Prerequisites: RT 102.

Hours: 108 (54 lecture, 54 lab)

Basic principles of positioning for the axial skeleton to include vertebral column, skull, facial bones contrast procedures for the gastrointestinal and genito-urinal tract.

Transfer Information: CSU Transferable

RT 109 Principles of Radiographic Exposure (3 Units)

Prerequisites: RT 101.

Hours: 54 (54 lecture)

Provides first-year radiography students with the basic principles of image production, exposure techniques, photographic and geometric factors, computed and direct digital radiography and radiation protection.

Transfer Information: CSU Transferable

RT 111 Advanced Principles of Exposure (3 Units)

Prerequisites: RT 109.

Hours: 54 (54 lecture)

Principles of x-ray exposure are examined on image production in computed radiography, digital image systems, analog and digital fluoroscopic systems.

Transfer Information: CSU Transferable

RT 119 Radiological Technology (3 Units)

Prerequisites: RT 109 and RT 102.

Skills Advisories: Eligibility for ENG 110 or ENG 110H and proficiency in MATH 4 or MATH 41.

Hours: 54 (54 lecture)

Designed specifically for radiation physics. The primary focus is on the fundamental concepts of energy and measurement, atomic structure, molecules, electricity, magnetism, electromagnetism, x-ray tubes, production, emission and interactions.

Transfer Information: CSU Transferable

RT 120 Patient Care in Radiography (3 Units)

Prerequisites: BMS 107 and BMS 108.

Hours: 54 (54 lecture)

Provides the student with the concepts of patient care. Routine and emergency patient care procedures are described. Also included are topics on venipuncture and contrast media/medication administration. The role of the imaging professional in practicing patient care is explored. Aspects of death and dying reviewed.

Transfer Information: CSU Transferable

RT 121 Venipuncture In Radiography (0.6 Units)

Limitations on Enrollment: Must be a Licensed Radiographer.

Hours: 11 (11 lecture)

Provides the student with concepts of venipuncture and contrast media/medication administration. The role of the radiographer in administration of contrast media, legal aspects of contrast media injection, anatomy and physiology related to I.V. injections are identified.

Transfer Information: CSU Transferable

RT 191 Radiographic Technology Clinical Practicum I (5 Units)

Prerequisites: RT 101.

Corequisites: RT 102.

Hours: 306 (306 lab)

Concurrent Introduction to clinical settings and exposure to departmental organization, patient flow, CR/DR and PACs, observation of techniques employed, and policies and procedures of clinical cases. The student performs basic radiographic procedures under direct supervision.

Transfer Information: CSU Transferable

RT 191A Radiographic Technology Clinical Practicum 1A (2.1 Units)

Prerequisites: RT 191 and RT 109.

Hours: 112 (112 lab)

Designed to give each advanced student the opportunity to improve on clinical skills, as well as accumulate the clinical hours required by the California Department of Health.

Transfer Information: CSU Transferable

RT 192 Radiographic Technology Clinical Practicum 2 (5 Units)

Prerequisites: RT 191.

Hours: 306 (306 lab)

Second in a series of clinical education courses. Student is assigned 17 hours per week at a clinical education center. During this supervised experience, the student observes and performs diagnostic radiographic procedures. The student must demonstrate competency in recently taught radiographic exam, as well as in the exams previously evaluated.

Transfer Information: CSU Transferable

RT 202 Advanced Radiographic Procedures (3 Units)

Prerequisites: RT 250.

Hours: 54 (54 lecture)

Provides the advanced radiography student with a survey of advanced imaging and an introduction to special invasive procedures in radiation sciences.

Transfer Information: CSU Transferable

RT 203 Radiology Certification Preparation (4 Units)

Hours: 72 (72 lecture)

Review of those subjects deemed critical for the ARRT examination. Consists of lectures, both by the instructor and guest, simulated registry examinations and a computer-assisted learning program.

RT 220 Radiation Biology Protection (3 Units)

Prerequisites: RT 103 and RT 111.

