Academic Counseling

Meeting with an academic counselor each semester is essential to student success. Academic counselors are available to new-to-college students who have completed all their steps to enrollment, new transfer students, continuing and returning students.

The Academic Counseling Center provides a variety of resources to help students achieve the greatest possible benefit from their college experience. Each academic counselor is a specialist in several academic areas, and students should meet with a counselor according to the major they declare or the special program that they are part of (ie. EOPS, Raices, TA, TAP, Umoja). Counselors assist with course selection, educational planning requirements for majors, general education, graduation, or transfer to a four-year college or university. A counselor can answer questions about a course or academic requirements and serve as a valuable resource in helping students select appropriate, balanced course plans to meet degree and certificate requirements as well as lower division transfer requirements for specific transfer institutions. Students are encouraged to meet with a counselor each semester. Academic Counseling Center is located in the Student Services Building.

Academic Counselors are here to:

- Assist students in planning and achieving their academic and career goals.
- Develop individualized Student Educational Plans (SEP).
- Educate students on transfer & SBCC requirements.
- Counsel students on success strategies.
- Conduct Class Planning sessions for new students, classroom presentations and workshops.
- Teach Personal Development/College Success courses.
- Refer students to University Transfer Center (<https://sbcc.edu/transfercenter/>), Career Center (<https://sbcc.edu/careercenter/>), Health & Wellness (<https://sbcc.edu/healthservices/>), DSPS (<https://sbcc.edu/dsps/>), and other Student Resources. (<https://sbcc.edu/studentsservices/>)

Student Educational Plan (SEP)

A first semester SEP is developed in Class Planning for new to college students. A comprehensive SEP should be developed with an academic counselor during the student's first semester at SBCC. An SEP outlines a suggested course of study for the individual student based on major, transfer plans, career goals, previous college coursework and sequence of courses. Students are encouraged to update their plan each semester or when a change is made to their major, transfer institution or other goals.

Transfer Counseling

Academic counselors provide transfer counseling for students regarding, General Education requirements (IGETC and CSU Breadth), preparation

for major courses, general admissions requirements, UC TAG, the UC and CSU systems, as well as California independent and out-of-state colleges and universities.

To assist the student with transfer to four-year institutions, articulation agreements have been established with most California State Universities, University of California campuses and some independent California and out-of-state colleges. These agreements define the courses at Santa Barbara City College that satisfy many lower division major requirements and/or General Education requirements at four-year institutions.

ASSIST (<http://www.assist.org>) is a computerized student transfer articulation information system. It displays reports of how California community college courses can be applied when transferred to California State Universities and University of California campuses. ASSIST is the official repository of articulation for California's public colleges and universities, and therefore provides the most accurate and up-to-date information available about student transfer in California.

Assessment Center
