Specialty programs in Cooperative Education and job-site training allow students to combine classroom studies with on-the-job experiences. The main thrust of career and technical education is to provide the student with entry-level job skills for a smooth and productive transition to the workplace. Although the requirements in the majors are generally fixed, students have a wide range of courses from which to choose in meeting General Education requirements. Counselors should be consulted for variations and assistance with planning programs.

Occupational Work Experience
Some Departments at SBCC offer an Occupational Work Experience course (290) that combines on-the-job training with classroom instruction. This course enables the student to acquire knowledge, skills and attitudes necessary to enter and/or progress in a chosen occupation. Class attendance in a regularly scheduled weekly coordinating class is required by some SBCC departments.

For each semester that a student is enrolled in Occupational Work Experience, it is required that the student provide evidence of new or expanded responsibilities or learning opportunities beyond those experienced during previous employment. Satisfactory completion of specific job-oriented learning objectives is required for determining the student’s progress and improvement of performance on the job. By satisfactorily completing a Work Experience course, a student may earn from 1-4 college units. A maximum of 16 Work Experience units may be applied as electives toward the 60 units required for an Associate in Arts or an Associate in Science Degree. Consult your academic counselor to determine how Work Experience can benefit your specific learning plan. Units are based on the number of hours worked during the semester: 1 unit = 75 paid hours or 60 volunteer hours.

**Career and Technical Education Departments Offering Work Experience**

Occupational Work Experience courses may not be offered each semester. Check the schedule of courses and look for a 290 course if you are interested in taking an Occupational Work Experience course (e.g. EH 290 would be an Environmental Horticulture Work Experience course).

**Job Referral Services**

The Career Center receives numerous job orders from employers in the community and provides referrals for full- and part-time jobs and internships. It also provides a website listing information on all on-campus student jobs and maintains an online job referral system. Every spring the center sponsors an annual Job Fair that invites local employers and allows students to learn about career opportunities and to apply for job openings. Additional information about job referral is available at the Career Center, located in the Student Services Building, Room 282, or by calling (805) 730-4131.