Hours: 54 (54 lecture)

Radiation protection for operator and patients complying with the State of California Administrative Code, Title 17. Biological effects, dose-effect relationships and long-term somatic and genetic effects of radiation exposure are discussed, in addition to fluoroscopic radiation safety regulations. Approved by the California Department of Public Health (CDPH) and prepares students for the California State Fluoroscopy Examination.

Transfer Information: CSU Transferable

RT 230 Radiographic Pathology (3 Units)

Prerequisites: RT 103.

Hours: 54 (54 lecture)

Introduction to more advanced pathological conditions for second-year students. Differentiates normal radiographic anatomy from pathologic conditions. Encompasses both the anatomy and physiology of each pathologic condition. Students expected to identify, evaluate and present common pathologic conditions throughout the course.

Transfer Information: CSU Transferable

RT 250 Principles and Applications of Cross-Sectional Anatomy in Imaging (2 Units)

Prerequisites: BMS 107 and BMS 108.

Hours: 36 (36 lecture)

Provides an understanding of cross-sectional anatomy and knowledge of the relationships of human organs to each other as they appear in the sagittal, coronal and axial plane. The practical applications of cross-sectional with C.T., M.R.I. and ultrasound are emphasized.

Transfer Information: CSU Transferable

RT 251 Principles of Mammography and Procedures (2 Units)

Prerequisites: RT 119 and BMS 107 and BMS 108.

Hours: 36 (36 lecture)

Prepares the radiographer for state and national certification in mammography. Content covers the anatomy and physiology of the breast, positioning, radiation biology and protection, and QA and QC regulations for mammography equipment.

Transfer Information: CSU Transferable

RT 290 Work Experience in Radiography (1-4 Units)

Limitations on Enrollment: Enrollment in a Radiology course, or current California Radiologic Technology license and at least one year's experience as a licensed Radiologic Technologist in a medical establishment within the preceding three years.

Hours: 300 (300 lab)

Consists of supervised on-the-job work experience for students whose radiology career objectives and course of study or employment complement each other. Students must accomplish specific course objectives. Class meetings are scheduled each semester. Course restricted to 3 repetitions

Transfer Information: CSU Transferable

RT 293 Radiographic Technology Clinical Practicum 3 (7 Units)

Prerequisites: RT 192.

Hours: 376 (376 lab)

Third in a series of clinical experiences requiring 40 hours per week for nine weeks in the clinical setting. This rotation allows the student opportunity to enhance basic skills, positioning techniques, patient care and understanding of clinical operations. The student must demonstrate continued competency in those exams previously mastered and additional competencies throughout the semester.

Transfer Information: CSU Transferable

RT 294 Radiographic Technology Clinical Practicum 4 (8 Units)

Prerequisites: RT 293.

Hours: 432 (432 lab)

Fourth in a series of clinical education courses to increase technical and clinical proficiency in routine and advanced X-ray procedures under supervision of the clinical coordinator/clinical instructor and departmental radiographers. The student must demonstrate competency of recently taught radiographic exams, plus continued competency of exams previously evaluated.

Transfer Information: CSU Transferable

RT 295 Radiographic Technology Clinical Practicum 5 (8.6 Units)

Prerequisites: RT 294.

Hours: 464 (464 lab)

Fifth in a series of clinical education courses to increase technical and clinical proficiency in routine and advanced X-ray procedures under supervision of the clinical coordinator/clinical instructor and departmental radiographers. The student must demonstrate competency of recently taught radiographic exams, plus continued competency of exams previously evaluated.

Transfer Information: CSU Transferable

RT 299 Independent Study In Radiography (1-4 Units)

Limitations on Enrollment: Completion of a minimum of 12 units at SBCC, with a 2.5 G.P.A., and a minimum of 6 units, with a 3.0 G.P.A. within the department One to three hours of work/conference time per week to be coordinated with number of enrolled units.

Course Advisories: RT 103.

Hours: 216 (216 lab)

Independent research in radiography under the guidance of a sponsoring faculty member. The project to be consistent with the ability and interest of the student and may be conducted in the laboratory and/or the field. Each unit of credit is equal to three hours of work. NOTE: Continuation in the clinical area on a full-time basis will take place after graduation. This is done in order to complete the 24-month program requirement and will terminate upon the student's anniversary date.

Tutoring (TUT)

Credit Courses

TUTW NC199 Tutor Training Across the Disciplines (0 Units)

Hours: 8 (8 lecture)

An introduction to the basic principles of tutorial theory and practice, designed for students who are seeking to be tutors in the various tutoring programs at SBCC. Covers tutoring ethics and philosophy, and applying learning-centered theory to the practice of tutoring. Students learn about the cycle of tutoring, the basics of tutoring communication and strategies of tutoring students. Designed to prepare students to be peer tutors with students at all educational levels and disciplines; individually, in groups and online. Requires faculty recommendation of tutors who typically have been students in their classes. Tutors receive instruction in learning theories, communication skills, problem-solving strategies, teaching strategies, student services (to make appropriate referrals), campus policies, etc. Course restricted to 98 repetitions

Vocational Nursing (VN)

Credit Courses

VN 131 Foundation For Nursing Practice (5 Units)

Prerequisites: CNA 101 and HE 201.

Hours: 90 (90 lecture)

Fundamental principles of nursing and concepts related to care.

Nursing process presented as a problem-solving method that provides a framework for delivery of health care.

VN 132 Principles of Nutrition and Care of Patient with Gastrointestinal Problems (3 Units)

Prerequisites: BMS 100 or BMS 107 and BMS 108.

Hours: 54 (54 lecture)

Principles of nutrition and the relationship of nutrition to health.

Focuses on the individual's nursing care needs in the areas of functional, physiological, social and psychological integrity, and environmental influences as they relate to the gastrointestinal system.

VN 133 Foundation for Nursing Practice Lab (5.5 Units)

Limitations on Enrollment: CPR and must pass physical examination.

Hours: 297 (297 lab)

If not a current CNA, must pass background check per facility policy.

Introductory laboratory and clinical course on basic fundamentals of nursing practice applied to adult and elderly patients requiring medical/surgical nursing care. The nursing process is the problem-solving method utilized for care planning and implementation in the clinical setting.

VN 134 Principles Of Administration Of Therapeutic Agents (2 Units)

Corequisites: VN 131 and VN 133.

Hours: 36 (36 lecture)

Introduces the principles of medication administration. Basic techniques and computations used in the administration of medications, including nursing considerations that pertain to the safe administration of medication. Completion of this course prepares the Vocational Nursing student to safely administer medications to patients, under the supervision of the nursing instructor.

VN 135 Understanding Pharmacology (2 Units)

Corequisites: VN 137.

Hours: 36 (36 lecture)

Study of the drugs most frequently prescribed for the hospitalized patient, with emphasis on nursing considerations that pertain to the administration of these drugs.

VN 136 Nursing Care of Patients with Genitourinary, Integumentary and Endocrine Disorders (3.5 Units)

Prerequisites: VN 133.

Corequisites: VN 137.

Hours: 63 (63 lecture)

Focuses on the individual's nursing care needs in areas of functional, physiological, social and psychological integrity and environmental influences, as they relate to the genitourinary, endocrine and integumentary systems. The nursing process is utilized to apply theoretical concepts to patient care.

VN 137 Basic Medical-Surgical Nursing Lab (4.6 Units)

Limitations on Enrollment: Health and Safety regulations.

Hours: 248 (248 lab)

Must have a valid CPR card, must pass physical examination. If not a current CNA, must pass the background check required by the clinical facilities in their SBCC contracts. Clinical laboratory course builds on the basics of the first semester as students perform more advanced skills while providing nursing care to adult and elderly patients in a variety of health care facilities.

VN 138 Nursing Process Applied to Childbearing Family (1.5 Unit)

Hours: 27 (27 lecture)

Maternal, newborn and family nursing care needs in areas of functional, physiological, social and psychological integrity, and environmental influences, as they relate to human reproduction. The nursing process is utilized to apply theoretical concepts to patient care.

VN 139 Nursing Process Applied To Care Of Children (2 Units)

Corequisites: VN 140.

Hours: 36 (36 lecture)

Normal growth and development patterns of the growing child and family in health and illness. Nursing needs in areas of functional, physiological, social and psychological integrity, and environmental influences. The nursing process is utilized to apply theoretical concepts to patient care.

VN 140 Maternal and Child Nursing Lab (1.9 Unit)

Corequisites: VN 138.

Limitations on Enrollment: Health and Safety regulations.

Hours: 103 (103 lab)

Students must have a valid CPR card, must pass physical examination. If not a current CNA, must pass the background check required by the clinical facilities in their SBCC contracts. Provides an opportunity for students to apply theory concepts related to the childbearing family and the growing child to clinical laboratory experiences. The nursing process is the problem-solving method utilized for care planning and implementation in the clinical setting.

VN 141 Cardiovascular and Respiratory Problems (3.5 Units)

Prerequisites: VN 137.

Corequisites: VN 145.

Hours: 63 (63 lecture)

Focuses on the individual's nursing care needs in areas of functional, physiological, social and psychological integrity and environmental influences, as they relate to the cardiovascular and respiratory systems. The nursing process is utilized to apply theoretical concepts to patient care.

VN 142 Perception And Mobility Problems (4 Units)

Prerequisites: VN 137.

Corequisites: VN 145.

Hours: 72 (72 lecture)

Focuses on the individual's nursing care needs in areas of functional, physiological, social and psychological integrity, as well as environmental influences as they relate to perception, coordination and mobility. The nursing process is utilized to apply theoretical concepts to patient care.

VN 144 Preparation For Vocational Nursing Practice (1.5 Unit)

Prerequisites: VN 137.

Corequisites: VN 145.

Hours: 30 (30 lecture)

Introduction to the principles of leadership and supervision as they apply to the vocational nurse. Focuses on the role of the vocational nurse as a member of the healthcare team, and supervisor of other vocational nurses and unlicensed health caregivers.

VN 145 Integrated Medical-Surgical Nursing Lab (5.75 Units)

Prerequisites: VN 141 and VN 142 and VN 144 and VN 146.

Limitations on Enrollment: Health and Safety regulations.

Hours: 310.5 (310.5 lab)

Students must have a valid CPR card, must pass physical examination. If not a current CNA, must pass the background check required by the clinical facilities in their SBCC contracts. Clinical laboratory course builds on experiences of the second semester as students develop leadership skills and provide nursing care to adult and elderly patients in a variety of settings. The nursing process is the problem-solving method utilized for care planning, implementation and leadership activities in the clinical setting.

VN 146 Introduction to Mental Health Nursing (1 Unit)

Prerequisites: VN 137.

Corequisites: VN 145.

Hours: 18 (18 lecture)

Designed to foster understanding and critical thinking in relation to legal, ethical, and professional aspects of psychiatric-mental health care. Nursing approaches to the assessment and collaborative management of people with mental health disorders are outlined. Introduction to evidence-based psychological and psychosocial interventions used in the management of mental illness.

VN 150 Principles and Techniques of Intravenous Therapy (1.5 Unit)

Hours: 33 (27 lecture, 6 lab)

LVN participants receive state-recognized certificates in IV Therapy.

Includes rationale and legal aspects for intravenous therapy; relevant anatomy and physiology; principles and techniques for intravenous, blood or blood component infusions; and the care and monitoring of the patient undergoing intravenous therapy.

Water Science (WTRS)

Credit Courses

WTRS 100 Basic Wastewater Treatment (3 Units)

Hours: 54 (54 lecture)

Study of the fundamentals of wastewater treatment, covering public health, water quality control, operation and maintenance of treatment facilities. Treatment processes include sedimentation, biofiltration, activated sludge, sludge digestion and chlorination.

WTRS 101 Water Distribution Systems (3 Units)

Hours: 54 (54 lecture)

Designed for operators of water distribution systems. Covered are types of reservoirs, pipeline materials, pumps and appurtenances. The construction, installation and repair of water distribution facilities are discussed, as well as the administrative requirements in the operation of systems.

WTRS 102 Water Systems Instrumentation And Controls (3 Units)

Hours: 54 (54 lecture)

Introduction to the principles and operation of instrumentation and control devices used in water and wastewater systems. Includes the measurement of both open and closed channel flow, differential pressure measurement, level transmitters, recording devices, data acquisition and telemetry transmission. Basic concepts of electrical theory are examined, as well as their application to electrical control circuits and SCADA systems.

WTRS 103 Pumps And Motors; Operation And Maintenance (3 Units)

Hours: 54 (54 lecture)

Overview of pumps and motors used in the transmission of water. Emphasis is on the operation and maintenance of pumps, motors and their controls. Provides the maintenance technician with insights into the reasons for selection, as well as causes of failures and breakdowns. Application of hydraulics and pump curves are used for the selection and performance evaluation of pumps.

WTRS 104 Advanced Water Treatment (3 Units)

Course Advisories: WTRS 100.

Hours: 54 (54 lecture)

Second-level of water treatment courses. Designed to augment and advance the topics addressed in Water Science 110, Basic Water Treatment. The topics covered are advanced water quality control during treatment, treatment plant operation and maintenance, regulations for water quality control, sludge handling, and water reclamation.

WTRS 105 Water Science Chemistry And Bacteriology (3 Units)

Course Advisories: WTRS 100 or WTRS 110.

Hours: 54 (54 lecture)

Review of the fundamentals of chemistry and bacteriology as applied to the treatment processes of water and wastewater. The emphasis is on understanding why certain reactions take place and the analytical techniques used in measuring water quality parameters. Includes demonstrations of laboratory procedures for physical, chemical and bacteriological examination of water.

WTRS 106 Groundwater Production And Protection (3 Units)

Hours: 54 (54 lecture)

Study intended for operators of groundwater production and treatment facilities. Subjects include construction of wells, operation and maintenance of production wells, cost accounting methods and protection of groundwater resources. Also a review of the applicable state and federal regulations governing groundwater development and protection.

WTRS 110 Basic Water Treatment (3 Units)

Hours: 54 (54 lecture)

Basic fundamental study of the aspects of operating a water supply system, treatment processing, microbiological control and chemical handling. Course can be used to qualify for state certification for Grades I, II and III Water Treatment Plant Operator's Certificate.

WTRS 111 Wastewater Collection (3 Units)

Hours: 54 (54 lecture)

Designed for wastewater collection systems maintenance personnel. Included are sewer construction, cleaning methods, safety, elementary hydraulics, pipeline and manhole repair, equipment maintenance, public relations, communications and record-keeping.

WTRS 112 Water Quality Protection And Cross Connection Control (3 Units)

Hours: 54 (54 lecture)

Introduction to water quality protection by cross connection control. Required for preparation to become a Certified Backflow Prevention Device Tester. A review of the Uniform Plumbing Code and hydraulic principles as applied to the protection of public water supplies from contamination by plumbing connections in private systems.

WTRS 113 Water And Wastewater Hydraulics (3 Units)

Course Advisories: WTRS 100 or WTRS 110.

Hours: 54 (54 lecture)

Study of hydraulic principles as applied to the operation of water supply and wastewater systems. Topics include open channel flow, closed channel flow, pressure, force, flow measurement, pumping, head loss and treatment plant hydraulics.

WTRS 114 Advanced Wastewater Treatment (3 Units)

Prerequisites: WTRS 110.

Hours: 54 (54 lecture)

Study of the advanced techniques of operating a wastewater treatment plant, including process applications, regulatory compliance, environmental issues, costs and multistep problem-solving.

WTRS 116 Water And Wastewater Management/Supervision (3 Units)

Hours: 54 (54 lecture)

Study of supervisory and management skills necessary for the water professional to ensure that regulatory, health, safety and financial standards are met. Covered are planning, work methods, organization, personnel selection, training, discipline, motivation, leadership, safety, labor relations, public relations, politics and the ever-changing work environment.

WTRS 117 Water and Wastewater Calculations (3 Units)

Hours: 54 (54 lecture)

Problem-solving as applied to primary, secondary and tertiary water treatment operations.

Work Experience (WEXP)

Credit Courses

WEXP 290 General Work Experience (1-3 Units)

Hours: 225 (225 lab)

Combines academic study and practical work experience to develop students' marketable skills and prepare them for a successful career. Students pursue a planned program which includes new or expanded responsibilities or learning opportunities beyond those experienced during previous employment. Student jobs need not be related to their educational goals. Course restricted to 3 repetitions
Transfer Information: CSU Transferable

WEXP 290A General Work Experience: Career Planning Skills (1-3 Units)

Hours: 225 (225 lab)

Provides students with opportunities to develop marketable skills in preparation for employment or advancement within a career. Designed for students interested in exploring various career and education options and developing career and education planning skill. Appropriate level learning objectives are established by the student and the employer.

Transfer Information: CSU Transferable

WEXP 290B General Work Experience: Career Advancement Skills (1-3 Units)

Hours: 225 (225 lab)

Provides students with opportunities to develop marketable skills in preparation for employment or advancement within a career. It is designed for students interested in improving their resumé writing, interviewing and job search skills. Appropriate level learning objectives are established by the student and the employer.

Transfer Information: CSU Transferable

WEXP 290C General Work Experience: Workplace Success Skills (1-3 Units)

Hours: 225 (225 lab)

Provides students with opportunities to develop marketable skills in preparation for employment or advancement within a career. It is designed for students interested in improving their workplace success skills. Appropriate level learning objectives are established by the student and the employer.

Transfer Information: CSU Transferable

Zoology (ZOOL)

Credit Courses

ZOOL 110 Animal Physiology (3 Units)

Hours: 54 (54 lecture)

How animals work. Animal physiological systems, perception of and responses to external stimuli, integration of activities, maintenance of the internal environment, locomotion and reproduction.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

ZOOL 122 Animal Diversity (3 Units)

Hours: 54 (54 lecture)

Introduction to zoology, including animal diversity, anatomy and physiology, adaptations and evolution. Principles of ecology are also covered.

SBCC General Education: SBCCGE Area A Lecture

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

ZOOL 123 Animal Diversity Laboratory (1 Unit)

Corequisites: ZOOL 122.

Hours: 54 (54 lab)

Laboratory and field investigations of animals. Covers animal diversity, anatomy and physiology, and principles of ecology and evolution.

SBCC General Education: SBCCGE Area A Lab

Transfer Information: CSUGE Area B3, IGETC Area 5C, CSU Transferable, UC Transferable

ZOOL 124 Insect Biology (3 Units)

Hours: 54 (54 lecture)

Introduction to anatomy, physiology, ecology, behavior and diversity of insects and other terrestrial arthropods.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

ZOOL 137 Ornithology (3 Units)

Hours: 54 (54 lecture)

Systematics, distribution, physiology, behavior and ecology of birds.

Emphasis on diversity, functional morphology and evolutionary history.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable

ZOOL 138 Biology of Birds (1.5 Unit)

Hours: 45 (18 lecture, 27 lab)

Eight-week short course. Anatomy, physiology, evolution and behavior of birds. Field trips are timed to coincide with migratory periods and emphasize identification and classification.

Transfer Information: CSU Transferable

ZOOL 140 Animal Behavior (3 Units)

Hours: 54 (54 lecture)

Introduction to animal behavior. An evolutionary examination of invertebrate and vertebrate behavior, including innate and learned behavior, foraging and self-defense strategies, sexual selection, mating systems and social behavior.

Transfer Information: CSUGE Area B2, IGETC Area 5B, CSU Transferable, UC Transferable
